ACKNOWLEDGEMENTS

The HEAC extends its sincere thanks to the entities listed below for their cooperation with the Admissions Department in preparing the student guide:

Entities

- Directorate General of Scholarships - Ministry of Higher Education, Scientific Research and Innovation.
- Directorate General of Vocational Training - Ministry of Higher Education, Scientific Research and Innovation.
- College of Sharia Sciences - Ministry of Higher Education and Research and Scientific Research and Innovation.
- Sultan Qaboos University.
- University of Technology and Applied Sciences.
- Oman College of Health Sciences.
- Military Technical College.
- Petroleum Development Oman.
- Oman Authority for Academic Accreditation and Quality Assurance of Education.

Dear Grade 12/Year 13 Student,

This Student Guide is designed to assist you to submit your online competitive undergraduate scholarship application to the Higher Education Admissions Center (HEAC) in order to competitively apply for seats for study at Government Higher Education Institutions (HEI) in Oman, internal scholarships for study at private HEIs in Oman, external scholarships for study abroad and/or externally sponsored study grants. You will first need to register as an applicant and obtain an username and password by visiting the HEAC website (heac.gov.om) before the 1st of June 2023. Before you register as a prospective scholarship applicant, we would advise you to first read the content carefully outlined in this handbook, which contains an overview of the online application process and with which you are expected to be familiar. Also included are guidelines on how to select your preferences and an overview of the requirements (standard eligibility criteria) for the scholarships listed for the academic year 2023/24.

The April-June period is the registration phase, which takes place prior to when your final school grades will be announced. The purpose of this phase is to provide you with an opportunity to carefully explore and select different types of scholarships. You may also want to consult others during this period to help you select suitable scholarships and start ranking them in order of personal preference. During the registration phase, you will need to register and obtain a username and password. You are also advised to select as many options as you can by filling out the online application form.

However, don't worry. As long as you are registered as an applicant before June 1 and selected at least 12 or more options, you will be provided with another opportunity to make changes in your list of scholarships, including additions, removals and/or altering your ranking of preferences. This opportunity will be provided to you during the change of preference period in August after the final school grades and, if applicable, important updates are announced. We strongly advise you to go through the timetable in this handbook as you need to be aware of the relevant deadlines for timely submission of your online application.

While every effort has been made to ensure that this book is accurate and up to date, it may include typographical or other errors or updates due to circumstances beyond our control. Any changes made to this publication will be incorporated in separate announcements on the HEAC website so make sure to check back often. The English version of this student guide was put together at courtesy of the HEAC and guest editors. In case of any discrepancies, the Arabic version of this content shall prevail over the English version.

We wish you the best of luck,

Higher Education Admissions Center (HEAC)

Disclaimer: The English version of this student guide is based on the Arabic version and prepared by courtesy of HEAC and guest contributors. In case of any discrepancies, the Arabic version of this content shall prevail over the English version. Please make sure to regularly check the HEAC website, especially during the change of preference period, for any further updates which will be announced separately.

Policies and procedures Registration and acceptance

ABOUT THE HIGHER EDUCATION ADMISSIONS CENTRE (HEAC)

The Higher Education Admissions Center (HEAC) is one of the Directorates of the Ministry of Higher Education, Research and Innovation (MoHERI) in charge of coordinating with the concerned authorities to enroll eligible applicants, who have obtained the General Education Diploma (GED) or other school qualifications, to higher education institutions (HEIs). The HEAC also receives, reviews, and registers all student applications through an electronic system that can be used online and/or with the support of an SMS service and smart phone application (ELTAHIQ).

The HEAC Admissions System: The HEAC's electronic system is designed to receive, review, and register all student applications to higher education programmes, external and internal scholarships and grants for undergraduate level and competitively selects students who meet the admissions or eligibility criteria.

Application form: The online application submitted by the student, including their preferences and is available with the admissions system on the HEAC website and on the final pages of this guide.

Seat: A scholarship that allows you to study at one of the Government HEIs in Oman.

Internal or External Scholarship: Financial aid that enables you to study at either a private HEI in Oman (internal scholarship) or at an approved overseas HEI (external scholarship).

Grant: Financial aid offered by third parties in Oman and/or abroad.

In the following chapters of the student guide you will find information about seats, internal scholarships and internal study grants, external scholarships and external study grants, and you will find more information about the requirements (criteria). The HEAC receives the data regarding seats and grants directly from the Government higher education institutions and grant awarding organisations, while the parts of this guide pertaining to the external and internal undergraduate scholarships (in view of the conditions, courses and criteria) were researched and put together by the concerned scholarships departments, in close cooperation with the concerned HEIs, and these departments are part of the Directorate-General of Scholarships, MoHERI.

PROGRAMMES VS SCHOLARSHIPS: In the English version of this guide, the term 'programme' or 'albarnamuj' is replaced with 'scholarship' to avoid confusion and a scholarship is defined as a type of financial aid for the purpose of pursuing your studies and this can be either a seat at one of the Government institutions, an internal scholarship or grant allocated to one of the private HEIs in the Sultanate, or an external scholarship or grant to study abroad. All of these scholarships (listed by code and categories) cover at least one or more diploma or undergraduate degree courses.

THE ONLINE HEAC ADMISSIONS SYSTEM: WHO CAN APPLY?

The following students are considered eligible to competitively apply for scholarships through the HEAC electronic system:

Omani students who have achieved a General Education Diploma (GED) qualification at a school in the Sultanate and upon completion of the school year 2022/2023.

Omani students who, upon completion of the school year 2022/23, achieved a qualification recognised as equivalent to the Omani GED. This category includes, for example, students of the Royal Oman Guard Technical School, Islamic Institutes, Private Bilingual Schools, Community Schools and Private Schools offering international qualification programmes in the Sultanate of Oman.

Omani students who studied at an overseas school and, upon completion of the school year 2022/23, achieved a qualification recognised as equivalent to the Omani GED.

Students who have been exempted from having to be an Omani national to study at one of the Government HEIs in the Sultanate and who have a GED or an equivalent qualification upon completion of the school year 2022/2023.

ONLINE REGISTRATION CRITERIA

A student must meet all of the following conditions in order to be eligible to apply to government funded scholarships, seats or externally funded study grants:

- be an Omani national.
- graduate from school in view of the current school year 2022/23.
- not aged older than 25 years or younger than 16 years on October 1 in the current school year (hence, they were born after October 1, 1998).
- meet the MINIMUM or STANDARD eligibility criteria for their preferred scholarships as listed by category and code in this Student Guide.

Nota Bene: Students who have registered in (Adult Education System) and are employees in the (public or private) sector must provide the institution with a No-Objection Certificate from their employer to be registered as full-time students.

THE STUDENT'S COMPETITIVE SCORE

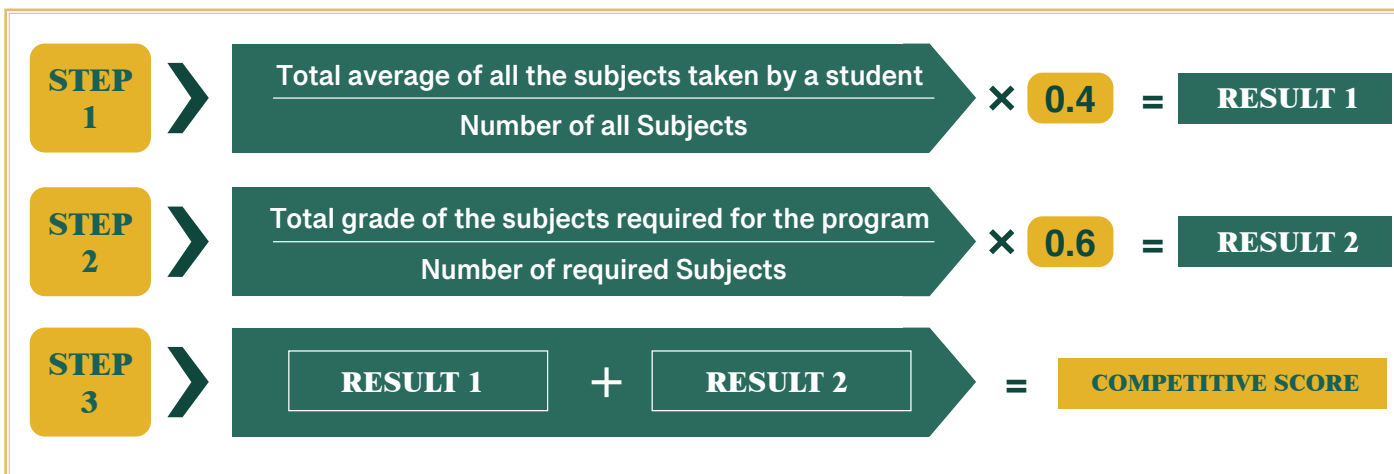

The competitive score is the criterion that defines an applicant's competitiveness among the other eligible or earmarked candidates in view of most of the scholarships, and is based on their school grades. A student's competitive score may vary from one scholarship (listed by categories and codes) to another depending on the required subjects (as per the minimum requirements) and based on his/her marks achieved in these essential subjects.

- In arriving at the score, the HEAC considers the following: The (total marks of subjects required for a specialisation) x 60% or 0.06 to calculate competitive score is as follows:

**Calculation of Competitive Score for GED and equivalent qualifications =
(total marks of subjects required for a specialization) x 60% or "0.06" +
(total sum of all marks achieved in subjects taken by the student) x 40% or 0.04**

CALCULATE THE COMPETITIVE SCORE FOR GED AND EQUIVALENT QUALIFICATIONS

form (1)

RESIT OR REMARK STUDENTS

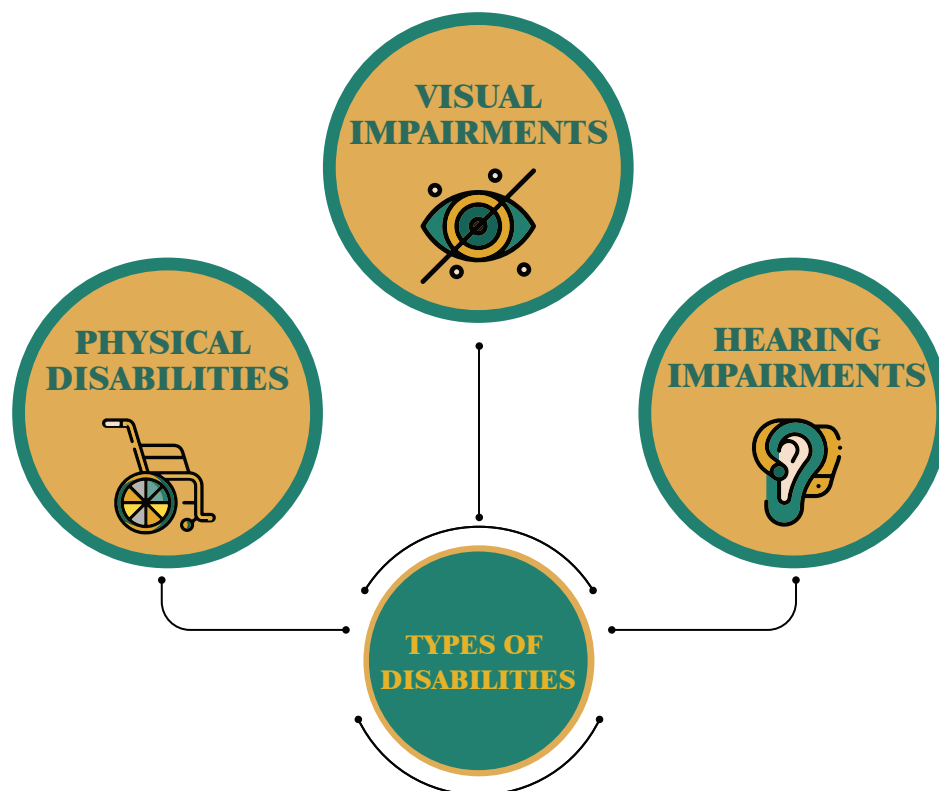

- ALL students shall competitively apply for scholarships during the indicated registration period, regardless of the (predicted) final school grades. Those who fail to timely register or fail to make changes to their order of preferences after the announcement of final school grades, will not be able to do so after the relevant deadlines, e.g. during the following allocation rounds.
- Those who failed in one school subject or more should select and make changes to their scholarship preferences within the relevant deadlines in order to avoid losing their right to compete against other students if they do pass the resit exams and/or successfully apply for a remarks. If the resit or remark results are announced after the first allocation, they should notify the HEAC about their resit/remark status to withdraw from the first allocation round.
- All students shall select scholarships covering one or more course(s) according to their personal preference and their predicted results that reflect their actual levels achieved at school.
- Students who resit final exams will no longer be able to competitively apply for scholarships requiring face-to-face interviews, admissions tests, screenings or medical check-ups for the first allocation only because relevant deadlines of these admissions procedures end before the announcement of resit exam or remark results.
- The HEAC may competitively award available scholarships (during an allocation round other than the first) to resit or remark applicants based on availability, their eligibility and the competitive scores of the already shortlisted candidates in view of the scholarships they applied for. Their competitive score should be higher than or at least equal to the lowest competitive score of the already shortlisted recipient, aka students who have been awarded this scholarship during the previous (first) allocation.
- Resit students have the right to lay claim on a place they are entitled (based on their competitiveness) via a deferral to the following academic year, IN CASE all places allocated to the scholarships they listed have already been awarded and hence, there are no available places after the first allocation round OR the course has already started (the allocation does not coincide with programme joining dates), and/or the concerned higher education institution does not accept any new student after a certain date.

STUDENTS WITH DISABILITIES

Students with disabilities should select scholarships comprising programmes that are accommodative of their disabilities. For example: A student with a physical disability should not apply for scholarships that consists of a programme(s) that require(s) physical fitness, since it contradicts the requirements of that programme. which is accepted in institutions higher education.

*The types of disabilities are categorised by the Ministry of Social Development as follows:

form (2)

In case the student is registered in the Admission Electronic System, he/she shall specify the type of his/her disability from the above mentioned, and it 's degree and the system will generate the eligible programmes that accept his/her type of disability.

APPLICANTS WITH A QUALIFICATION EQUIVALENT TO GED OR INTERNATIONAL QUALIFICATIONS

Students to whom the following applies should enter their personal details through the registration page in the HEAC online electronic system:

- Omani students who pursued qualifications equivalent to GED at schools outside the country.
- Omani students who pursued international qualifications*
- Omani students who pursued qualifications deemed equivalent to GED by the MoE from the communities' schools inside the Sultanate of Oman.

-Failure to timely and accurately upload the personal details will result in students not getting their entitled seats (places). Moreover, these students will not be eligible to competitively apply for offered scholarships, seats and/or grants or their registration will be cancelled unless they upload a copy of their final transcripts, civil ID card, and Ministry of Education equivalency letter (when required) to the relevant page and through the specified link on the HEAC portal.

APPLICANTS WITH A QUALIFICATION EQUIVALENT TO GED OR INTERNATIONAL QUALIFICATIONS

- Students holding certificates equivalent to GED, international qualifications (IBDP and A-levels)*, vocational certificates or specialised secondary school certificates should register and select scholarships, seats and/or grants during the specified period regardless of (whether) their results of the first semester are available or not. And they will not be able to register or change their choices of scholarships after the announcement of their final school grades.
- HEAC will allocate scholarships to students whose results are announced after the first allocation round, according to their order of preferences, provided that their competitive scores are higher than the competitive score of the last earmarked candidate allocated to that particular scholarship.
- A technical team will be assigned to sort and verify certificates in view of qualifications which are considered to be equivalent to the GED by the Ministry of Education (MoE). Their applications will be processed based on this committee's decisions.
- Within this context, by International Qualifications (IQ) we mean International Baccalaureate and A-levels qualifications recognised by the MoE, while there is a separate student guidebook for these international qualification holders available in both Arabic and English in which the standard eligibility criteria have been adapted to the A-level and IBDP curricula and their grading systems, albeit they are applying for the same scholarships as all other students and their grades are converted to percentages once they meet the criteria. These percentages are NOT based on an GED-equivalency.

SUPPORTING DOCUMENTS

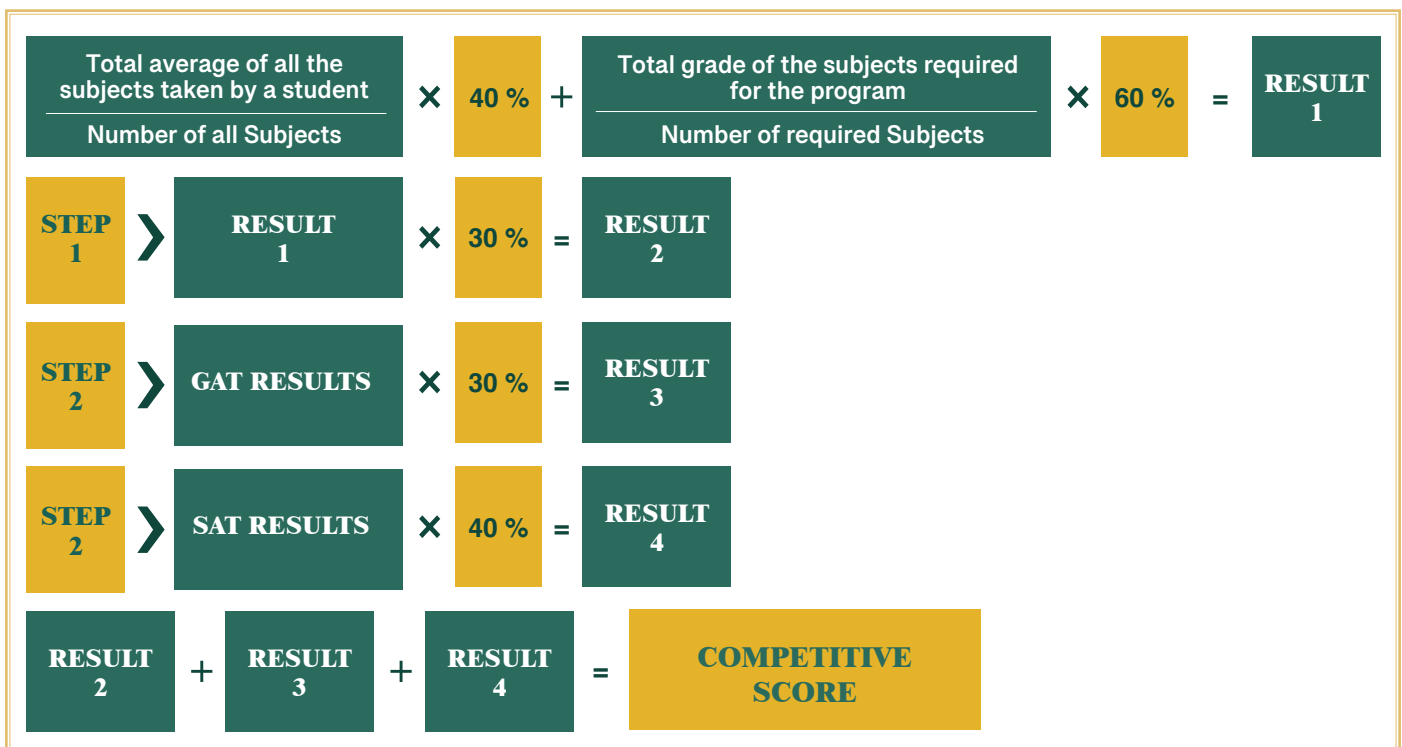

Students who achieved GED-equivalent qualifications equivalent to GED and international qualifications awarded by schools in Oman or overseas, should upload the following documents to HEAC portal through the specified link:

1. Copy of the final certificate or transcript (immediately after the announcement of final grades)
 2. Copy of the civil card (front and back photocopy), or a valid passport.
 3. Equivalency certificate from the Oman Ministry of Education (if required).
- Note that certificates awarded by public schools in GCC countries, or private schools which apply the public education system in GCC countries, do not require an equivalency from the Oman Ministry of Education (except for certificates issued by schools in the Kingdom of Saudi Arabia).
 - In case a student has obtained a temporary Equivalency Certificate from the Oman Ministry of Education, they will be contacted by the HEAC about their final results. If the student's certificate does not meet the equivalency conditions, their offer will be withdrawn.
 - Students who achieved international qualifications and their scores are issued in letter grades, shall attach the (grading system/ grading scale) from the certificate's issuing authorities mentioned in their grade transcript (usually on the back of the transcript) or any relevant document from the issuing authority. Otherwise, their results will be converted according to the national grading system by calculating the or average of each score.
 - HEAC coordinates with higher education institutions and scholarships departments in order to consider the applications of Vocational and Specialised Secondary School Certificates' holders who are not able to select scholarships through the HEAC system because of their academic nature. The HEAC will not consider any application unless the student is already registered in the system (=has a username and password). as a username and password number) in due course.

SAUDI ARABIA GENERAL SECONDARY EDUCATION CERTIFICATE HOLDERS

- Omani students holding secondary school certificates from the Kingdom of Saudi Arabia shall provide an equivalency certificate issued by the Omani Ministry of Education (MoE), which requires the student to sit for the National Center for Assessment tests (General Aptitude Test GAT) and (Standardised Assessment Test SAT) and inform HEAC about the tests results to be eligible to competitively apply for seats, scholarships and/or study grants.
- GAT and SAT results will be considered while calculating the competitive score.
 - Students shall upload photocopies of the following documents in the specified link:
 - Final certificate or transcript
 - GAT results
 - SAT results
 - Equivalence certificate from (MoE)
 - Civil card or passport (front and back sides)
 - The method for calculating the competitive score of this category of students:

form (3)

OMANI STUDENTS WITH AN AMERICAN HIGH SCHOOL DIPLOMA

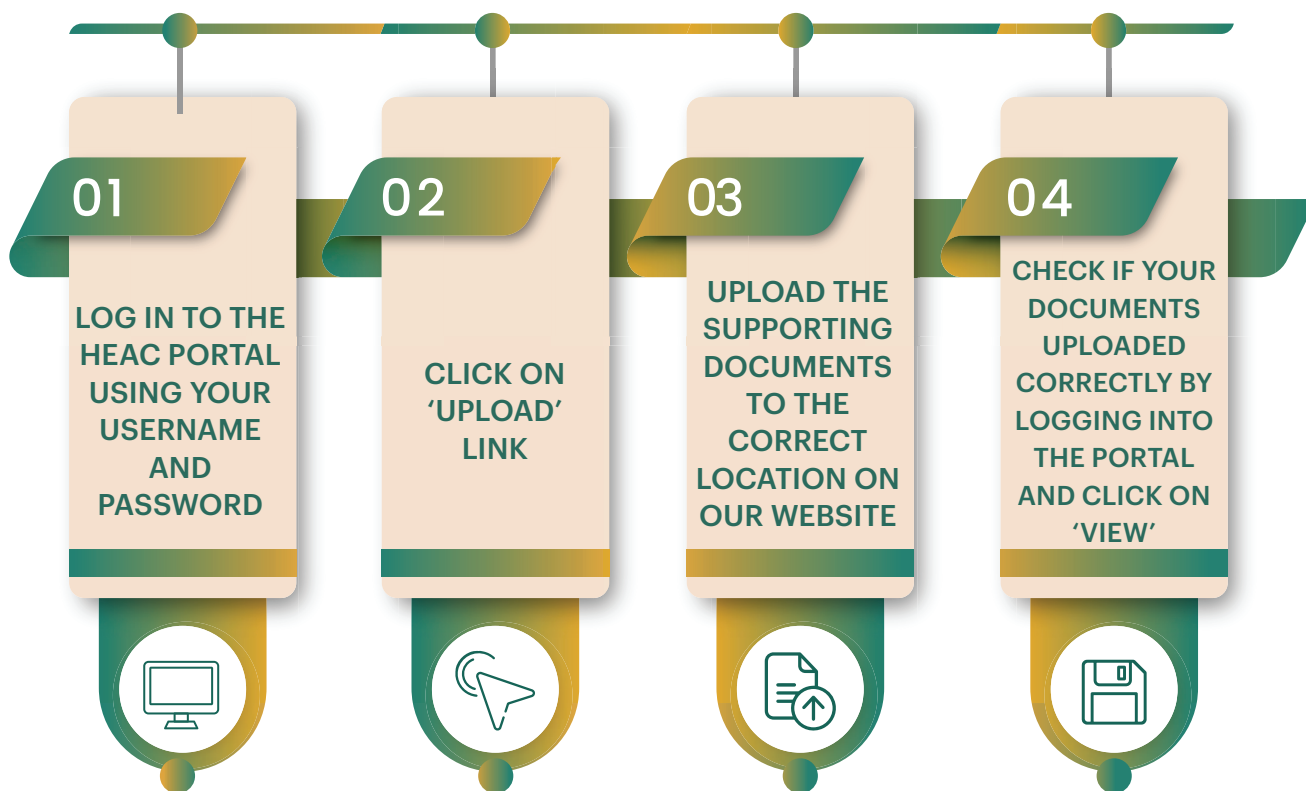

- In case the student has failed to study one of the science subjects physics , chemistry, or biology in grade 12, they reserve the right to get the scores of previous school grades counted by attaching them in the specified link for (grade 10 and 11 certificates), then entering the subject scores in the link of subjects and grades. If the student fails to do so, only his/her grade 12 scores will be counted.
- In case the evaluation system at the school is not scored by percentage, the student should attach the chart of the evaluation grading system of his/her school or the academy and what equals them by percentage. If the student fails to do so, similar samples of common US grading systems will be used.
- HEAC may not count all the subjects existing in the student certificate when not required by the higher education institutions. It may also count no more than 10 subjects.

STUDENTS WITH AN QUALIFICATION DEEMED EQUIVALENT TO THE OMANI GED (THANAWIYA) SHOULD COMPLETE THE FOLLOWING FOUR STEPS

Students can attach the documents as illustrated in the following steps, provided that the file is uploaded in PDF format only and does not exceed 512 KB. The link for attaching supporting documents will be available starting from the by HEAC specified date.

form (4)

ALL UPLOADED DOCUMENTS WILL BE REVIEWED BY A TEAM. IF YOU REQUIRE ASSISTANCE LOGGING INTO THE HEAC PORTAL, PLEASE CONTACT: CUSTOMER_SERVICES@MOHE.GOV.OM

STUDENTS BORN TO AN NON-OMANI FATHER

Students, who have a non-Omani father, and who have acquired Omani nationality or those who have an Omani mother and a non-Omani father, should provide HEAC with evidence from the Oman Ministry of Interior, proving their eligibility to competitively apply for seats at Government higher education institutions in the Sultanate.

INFIRMATION FOR (BTEC) QUALIFICATION HOLDERS

BTEC stands for Business and Technology Education Council and is a specialist work-related qualification that is pursued by school students for two consecutive years upon completion of grade 10 or (O-Levels).

A BTEC-qualification holder is considered eligible to competitively apply for scholarships through the Higher Education Admissions Center (HEAC) system, provided they completed the BTEC LEVEL EXTENDED DIPLOMA 3.

BTEC subjects are graded on a PASS, MERIT OR DISTINCTION scale with PASS being the lowest score and DISTINCTION being the highest score. Their final school grade is the accumulated (aggregated) grade in view of the last 2 school years.

INFORMATION FOR (BTEC) QUALIFICATION HOLDERS

Students holding a BTEC qualification and who specialised in certain areas, including Management, Information Technology, Engineering, Arts or Applied Sciences, will only be eligible to pursue their higher undergraduate degree studies in the same or similar areas of specialisation.

BTEC students can submit their applications to register with HEAC by completing the following steps:

- 1- Registration with HEAC within the specific registration period;
- 2- The student select the area of specialisation that applies to them (e.g. Information Systems, Engineering, Arts, Applied Sciences or Management);
- 3- The student inserts their final school grade (Distinction, Merit or Pass)
- 4- The student selects the scholarships of personal preference from the list of courses based on meeting the eligibility criteria;
- 5- The HEAC system converts the grades into percentages that will enable the BTEC students to competitively apply for scholarships, seats and/or grants according to Table (1).

The overall grade is the equivalent of the competitive score.

TABLE 1. A LEVEL - BTEC GRADE TABLE CONVERSION

BTEC GRADE	EQUITE PERCENTAGE
Distinction *	100
Distinction	97
Merit	85
Pass	70

Table (1)

CONDITIONS FOR ADMISSION TO HIGHER EDUCATION INSTITUTIONS AND SCHOLARSHIPS FOR HOLDERS OF (BTEC) QUALIFICATION

A student can apply to study programs if he achieves the minimum requirements for progress, for any of the institutions and scholarship destinations mentioned in the table below, according to the field of knowledge that he studied.

CONDITIONS FOR ADMISSION TO HIGHER EDUCATION INSTITUTIONS AND SCHOLARSHIPS FOR HOLDERS OF (BTEC) QUALIFICATION

ENTITY OR INSTITUTION	STANDARD ELIGIBILITY CRITERIA
External Scholarships Department	D*DD
Internal Scholarships	MPP
Internal Scholarships that cover courses in the following OAAA categories: Management & Commerce, Society & Culture and IT	MPP
Internal Scholarships that cover the tuition fees of diploma courses	PPP
UTAS (without Engineering)	MPP
Vocational Colleges	PPP

Table (2)

GENERAL INFORMATION ABOUT THE APPLICATION PROCESS/ HIGHER EDUCATION ADMISSIONS SYSTEM

You must read this guidebook carefully since it contains all information you will need to know, whereas the HEAC website contains important updates and frequently asked questions with their answers.

- You can try and call the centre, but be advised that the lines may not always be reachable due to the volume of calls. Hence, the best way to reach us is through e-mails (customer_services@mohe.gov.om), or social media websites (Facebook – Twitter), through which we can receive as many messages as possible at the same time and attempt to answer them.
- Admissions applications for the Academic Year 2023/24 will be treated in accordance with the procedures and timeline as published in this guide. Students will be notified of any subsequent changes through the HEAC website, as well as, the various social media. It is, therefore, your responsibility to be absolutely aware of these updates. It is also your responsibility to check your eligibility, which means whether you meet the standard eligibility criteria (requirements), to competitively apply for any scholarship or course that you choose. The various HEAC procedures are designed specifically to ensure that all applicants are treated fairly. However, one should bear in mind the following:
 - Scholarships, seats and grants are awarded on a competitive basis.
 - Fairness means treating all applicants equally; it does not mean making special arrangements for a few applicants who have ignored the rules and guidelines. You must realise that your actions may also have an impact on other applicants who have equal rights.

GENERAL INFORMATION ABOUT THE APPLICATION PROCESS/ HIGHER EDUCATION ADMISSIONS SYSTEM

- You must act reasonably, ethically and carefully, without expecting any 'special treatment' in terms of the applicable procedures.
- If you have followed the procedures correctly, you will not be deprived of any opportunity to at least competitively apply for a scholarship seat for which you are deemed eligible.
- You will be informed of any scholarship that has been offered either through the HEAC website or through a text message that will be sent to the mobile telephone number registered as yours in the system.
- You should, therefore, frequently log in to HEAC admissions system to check whether there are any updates and keep your mobile phone switched on at all times. HEAC will not be responsible if your mobile phone was switched off or if you were travelling which may prevent you from receiving text messages.
- Travelling or residing abroad is not an excuse for students who did not take actions required by HEAC before the relevant deadlines and the HEAC will not be held accountable or responsible for any opportunity or update you may miss.
- The HEAC admissions system does not allow accepted students (recipients) to request for a transfer to another higher education institution or HEI, or to another scholarship or course at the same HEI, unless they have received another offer from HEAC. Students may request to transfer to another HEI after the completion of all allocation processes by referring to the same HEI and/or the concerned scholarships departments and not to the HEAC, as per the protocol, while such requests or transfers may NOT be granted either as per the scholarship rules and regulations to safeguard fair competition and equal treatment of all students.

Students, who have a non-Omani father, and who have acquired Omani nationality or those who have an Omani mother and a non-Omani father, should provide HEAC with evidence from the Oman Ministry of Interior, proving their eligibility to competitively apply for seats at Government higher education institutions in the Sultanate.

Table (3)

ABOUT THE CONVERSION TABLE FOR IB/IBC AND A-LEVEL QUALIFICATION HOLDERS

Using this conversion table, which has been put together by the Oman Ministry of Education (Mo) and higher education institutions, you can calculate how to convert A-level and IB results into percentages as used by the HEAC electronic system to screen, shortlist and competitively select recipients from all scholarship applicants based on their competitive scores.

- This is a conversion table and NOT a form of benchmarking, and might be subject to future changes.
- Higher education institutions and other concerned entities (including the concerned scholarship departments) reserve the right to set eligibility criteria for entry to courses as they deem appropriate for international qualifications. These entities do NOT depend on this conversion table when developing the criteria for entry to the eligible courses, but according to what they expect from a student based on the student's academic background and as per the grading systems that apply to what are treated as international qualifications by MoE.
- International qualification holders must obtain an equivalent certificate from Mo to be able to competitively apply for scholarships, seats and grants.
- The HEAC also converts the following grade and points:
 - Grade A* for A-level students.
 - (TOK) for IB students.
- **The student must upload their transcript (grades) and the MoE equivalency certificate, in addition to a copy of the civil ID card, to the electronic admission portal as per the HEAC admissions timeline.**

SCHOLARSHIP APPLICATION TIMELINE* ACADEMIC YEAR 2023/24

STAGE	DEADLINE	PROCEDURE
Registration	Registration (applying through the HEAC electronic system)	April 1, 2023 - June 1, 2023
Trial Allocation	Announcement of preliminary trial allocation results	First week of July
Change of Preference Period	Applicants can make changes in their scholarship application based on realistic expectations (i.e. grades and updates, if applicable)	The exact dates will depend on when the GED final and main exam* results will be announced on the HEAC website in due course. *Based on when the main exams took place, not resit exams
Admissions interviews/ tests and screening of DES applications	Admissions tests, screening and/or interviews are required for a number of scholarships	Within one working week after the change of preference period. Where applicable, interview dates will be announced by the concerned entity and will be announced on the HEAC website in due course.
	Interview and medical examinations	Interview dates will be announced by each institution on the Center's website.
First scholarship allocation round	Announcement of the results of first scholarship allocation round	Upon completion of all interviews, screenings and medical check-ups (where applicable).
	Student should an application to complete the registration procedures for the seats offered to them in the institutions to which they are accepted	Within one working week after the end of the 'first allocation
'Dissatisfied with how you listed your options in order of personal preference' request period	Students submit an online request through the HEAC portal	Within one working week after the end of the 'first allocation accept offer/registration' period
	Announcement of decisions	Within one working week of receipt of all requests/end of the 'submit a request' period
	Student should an application to complete the registration procedures for the seats offered to them in the institutions to which they are accepted	Within one working week after the end of the 'first allocation

SCHOLARSHIP APPLICATION TIMELINE* ACADEMIC YEAR 2023/24

 STAGE	 DEADLINE	 PROCEDURE
Second scholarship allocation round	Announcement of new and vacant programs (if available)	first of October
	Applying for new and/or vacant scholarships, seats and/or grants	Within one working week after the announcement of new and vacant scholarships (if applicable)
	Announcement of second allocation offers (if applicable)	Within one working week after the application deadline in view of new scholarships and/or vacant places
	Student should an application to complete the registration procedures for the seats offered to them in the institutions to which they are accepted	Within one working week after the announcement of the results of second allocation
'Retrieve' Seat Service	Applying for Retrieve Seat Service	Within one working week after the end of the registration period following the second scholarships allocation
Third scholarship allocation round	Announcement of new and vacant programs (if available)	first of November

*The above dates are provisional and may be subject to (minor) changes. Please regularly check the HEAC website for further updates: www.heac.gov.om

REGISTRATION PERIOD: APRIL 1 - JUNE 1 (FIRST PHASE)

The first phase to the scholarship application cycle is the registration period which, this year due to the pandemic, will take place from April 1 until June 1, 2023. You can make changes in your scholarship application shortly after the announcement of the GED school grades. You are, therefore, advised to add your order of preferences in the form included in this handbook (last page) and keep it at hand so that you can remember your choices of selected programmes. Registration takes place online in the HEAC Admissions System, and you have to login to HEAC website (www.heac.gov.om), and create an account by getting a username and password.

1. Carefully read through the student guidebook guidelines, procedures, programme requirements and decide which scholarships, each one comprising either one or more courses, you wish to select.
2. You can submit your application (register) through HEAC website, SMS or mobile application (ELTAHIQ) through an online application form with no less than 12 programme preferences you are eligible for. Your choices may include different programmes in public and private HEIs, and external and internal scholar- ships and grants in the HEIs private training institutes inside and

outside the Sultanate.

3. All students must register and choose programmes during the specified period and they have to meet the registration deadline – regardless of the outcome of the first semester exam results. There will be no opportunity for students who re-sit the GED exams to register or change their programme preferences after the release of the second-round exam results.
4. Students should verify their personal details (name, date of birth, gender, national civil number, etc.). **In case of any incorrect information, they should contact the Directorate General of Educational Assessment at the Ministry of Education on the following numbers:** (24255837-24255753-24255752-24255755 -24253952- 24253711- 24255141- 24255745 -24245831– 24255760 –24253895)
5. Social security students should verify their details as provided by the Ministry of Social Development and indicate the department or centre from which they have obtained their Social Security Card. In case of discrepancy, they should contact the following number: (24692319 - 24962433 - 24962437) and inform HEAC accordingly before the 30th of July 2023. To contact the Social Development Offices in the governorates they may access HEAC website to obtain their phone numbers. For further inquiries, please contact us by email: Mosd-heac@mosd.gov.om.
6. All Social Security cases should be verified by the Ministry of Social Development to be eligible to compete on Social Security seats.
7. Fill in all required information and required details and make sure that you provide your correct mobile numbers and e-mail address, which will enable the HEAC to contact you for seat offering and also allow you to receive important messages such as change in the admission requirements, etc. It is recommended that the mobile number given should be your own and not used by any other person. If you are using another person’s mobile number, then ensure that this person is trustworthy and will forward all the necessary and correct information to you in timely fashion so that you do not miss any important deadlines.
8. The system will send a short text message to your mobile number to inform you of any change or update in your personal data, for example: “**phone number**”.
9. The DG for Scholarships, Ministry of Higher Education, Research, Innovation and/or Higher Education Institutions specify the standard eligibility criteria for each scholarships scheme based on a methodology. You should, therefore, carefully read these requirements before applying for a specific scholarship. When you competitively apply for any scholarship that consists of a variety of courses you should ensure that you, are likely to, satisfy the course admission requirements and grades in each essential subject. For example, if Biology is a part of the requirements of a course covered by a particular scholarship, you should use common sense and refrain from applying to that scholarship if Biology was NOT one of the subjects you took at school. Otherwise, you will end up losing one of your choices since you did not satisfy one of the competitive conditions for that particular course.
10. You should rank your programmes in order of personal preference. HEAC system aims to competitively select you for one of your preferred programmes provided you meet the requirements and depending on the competition (of other candidates) and the number of available places allocated to each scholarship. Avoid selecting scholarships based on your expected exam results only and focus on what really suits your and your skills, interests and abilities. Also, avoid guess work, assumptions and do not fall prey to hearsay and rumours. Our advice is that you keep in touch with the Career Guidance Specialist or University Counsellor in your school or region or contact the HEAC if you have any doubt or query.

REGISTRATION PERIOD: APRIL 1 - JUNE 1 (FIRST PHASE)

11. You are advised to apply for the maximum number of preferred scholarships for which you are eligible to, and not just for scholarships with high requirements in order to increase your chances of being competitively awarded a scholarship offer, Your acceptance rate is high compared to the recommended minimum competitive average for applying for each program

Note that all applicants will be allowed to arrange unlimited number of preferences they are eligible for, but not less than at least 12 scholarships, seats and/or grants. Only those who are not eligible for more than 12 scholarships, seats and/or grants, can apply for less than 12 options.

12. Some scholarships may require the applicant to have a certain English language test score (i.e. IELTS) especially for those who wish to competitively apply for certain external scholarships programmes, so make sure that you read carefully all the requirements of your selected scholarships.

13. You can and are advised to competitively apply for the scholarships that cover the course(s) you prefer to study the most, even if (you worry that) other students' final school grades are (or might be) better than yours. You do not have to worry because the system is flexible; meaning that even if you cannot be competitively selected for your preferred scholarship(s), you will still automatically compete for your next preferred option(s) (based on your list of ranked preferences) provided you meet the standard eligibility criteria.

14. The Higher Education Institutions may set further requirements for particular courses covered by scholarships. For example, the region where student resides could be one of the additional conditions when applying for Health Sciences programmes. Therefore, the eligibility will apply only to students from the region or governorate stated by the institute. Similarly, programmes related to Fine Art or Physical Education will require additional tests carried out by the institution, and the results of these tests will determine the student eligibility to compete for the seats.

15. We advise you to select your options based on your personal preference and not on your speculation of what might happen. The common mistake often made by many students is that they rank their preferences based on their expected final exam results. For example, some students may hope to study Medicine, but feel they would not qualify or compete against others. They might, therefore, put Medicine as their fifth preference and another less preferred scholarship as their first. However, they may get the grades required to study Medicine, but by then, it would be too late because they would have already been offered a scholarship and not be offered a lower preference (which in this case would be Medicine).

GUIDE TO ONLINE REGISTRATION: STEPS TO COMPLETE AS AN APPLICANT

01

REGISTER ONLINE WITH THE HEAC

CLICK ON 'NEW REGISTER' IN THE UNDERGRADUATE DEGREE LEVEL SECTION

02

03

SELECT 'STUDENT IN OMAN' OR 'OVERSEAS' (BASED ON WHERE YOUR SCHOOL IS LOCATED)

MAKE SURE YOUR PERSONAL INFORMATION IS COMPLETE AND ACCURATE

04

05

SAVE YOUR PASSWORD AND FIND A WAY NOT TO FORGET YOUR PASSWORD

LOG IN TO YOUR ACCOUNT BY USING YOUR USERNAME AND PASSWORD AND ADD OPTIONS TO YOUR SCHOLARSHIP APPLICATION FORM.

06

07

LIST YOUR SCHOLARSHIP OPTIONS IN ORDER OF PERSONAL PREFERENCE AND CLICK ON 'SAVE'

SCHOLARSHIPS FOR WHICH YOU ARE NOT DEEMED ELIGIBLE TO COMPETITIVELY APPLY WILL BE MARKED IN RED

08

09

DELETE ALL SCHOLARSHIPS MARKED IN RED AND CLICK ON 'SAVE'

ARRANGING YOUR OPTIONS IN ORDER OF PERSONAL PREFERENCE

How do you arrange your preferred options? Your scholarship options should be ranked in the order of your personal preference. Your most preferred option should be listed as your first option, and so on. The HEAC electronic system is designed to competitively award an option for which you are eligible and uses a top-down approach (starts screening from your first option onwards), although scholarships are competitively awarded and based on a limited availability, and, therefore, there is NO guarantee that the system will competitively award all students one of their first option(s).

For example: (Fictional) student Khalid wishes to become an architectural engineer. While he arranges his options according to his order of personal preference, he focuses on scholarships that cover suitable engineering programmes available at different Higher Education Institutions (HEIs) in the Sultanate of Oman and abroad. The following table shows the first ten options of scholarships options entered by our fictional student 'Khalid', based on him meeting at least the standard eligibility criteria for each option, and are arranged in order of his personal preference.

The data mentioned in the table are for illustrative purposes only and not based on a real student or real scholarships and/or codes.

Choice	Program code	Area	Program Type	Number of seats	Minimum "competitive score" accepted for the program	Khalid's score in his the required subjects	Khalid's status in each program
1	LA020	Engineering	Public program (1)	50	*97.6	96.3	**Not accepted
2	YG004	Engineering	Internal scholarship (1)	100	94.6	96.4	Accepted
The desire that Khalid accepted							
3	RC105	Engineering	Public program (2)	80	96.2	92.3	-
4	ML067	Engineering	Public program (2)	80	93.3	92.3	-
5	TF125	Engineering	Public program (3)	50	93.9	93.2	-
6	CL019	Engineering	Internal scholarship (3)	40	87.6	95.2	-
7	RT032	Engineering	Internal scholarship (4)	30	89.8	96.3	-
8	ND002	Science	Internal scholarship (4)	30	83.4	96.3	-
9	KC602	Science	Public program (5)	50	77.5	96.3	-
10	CD193	Science	Internal scholarship (5)	50	95.4	94.0	-

Table (1)

***LA020:** Example of the 'lowest' minimum competitive average score of recipient number (50) out of all candidates who have been shortlisted for this (fictional) scholarship (to which 50 places were allocated and candidates are shortlisted based on a ranking from higher to lower competitive scores).

****LA020:** Not accepted: This means that e.g. Khalid's competitive average score "96.3" is lower than the score "97.6" which is the lowest score of the applicant out of all applicants shortlisted for

one of the places allocated to this scholarship, therefore, Khalid will no longer be eligible for this scholarship and automatically continues to compete for his second option and so on and so forth. - Based on the fictional data in the above table, it is obvious that there are (100) places available for Khalid his second choice (YG004) and (50) seats for the fifth option (TF125) and so on. So which scholarship will be competitively awarded to our student Khalid? Scholarship (LA020) is his number one choice, but due to the competition (other candidates) and the number of available places, and his competitiveness,G004).

SHORLISTING OF APPLICANTS BASED ON THE (UNBIASED) ORDER OF MERIT METHOD USED BY THE HEAC ELECTRONIC ADMISSIONS SYSTEM

As illustrative examples, the following tables (2) and (3) show how the electronic admissions system objectively compares among all applicants in order to shortlist them. Table (2) contains the first three scholarship options as selected by 3 fictional students (Nasser, Fatima, and Ahmed). Each has ranked their options in a different order of preference.

- Nasser has scholarship coded (YG004) as a first choice in his list because his dream is to study (one of) the course(s) covered by this scholarship.
- Fatima has the scholarship code (RC105) as her first choice, because she prefers to study the course or one of the courses covered by this scholarship and if she is not competitively selected for this scholarship, she will automatically compete for her second-best preferred option, which is scholarship coded(LA001) and so on and so forth.
- Similar to his peers, students Ahmed has also selected his scholarship options which are arranged in the

Data used in these tables are for illustrative purposes only

Student	Nasser		Fatima		Ahmed	
NO. CHOICE	Program	Competitive score of student	Program	Competitive score of student	Program	Competitive score of student
1	YG004	97	RC105	92	YG004	99
2	LA001	85	LA001	90	LA001	80
3	RC105	90	YG004	96	RC105	95
....
....

.... You can see the unlimited study programs you have entered previously

Table (2)

Table (3) on the following page shows you how the system screens and shortlists most* applicants' based on the "order of merit" approach according to the highest competitive scores among all eligible (=met the standard criteria) and the number of available places allocated to each listed scholarship*.

*Please note that this approach applies to most scholarships while for some scholarships further requirements, other than the grades, apply - e.g. DES applicants are primarily screened on meeting the standard criteria and having an offer of admission in place, while tie-breakers do apply in case the number of eligible candidates exceeds the number of places allocated to DES.

Order of students in the program LA001			Order of students in the program RC105			Order of students in the program YG004		
Number of seats available (1)			Number of seats available (2)			Number of seats available (1)		
Student name	Competitive score of student	No. of a program in student list of choice	Student name	Competitive score of student	No. of a program in student list of choice	Student name	Competitive score of student	No. of a program in student list of choice
Ahmed*	99	1	Ahmed*	95	3	Fatima*	90	2
Nasser*	97	1	Fatima*	92	1	Nasser*	85	2
Fatima*	96	3	Nasser*	90	3	Ahmed*	80	2

Table (3)

*Students are earmarked and shortlisted for (most) scholarships according to the number of available places by scholarship and the students' their competitive scores.

Considering that the HEAC electronic admissions system has been designed to competitively award students their best possible option (top-down approach) based on how they ranked their options, and after shortlisting the above-mentioned fictional applicants as per the objective "order of merit" approach, the result of this illustrated and fictional scholarship allocation (based on only 3 applicants in total) will be as follows:

Competitive Allocation of fictional scholarship YG004 – number available seats* (1):

Seat* (1):

Earmarked candidate: The fictional student Ahmed will be the first and only earmarked recipient among all eligible applicants in view of the fictional scholarship coded (YG004), because this student scored the highest competitive average among all eligible applicants in view of the criteria that applied to YG004, while this scholarship is his first choice.

Competitive Allocation of fictional scholarship: RC105 – number of seats* available (2):

Seat* (1):

Earmarked candidates: Due to the availability of only two seats allocated to the (RC105) scholarship, while Ahmed has been excluded from the earmarked eligible applicants since he was earmarked for his most preferred scholarship (YG004) by the system, one of the two places allocated to this scholarship will be allocated to the next most competitive student in the list based on the "order of merit" approach. Therefore, Fatima will be earmarked for (RC105) which is also her preferred choice, and consequently, she will no longer be competitively applying for any of her choices ranked lower by her (including LA001, YG004).

Seat* (2):

The other place allocated to RC105 will be tentatively allocated to Nasser, the second most competitive student for this scholarship out of the list of earmarked applicants – however, as RC105 is his third preferred option, he is still eligible to continue to competitively apply for this first two options.

Competitive Allocation of fictional scholarship: LA001 – available places (1):

Earmarked candidates: Ahmed and Fatima were eligible to be shortlisted but were both excluded from competition for this scholarship due to being earmarked, by the system, for their preferred options. However, LA001 was preferred over RC105 by Nasser, and LA001 will be awarded to Nasser instead.

Competitive Allocation of fictional scholarship: LA001 – available places (1):

Result of the final allocation among three applicants:

- Ahmed will be awarded YG004 (his preferred option).
- Fatima will be awarded RC105 (her preferred option).
- Nasser will be awarded LA001 (his second-best preferred option).
- One out of two places allocated to RC105 will remain vacant and will be announced in view of the following allocation round for students who receive no offer during the first allocation round.

Tie Breaker:

It is the criteria as provided by the HEIs Crucial subjects and/or the concerned scholarships departments to 'break the tie' between earmarked applicants who may have equally competitive scores.

For example, if the last 5 out of all eligible applicants who have competitively applied for the Engineering scholarships have equally competitive scores based on their average; and there is only one vacant seat left, while the tie-breakers are Pure Maths, followed by English.

In this case, the tie-breaker for this option applies to the one with the highest grade in Pure Mathematics or equivalent, followed by the highest grade in English. Therefore, the applicant who scored the highest grade in Pure Mathematics or its equivalent will be accepted. In case two earmarked candidates scored equally high grades in Pure Mathematics or its equivalent, their grade in English will become the tie-breaker.

WORD OF ADVICE FROM THE SCHOLARSHIP APPLICATION EXPERTS:

- ALWAYS FOCUS ON THE AREA OF STUDY OR SUBJECT AREA FIRST AND ON WHETHER IT SUITS YOUR INDIVIDUAL SKILLS, INTERESTS, CAPABILITIES. AND CAREER ASPIRATIONS.
- DO NOT CHOOSE A SCHOLARSHIP THAT COVERS A COURSE OR COURSES THAT YOU HAVE LITTLE OR NO INTEREST IN AS THE SCHOLARSHIP PROVIDER RESERVES THE RIGHT TO HOLD YOU ACCOUNTABLE FOR YOUR OWN CHOICES!
- MEETING THE CRITERIA DOES NOT GUARANTEE A PLACE BECAUSE SCHOLARSHIPS HAVE ALWAYS BEEN COMPETITIVE – THEREFORE, DO NOT PUT ALL YOUR EGGS IN ONLY ONE BASKET BY FOCUSING OR LISTING ONLY A FEW OPTIONS (PROGRAMMES) AS PART OF YOUR SCHOLARSHIP APPLICATION.
- HOWEVER, YOU SHOULD ALWAYS LIST YOUR PREFERRED OPTIONS FIRST, PROVIDED YOU MEET AT LEAST THE MINIMUM CRITERIA.
- AT THE SAME TIME, YOU SHOULD ALSO BE CAREFUL WHAT YOU WISH FOR IN VIEW OF YOUR PREFERRED OPTIONS, BECAUSE ONCE YOU HAVE BEEN SHORTLISTED BY THE SYSTEM FOR ONE OF YOUR PREFERRED OPTIONS, YOU ARE NO LONGER COMPETITIVELY APPLYING FOR ANY OF YOUR LOWER RANKED OPTIONS.

THE TRIAL ALLOCATION PROCESS (2ND PHASE OF THE APPLICATION CYCLE)

Upon completion of the registration phase (April 1 – June 1), a trial allocation will take place towards the end of June. This preliminary or tentative allocation will be based on the scholarship programmes students have listed in order of preference during the registration phase, and, where applicable, based on their (mid-term) results achieved upon completion of the first school semester (or based on their predicted grades).

Through this trial allocation process, HEAC aims to inform students about the scholarship programme for which they would probably be competitively selected by the electronic system according to their current order of preferences.

The trial allocation may also help raise awareness about the importance of wisely ranking your list of scholarship programmes according to your personal preferences, because the HEAC electronic system has been designed based on the aim to competitively award applicants one of their preferred options (a top-down approach).

It has been anticipated that if a student and his/her counsellor or career guidance specialist would receive and review the results of the trial allocation earlier prior to the final allocation results, this will help decrease the risk of students not selecting the appropriate (preferred) scholarship programmes, and consequently requesting HEAC to allow them to make changes in how they listed their options after the relevant deadlines during which the system is offline.

The result of the trial allocation is not necessarily or automatically the final or binding result as this will depend on some other factors, such as:

Maintaining the same grades or achieving higher grades during the final exams compared to the mid-term or predicted results

Listing your options in the same order of preference during the change of preference period (compared to how you listed them during the registration phase).

Your competitive score compared to other eligible applicants who applied to the same scholarship programme.

You will be provided with an opportunity to make changes in how you listed your options after the GED final examination results have been released by the Ministry of Education (please read the information on the following page).

WORD OF ADVICE FROM HEAC ABOUT THE TRIAL ALLOCATION:

DO NOT WORRY in case you are not offered (one of) your preferred option(s) during the trial allocation process, because this does not automatically mean that you will not be able to compete for these preferred options during the final allocation. Therefore, you are advised NOT to remove your preferred options during the change of preference phase, especially if they are deemed to be suitable options for you.

You may use the trial allocation results to review how you listed your options as per your own preferences and school grades.

THE CHANGE OF PREFERENCE PERIOD (3RD PHASE OF THE APPLICATION CYCLE):

In August 2023, after most of you received your school grades, students will be given an opportunity to make changes in their SCHOLARSHIP APPLICATION.

This will be the final opportunity for students to make any changes, including in view of your order of preference prior to the first scholarship allocation round.

- Students who have to resit GED or other exams, as well as students whose final results and/or school grades may be announced after the change of preference period, must make changes in their order of preference based on their predicted results, if they wish to do so, **during this period as well because they will not be able to make any changes in their order preferences either, even not after they received their actual final grades.**
- Students MUST visit the HEAC website and social media pages and check back often, as these, and not this guide, will provide the latest information about scholarships, seats and grants in case of any important updates due to reasons beyond the HEAC and the Ministry's reasonable control and that apply after the Arabic version of the guide had already been published and will be announced before the change of preferences period.
- **In case you forgot your password, you can retrieve it by sending an (SMS) from your mobile number to (90190) by typing (R) followed by your Civil Number. You will receive an SMS message from HEAC providing you with your password. You can also receive the password from the second number by typing (R2) followed by your Civil Number.**
- Students must validate their personal data, school subjects and exam results or final school grades by entering these in the system using their user name and password.
- Students can view the scholarships, seats and grants, for which they are deemed eligible to competitively apply for, through **"the eligible programmes link"** available on the HEAC website.
- In case there are some scholarships (all coded) that appear in **red (which means you are no longer eligible to apply for these options due to your eligibility or because the scholarship is no longer available)** and you do not delete them from your options, you will not be able to save any changes. **Therefore, delete scholarships marked in red during the change of preference period and save the changes.**
- Be careful what you wish for: You might be competitively awarded one of your most preferred options and to which you are entitled to, according to the 'order of merit' allocation, so make sure you think twice and wisely rank your options.
- Students holding qualifications equivalent to the Omani General Education Diploma and who fail to upload any of the supporting documents: (copy of the transcript, civil ID card, and, if applicable, an equivalency letter from the Oman Ministry of Education) before the relevant deadlines, will not be able to competitively apply for any scholarships and their registration will be considered invalid.
- Students should arrange their choices for the last time in a logical order, taking into account the minimum competitive score recommended for each program.

10 STEPS THAT MUST BE FOLLOWED DURING THE CHANGE OF PREFERENCE PERIOD

01

LOGIN TO THE SYSTEM USING THE CIVIL ID (USERNAME) AND PASSWORD.

MAKE SURE YOUR PERSONAL DATA AND YOUR SCHOOL GRADES ARE COMPLETE AND ACCURATE

02

03

CLICK ON THE “SAVE” BUTTON BEFORE MAKING ANY CHANGES IN YOUR ORDER OF PREFERENCE OF YOUR ATLEAST 12 OPTIONS

THE SYSTEM WILL MARK IN RED SCHOLARSHIPS YOU ARE NO LONGER ELIGIBLE TO APPLY FOR, ACCORDING TO YOUR SCHOOL GRADES

04

05

IF APPLICABLE, DELETE THE SCHOLARSHIPS FOR WHICH YOU ARE NO LONGER CONSIDERED ELIGIBLE FOR AND/OR WHICH HAVE BEEN OMITTED

CHOOSE FROM THE EXTENSION OF THE STUDENT GUIDE BOOK, IF ANY, OR THE LINK TO THE PROGRAMS THAT MEET THE REQUIRMENTS THAT YOU WISH TO ADD TO YOUR OF PROGRAMS LIST

06

07

IF APPLICABLE, ADD SCHOLARSHIPS TO YOUR OPTIONS

MAKE SURE YOU WISELY LISTED YOUR OPTIONS IN ORDER OF PERSONAL PREFERENCE

08

09

CLICK ON “SAVE” TO SAVE THE CHANGES YOU HAVE MADE.

YOU ARE ADVISED TO LOG IN AGAIN TO THE HEAC PORTAL BEFORE THE END OF CHANGE PERIOD TO MAKE SURE THAT YOUR REGIRATION IS COMPLETE AND ACCURATE

10

form (7)

ADMISSIONS TESTS, INTERVIEWS & SCREENING PROCESSES

After receiving their final results, a number applicants need to take admissions tests/sit for interviews or undergo medical check-ups, test and interview dates will be announced in due course on the HEAC website. Receiving a request to sit for an admissions test or interview as per the criteria does not necessarily mean that you will be competitively awarded that particular scholarship, because the chances of being competitively awarded a scholarship depends on the following factors:

1. Passing or failing the admissions test/ interview
2. Number of available places allocated to the scholarship
3. Your competitive score compared to other shortlisted or earmarked candidates.

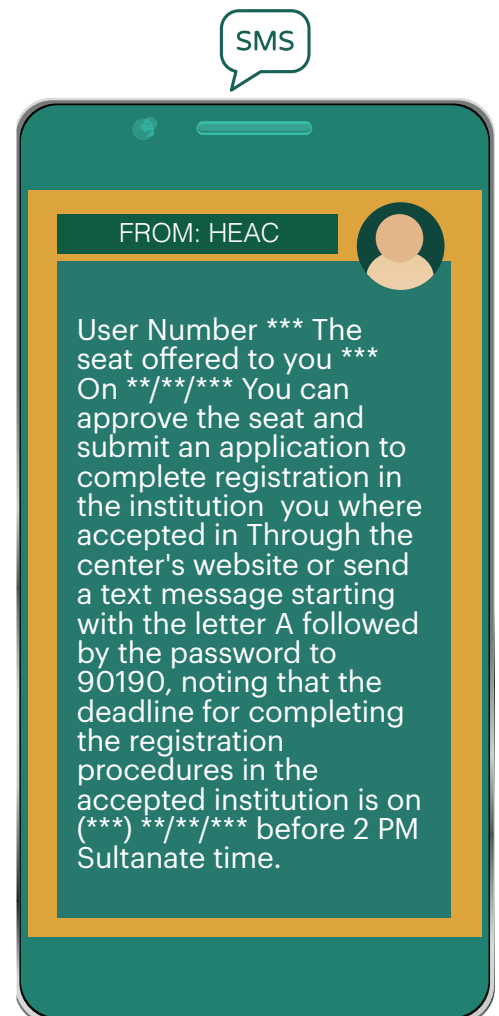

THE FIRST ALLOCATION PROCESS

- After all concerned entities have completed admissions or aptitude tests, interviews and/ or medical examinations for the scholarships that require applicants to meet these further requirements, the center's electronic system will start shortlisting candidates as per the scholarships they applied for and applicants will be informed whether or not their scholarship application has been successful:
- A scholarship may be competitively awarded according to your position on the list of shortlisted eligible candidates, while your competitiveness (position) depends on your grades, the grades of other applicants, the popularity of the scholarship programme and on how many places are allocated to each scholarship.
- If awarded an offer, the scholarship recipient will be notified on the mobile number they registered with in the HEAC portal – they will receive a text message on the day the results are announced, providing the required information.
- Please note that the SMS service is a customer service, and the center is not responsible for the student's failure to receive this message. Students are therefore advised to visit HEAC's website and check if they were awarded a scholarship offer during this period.

Completing the registration process for scholarship recipients

- During a specified period, scholarship recipients will have to accept their offer (online) and complete the registration procedures that apply to you and the area of specialisation covered by your scholarship.
- You have to complete registration procedures with the concerned entity within the relevant
- deadlines, and in case you failed to complete registration at 2:00 pm local time (in Oman) on the last day of this specified registration period and did not inform the center whether you accept your offer or not, you will no longer be legally entitled to the scholarship, seat or grants which will be automatically awarded to another eligible candidate.
- If you fail to timely complete your registration procedures for the area of specialisation that applies to your scholarship within the specified period, you will be automatically withdrawn from the list of scholarship recipients and the scholarship will be offered to another applicant who has been in the following round .

- Meet the specified deadlines for completing the registration procedures and submitting identification papers to the concerned entity. If you have not timely registered, this will automatically result in an withdrawal from the list of scholarship holders and the seat will be offered to another student.
- When you completed your registration with the concerned entity (according to the requirements and processes that apply to the entity), you will receive a short text message stating that you completed registration, and you must make sure that you received this text message as a confirmation.

The screenshot shows an 'Allocation Report' form with the following fields and data:

- 1**: Choice Type (Public)
- 2**: Preference Number (1)
- 3**: Round (1)
- 4**: Program Code (SQ050)

form (8) Student Program Screening Report

1. Type of scholarship chosen (i.e. seat, internal or external scholarship or grant)
2. Order of the options listed in order of personal preference
3. Allocation number (round 1 or round 2)
4. Scholarship (programme) code
5. Name of the course(s) or programme(s) covered by the scholarship
6. Name of the higher education institution or entity allocated to this scholarship
7. Type of scholarship and funding
8. Eligibility of candidate (Yes or No)
9. Your "competitive score" in view of the scholarship
10. The "competitive score" of the last candidate on the list of earmarked candidates offered a place allocated to this scholarship.

STUDENTS WHO ACCEPTED THEIR SCHOLARSHIP OFFER, ARE NO LONGER WAITLISTED FOR THEIR HIGHER RANKED OPTIONS. 'WAITLISTED' MEANS YOU MET THE CRITERIA BUT ARE NOT SHORTLISTED BY THE SYSTEM FOR THAT PARTICULAR SCHOLARSHIP PROGRAMME BECAUSE YOUR COMPETITIVE SCORE IS LOWER THAN THE LAST CANDIDATE ON THE SHORTLIST, WHILE THE NUMBER OF SHORTLISTED CANDIDATES DEPENDS ON THE NUMBER OF PLACES.

STEPS YOU MUST FOLLOW AFTER THE ANNOUNCEMENT OF ALLOCATION RESULTS

form (9)

COMPLETING HEAC REGISTRATION PROCEDURES

If you wish to accept an offer of a seat, scholarship or grant, you should follow one of the following two steps:

- You may accept an offer online through HEAC website www.heac.gov.om, you may also confirm it via the HEAC mobile application (Eltahiq).
- Alternatively, you may also accept an offer by sending an SMS message to (90190) containing the letter (A) followed by your HEAC number (password). You would then receive a text message, confirming that your acceptance has been recorded. That message would provide for the following: "your acceptance of the offer is successful". If you do not receive such message within half an hour, then you must access HEAC website to check if the admission offer is valid.

NOTES

Travelling or residing abroad is not an excuse for students who did not take actions required by HEAC before the relevant deadlines. HEAC is not responsible or can not be held accountable if you dismissed an offer. If you are a student from a social welfare household and have obtained an internal scholarship, you must register your bank account number through the link of (ACCEPT/OR REJECT) in the electronic admission system.

(SUPPORTING) DOCUMENTS

It is recommended that, after allocation, students should have the following documents when registering with the higher education institutions and/or scholarships departments:

1. General Education Diploma or its equivalent.
2. A copy of the valid civil card or passport.
3. Recent photographs.
4. Students from low-income households who have been competitively awarded Internal Scholarships, **and who can prove that their income by family household is 600 OMR or less per month, should present proof that they belong to this category and any other documents that may be required by the concerned institution.**

NOTES

HEAC is not responsible for receiving any written document requested by HEI from students such as the ones mentioned above. Documents confirming the status of the student as "low-income" should be submitted to the concerned institution and not the HEAC.

PLACES AND MEANS OF COMPLETING REGISTRATION PROCEDURES IN GOVERNMENT HIGHER EDUCATION INSTITUTIONS, SCHOLARSHIPS AND GRANTS

Private Education Institutions, College of Sharia Sciences, Vocational Colleges

- 1 Access to the website of the Higher Education Admission Center www.heac.gov.om
- 2 Enter the user number and password to access the student's control panel.
- 3 Click on the watch link and accept the offer. 
- 4 Click on completing the registration procedures at the institution - in the event that the student is admitted to internal scholarship in one of the social security programs, limited income programs, or programs that require the choice of the institution The link of the institutions where the programs are available will appear to him so that he chooses the institution he wants to study in For students admitted to an internal scholarship in the Limited Income (SP) program, they will be shown Link (download the limited income document) and they must click on the link to download the proof document and then pledge the validity of what was stated in the document.
- 5 After the student presses the button to complete the registration procedures at the institution, a program will appear in the box (the last offer you accepted) Thus, the student becomes a transfer to the institution, and during the specified registration period, the institution reviews the application and completes the student registration procedures.
- 6 The student will receive a message from the electronic admission system as soon as the institution completes the student's registration procedures stating that the registration process has been completed in the accepted institution. Otherwise, he must communicate with the institution and follow up on the completion of his registration.

THE SECOND AND THIRD ALLOCATION ROUND

After scholarships have been competitively awarded to all eligible applicants during the first allocation round, a number of places may remain available because some offers were not accepted or the number of available places exceeded the number of eligible applicants/shortlisted candidates. And in this case, such vacancies will be announced on the website www.heac.gov.om and through SMS messages. Only students who have not already been awarded and accepted an offer following the first scholarship allocation, are eligible to competitively apply for vacant You can apply for the vacant seat , accept student who are applying for self funded programs. (Those who wish to apply for vacent seats,have is withdraw from self funded programs if they got offer from the system.

• **You may – during this period - apply for vacant seats through the electronic admissions system, and regardless of whether you have registered as an applicant via the system before or not.**

1. If you have not registered before, you can now register as a new applicant through HEAC, provided you meet the criteria.
 2. If you have not previously registered in the system.
 3. You did not get an offer for a study seat in the first screening or you got a previous offer and did not complete the registration procedures for it.
- If you are one of the students who have already registered in the admission system complete the following steps:
 1. To edit your choices, you can add more scholarships to your initial list of options (if you are already registered as an applicant).
 2. Choose from vacant options (if applicable), and/or new scholarships (if applicable) for which you are deemed eligible as per the criteria. Note that the system will not allow you to rearrange the order of your previous choices.
 3. To enter your new choices you must press on (Insert) button where you want to insert it Save your choices by pressing the button (save).
 - If you are a student who has not yet registered with the HEAC as an applicant, kindly complete the following or got an offer and did not complete the registration procedures steps:
 1. Make sure you do not ignore any scholarships code marked in red which means you are no longer eligible and/or these options are no longer available and update the list accordingly, because the system will not be able to save changes you have made in case you do not delete codes marked in red not: to not repeat the program cod moer than once.
 2. Register with the HEAC Select available options from the available options based on your eligibility and list them according to your order of preference.
 3. See (figure 9) below which is a screenshot of an online application form Choose the eligible programs you want to study from the advertised vacancies only, and place them in order of preference you have in the selected list -Students who are previously admitted and wish to compete for the second or third allocation must withdraw from their seat- Students wishing to compete in the second or third allocation on Sultan Qaboos University programs, external scholarships and Grants, education specialization programs and health specialization programs, their competitive average must be higher or equal to the other competitive average accepted in the first screening.

STUDENT SUPPORT SERVICES

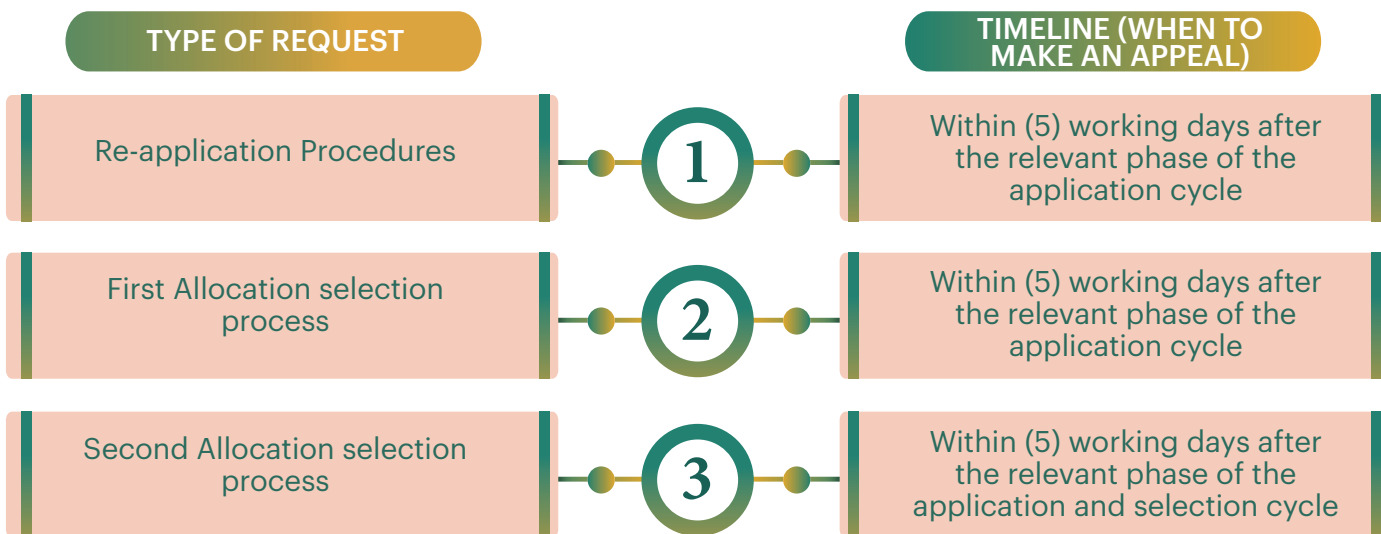

1. PROCEDURE FOR CONSIDERATION OF COMPLAINTS AND APPEALS:

Complaints (a specific concern) or appeals (a formal review of an outcome or decision) are dealt with by the the Appeal Board, which consists of experts external to the Oman Ministry of Higher Education, Research and Innovation and who are assigned to this task by a Ministerial Decree to review complaints and appeals made by applicants who claim they are dissatisfied with the conduct of the process, or that there is any element of unfairness or error and/or who are concerned that their appeals or complaints have not been settled by HEAC. The HEAC is committed to a fair and transparent admissions process and within this context, complaints and appeals are dealt with appropriately and carefully, without any exemptions. The following sets out the basis on which the HEAC will at least review appeals and complaints about its procedures or with the outcome of the selection process.

The only grounds for appeals that will be considered are ONLINE appeals made by applicants to the HEAC by using the electronic form available on the HEAC website, verbal or written (letter or email) appeals or complaints will NOT be considered.

Applicants will be informed by a text message about whether their complaint has been upheld or not, or whether their appeal was successful or not, based on the Appeal Board's decision.

form (11)

The grieving student is informed of the decision of the Grievance Committee by SMS.

2. DISSATISFIED WITH HOW YOU LISTED YOUR SCHOLARSHIP OPTIONS IN ORDER OF PREFERENCE:

All candidates – except those who have already completed their registration procedures with the external scholarships department and received allowances – can submit a 'Dissatisfied with Order of Preference Request' and this service will be available after the end of first allocation round period and registration procedures. Requirements to submit a request:

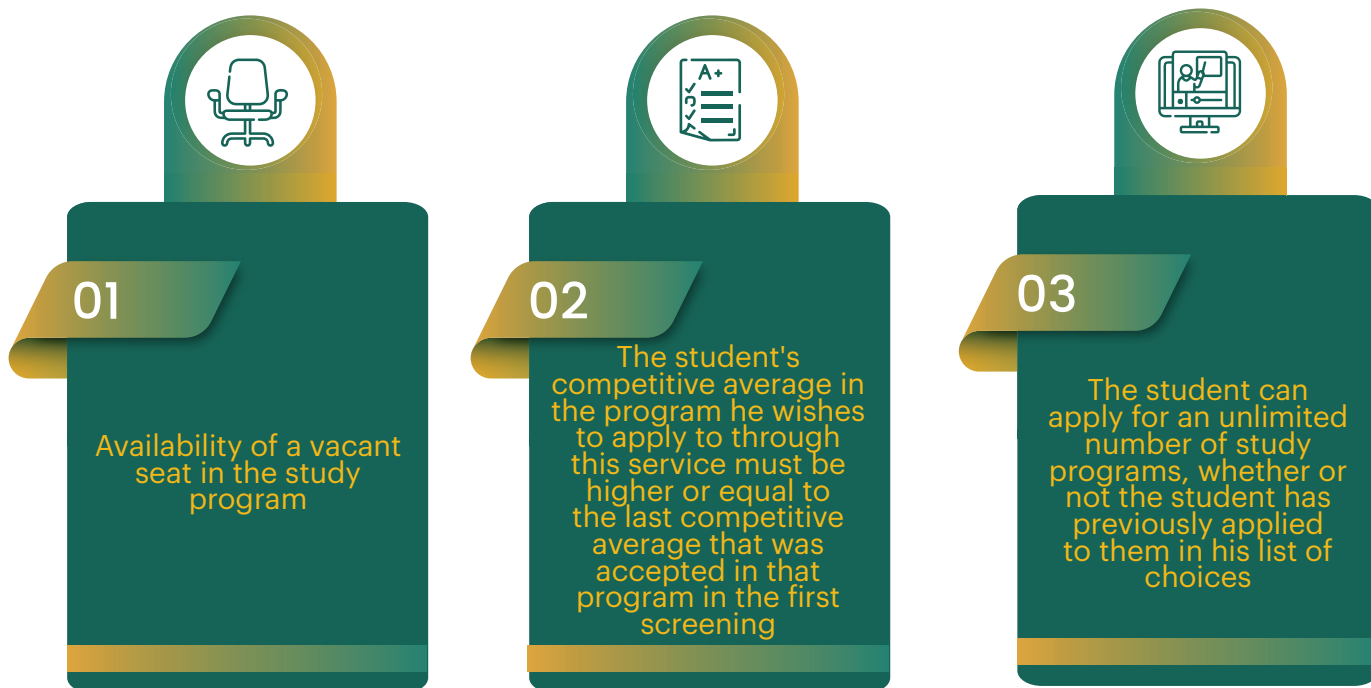

The applicant should have achieved a higher / or an equally competitive score compared to competitive score of the last shortlisted student as per the order of merit approach used during the first allocation.

A vacant place should be available.

In case the number of applicants exceeded the number of places, the applicant(s) with the highest competitive score(s) will be accepted.

All applicants are allowed to apply for up to 5 options, whether these are options from the earlier selected options or not.

CONDITIONS FOR APPLYING FOR THE SERVICE

form (12)

How to complete the registration procedures for new offers through the Misselection service:

• In the event that the student has a previous seat:

1. The student must withdraw from the previous seat (according to the withdrawal mechanism of the institution to which he is accepted).
2. Registration in the new program according to the procedures followed.

Note:

In the event that the student withdraws from the previous seat and does not complete the registration procedures for the new seat according to the announced dates, he will lose his right to both seats.

• In the event that the student gets a seat for the first time:

Register in the new program according to the procedures followed according to the announced dates.

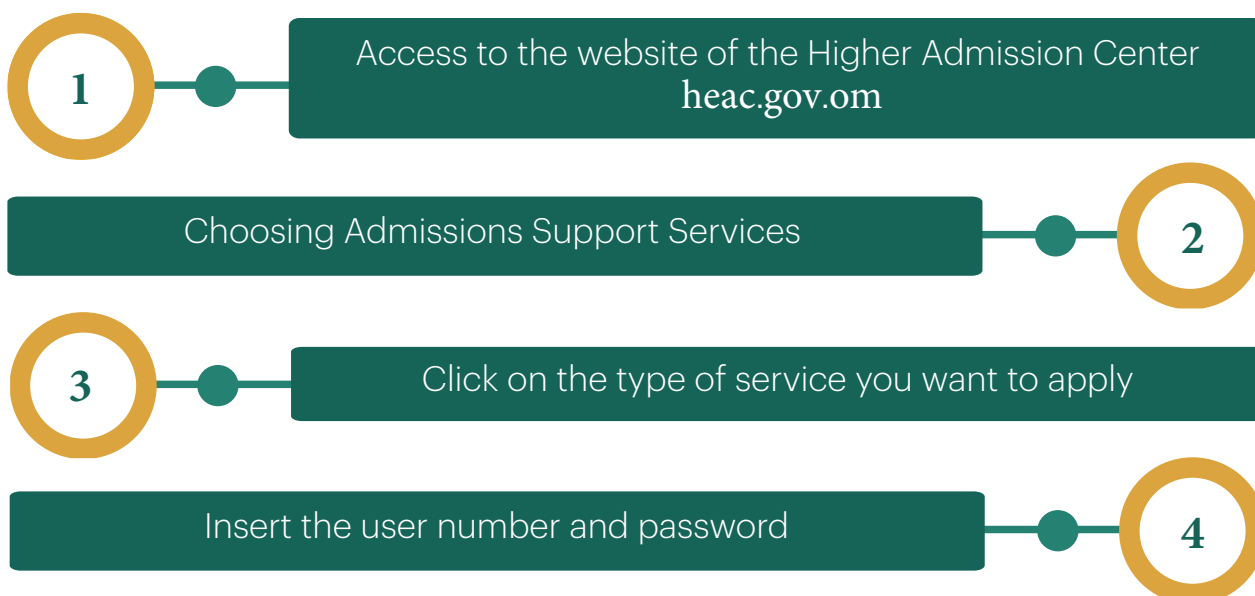

3.'RETRIEVE' OR RECLAIM SEAT SERVICE:

- HEAC may review the online requests of retrieving a seat which was withdrawn from the applicant because they did not accept the offer, or failed to complete the registration procedures within the relevant dead-line, or because the offer was withdrawn. HEAC will contact students who 'lost' their seats through SMS to inform them of the application timeline to submit a seat retrieval request, which will take place after the second selection and allocation process.
- The request will be subject to the availability of vacant seats, and subject to approval of the concerned entity (higher education institution or scholarships department) to retrieve the seat for the student except students studying on their own expenses in the privat University and college.

In case the entity agreed to retrieve a seat for the student, and they did not complete registration procedures within the given period, they will not be able – under any circumstances- to claim it again.

HOW TO USE THE HEAC SUPPORT SERVICES: VISIT HEAC.GOV.OM AND SELECT 'SUPPORT ADMISSIONS SERVICES', THEN CLICK ON THE TYPE OF SERVICE YOUR REQUIRE AND INSERT YOUR USER NAME AND PASSWORD.

23	HEAC N o EP xxxxxxxxxxxxxxx	EP	Find Eligible Program To inquire about eligible programmes

NOTES

- When you write a SMS message for the HEAC system to receive, you should leave a (one) space between each code or details as mentioned in this overview.
- The student will shortly (within a few minutes after sending their text) receive a reply to each message sent to confirm whether their inserted data (message) was correct or not.
- **If they do not receive any reply to a message then this means that the system didn't receive their message and they should try again.**

This service costs are 0.075 Baisa per text message.

Government higher education institutions, external and internal scholarships and scholarships

All applicants for external scholarships must abide by the following rules:

- The scholarship is only for bachelor's degree (undergraduate degree) in the program that the student will obtain through the Higher Education Admission Center.
- The study programs were classified and divided according to (general majors) the field of study to which they belong to, and there are icons for each program in the manual. Each code usually consists of one or more programs within the knowledge domain. It is worth noting that the name of the exact specialization that the student obtains may differ from one educational institution to another, and it may be classified by some institutions differently and have sub-majors under a different field of knowledge than what is described in the Student Handbook. Therefore, it is the student's responsibility to look on the website of the institution in which he wishes to enroll to and the specialization he wishes to study. The student shall be aware of the content of the study in the selected specialization, the name for it in the institution, and the name of the academic degree that he will obtain.
- The Ministry of Higher Education, Scientific Research and Innovation seeks to continue improving procedures for obtaining scholarships and it has the right to periodically review the eligibility criteria for its programs of study and amend these requirements if deemed necessary to ensure academic progress and/or facilitate scholarship opportunities for all applicants.
- Requirements and conditions for scholarship programs have been set based on research and recommendations from the Ministry's representatives in various countries for scholarship programs for the undergraduate degree. **(Please note that when an institution of higher education is recognized by the Ministry of Higher Education, Scientific Research and Innovation in the Sultanate of Oman, it does not necessarily mean that it is approved as a scholarship destination institution by the Ministry).**
- The requirements for the external scholarship are set to the minimum competition requirements, and this means that specific higher education institutions may have additional requirements for admission. Therefore, the Ministry of Higher Education, Scientific Research and Innovation cannot guarantee the acceptance of scholarship holder for the program and / or the university in which the student selected by choice.
- The Ministry of Higher Education, Scientific Research and Innovation, through its representatives abroad (Cultural Attachés and supervision authorities), has the right to choose the appropriate educational institution for all students whom have received scholarships based on several criteria, including students' abilities, the institution's international ranking in a particular field, the institution's location and the special requirements of the institution. It also depends on the number of seats available in some programs.
- **Despite the efforts made in preparing this guide to be at a high level of accuracy, some updates may occur to the academic programs presented in the directory, which require making announcements in a timely manner on the website of High Education Admission Centre (www.heac.gov.om) and following up on developments and updates a must by all students.**
- Students who receive scholarships are subject to the Scholarships and Grants law and regulations. Students are expected to be aware of these laws and they can view it on the Ministry's website. (www.moheri.gov.om).
- The Ministry has the right to follow up the student's academic and behavioral progress during the scholarship period, and the student must finish the study requirements on the period specified by the educational institution in which the student is studying.
- The language of study in all scholarship countries is English, with the exception of Germany, in which the study language is German and France in which the study is in French.

EXTERNAL SCHOLARSHIPS :

- Students wishing to register for external scholarship programs in all scholarship countries except Germany and France - are advised to take an English language placement test (IELTS for UKVI) during the month of June 2023, in order to avoid enrollment delays and to ensure that he/she fulfills the language requirements of the educational institutions of those countries> Pair in mind that the United Kingdom requires the submission of (IELTS for UKVI) test as a condition for applying for a study visa and admission to British universities.
- Students who obtained their IELTS test score must submit the result within the registration period in the electronic scholarship system after the results of the first screening, bearing in mind that the students who don't not take the IELTS test may not be able to start their academic program in a timely manner.
- Students must pass the foundation program within a maximum period of one academic year. In the event that the student is unable to pass the program within the specified period, the Ministry has the right to take the any action in accordance with the laws and regulations.
- Students who have obtained an external scholarship in the first screening, and have completed the online application for their financial dues, will not be able to compete in any forthcoming screening.
- The external scholarship covers: tuition fees, health insurance, visa fees, annual travel ticket, monthly allowance, and the rest of the allowances stipulated in the scholarship law and its regulations, noting that the student must adhere to the specified period of the scholarship and obtain satisfactory results. The students will be followed-up academically by supervision authorities and the Ministry quarterly.
- Students who suffer from chronic diseases should not register for the Australia, the USA and Canada scholarships, given that the health insurance system does not cover such cases.
- The Ministry disclaims its responsibility towards any student who registers in any institution outside the Sultanate of Oman before announcing the results of the Higher Education Admission Center and students are accommodated by the cultural attachés and supervisory authorities.
- The Ministry has the right to change the student's program or university if it turns out that the scholarship program requires a university degree higher than a bachelor's degree, without prejudice to the student's rights and competition criteria.
- Students is not allowed to change the country of study, specialization or the educational institution without the approval of the Ministry in all scholarships. They are obliged to study in the educational institution from which they obtain admission and approved by the Ministry.
- Each of the symbols may contain several subtle specializations, and the student can choose the exact specialization that he wishes to study within the symbol obtained before the registration period announced by the Higher Education Admission Center but the Ministry does not guarantee that the student will be accepted in the exact specialization that he/she has chosen due to the limited number of seats and / or university requirements.
- Educational institutions will be determined later, and the student must abide by the lists announced by the Ministry for all foreign missions.

FOREIGN MISSIONS (MEDICINE, DENTISTRY, VETERINARY MEDICINE):

- Students accepted to study medicine, dentistry, veterinary medicine, and veterinary sciences may be subject to additional admission requirements set by the university, and the student must pass them to ensure entry into the academic program (interview / tests...etc.). Also, the Ministry does not guarantee that the student will pass all the academic requirements set by universities, the student must ensure that he meets the admission requirements for those programs and universities, in addition to the general requirements specified by the Ministry.
- In the event that the student does not pass the requirements for admission to medical programs (**interview / exams**), the Ministry is not obligated to find other admissions for the student in other universities or other countries. The student must complete the study in the same university and country in one of the majors in which he is accepted except for medicine programs.

GCC STUDY GRANTS

KUWAIT

- Higher Education Institution: Kuwait University, the Public Authority of Applied Education and Training
- Scholarships are intended for obtaining a bachelor's degree.
- The university provides housing, subsistence, pocket money, and an annual round-trip ticket (full scholarships).
- The applicant must choose the college only, admitted applicants will be allocated to the majors by the university (**applicant cannot change the college allocated in**).
- applicant must fulfill conditions set by each college.
- Faculties of engineering and administrative sciences require passing the aptitude test.
- In the event that applicant does not pass the aptitude test, he/she will be transferred to another college according to the vacant seats.
- Admitted student must provide his/her certificates of grades (ten-eleven-twelve), which must be from the same country (**meaning that the student has studied the last three grades in the same country**).
- Equivalency certificate is made for the qualification issued by the Sultanate of Oman, and a new total is calculated for it according to the subjects taught in Kuwait, and therefore the student's percentage may decrease.
- Opportunities are not available to students who have a high school diploma from the Kingdom of Saudi Arabia to compete for the scholarships offered.
- The candidate undergoes admission tests by the university, and accordingly his admission to some colleges and majors is determined.
- In the case of raising the admission rate in any college/major in the same university, according to the vacancies, and that is according to the mechanisms used in the university.

KUWAIT

- To know more about the majors in the colleges at Kuwait University, please visit the university's website (<http://www.kuniv.edu/ku>).

HOUSING AND TRANSPORTATION BENEFITS	On-Campus Housing is provided in the university's branches (Ibri, Rustaq, Sur) for female students only who live more than (50) km away from the university branch they are accepted in.																								
MONTHLY ALLOWANCES	Male students who live more than (50) km away from the university branch they are accepted in are paid an amount of (90) OR monthly throughout the year. Students who live less than (50) km away from the university branch they are accepted in are paid an amount of (45) OR monthly throughout the year. Female students who live more than (50) km away from the university branch they are accepted in are provided with On-Campus Housing according to capacity, and paid an amount of (45) OR monthly throughout the year. In case of unavailability of On-Campus Housing in interior sections, female students are paid an amount of (90) OR monthly throughout the year for housing and transport. Female Students who live less than (50) km away from the university branch they are accepted in are paid an amount of (45) OR monthly throughout the year.																								

<p>MEDIUM OF INSTRUCTION</p>	<p>-English Language in all academic programs and in Bachelor of Education in English Language. -Arabic Language for Bachelor of Education in “Science and Mathematics” in “Mathematics, Chemistry, Physics, Biology) programs.</p>
<p>TRAVEL TICKETS</p>	<p>- Round-trip Air tickets are issued for students once throughout the academic year. The cost of the ticket may be compensated in cash according to the lowest prevailing price at the time of the compensation request according to the following categories: - Students from outside Dhofar governate studying in the university branch in Salalah. - Students from Dhofar governate studying in the university branches other than the university branch in Salalah. - A one-time transport allowance of (25) OR is paid during the semester for students from Musandam governorate and Wilayat Masirah, with a minimum distance of (200) km from the university branch.</p>
<p>OTHER INFORMATION</p>	<ul style="list-style-type: none"> • The student must be medically fit to apply for admission requirements at the University of Technology and Applied Sciences, and students with special disabilities must compete for the programs allocated to them, and in the event that a student with disabilities competes for programs for students without disabilities, the university has the right to change the program or not to accept. • The university offers a range of academic programs in various scientific disciplines. • The university grants qualifications at various academic levels, as it grants the diploma only, and some of them grant the advanced diploma and others grant three qualifications to the bachelor’s stage, while there are some other programs that grant a bachelor’s degree only, so the student must make sure of the program he applies for and the degree awarded by the program. • All academic programs at the university require the Foundation Program to be successfully studied and passed. • All admitted students are subject to a placement test for the components of the General Foundation Program, which is held in the induction week coinciding with the start of the study, and passing the foundation year with its three components is a prerequisite for studying academic programs at the university, according to the rules and regulations governing this. • The General Foundation Program (GFP) is an introductory program for the student to qualify him in some of the basic skills required by studying the academic program The GFP is not part of the student’s academic program, as it requires the student to achieve satisfactory performance in three components: English, mathematics and computer. • A student may be excluded from one or all of the General Foundation Program (GFP) components if he/she passes the General Foundation Program (GFP) component challenge tests. The student can submit a valid IELTS academic certificate at the beginning of the semester, and the certificate has not been more than two years from its date, and it must be issued by an accredited center from inside or outside the Sultanate.

OTHER INFORMATION

The student's level can be determined through this certificate or exempted from studying the English language component when he submits an accredited IELTS Academic certificate with a score of (5), so that the score of each skill is not less than (4.5) at the beginning of his enrollment.

- On-the-job training is compulsory for all academic programs at the university.

- Note: A student cannot apply for transfer between university branches until completing the General Foundation Program.

MILITARY TECHNOLOGICAL COLLEGE (MTC)

- MTC Entry Requirements:
- To enter MTC, students must:

1. Complete the 2022/2023 general Education diploma or its equivalent.
2. Pass the medical examinations, interview and admission exams.
3. The Military Training starts by five continues weeks of training before the foundation program and then the military training will consist of lectures, sports, adventure, and summer programs as well as advanced military training programs during the academic study.
4. Students are allowed to leave the college campus in the middle of each week based on defined mechanism.
5. The student accepts after fulfilling the program's requirements, including the competitive average and seats available in each program.
6. Complete the requirements of General foundation Departments (within 1 years at maximum), plus Average 5.0 in the Academic IELTS as minimum. If the student has a valid certificate of Academic IELTS exam with a minimum score of 5.0, before the Academic Year (23/2024) starts he is allowed to join Engineering program once he passes the entry tests for the foundation program modules (Basic and Pure Mathematics, Physics and Computing) with a minimum score of 60% each. Modules descriptors are available in the college website.
7. After completion of the foundation program and passing the modules (Basic and Pure Mathematics, Physics and Computing), students will be distributed to their main specializations according to their choice, average and service requirements (as a prior criterion).
8. MTC graduates who will receive an advance diploma certificate will join the workforce they were initially designated to, while granting those who do well and meet the specific requirements to join the final academic year to obtain their bachelor's degree in engineering (BEng) after they acquire practical experience in accordance with the laws and regulations to the employer in addition to fulfilling the academic requirements of MTC.
9. The following conditions will be applied for those who will join Geomatics and Survey Engineering programme (MT010 and MT013):-
 - Complete the General Foundation Programme (GFP) requirements in one academic year as maximum. Academic IELTS exam with a minimum score of 5 is not required to pass the GFP.
 - Graduates will obtain Diploma as they study 2 years only after completing the GFP.
 - Graduates' rank will be determined based on the Ministry of Defense and Sultan Armed Forces' regulations.

MILITARY TECHNOLOGICAL COLLEGE (MTC)

10. After completion of the advanced diploma, students will be committed to a service contract (10) years' service contract in Ministry of Defense), as detailed in the MTC website (www.mtc.edu.om).
11. All Aeronautical programs require succeeding in all parts of the (EASA) exams and standards with not less than (75%).
12. Students are not allowed to withdraw from the college after the start of the academic year, unless this withdrawal is attributed to serious circumstances, such as illness or other personal issues supported by the MTC admin.
13. The 2023/2024 academic year will be restricted to male students only except the civilian programme (MT011).
14. Students are not allowed to apply for any other military/ civilian institution once he enrolled to MTC.
15. After graduation it is required from the student to be considerably medically fit to guarantee the job when signing the contract with their military units based on the standards of the Ministry of Defense and the Sultan's Armed Forces.
16. The college has the right to amend its laws and regulations as required by its policy.
17. Note: the above criteria are only applicable for the programme offered by the college (starting from programme MT001 till MT010 as well as MT013)

OMAN COLLEGE OF HEALTH SCIENCES

DURATION	All students start with the Foundation programme followed by an undergraduate degree course, while the duration may vary from one course to another, depending on the area of specialisation.
SATISFACTORY ACADEMIC PROGRESS	The student's progression from one academic year onto the following academic year and graduation are subject to their progress through their programme. Students will have to timely obtain a pass in view of all academic course modules and achieve a specific cumulative grade point average (CGPA) according to the academic programme pursued by them.
HOUSING AND TRANSPORTATION	The college will not provide housing and transportation for students.
MEDIUM OF INSTRUCTION & MIXED GENDER ENVIRONMENT	Our programmes are generally taught in English, while some course modules are taught or studied in Arabic. Teaching and training may take place in a mixed-gender education environment.
LANGUAGE OF STUDY	Study in English, in addition to some college requirements in Arabic.

Internal scholarships and grants programs are divided into:

1) Bachelor programs for all students (BS) :

- Full internal scholarships paid for tuition fees only for the undergraduate level, with the guardian bearing the costs of transportation, housing and subsistence - if the need arises - and it is intended for all students.
- Social security students can apply for these programs, while still receiving the monthly allowance.

2) Bachelor programs for all students (IG):

- Internal scholarships that exempt tuition fees only by 100% for the undergraduate level provided by private higher education institutions, with the guardian bearing the costs of transportation, housing and subsistence - if the need arises - and it is intended for all students.
- The student is not entitled to apply to change the educational institution or specialization in the future under any circumstances, as these scholarships are fully funded by educational institutions.
- The student is not entitled to ask the Ministry to bear the financial consequences of the scholarship or housing and transportation fees.
- The Directorate General of Scholarships supervises students in terms of following up on their academic status and academic achievement until graduation requirements are completed.

3) Diploma programs for all students: (DS)

- Full internal scholarships that pay tuition fees only for the diploma stage, with the guardian bearing the costs of transportation, housing and subsistence - if the need arises - and they are intended for all students.
- The student determines the educational institution in which he wishes to study, according to the specialization and academic qualification accepted in it.
- Social security students can apply for these programs, while still receiving the monthly allowance.
- Social security students can apply for these programs, while still receiving the monthly allowance.

GENERAL INFORMATION:

- The duration of study in the foundation stage (language) is only one year for all scholarship programs and scholarships - except for professional diploma programs.
- If a student does not achieve the required level in that year, the Ministry will freeze/ stop the student's scholarship for a period not exceeding one year, meanwhile, the student is required to level up his language level to meet the required level at the institution to join the academic program or obtain direct admission to the academic program from another private higher education institution in the same field of knowledge. If the student does not achieve this, he / she shall lose their scholarship.
- All students who have received internal scholarships from the Higher Education Admission Center must submit their identification papers to complete the registration process in the private higher education institutions in which they were accepted during the time frame allocated for that.

Website:
www.oaaaqa.gov.om

Students graduating from the General Education Diploma or its equivalent are admitted to higher education institutions and choose the study programs they wish to enroll in for the undergraduate level through the Higher Education Institutions. Statistics indicate that most of these students enroll in the GFP when they enroll in these institutions.

What is the General Foundation Program?

- A program designed to prepare students and provide them with the necessary skills to enter the higher education stage.
- It includes four main mandatory components: English, Mathematics, Computer Skills and Learning Skills.
- The program does not count points or credit hours, but it is subject to evaluation and success and failure policies in each institution.

The role of the Oman Authority for Academic Accreditation and Quality Assurance of Education in achieving the quality of foundation programs:

1. Developing and reviewing academic standards for general foundation programs.
2. Quality audit of general foundation programs.
3. Approval of General Foundation Programs.
4. Provide the necessary training to help higher education institutions build their own capacity in the field of developing their internal systems to ensure the quality of their general foundation programs, in cooperation with the relevant parties.

PROGRAMS OF GOVERNMENT HIGHER EDUCATION INSTITUTIONS AND CONDITIONS FOR JOINING THEM FOR THE ACADEMIC YEAR 2023/2024

This section contains the programs of higher education institutions, internal scholarships, scholarships in higher education institutions, scholarships and grants outside the Sultanate, in addition to the conditions for joining them. The study programs have been classified and divided according to the general disciplines (the field of study), the provisions of the Omani Authority to continue obtaining quality education, and the rules of the programs in this guide until the moment of its printing. Health

Are you a social person by nature ? . . .

Do you like helping people and taking care of their health? Do you care how to avoid diseases, diagnosis and treatment? Are you ready to wade into a sea of science? If this is the case, then the health field is right for you. And you must know that the job of a doctor in medicine is not the only job in this field. You may become a nurse, or Pharmacist, or veterinarian if you like dealing with animals, and if you choose working behind the scenes and assisting doctors in diagnosing illnesses is the job a clinical laboratory specialist is definitely the right fit for you, and you may want to focus on the health side of a particular body part such as the mouth to become a (doctor). teeth, or feet (podiatrist) or ear (audiologist) and let's not forget Supportive medical jobs that focus on several areas such as oral health and radiology Health-related, such as health information management.

EXTERNAL SCHOLARSHIPS IN MEDICINE

- Students wishing to register for external scholarship programs in all scholarship countries except Germany and France - are advised to take an English language placement test (**IELTS for UKVI**) during the month of June 2023, in order to avoid enrollment delays and to ensure tries Pair in mind that the United Kingdom requires the submission of (**IELTS for UKVI**) test as a condition for applying for a study visa and admission to British universities.
- Students who suffer from chronic diseases should not register for the Australia, the USA and Canada scholarships, given that the health insurance system does not cover such cases.

COLLEGE OF HEALTH SCIENCES

OMAN PHARMACY COLLEGE :

The aim of Pharmacy program is to educate and train students for a period of four years after Foundation Program leading to a **Bachelor in Pharmacy**. Students must successfully complete professional courses such as pharmacy practice, dosage forms, applied therapeutics, pharmaceutical and medicinal chemistry and other non-professional courses. Graduates qualify to work in the government or private health services institutions after successful completion of the program according to [the availability of vacancies](#).

CODE	COURSES	STANDARD ELIGIBILITY CRITERIA	TIE BREAKERS	ADDITIONAL INFORMATION

Biology or Health sciences 	Places are offered to applicants from all Governorates of oman according to positions available for the Governorate.

COLLEGE OF HEALTH SCIENCES (THREE PROGRAMS / MAJORS):

1- MEDICAL LABORATORY SCIENCES :

Health Sciences programs offer three specializations: **Medical Laboratory Sciences**, Medical Imaging and Physiotherapy. The Medical Laboratory Sciences (MLS) Program is a four years Bachelor after Foundation Program. This program trains students in medical laboratories to perform scientific studies of blood, body fluids and body tissues that help clinicians diagnose and treat patients in the health services. Graduates qualify to work in the government or private health services institutions after successful completion of the program according to [the availability of vacancies](#).

CODE	COURSES	STANDARD ELIGIBILITY CRITERIA	TIE BREAKERS	ADDITIONAL INFORMATION
IH001	Bachelor of Medical Laboratory Sciences	<p>Subjects required: BIOLOGY OR HEALTH SCIENCES AND CHEMISTRY</p> <p>A-LEVELS: at least C (AS level) or D (A level) in all required subjects.</p> <p>IBD: 24 points overall, to include at least 3 (SL) or 2 (HL) in all required subjects.</p>	<ol style="list-style-type: none"> 1. Biology or Health sciences 2. Chemistry 	Places are offered to applicants from all Governorates of the Sultanate oman according to the number of positions available for each Governorate

2- MEDICAL IMAGING :

The **Medical Imaging** program aims at graduating Omani professional radiographers. The duration of the program is four years after the foundation program. The program includes teaching and training the students to perform radiographic examinations to produce high-quality images of different body parts to investigate disease processes using conventional radiography and Computerized Tomography. Students are also introduced to other imaging modalities. Graduates of this program will be distinguished by advanced features such as critical thinking, problem-solving, effective communication, teamwork, and research skills. The clinical aspect of study conducted in hospitals is 41% of the time allotted for the program. Graduates are eligible to work in government or private health services institutions after successful completion of the program according to [the availability of vacancies](#).

COLLEGE OF HEALTH SCIENCES (THREE PROGRAMS / MAJORS):

3- PHYSIOTHERAPY :

The **Physiotherapy** program is a four years Bachelor after Foundation Program. Physiotherapy comprises the care and services provided by the physiotherapist. It includes the assessment of patients who have health related conditions, physical and/functional impairments, or disabilities to determine the physical diagnosis, with a view to alleviating the impairments and functional limitations, and promoting and maintaining good health and quality of motor and functional performance. Physiotherapy education incorporates humanistic principles, scientific enquiry and service to society. The aim of our physiotherapy program is to graduate physiotherapists who have the knowledge, professional skills and attitudes necessary to play a full role in health education, provide competent care and treatment of patients, evaluate the effectiveness of the therapy applied and modify the same where appropriate. Graduates qualify to work in the government or private health services institutions after successful completion of the program according to [the availability of vacancies](#).

HEALTH INFORMATION MANAGEMENT :

The aim of this programme is to award young prospective Omani human resources with a Bachelor of **Health Information Management**. Students must obtain a cumulative grade point average of at least 2.75% (75%) by the end of the second year of their studies in order to progress onto the third and fourth year. If a student does not obtain this cumulative GPA, they will graduate with a diploma instead of a Bachelor's degree. the programme consists of theoretical and practical course modules that will equip students with the core skills and knowledge required for them to qualify to be employed in the areas of Health Informatics and Electronic Information Management. Upon successful completion of the programme, graduates are expected to be qualified to work in the Government or private sector facilities providing healthcare services, depending on [the available job vacancies](#).

Interdisciplinary Scholarships

NOTES ON EXTERNAL SCHOLARSHIPS STEM & ESAM

Science, technology, engineering and mathematical sciences (STEM)

Education, Social Sciences, Arts and Management (ESAM)

- Students accepted with in the two symbols (STEM & ESAM) can choose the specialization (for a bachelor's degree only) and the university as the country of scholarship.
- The STEM program covers areas that offer a bachelor's degree (undergraduate level) in science, technology, engineering, and mathematics, and does not cover medicine, dentistry, veterinary medicine, or programs that lead to a degree beyond a bachelor's degree such as MENG, MPHARM or equivalent.
- The ESAM program covers areas that offer a bachelor's degree (undergraduate level) in education, social sciences, arts and management.
- Students who have been accepted into one of the (STEM & ESAM) programs can choose one of the recommended institutions to study in the following scholarship countries: United Kingdom, United States of America, Germany, Ireland, Malaysia, Kingdom of the Netherlands, New Zealand, Australia, France, Canada, In the event that the student wishes to study at a university in a country outside this list, he / She must bring a university acceptance for a bachelor's degree from that university. Note that the final decision for approving the educational institution/Country is within the authority of the Ministry.
- Students accepted in the United States of America and Canada within these programs (STEM & ESAM) will be enrolled in a preparatory program for an academic year. Upon completion of that program, the student must provide a letter of acceptance (a university admission) from the list of accredited universities accredited for these scholarships (STEM & ESAM) in those universities can be found on the website of the Cultural attaché in Washington).
- Educational institutions may require study subjects different from those referred to in the guide or additional conditions, so the **Ministry of Higher Education, Scientific Research and Innovation** does not guarantee that the student will obtain the desired specialization. In the event that the conditions of the educational institution do not meet the student's specialization, so it is the student duty to verify the extent to which he meets the requirements admission to that institution.
- The student must make sure that he has chosen the appropriate subjects to join the major and the extent of its availability in the desired country, as not all majors may be available for a bachelor's degree in all countries.
- There is no need to attach any admission to compete for these scholarships, but if the student has obtained a university admission, he must present it to the Ministry for viewing.
- Students should know that study programs in destinations or universities may not agree with the dates for announcing the results of scholarships through the Higher Education Admission Center, so they should adhere to the study dates that come after the Higher Education Admission Center announces the results of scholarships.
- Scholarships (STEM & ESAM) cover the language program and the foundational program in addition to the bachelor's program. Universities determine which level a student will be accepted at in accordance with the type of certificate and the student's language level.
- Students wishing to register for external scholarship programs in all scholarship countries **except Germany and France** - are advised to take an English language placement test (IELTS for UKVI) during the month of June 2023, in order to avoid enrollment delays and to ensure that he/she fulfills the language requirements of the educational institutions of those countries Pair in mind that the United Kingdom requires the submission of (IELTS for UKVI) test as a condition for applying for a study visa and admission to British universities.
- Students who suffer from chronic diseases should not register for the Australia, the USA and Canada scholarships, given that the health insurance system does not cover such cases.

INTERNAL SCHOLARSHIPS FOR ESAM - STEM SCHOLARSHIPS

STEM scholarships are scholarships dedicated to study in scientific programs: (science, technology, engineering, and mathematical sciences)

ESAM scholarships are scholarships dedicated to studying in literary programs: (Social Sciences, Arts, and Management)

- Students accepted and granted scholarships that fall within the (STEM & ESAM) programs can choose the educational institution they wish to study in. The institution must be listed under the major specializations specified for each program.
- Students accepted and granted scholarships that fall within the two programs (ESAM) can choose a minor/sub specialization (for a bachelor's degree only) from among the main specializations specified for each program.
- Some majors require the student to pass interviews and tests to obtain the scholarship.
- It is not conditional to pass the foundation year to obtain the scholarship.
- Those scholarships do not include: human/general medicine, oral and dental surgery, pharmacy, medical laboratory sciences, education.
- The program includes all private higher education institutions to which the Ministry sends students.
- The student must register in one of the private higher education institutions in the Sultanate of Oman for a bachelor's degree in one of the main disciplines listed under the code that has been accepted at within the period of completing the registration procedures based on the dates set by the Higher Education Admission Center.

Disclaimer: Some educational institutions may require requirements that are higher than the stated minimum, so the student must be satisfied for the specific requirements of the educational institution for admission to the program. The admission to the specialization depends on the capacity of the institution, and competition between students is according to the determined by the institution.

Natural & Physical Sciences

Do you like to study chemistry, Physics, Biology and Mathematics ?

Would you like to acquire analytical and problem solving skills? Would you like to study the nature of rocks in Oman? or learn how to Conserve water resources threatened by many factors in the Sultanate of Oman and the world? An Earth science or environmental science field might be perfect choices for you. Earth sciences specialization also has other names such as geology or geological sciences (Geophysics and Geochemistry), which is concerned with the study of the origin of the earth and physical processes and the chemical and biological component of it millions of years ago. You may wish to have the ability to forecast the weather, and here Meteorology is the most appropriate choice to fulfill your desire. As for astronomy, it leads you to study this vast universe like earth, galaxies, stars and planets. Also, you also have Astrophysics that focuses on the application of knowledge in the fields of physics, mathematics and computer science in space exploration.

Do you tend to study mathematics and computer science? Statistics is the closest field for your inclinations then; it focuses on honing your skills in collecting, analyzing and interpreting data, thus providing data to find solutions to problems and challenges society faces.

Agriculture, Environmental
And Related Studies

The ancestral craft (agriculture) is still plays an important role in reviving the economies of countries ...

and with the passage of time, it has become an issue to study and develop in schools, institutes and universities. After engineering and technology played a large part in it, so agricultural engineers appeared, and fields emerged, such as water technologies, crop sciences, and soil sciences. And don't forget that for animals had its place in the history of agriculture, so the specialty of animal science emerged as one of the agriculture related fields. As for humans, there is no dispute that agriculture has its largest share in human nutrition, and here we find the specialties of food, agriculture and human nutrition and food security.

This field doesn't focus only on one side, as the sea also has shared in insuring human food wealth. We mention here the disciplines of aquaculture and fish development in this field.

Engineering and Related Technologies

One of the qualities of a good Engineer is to be able to apply ...

science, mathematics, and other skills to find applicable and feasible solutions, to develop, improve and maintain infrastructure or products or services needed by the community. If you have these skills, you can specialize in one of the fields of engineering, such as those that fall under engineering processes and resources and requires good skills in mathematics and chemistry as engineering petroleum, chemical engineering, renewable energy engineering, materials engineering and mining. And if you are more interested in the field of building and construction engineering, then it is branching out into Civil engineering, Construction Engineering, Surveying and Urban Engineering. You must know the differences between construction and architecture, because they are two completely different fields. There are other engineering majors, such as electrical and Mechanical Engineering, Mechatronics and Automotive Technology and computer, industrial, Environmental, geological, and logistic engineering, Fire safety engineering, Aeronautical engineering, Hunting engineering and Navigation technology. It is very important for you to search more and delve into different engineering fields to make it easier for you to choose the field that suits your abilities.

EXTERNAL SCHOLARSHIPS TO STUDY : GERMANY

CODE	COURSES	STANDARD ELIGIBILITY CRITERIA	TIE BREAKERS
SE508	<p>All Engineering Disciplines STUDY COUNTRY : GERMANY Medium of Instruction : GERMANY Educational institutions : Universities of applied sciences and research Universities. - some specializations may have additional requirements, for this the Ministry does not guarantee that the student will be accepted In the major or university of choice.</p> <p>Note: You must have a diploma of education General and its equivalent issued by the Ministry of Education Education or issued by an American school or international English.</p>	<p>Math*+ Chemistry and Physics A-LEVELS: minimum 2 (A level subjects, to include at least grade B (AS Level) or C (A level) in both subjects. EXTERNAL GRANT (PDO)

CODE	COURSES	STANDARD ELIGIBILITY CRITERIA	TIE BREAKERS
EG006	Geomatics Engineering or renewable energy	<p>Required subjects for all qualifications: Math* English and 1 subject The following: (Physics, Chemistry, Biology, Geology) A-LEVELS: C in all required subjects of A2 level. IBD: 31 points overall, to include at least 5 (SL) or 4 (HL) in both subjects. A minimum average of (5.5) in the Academic UKVI exam IELTS, and that the result of any of its elements is not less than (5).</p>	Highest scores in: - Math - English Language

ADDITIONAL INFORMATION

1. Students who do not meet the UKVI IELTS requirement will be excluded.
2. The student must be healthy and pass PDO medical examination procedures.
3. It is a 3 years program after Foundation taught in the United Kingdom.
4. The student must be prepared to study abroad and can adapt to students life.
5. The student should be committed to enroll in the Discipline, University and Country specified by the company.
6. The Scholarship will be terminated if the student failed any academic year during the course of study or if he violated any of the regulations and/or procedures governing the company's scholarship.
7. For Inquiries regarding the program, please send an E-mail to: M.scholarships.enquiries@pdo.co.om

MILITARY TECHNOLOGICAL COLLEGE

- Important note: Students should review all additional information for admission requirements for applicants in the programs below.

CODE	COURSES	STANDARD ELIGIBILITY CRITERIA	TIE BREAKERS
MT011 (Male & Female)	Military Technological College	Geomatics and Survey Engineering	-Math
MT012 (Male only)		Bachelor's of science in Quantity Surveying	

ADDITIONAL INFORMATION (MT011, MT012)

- The following information for MT011 :
- The study will be in MTC campus.
- No job guarantees for Geomatics and Survey Engineering students.
- MTC offers the following for Geomatics and Survey Engineering students:
- 2 meals during the week only.
- Laptop, IT and Internet Services
- Using the gym, entertainment centre, LRC , medical center service (only primary care), exhibition hall , auditorium, barbershop and shopping center.
- Students can join the students' activities and committees, participate in the events and lectures related to the students.
- Students are insured against risks within the campus.
- The following information for MT012 :
- The study will be in MTC campus
- MTC offers the following for BSC students:
- 2 meals during the week only.
- Laptop, IT and Internet Services.
- Using the gym, entertainment centre, LRC, medical center service (only primary care), exhibition hall, auditorium, barbershop and shopping center.
- Students can join the students' activities and committees, participate in the events and lectures related to the students.
- Students are insured against risks within the campus.
- **No job guarantees for BSC students.**
- Complete the requirements of General foundation Departments (within 1 years at maximum), plus Average 5.5 in the Academic IELTS as minimum. If the student has a valid certificate of Academic IELTS exam with a minimum score of 5.5 before the Academic Year (23/2024) starts he is allowed to join Engineering program once he passes the entry tests for the foundation program modules (Basic and Pure Mathematics, Physics and Computing) with a minimum score of 60% each. Modules descriptors are available in the college website.

MILITARY TECHNOLOGICAL COLLEGE ENTRY REQUIREMENTS (GEOMATICS ENGINEERING AND BACHELOR OF SCIENCE IN QUANTITY SURVEYING) :

1. Complete the 2023/2024 general Education diploma or its equivalent.
2. Complete the General Foundation Programme (GFP) requirements in one academic year as maximum.
3. Graduates will obtain a Diploma in Geomatics and Survey Engineering or a Bachelor of Science in Quantity Surveying as per the programme they are accepted into.
4. No military training for students accepted in this programmes.
5. The programmes include academic study only and as civilian students, they will not have a guaranteed job.
6. The college has the right to amend its laws and regulations as required by its policy.

• Clarification for students (IB):

- Maths AI=Mathematics Applications and Interpretation (SL or HL)

Architecture and Building

Art mixes with science, design and technology, architecture and construction come to the fore ...

Do you know that the built environment in which we live was designed by architects? An architectural designer may work in the field, or he may spend most of his working hours behind a computer screen, as this is a wide field includes several disciplines such as landscape architects, gardens design, parks and open spaces, whereas, the interior designer focuses on the interiors of homes and commercial centers, airports, schools and more. Other majors have been found to keep pace with the development process in countries, such as city planning and real estate management, facilities management and property management, for example.

The founders of the major global companies such as Apple...

and Facebook didn't realize that the field of information technology will make them the most famous and richest in the world. Technical Information experts who have the ability to apply computing in various fields can find solutions to problems, so they are among the most important active elements in any institution, whether in the government or private sector.

If you want to learn how to apply information technology in organizations, software, hardware and communications design, specializing in information and communications technology, then it is the right major for you, but if your inclinations are purely theoretical in the field of information technology and you can learn the basics of computing, software and software systems and computers; of course you want to major in computer or computing science. . And if you choose the field of software engineering, you will learn how to develop and maintain software systems, and may specialize in a similar field which is computer Information systems which has a more in-depth understanding of how extensive information systems are built, such as databases, websites and tabular data.

Let's suppose that you aspire to become an expert in computer network protection, so you have no more suitable choice than specializing in network security, and if you want to study the forensic aspect of information technology, there is no more appropriate specialization than computer forensic analysis or digital forensic science, which is related to forensic evidence that is found on computers and digital media. As for the management information systems major, it is the ideal choice for those who wish to study the relationship between humans and technology in institutions and how to invest human competencies with a focus on the technical side. And let's not forget the systems and networks administrator who activates accounts, installs and configures servers and computer adapters, monitors network performance, and fixes technical problems.

STUDY GRANTS : UNITED ARAB EMIRATES

Education

The profession of Teaching is ancient ...

and ancient as human, and it deserves respect and appreciation, and it is considered as one of the main pillars of the progress and development of nations, rather than being a great and sublime message before it is just a job. Specializing in the field of education allows you to go through this experience full of ambitions and challenges, to rise generations, spread science and knowledge, create the future, and build civilizations.

And if you choose this field, you will have several options for study programs, which are intended for those who wish to become a teacher in the schools of the Sultanate of Oman. Or there is another area for those who wish to specialize in education in order to help children with special needs overcome the challenges that they encounter in the way of learning, which is the specialty of special education, and for the specialization of a pre-school child, it gives you the opportunity to deal with young children up to the age of six and teach them and their upbringing.

EXTERNAL SCHOLARSHIPS FOR PROSPECTIVE SECONDARY SCHOOL TEACHERS

Notes:

employment requirements
in the Ministry.

Recipients of these
scholarships sign pledges
to work for the Ministry
of Education after
graduation

The student must present
a certificate of good
conduct during the
personal interview

The student must pass
the personal interviews
determined by the
Ministry of Education

EXTERNAL SCHOLARSHIPS : UNITED KINGDOM

CODE	COURSES	STANDARD ELIGIBILITY CRITERIA	ADDITIONAL INFORMATION
ED006	Mathematics for Secondary School Teaching IN THE: UNITED KINGDOM	Math* A-LEVELS: minimum 2 (A level) subjects, to include at least A (AS Level) or B (A level) in Math. IBD: 27 points - 6 (SL) or 5 (HL) in Math (AA,AI) IBC: 29 points overall, to include at least 6 (SL) or 5 (HL) in Math (AA,AI)	-Math
ED007	Physics for Secondary School Teaching IN THE: UNITED KINGDOM	Physics + Math* A-LEVELS: Successful completion of 2 subjects as a minimum (A level). -At least A (AS level) or B (A level) in Physics, -At least B (AS level) or C (A level) in Math. IBD: 27 points. - 6 (SL) or 5 (HL) in Physics. -At least 4 (SL) or 3 (HL) in Math (AA,AI) IBC: 29 points. - 6 (SL) or 5 (HL) in Physics and at least 4 (SL) or 3 (HL) in English or Math (AA,AI).	-Physics

• Clarification for students (IB):

- Clarifications for IB Students : Math AA=Mathematics Analysis and Approaches (SL or HL)
- Maths AI=Mathematics Applications and Interpretation (SL or HL)

• Clarification for students (A-level):

- Clarifications for A-level students: Math =Mathematics or Further Mathematics (AS or A level)

The university - in this case - is not obliged to offer another place to the student.

Management and Commerce

Management and Commercial transactions ...

are among the broad fields of study that branch into many disciplines. If you are interested in this field, you can specialize in administration and business, finance and accounting, Islamic banking and finance, or human resource management.

In the field of business, you can choose a minor, such as business studies, business administration, commercial studies or commerce. One of the most prominent majors in this field is the international business major, which focuses on how to manage institutions in light of the changing global economy. This major may also give you the opportunity to learn another language. And if you want to start your own project or be the pioneer of a business project, then the major in entrepreneurship/initiatives is the right choice for you. As for project management, you have two majors: project management and entertainment projects management.

And let's not forget the specialization of logistics management or supply chain management, which is concerned with managing the flow of materials, products, and deals, starting with the source and ending with the customer. Do you have a desire to acquire communication skills? There is no specialization more suitable for you than majoring in public relations or marketing and advertising.

Did you know that tourism is one of the most promising sectors in the Sultanate of Oman, which has started to grow rapidly recently? If you want to join this sector, all you have to do is choose one of the specialized programs such as hospitality management, which branches into event management, hotel management, and tourism management.

Society and Culture

Today's labor market needs are increasing ...

in need of cadres with good communication skills, teamwork, technical, analytical, and critical thinking, in addition to problem-solving skills. If you feel the desire to acquire these skills, you have several options to study.

Specializing in economics, for example, gives you the ability to use and exploit resources to achieve production and stimulate consumption, and qualifies you to work in more than one job. As for studying law, it will open wide horizons for you to learn the social system, how to resolve conflicts and maintain order in society, as well as learning how to write and speak in a solid language, and develop analytical skills, problem-solving and Communication, which is your first step to joining the world of law. However, you should know that not everyone who studies law will have a legal profession. Criminology is an independent science in itself.

Through your study of this science, you can know the reasons behind people committing crimes, and trace the effects and consequences of crimes on society. As for psychology, it focuses on the study of human behavior and mental functions. In general, psychologists are very interested in the study of "How do we think?" Or act? Or interact? Or feel? » You must pay close attention to the difference between a psychologist and a psychiatrist, as they are two different specializations and two completely different professions.

As for information science, it is one of the important disciplines that helps in acquiring the skills of analyzing, collecting, classifying, storing, retrieving, transferring and preserving information. Library science will also prepare you for these skills at more advanced levels.

Do you want to study sciences and humanities in one template? We advise you, then, to enter the world of geography, which is concerned with the study of human, social, physical and environmental interaction, in order to understand well what are the real problems that occur in our world today, such as climate change and the global economic crisis.

Are you passionate about developing your language skills? Would you like to speak fluently in both English and Arabic? The translation and interpretation majors prepare you to acquire language skills in these two languages, and the languages and translation majors give you the opportunity to acquire new languages and get to know other cultures.

Creative Arts

What do you know about the creative arts ?

It is not just plastic arts or visual arts, it is a much more comprehensive path that contains a huge number of options so that the picture is clearer. Do you like following current events, writing them, and communicating them to others? Do you care about topics that occupy public opinion and do you feel a desire to write about them? If your answer is yes! You are closer to the media and communication major. And if you choose to study journalism, you will be skilled in professional writing, and you will have a wide choice of jobs in the future.

While the major of mass communication and/or media studies includes various branches such as advertising, marketing, mass media, management, public relations, public affairs, and counseling, and these fields may accompany you to enter other windows such as law and psychology. Q and political science or economics.

Also among the creative arts are TV, media and film production specializations that qualify you to make television, video and short films. Have you ever been curious to know what happens behind the scenes of radio programs while you are listening to the radio? Or what happens behind the TV screen? Of course, those who have the ability to manufacture audio and video broadcasts and transmit them to us in their final form are people specialized in the field of radio and television broadcasting, and we should not forget the field of digital media and visual effects, which is no less important than its predecessors. The media needs today for people who are able to control visual effects in films and animations. and various media.

And for those who have an interest in the world of museums and exhibits and how to highlight the cultural heritage of countries, the major in museum studies will meet this interest. As for plastic arts or fine arts, it is a field that needs no introduction. R in the arts of painting and sculpture, which you also find in another specialty, which is the arts Visual arts, which gives you the opportunity to learn drawing, design, handicrafts, photography, film and video making. If you choose to focus on one art more than others, you have different specializations, such as photography, fashion design, graphic design, and animation.

A close-up photograph of a person's hands resting on a laptop keyboard. The person is seated in a wheelchair, with the wheelchair's frame and wheels visible in the background. The image has a soft, purple and blue color palette. A dark blue horizontal bar is overlaid across the middle of the image, containing the title text. There are decorative elements of colored dots: a vertical column of seven dots (four blue, three yellow) on the top left, three yellow dots on the top right, and a horizontal row of ten dots (seven blue, three yellow) on the bottom right.
