Introduction

Dear Grade 12/Year 13 Student,

This Student Handbook is designed to assist you, the student, to submit your online application to the higher education admission center (HEAC) in order to competitively apply for seats, scholarships and grants for entry to higher education. In order to competitively apply, you will need to at least register as an applicant and obtain a username and password by visiting the HEAC website (www.heac.gov.om) before 01/06/19.

Before you register, we advise you to first read carefully the content outlined in this handbook that contains an overview of the registration procedures with which you are expected to be familiar. Also included are guidelines about how to select your programme preferences and an overview of the minimum requirements for the programmes listed for the academic year 2019/20.

The period of April and May comprises of the so-called *registration phase* which takes place prior to you sitting for the second-term final school examinations. The purpose of this phase is to provide you with an opportunity to carefully select programmes, while you may want to consult others during this period to help you select suitable programmes and start ranking them in order of personal preference. During the registration phase, you will need to at least register and obtain a username and password while you are advised to already select as many programmes as you can by filling out the online application form.

Don't worry – as long as you registered as an applicant before the 1st of June 2019, you *will* be provided with another opportunity to make changes in your list of programmes (e.g. add or delete programmes) and to make changes in how you ranked your programmes preferences during the so-called *re-application period* in July after the second term final examinations are announced. We strongly advise you to read the timetable in this handbook as you need to be aware of the important deadlines and able to *timely* submit your online application.

While every effort has been made to ensure that this book is accurate and up to date, it may include typographical or other errors. Any changes made to this publication will be incorporated in the online editions on the HEAC website.

We wish you the best of luck,

Higher Education Admissions Center (HEAC)

The Higher Education Admission Center

The Higher Education Admission Center (HEAC) is one of the Directorates of the Ministry of Higher Education, in charge of coordinating with the concerned authorities to enroll eligible applicants who have obtained the General Education Diploma (GED) or its equivalent certificates, to higher education institutions (HEIs). It also receives, reviews, and registers all student applications through an electronic system that can be used online and/or with the support of an SMS service and smart phone application (ELTAHIQ).

HEAC Admission System:

The HEAC electronic system designed to receive, review, and register all student applications to higher education programmes, external and internal scholarships and grants for undergraduate level and competitively select students who meet the eligibility criteria as published in the Guidebook.

Application form:

The online application submitted by the student, including his/her programme preferences and is available in the Admission System at HEAC website.

Who can apply to HEAC Admission System for Undergraduate Level?

The following categories of students are eligible to apply and compete for scholarships, seats or grants through the HEAC system:

1. Omani students who are sitting for the **Omani General Education Diploma Examination** in the school year 2018/2019.
2. Omani Students who **obtain qualifications that are equivalent to General Education Diploma in** the 2017/2018 school year. This category includes, for example, students of the Royal Oman Guard Technical College, Islamic Institutes, Private Bilingual Schools, Community Schools and Private Schools offering international certificate programmes in the Sultanate of Oman.
3. Omani students studying **outside Oman** who are sitting for school examinations which are considered to be **equivalent to the Omani General Education Diploma**

Examination in the school year 2017/2018.

4. Students entitled to acquire Omani nationality or those exempted, who have completed **General Education Diploma or equivalent** in the school year 2017/2018.

Registration Requirements

A student must meet all of the following conditions to be eligible to apply to government-funded scholarships, seats or grants:

1. Student must be an Omani national.
2. Student must pass the General Education Diploma examination or its equivalent in the current school year (recent graduate).
3. Student should not be older than 25 years old or younger than 16 years by the 1st of October in the current school year (born after 1/10/1994).
4. Student should fulfill the programme requirements mentioned in the programme section in the Student Guidebook.
5. Students who registered in (Adult Education System), working in the (public or private) sector, and fulfill the above-mentioned requirements can apply to higher education programmes. They must provide the institution with no objection certificate from their employer to be registered as full-time students.

Competitive Score

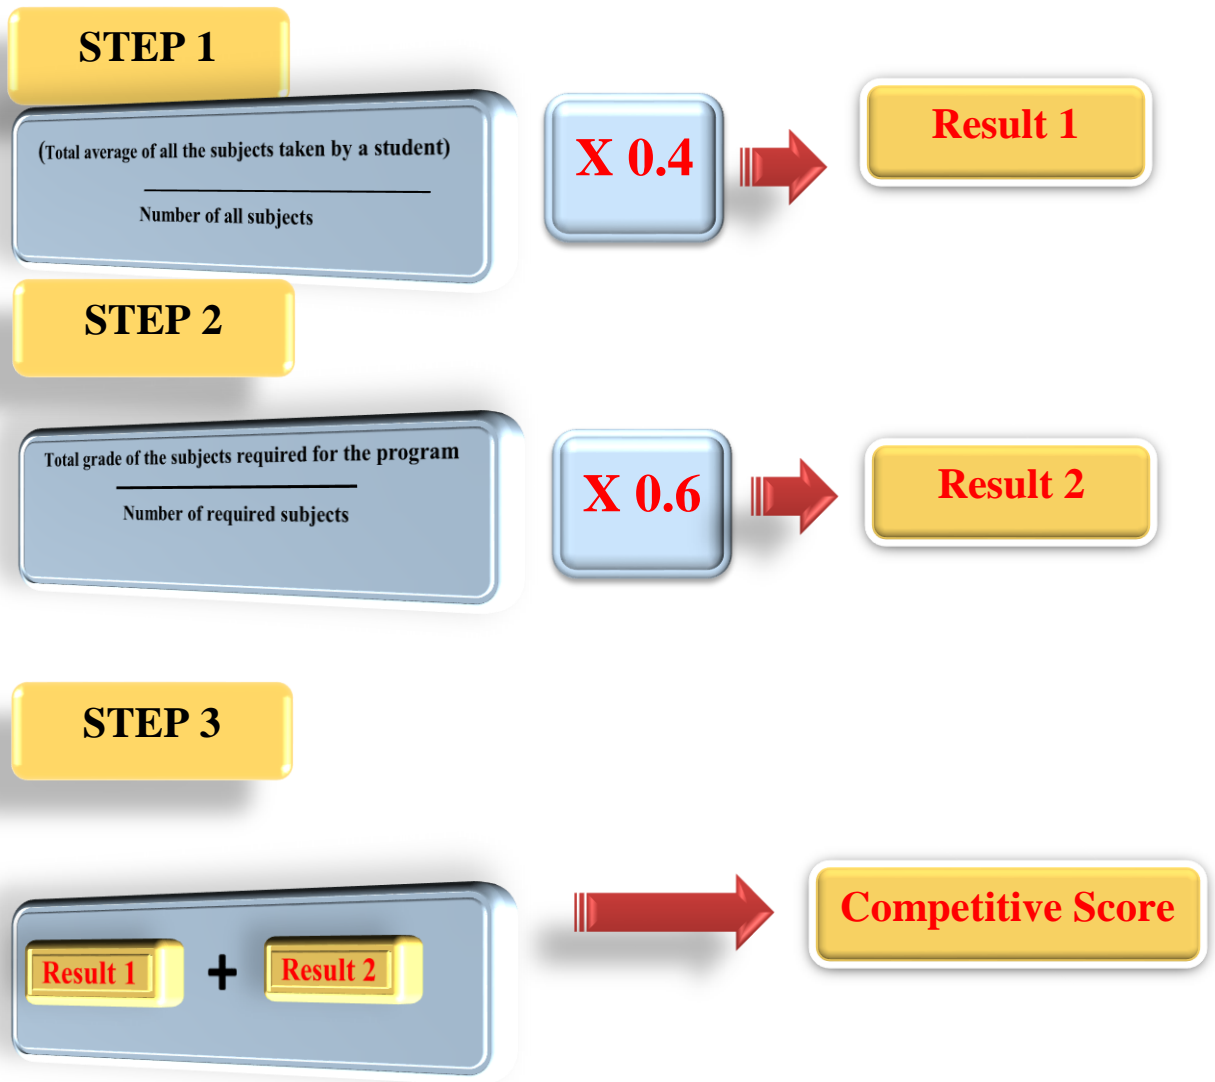

It is the criterion that defines an applicant position in the list of eligible candidates, based on (his/her) scored marks (grades) in the General Education Diploma exam, it may vary for the same student from one programme to another based on his/her marks in the subjects required for the programme (specialization).

The arithmetic formula to calculate competitive score is as follows:

$$\text{Competitive score} = (\text{Average of subjects required for a specialization}) \times 60\% \text{ or } "0.06" + (\text{Average of subjects taken by the student}) \times 40\% \text{ or } 0.04$$

How to Calculate the Competitive Score?

Figure 1

GED Students Who Re-sit Final Examinations

- Students shall apply for programmes during the indicated registration period, regardless of the exam results. Those who re-sit final examinations, and who do not register or make changes to their programme preferences after the release of final GED results, will not be able to do so afterwards.
- Those who fail in one subject or more in the first round exams should select and make changes to their programme preferences due deadlines, in order to avoid losing his /her right to compete with other students if he/she passes the second round exams.
- Students shall select academic programmes according to their preference and their predicted results that reflect their real levels at school.
- **Students who re-sit final examinations will not be able to apply to programmes requiring personal interviews, admission tests, or medical checks because deadlines of the mentioned admission procedures end before the release of re-sit examinations results.**
- HEAC will generate eligible programmes for applicants after the release of second round results based on the last Competitive Score of the programmes arranged by him/her. Their competitive scores should be higher than or equal to the last competitive score accepted in that programme in the previous allocation.
- Student have the right to claim a programme seat he/she is entitled to the next academic year, if all programme's seats have been occupied and there are no vacant after the first allocation for that specific programme or 1st semester has started, or the institution does not accept new student after a certain date.

Students with Disabilities

- Students with disabilities shall select programmes that are convenient to their type of disability.
- For example: a student with a physical disability should not apply for programmes that require physical fitness, since it contradicts with the requirements of that programme.
- The types of disabilities are categorized by the **Ministry of Social Development** as follows:

Visual	Physical	Dawn's Syndrome
Hearing	Mental	Autism

- In case the student registered in the Admission Electronic System, he/she shall specify the type of his/her disability from the above mentioned, and the system will generate the eligible programmes that accept his/her type of disability.

Students Holding Certificates Equivalent to GED or International Qualifications

- The following students should enter their personal details through the registration screen in HEAC online system: Omani students who obtain certificates equivalent to GED from outside Oman, Omani students who obtain international qualifications from outside Oman, and Omani students who obtain certificates equivalent to GED from the communities' schools inside Oman. Failure to upload the details accurately would deprive students of getting their entitled seats. **Moreover, those students will not be eligible to compete for the offered scholarships, seats or grants or their registration will be cancelled unless they upload a copy of their final transcripts, civil card, and equivalency letter (when required) to the specified link at HEAC system.**
- Students holding certificates equivalent to GED, international qualifications, vocational certificates or specialized secondary school certificates should register and select programmes during the specified period – regardless of their results in the first semester if available – and they will not be able to register or change their choices of programmes after the release of their final exam results.
- HEAC will allocate students with international qualifications and certificates equivalent to GED, whose results are announced after the first allocation round, according to their arrangement of programme preferences, provided that their competitive scores are higher than the last competitive score allocated in that programme.
- A (technical team) will be assigned to sort and verify the certificates equivalent to GED. Upon this committee's decisions, the application will be processed. Further, there is a student guidebook for international qualification holders available in both Arabic and English.
- Students holding certificates equivalent to GED and international qualifications from inside and outside Oman should upload the following documents into HEAC system through the specified link:
 1. Copy of the final certificate or transcript (immediately after the release of final results)
 2. Copy of the civil card (front and back photocopy), or passport. (valid)

3. Equivalence certificate from the Ministry of Education (if needed). Note that certificates awarded by public schools at GCC countries, or private schools which apply the public education system in the GCC countries do not require an equivalence certificate from the Omani Ministry of Education **except for certificates issued in the Kingdom of Saudi Arabia.**
- In case a student has obtained a temporary Equivalence Certificate from the Ministry of Education, he/she will be followed up by HEAC concerning his/her final examinations results. If the student's certificate is proved to not fulfill the equivalency conditions, his/her seat will be terminated.
 - Students who study foreign qualifications and their scores are issued in letter grades, shall attach the (grading system/ grading scale) from the certificate's issuing authorities mentioned in their grade transcript (usually at the back side of the transcript) or any relevant document from the issuing authority. Otherwise, their results will be converted according to Omani GED grading system by calculating the average of each score.
 - HEAC coordinates with the HEIs in order to consider the applications of Vocational and Specialized Secondary School Certificates' holders who are not able to select programmes at HEAC system because of their different study nature. HEAC will not consider any application unless the student is already registered in the system (has a username and password number) in due time.

Saudi Arabia Secondary School Certificate holders

Omani students holding secondary school certificates from the Kingdom of Saudi Arabia shall provide an equivalence certificate issued by the Omani Ministry of Education (MoE), which requires student to set for the National Center for Assessment tests (General Aptitude Test GAT) and (Summative Assessment Test SAT) and inform HEAC with the tests results to be eligible to compete on higher education institutions programmes, internal and external scholarships and grants.

- GAT and SAT results will be considered while calculating the competitive score.
- Students shall upload photocopies of the following documents in the specified link:
 1. Final certificate or transcript
 2. GAT results
 3. SAT results
 4. Equivalence certificate from (MoE)
 5. Civil card or passport (front and back sides)
- The method for calculating the competitive score of this category of students:

STEP 1:

$$\frac{\text{(Total average of all the subjects taken by a student)}}{\text{Number of all subjects}} \times 40\% + \frac{\text{Total grade of the subjects required for the program}}{\text{Number of required subjects}} \times 60\% = (\text{result 1})$$

- (result 1) x 30% = (result 2)
- **STEP 2:** GAT results x 30% = (result 3)
- **STEP 3:** SAT results x 40% = (result 4)

$$\text{Competitive Score} = \text{Result 2} + \text{Result 3} + \text{Result 4}$$

Student can upload the required documents as illustrated in the following steps. Documents must be uploaded in PDF format only and the size should not exceed 512 KB. **The link of uploading documents will be available starting from the 1st of July 2019.**

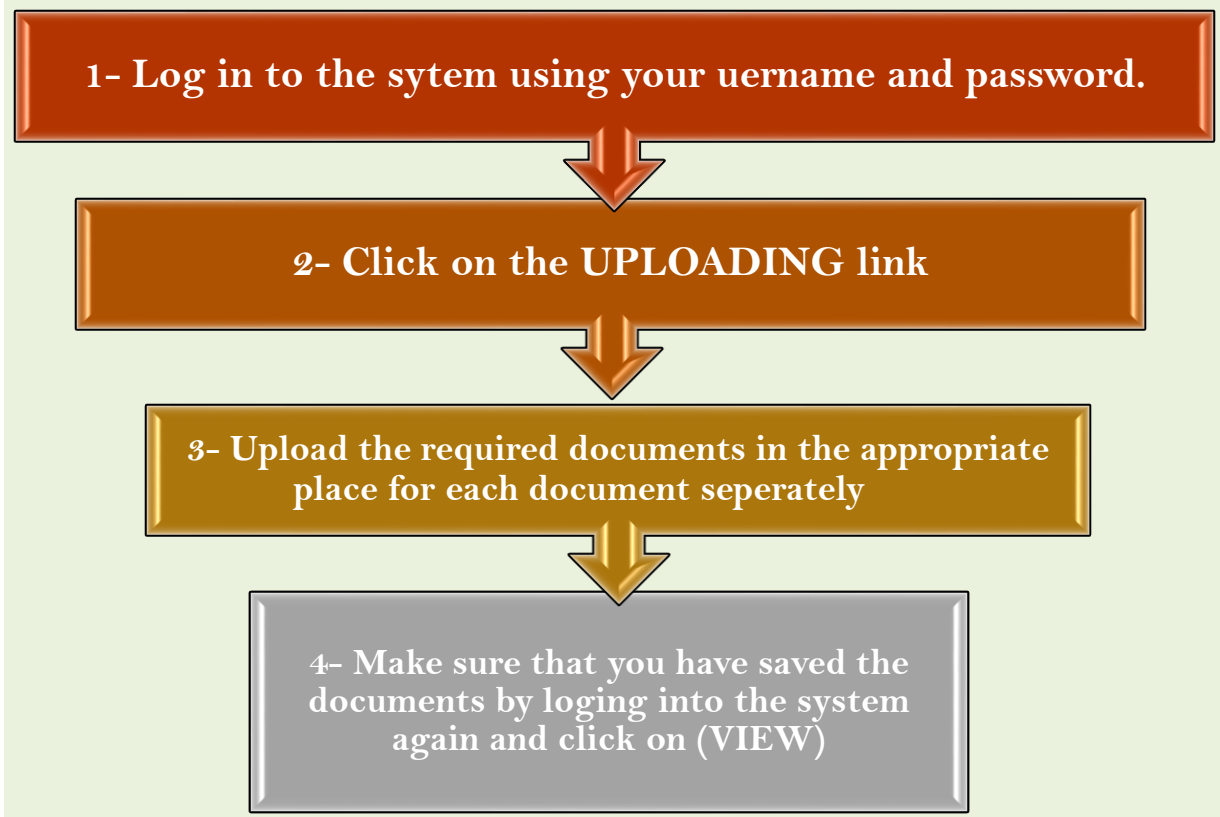

Figure 2

Registration and Admission Procedures

Stage	Procedure	Deadline
Registration	Registration (applying through the HEAC electronic system)	1 st of April to 1 st of June 2019
Trial Allocation	Announcement of Trial Allocation Results	1 July 2019
Re- applications	Change of Course or Programme Preferences	Applicants will be given an opportunity to make changes in their programme preferences for a specified period after examination results have been announced. The exact closing date will be announced on HEAC website.
Admission interviews/ tests	Announcement of candidates to set for admission tests, interviews and medical checks	One week after deadline of re-applications period
	Carrying out interviews and medical checks	Interviews appointments will be announced for each HEI, schedule will be available on the HEAC website.
First allocation	Programme offers: Announcement of first allocation results	After finishing all interviews and medical checks.
	Accepting offers and Registration at the HEIs	One week following the announcement of first allocation results
Second allocation	Announcement of new and vacant programmes (if available)	One week after the first allocation process ends
	Applying for new and/or vacant programmes	One week after the announcement of new and vacant programmes
	Announcement of second allocation results	One week after the deadline of applying to new and vacant programmes
	Deadline for accepting second allocation offers and registration at the HEIs	During a week after the announcement of second allocation results

Admission System General Procedures

You must read this Guidebook carefully since it contains all information a student needs to know, whereas HEAC website contains frequently asked questions with their answers.

- You may try to call the center, but we do not recommend this because a lot of people, undoubtedly, will be trying to contact us, and you would have difficulty reaching us due to busy telephone lines, so the best way to contact us is through e-mails (public.services@mohe.gov.om), or social media websites (Facebook – Twitter), through which we can receive as many messages as possible at the same time and answer them.
- Students of non-Omani father who acquired Oman nationality, or those of Omani mother and non-Omani father should provide HEAC with an evidence from the Ministry of Interior, proving their eligibility to apply for the public higher education seats in Oman.
- Admission applications for the Academic Year (2019/2020) will be treated in accordance with the procedures and timetables published in this Guidebook. Students will be notified of any subsequent changes through the HEAC website, as well as, the various media. It is, therefore, your responsibility to be absolutely aware of these updates. It is also your responsibility to check your eligibility (=whether you meet the minimum requirements) to competitively apply for any programme you choose.
- The various HEAC procedures are designed specifically to ensure that all applicants are treated fairly. However, bear in mind the following:
 - Fairness means treating all applicants equally; it does not mean making special arrangements for some applicants who have ignored the rules and instructions. You must realise that your actions may also have an impact on other applicants who have equal rights.
 - You must react reasonably and carefully, without expecting any special treatment in terms of applying system procedures, because this may not be fair to others.
 - If you have followed the procedures correctly, you will not be deprived of any seat to which you are entitled.
 - You will be informed of any programme seat have been offered either through HEAC website or through SMS message will be sent to the mobile telephone number which you have registered in the system. You should, therefore, frequently login to HEAC admission system to check whether there are any updates and keep your mobile phone switched on at all times. HEAC will not be responsible if your mobile phone was switched off or you were travelling.
- **Travelling abroad is not an excuse for students who did not take actions required by HEAC before the relevant deadlines, HEAC will not be responsible for any offer you miss.**

- The HEAC admission system does not allow accepted students to request transferring to another HEI, or change to another programme in the same HEI, unless he/she received another offer from HEAC. Student may require to transfer to another HEI after the end of all allocation processes by referring to the same HEI and not to HEAC, as per laws and systems applied in that HEI.

Steps Before Registration at HEAC system

- 1 Read this Guidebook carefully
- 2 Look for additional information about the programmes you choose
- 3 You can watch a video about registration on the Library section at HEAC website
- 4 Arrange your programmes in order of preference and consult your parents and career guidance specialist at you school

Figure 3

First: Registration Phase from 1st of April to 1st June

The first registration period will take place from the 1st of April until the 1st of June 2019. You can make changes in your programme preferences after the announcement of final examination results. You are, therefore, advised to include your programme preferences in the form included in this handbook and keep it so you can remember your choices of selected programmes.

In order to register at HEAC Admission System, you have to login to HEAC website (www.heac.gov.om), and create an account by getting a username and password.

1. Carefully read through the student guidebook guidelines, procedures, program requirements and decide which academic programmes of study you wish to select.
2. You can submit your application (register) through HEAC website, SMS or mobile application (ELTAHIQ) through online application form with no less than 12 programmes preferences you are eligible for. Your choices may include different programmes in public and private HEIs, and external and internal scholarships and grants in the HEIs inside and outside the Sultanate.
3. All students must register and choose programmes during the specified period and they have to meet the registration deadline – regardless of the outcome of the first semester exam results. There will be no opportunity for students who re-sit the GED examinations to register or change their program preferences after the release of the second round examination results.
4. Students should verify their personal details (name, date of birth, gender, national civil number, etc.) **In case of any incorrect information, they should contact the Directorate General of Educational Assessment at the Ministry of Education on the following numbers: (24127001- - 24127091 -24127087 – 24127043-24127090 24127105 24127100- 24127144 -24127123 – 24127089 – 24127020 – 24127077- 24127130 -24127101)**
5. Social security students should verify their details as provided by the Ministry of Social Development and indicate the department or center from which they have obtained their Social Security Card. In case of discrepancy, they should contact the following number: (24694552) and inform HEAC accordingly before the 30th of July 2019. **To contact the Social Development Offices in the governorates they may access HEAC website to obtain their phone numbers.**
6. All Social Security cases should be verified by the Ministry of Social Development to be eligible to compete on Social Security seats.
7. Fill all required information and required details and make sure that you provide your mobile numbers and e-mail address which would enable HEAC to contact you for seat offering. It is, therefore, necessary to provide us with your correct mobile

number and email address so that you can receive important messages from HEAC such as an offer of a seat, scholarship, grant or a change in the admission requirements, etc. It is always preferred that the mobile number should be your own and is not used by any other person in order not to miss important messages from HEAC such as a program offer SMS, or a change of program requirement which may affect your future. If you are using another person's mobile number, then you should have full confidence that the person concerned will provide you with the exact information received in the mobile number in due time.

8. The system will send a short text message to your mobile number to inform you of any change or update in your personal data, for example: "phone number".
9. Higher education institutions and the Ministry of Higher Education specify the minimum admission requirements for each program. You should, therefore, carefully read these requirements before applying for a specific program. Hence, when you competitively apply for any program you should ensure that you satisfy the minimum entry requirements for that program, and your grades in each required subjects. For example, if Biology is a part of the requirements of a particular program, you should use your common sense and refrain from applying to such program unless Biology was one of the subjects you took at school. Otherwise, you will lose one of your choices of the programmes since you do not satisfy one of the competitive conditions for that program.
10. **You should rank your programmes in order of preference.** HEAC system aims to competitively select you for one of your preferred programmes provided you meet the requirements and depending on the competition (other candidates) and available seats. Avoid selecting programmes based on your expected exam results only. Also, avoid guessing and assumption and do not pay attention to rumors. Our advice to you is to keep in touch with the Career Guidance Specialist at your school or region or contact the HEAC if you have any doubt or query.
11. You are advised to apply for the maximum number of preferred programmes for which you are eligible to, and not just for programmes with high requirements in order to have more chances of receiving a seat offer.

Note that all applicants will be allowed to arrange unlimited number of program preferences they are eligible for, but not less than 12 programmes. Only those who are not eligible for more than 12 programmes, can apply less than this number.

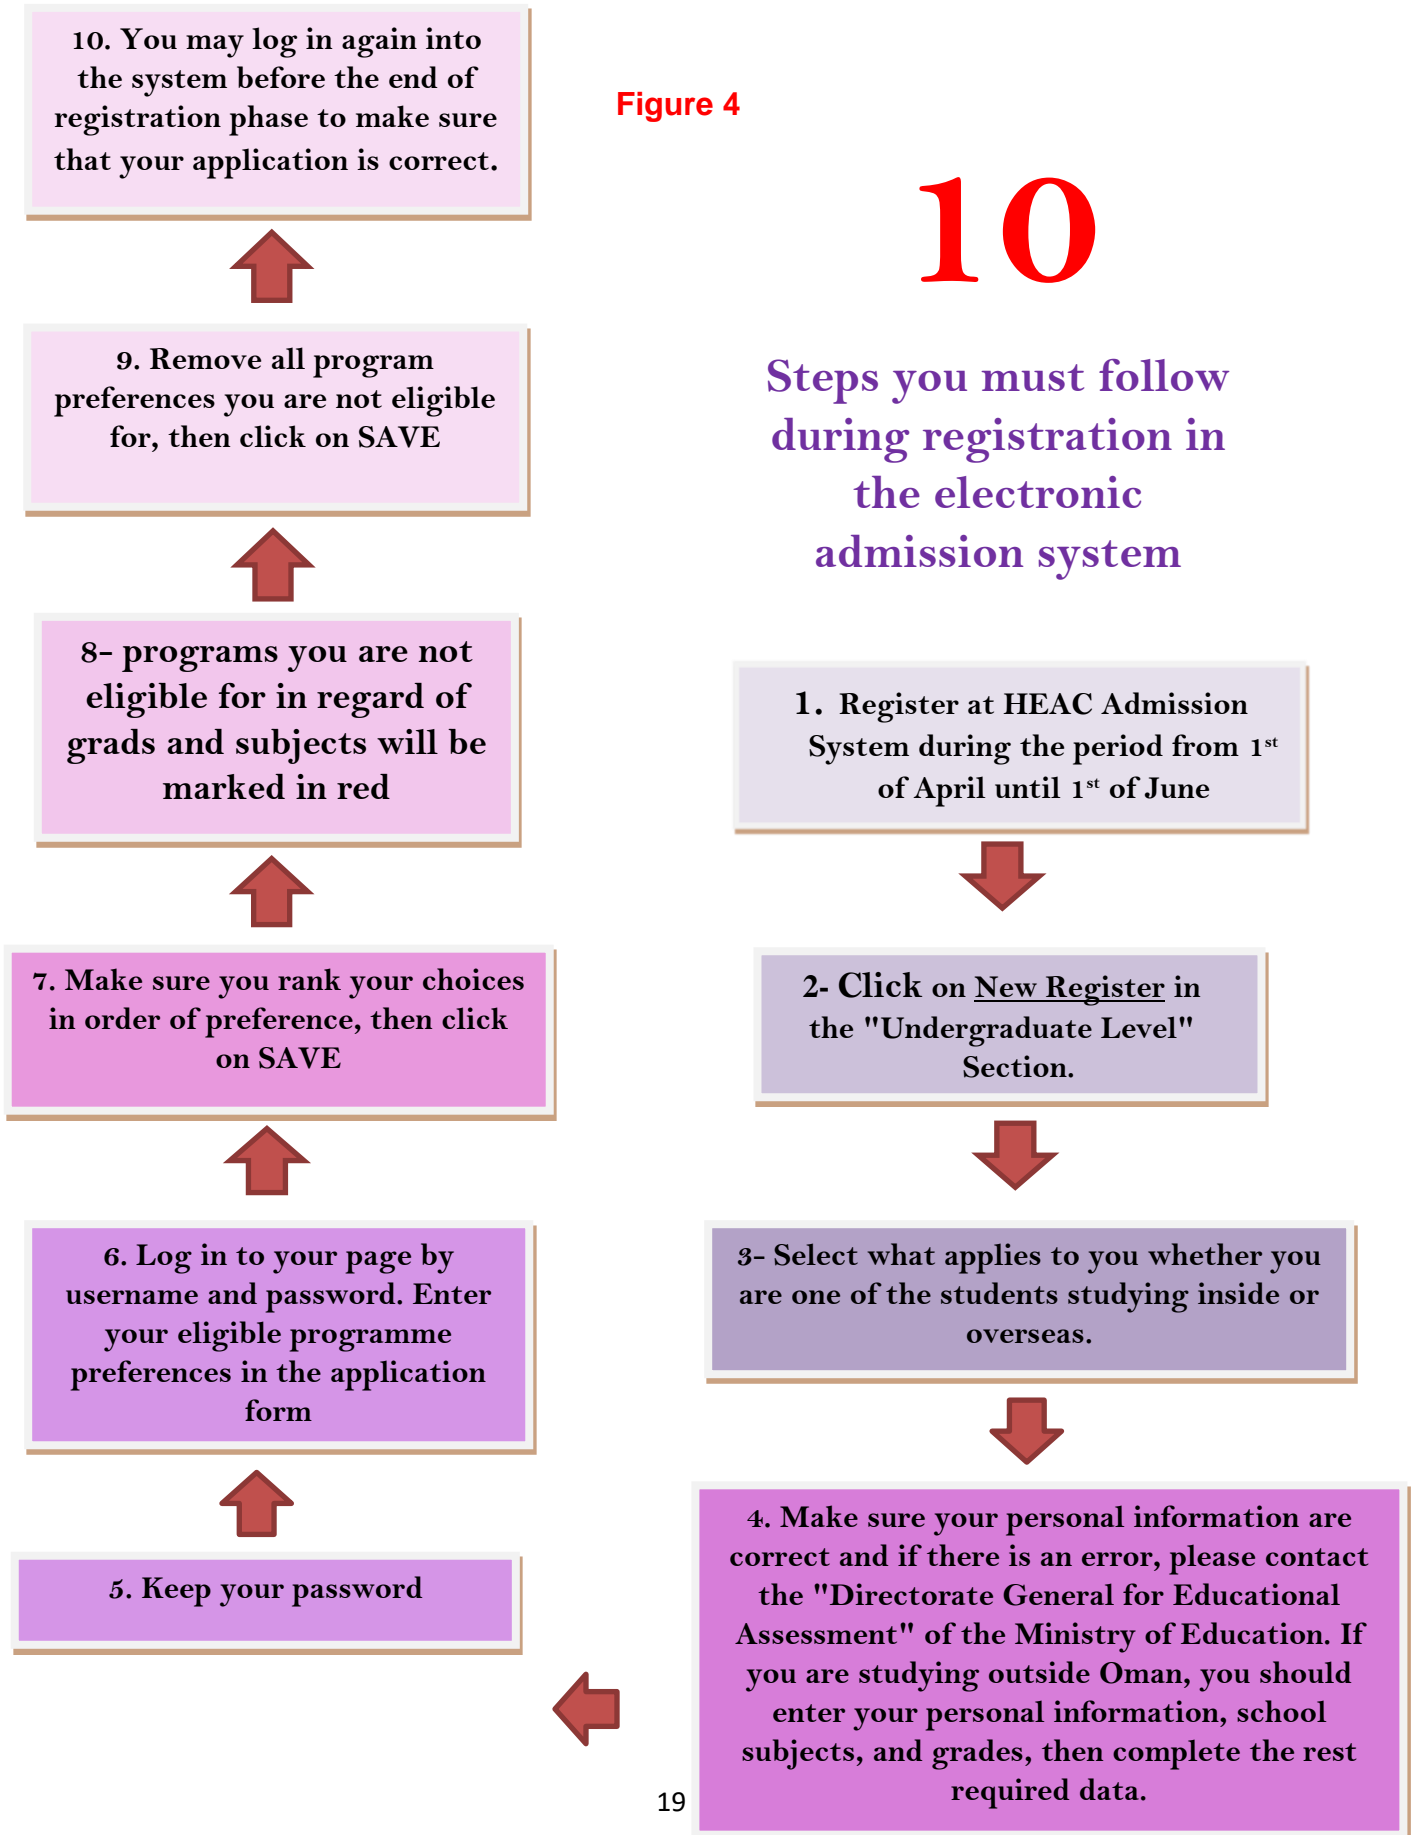

12. Some programmes may require the applicant to have an (IELTS) especially for those who wish to competitively apply for the external scholarship programmes, so make sure that you read carefully all the requirements of your selected programmes.
13. You can competitively apply for the program you prefer the most, even if other students score better than you during the final exam. You do not have to worry in such a situation because the system is flexible; meaning that even if you cannot be competitively selected for your preferred program, then you will automatically compete for your next preferred option (based on your list of ranked preferences) provided you meet the minimum requirements.

14. The Higher Education Institutes may require additional conditions for a particular program. **For example, the region where student resides could be one of the additional conditions when applying for Health Sciences programmes. Therefore, the eligibility will be only for students from the region or governorate stated by the institute. Similarly, programmes related to Fine Art or Physical Education will require additional tests carried out by the institute, and the results of these tests will determine the student eligibility to compete for the seats.**
15. We advise you to select your programmes based on your preference and not on your speculation of what might happen. There is a common mistake whereby many students rank their preferences based on their expected final examination results. **For example**, “some students may hope to study Medicine, but feel they would not qualify. They might, therefore, put Medicine as their fifth preference and another subject as their first. However, you may get the grades required to study Medicine, but by then, it would be too late to do anything because they will have already been offered a scholarship and not be offered a lower preference (which in this case would be Medicine)”.

Figure 4

10

Steps you must follow during registration in the electronic admission system

HEAC Mobile Application (Eltahiq)

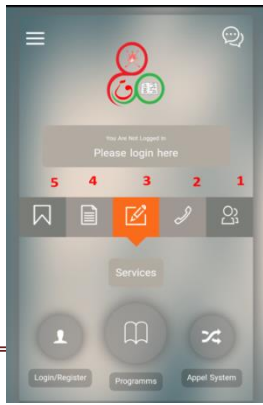

Services provided through Eltahiq Mobile Application:

Through HEAC mobile application, Omani students - who obtained General Education Diploma or any equivalent certificate, from Oman or abroad- will be able to apply to public higher education (HEIs) institutions, internal and external scholarships and grants, and complete all required procedures of such seats, such as:

- 1- Register at HEAC electronic system, set a username and get a password, retrieve password in case you missed or forgot.
- 2- Enter your personal details / modify if needed (mobile number – type of income – type of disability if applicable)
- 3- Enter your school subject grades, and (upload copies of the required documents in case you are holding an international qualification)
- 4- Find out your eligible programmes.
- 5- Select your program preferences from the available public HEIs' seats, internal and external scholarships and grants in Oman or abroad.
- 6- Add / delete program preferences during registration periods.
- 7- View program seat offer after the release of first allocation round.
- 8- Accept / reject program seat offer.
- 9- View important registration dates and deadlines.
- 10- Access to HEAC website and social media pages.

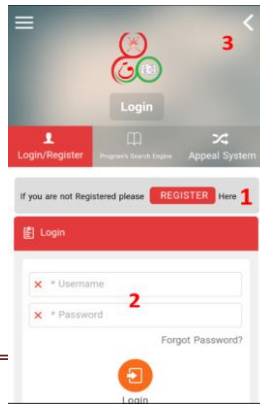

Target group:

Omani students – who have obtained General Education Diploma or equivalent from Oman or abroad, and willing to enroll at public HEIs, internal and external scholarships and grants.

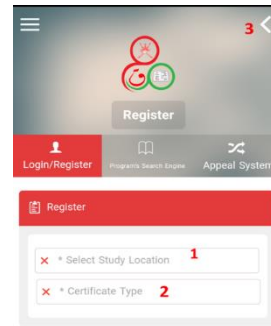

Main Menu

- 1- HEAC social media accounts.
- 2- Contact us.
- 3- HEAC services.
- 4- News (news, announcements, notifications).
- 5- About HEAC, HEAC mobile application, the aim of the application.

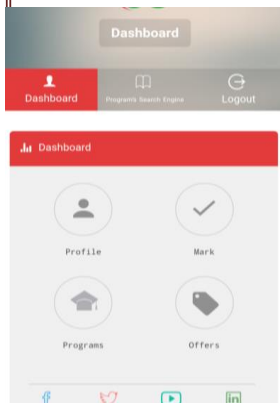

Registration / Login Page

- 1- Click on (Register Here) to register at HEAC electronic system and get a password.
- 2- If you have already registered at HEAC electronic system, you can login to your page using your username and password.
- 3- Back to previous screen.

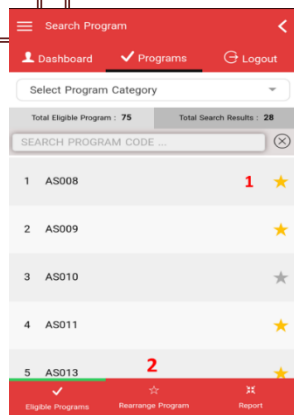

Registration Page

- 1- Select study place.
- 2- Select type of qualification; fill in the required personal information.
- 3- Back to previous screen.

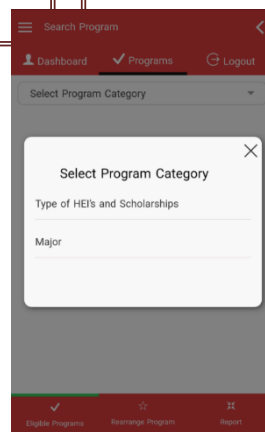

Dashboard

- 1- Make sure required information are all completed.
- 2- Check out your school subject grades.
- 3- Arrange your program preferences.
- 4- View seat offer.
- Students studying abroad shall login through specified link/ page.

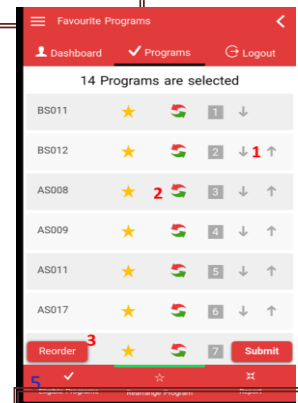

Arranging program preferences

- You may view programmes according to:
 - 1- Type of seat (public seat/ internal scholarship/ external scholarship/ internal grant/ external grant).
 - 2- Program area of study.

Eligible programmes

- 1- You may select your program preferences by clicking (*).
- 2- You may arrange your program preferences through clicking on (Rearrange program preferences).

Rearrange Program Preferences

- You may rearrange your program preferences by:
 - 1- Ascending or descending order using (↑) or (↓).
 - 2- Program numbers table.
 - 3- Clicking on program preferences and moving them up or down.
 - 4- After you finish arranging your program preferences, click on (SEND).
 - 5- Arranged program preference report.

Arranging Your Programme Preferences

How you arrange your programme preferences?

The programmes should be placed based on the order of your preferences, the highest preference first and so on. The HEAC system is designed to give you the best of the preferences for which you are eligible although scholarships are competitively awarded so cannot guarantee that it will award you your first option(s).

For example: Khalid wishes to be an architecture engineer in future. While he arranges his preferences, he focuses on engineering programmes in different Higher Education Institutions (HEIs) in the Sultanate of Oman, besides the external scholarships and grants in Engineering.

The following table is an illustrative example. It contains the first ten options of programmes entered by 'Khalid' and are arranged in order of preference, and the programmes (scholarships) for which he is eligible. *The data mentioned in the table is hypothetical.*

Choice	Program Code	Area	Program Type	Number of seats	Minimum "competitive score " accepted for the program	Khalid's score in his the required subjects	Khalid's status in each program
1	LA020	Engineering	External Scholarships (Country 1)	50	97.6*	96.3	**Not accepted
2	YG004	Engineering	External Scholarships (Country 2)	100	94.6	96.4	Accepted
3	RC105	Engineering	External Scholarships (Country 3)	80	96.2	92.3	-
4	ML067	Engineering	Public Seat (1)	80	93.3	92.3	-
5	TF125	Engineering	Public Seat (2)	50	93.9	93.2	-
6	CL019	Engineering	Internal Scholarship (1)	40	87.6	95.2	-
7	RT032	Engineering	Internal Scholarship (2)	30	89.8	96.3	-
8	ND002	Science	External Scholarships (Country 1)	30	83.4	96.3	-
9	KC602	Science	Public Seat (1)	50	77.5	96.3	-
10	CD193	Science	Internal scholarship (1)	50	95.4	94.0	-

(Table 1)

* The minimum competitive average score accepted was for student number (50) in the list of students who are eligible for this program.

**** Not accepted:** means that Khalid's competitive average score "96.3" is lower than the score "97.6" of the last applicant offered a seat in this program, therefore, Khalid will be in the waiting list for this program.

- From the above table, it is obvious that there are (100) seats available for the second program (YG004) and (50) seats for the fifth program (TF125) and so on.

The question here is: What programmes should be offered to Khalid?

- The program (YG004) comes in the second place in Khalid list of programmes preferences; he will be offered (YG004).

Order of Merit (Seat Allocation)

As an illustrative example, the following tables (3) and (4) show how the electronic admission system compares between applicants. Table (3) contains a list of five programmes for 4 students (Nasser, Fatima, Ahmed, and Aliaa). Each has different preference of programmes. Nasser has (LA001) as a first choice in his list because his dream is to study this discipline. Fatima has the same program (LA001) as third choice, because she wishes to study (ML067) most and if she is not offered this program, her second best preference is (YG004) and if she is not offered this either, then she prefers (LA001) as a third best. It is the same case with Ahmed and Aliaa, the programmes are arranged in the order of preference.

(Data contained in the hypothetical tables for illustrative purposes only):

(Table 3)

Student	Nasser		Fatima		Ahmed		Aliaa	
								
NO. CHOICE	Program	Competitive score of student	Program	Competitive score of student	Program	Competitive score of student	Program	Competitive score of student
1	LA001	85	ML067	87	RC105	92	RC105	87
2	YG004	97	YG004	99	LA001	90	ML067	83
3	RC105	90	LA001	80	TF125	81	YG004	90
4	ML067	88	TF125	82	ML067	85	LA001	78
5	TF125	80	RC105	95	YG004	98	TF125	90
..								
40								

Table (4) illustrates how admission system allocates applicants in the "order of merit" according to the highest competitive score and the number of seats available in each program listed

(Table 4)

Order of students in the program LA001			Order of students in the program ML067			Order of students in the program YG004			Order of students in the program TF125			Order of students in the program RC105		
Number of seats available (2)			Number of seats available (1)			Number of seats available (4)			Number of seats available (5)			Number of seats available (1)		
Student name	Competitive score of student	No. of a program in student list of choice	Student name	Competitive score of student	No. of a program in student list of choice	Student name	Competitive score of student	No. of a program in student list of choice	Student name	Competitive score of student	No. of a program in student list of choice	Student name	Competitive score of student	No. of a program in student list of choice
Ahmed*	90	2	Nasser*	88	4	Fatima*	99	2	Aliaa*	92	5	Fatima*	95	5
Nasser*	85	1	Fatima	87	1	Ahmed*	98	5	Fatima*	82	4	Ahmed	92	1
Fatima	80	3	Ahmed	85	4	Nasser*	97	2	Ahmed*	81	3	Nasser	90	3
Aliaa	78	4	Aliaa	83	2	Aliaa*	90	3	Nasser*	80	5	Aliaa	87	1

*Students who may be allocated in the program according to number of seats.

The system allocates applicants the best option, after arranging all applicants in the "order of merit", the result of allocation will be as follows:

Allocation of program: LA001 - available seats (2)

Seat (1):

Ahmed will be offered the first seat in (LA001) because he scored the highest competitive average.

Seat (2):

-Nasser will be offered the second seat in the same programme (LA001) because he is the applicant who follows Ahmed in the "competitive average".

Allocation of program: ML067 - seats available (1):

Seat (1): Due to the availability of only one seat in the program (ML067) and Nasser has been cancelled from its waiting list since he got his first choice, so this seat will be offered to the next student in the list of "order of merit".

Therefore, Fatima will be offered the seat in this program (ML067) which is her first choice.

Allocation of program: (YG004)-available seats (4), and the program (TF125) - available seats (5)

-Due to the availability of four seats in the program (YG004), and five seats in the program (TF125), (Nasser, Fatima, and Ahmed) have been cancelled from their "order of merit lists" because they have been offered programmes of a higher preference in their programmes list. Aliaa will be offered her third choice (YG004), and since there is no student in the list of "order of merit" for the program (TF125), seats will remain vacant and will be announced to students in the next allocation.

Tie Breaker:

It is the criteria as provided by the HEIs and/or the Ministry of Higher Education to 'break the tie' between students who have equal competitive scores. For example, if the last 5 students who have competitively applied for the Engineering program have equal competitive scores; and there is one vacant seat left, then the Tie Breaker in this program is the one with the highest grade in Pure Mathematics, followed by the highest grade in English Language. Therefore, the student who scores the highest grade in Pure Mathematics will be accepted. In case two students scored equal high grades in Pure Mathematics, the result of the English Language will be the tie breaker.

Second: Trial Allocation

After the end of registration phase, HEAC runs a trial allocation at the end of June, based on programmes students have arranged, and their results in the first semester. **This procedure aims at informing students of the academic program they will be probably offered according to their arrangement of program preferences. It may also contribute to raising awareness regarding the importance of ordering programmes** they wish, with a guardian consultancy, because HEAC system is designed to allocate applicants to their preference choices.

It is expected that if a student and his/her guardian would know the result of the trial allocation earlier before final results, this will help decrease many cases of students not selecting the appropriate programmes, and consequently requesting HEAC to allow them rearrange their program preferences, which is not possible because the system is offline.

The result of the trial allocation is not necessarily the final result; it depends on some factors such as:

- Scoring an equal/ or a higher grade comparing in the second semester examinations.
- Remaining the same order of program preferences entered during registration phase.
- Student's score compared to other applicants of the same programme.
- Student will be given an opportunity to change programme preferences after the release of GED final examination results.

Advice:

- In case you are not offered your first program preference as an offer in the trial allocation, this does not mean that you will not be able to compete on this choice in the final allocation. Therefore, you are advised to prevent deleting your top program preferences in the next phase especially if they are the best preferences for you.
- You may use the trial allocation results in double checking your program choices as per your real preferences and GED or equivalent results.

Third: Re-applications:

- In July, after the release of final examination results, students will be given a chance to make changes in their program preferences selected during the first registration period (from 01/04 until 01/06/2019). This will be the final chance for students to make any changes in their preferred programmes before the first allocation round (final application).
- **Students who re-sit the GED examinations, and those students whose final results are announced later than July** must make changes in their program preferences, if they wish to do so, in this period (July) because they will not be able to change preferences later after the announcement of GED re-sit examinations results.
- Students must follow up with any updates and changes that may occur in programmes through HEAC website.
- In case you forget or lose your password number, you can retrieve it by sending an (SMS) from your mobile number to (90190) by typing (R) followed by your Civil Number. You will receive an SMS message from HEAC providing you with your password.
- Students must validate their personal data, study subjects and exam results by entering the system using their usernames and passwords.
- Students can view their eligible programmes through "[the eligible programmes link](#)" available at the Admission Electronic System.
- In case there are some programmes that appear in red and you do not delete them, you will not be able to save any changes. Therefore, delete such programmes and save the changes.
- You may be offered a seat that represents your top preference and which you are entitled to, according to seat allocation, so make sure to arrange your choices carefully.
- Students holding certificates equivalent to General Education Diploma from outside Oman who do not upload the required documents: (copy of the transcript, civil card, and (equivalence letter-if required- from the Ministry of Education) before deadline, will not be able to compete on seats and their registration will be considered invalid.
- After receiving the final application, applicants will be allocated seats that require admission tests/interviews or medical checks, dates will be announced later at HEAC website.
-

10 Steps Must Be Followed During the Re-Applications Phase

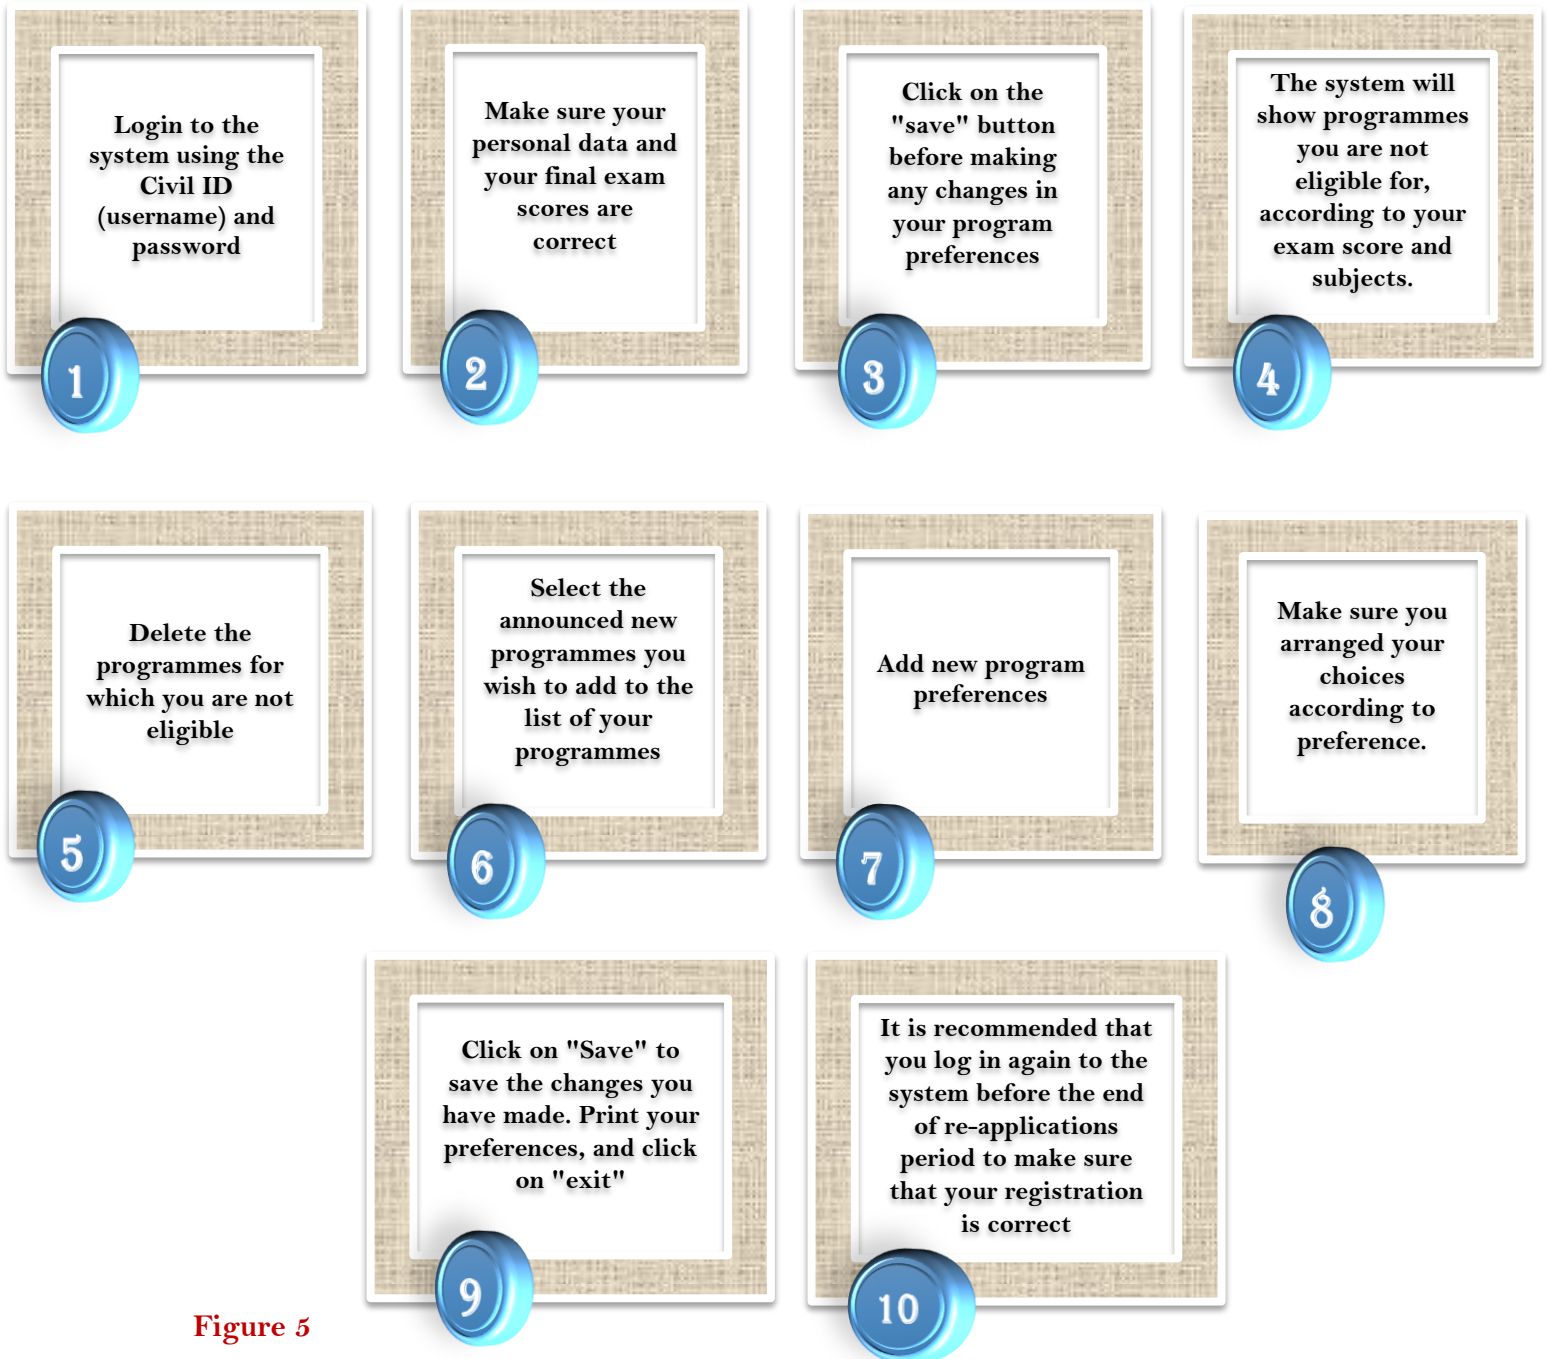

Figure 5

Fourth: Programmes requiring interviews and admission tests

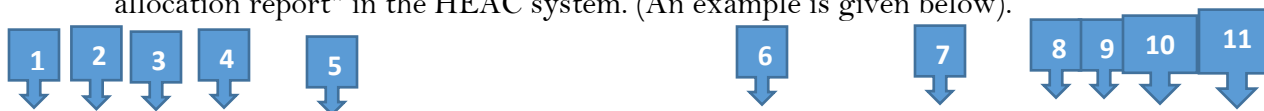

- Receiving an offer to set for an admission interview/test in a certain program **does not mean that you are accepted in that program**, because admission to any programme is based on the following factors:
 1. Passing/ failing the test/ interview
 2. Number of seats/ vacancies.
 3. Your competitive score comparing to other passed candidates.

Fifth: Offer of Seats Phase (First Allocation):

- After all HEIs finish interviews/ tests and medical checks for their candidates, HEAC will allocate all programme preferences in your programme list.
- Seats are offered to students according to the "order of merit list", eligible students will be offered the highest choice entitled to according to their exam results, admission requirements and the number of available seats assigned to that particular programmes of study.
- Students offered a seat will receive an SMS to the mobile number (registered at HEAC system) at the day of announcing results. The messages will show the students' (Civil ID number) and the code of the program for which they have been offered. Please note that SMS is a supporting service and the HEAC is not responsible in case the student does not receive the message. Student has to access the HEAC website to check the program he/she has been allocated.
- You will be given a period of time to accept or decline the offer (you have to accept or register during the specified time). If the HEAC system does not receive your reply before 02.00 pm (local timing) on the last day based on the relevant deadline, you will lose your offered seat, scholarship or grant and it will automatically go to another student on the waiting list and you will have no right to claim the seat at any later time.
- If you do not timely confirm your acceptance of the scholarship, seat or grant (by submitting the required documents to the HEIs or the concerned MoHE

department) the offer will go automatically to another eligible student on the waiting list.

- Make sure that you are aware of all the deadlines specified for completing procedures, **if you fail to timely comply, you may lose the seat, scholarship or grant offered to you, and it will be transferred to another entitled and eligible student.**
- **After you complete all the admission and registration procedures, you will receive an SMS informing you that you completed the procedures. Please do not leave the HEIs until you receive the confirmation SMS or check your status in the admission system.**
- **If the student submitted all the required documents to the institution or concerned MoHE department before the given deadline, but the institution or department did not timely complete his or her online registration procedures, it will be responsible of paying the student fees as per the offered seat features.**
- Student can view his/her status in the allocation report through the link "student allocation report" in the HEAC system. (An example is given below).

Choice Type	Preference Number	Round Number	Program Code	Program Name	Higher Education Institute Name	Offer Type	Eligible	Rank Mark	Cut Off Marks	Waiting List

Figure 6 "student allocation report"

- 1.Type of program chosen.
- 2.Order of the program in your list of programme preferences.
- 3.Allocation number (1, 2).
- 4.Program code.
- 5.Name of program
- 6.Name of the HEI offering this program.
- 7.Program finance type.
- 8.Eligibility (Yes or No).
- 9.Your "competitive score" in the program.
- 10.The "competitive score" of last student offered a seat in the program.
- 11.Your order in the waiting list.

Important Steps After the Announcement of Allocation Results

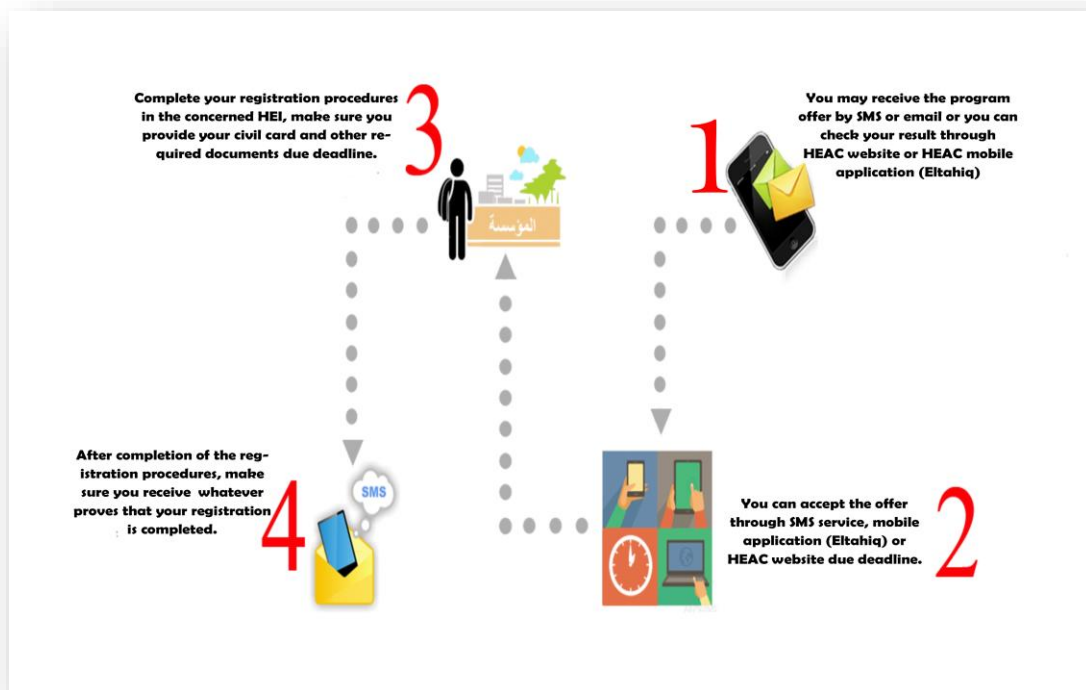

Figure 7

Accepting Offers and Completing Registration Procedures

If you wish to accept an offer of a seat, scholarship or grant, you should follow one of the following two steps:

1. You may accept an offer online through HEAC website www.heac.gov.om, you may also confirm it via HEAC mobile Application (**Eltahiq**).
2. You may also accept an offer by sending an SMS message to (**90190**) containing the letter (**A**) followed by your HEAC number (password). You would then receive a text message, confirming that your acceptance has been recorded. That message would provide for the following: “your acceptance of the offer is successful”. If you do not receive such message within half an hour, then you must access HEAC website to check if the admission offer is valid.

Notes:

- Travelling abroad is not an excuse for students who did not take actions required by HEAC before the relevant deadlines. HEAC is not responsible if you dismissed an offer.
- **If you are a social security student and have obtained a full internal scholarship, you must register your bank account number through the link of (ACCEPT/ OR REJECT) in the electronic admission system.**

Documents

It is recommended that student should have the following documents when registering at the higher education institutions:

1. General Education Diploma or its equivalent.
2. A copy of the civil card or passport.
3. Recent photographs.
4. Students who are accepted in Low Income Internal Scholarships should present a proof that they belong to this category and any other documents that may be required by the institution.

Documents confirming the status of the student as "low-income" should be submitted to the institute in which the student is accepted and not to HEAC.

*** Note: Higher Education Admission Centre does not receive any paper document required by the higher education institutions or the concerned MoHE department from students, such as the above mentioned documents**

Completing Registration Procedures at the Public HEIs, Scholarships, and Grants

No	HEI / Authority	Where? / How? to complete registration procedures
1	External Scholarships and Grants	(Student Services) link at MoHE website: www.mohe.gov.om
2	Internal Scholarships (BS programmes)	Students accepted shall: 1- Submit the required documents to the HEI. 2- Log in to (Student Services) link at MoHE website and register at MoHE system.
3	Internal Scholarships (SF-SP)	Students accepted shall: 1- Submit the required documents to the HEI the student wishes to enroll at, according to the major and qualification he/she wants to obtain.
4	Internal Grants (PDO)	2- Log in to (Student Services) link at MoHE website and register at MoHE system.
5	Sultan Qaboos University (SQU)	Online portal (Milad) at SQU website: www.squ.edu.om
6	Military Technological College (MTC)	MTC building – Airport Heights Area - Muscat
7	College of Al Sharia'a Sciences	The college building – Al Khuwair / Muscat

AlBatinah North Governorate	Sohar branch
AlBatinah South Governorate	Al Rustaq branch
AlSharqiya North Governorate	Ibraa branch
AlSarqiya South Governorate	Sur branch
AlDakhiliya Governorate	AlDakhiliya branch
Dhofar Governorate	Salalah branch
AlDahirah Governorate	AlDahirah branch

Sixth: Second Allocation

After offers have been sent to all eligible applicants for a particular program, some seats may remain unfilled because some offers were not accepted or the number of available seats exceeds the number of eligible applicants. Also, new programmes may subsequently arise, in these cases, such vacancies will be announced on the website www.heac.gov.om and through SMS messages.

You may – during this period - apply for vacant seats through the electronic admission system, whether you have registered in the system before or not. If you have not registered before, you can now register through HEAC.

If you are one of those students who [have already registered in the admission system](#), please follow the following steps:

1. To edit your choices, you can add more programmes to the first list of choices.
2. Choose from vacant, and new programmes which you are eligible. Note that the system will not allow you to rearrange your previous choices.
3. To enter your new choices of programmes, you must press on (Insert) button where you want to insert the program in order of preference.
4. Save your choices by pressing the button (save).
5. Make sure you do not ignore any program code marked in red, you must be aware of the error and fix it, because the system will not be able to save changes you have made in case you do not delete it.
6. Print your current page.

See (figure 8) below illustrates the screen of entering program preferences:

Figure 8

- If you are [a student who had never apply before](#), follow these procedures:

1. Register at the Higher Education Admission System (Undergraduate Level).
2. Select the programmes to which you are eligible and you wish to study in the order of preference in your registration form.

Admission Support Services

1) Appeal Request Service

The appeal requests are submitted to Appeal Board, which consists of specialists from outside the Ministry of Higher Education who are assigned by a Ministerial Decree to consider objections filed by applicants who claim that HEAC has treated them unfairly or who believe that their complaints have not been settled by HEAC.

Appeal submission deadlines are as follows:

	Type of Appeal	Submission Period
1	Re-applications Procedures	Within five (5) days after the end of registration period
2	First Allocation Seat Offers	Within five (5) days after the end of change of program preferences period
3	Second Allocation Seat Offers	Within five (5) days after the announcement of the first allocation round results

In case of any appeal, you shall put in consideration:

- Online appeal should be submitted through the electronic form available on HEAC website, verbal or written appeals will not be considered.
- Applicant will be informed of the Appeal Board decision via SMS.

2) Unsatisfactory Arrangement Of Program Preferences Request

All applicants who have received seat offers through HEAC System, whether they accepted these offers or not, or even withdrew from – **expect applicants who have completed their registration procedures in external scholarship programmes who have received travel receivables** – can apply an **Unsatisfactory Arrangement Of Program Preferences Request** which will be available after the end of completing registration procedures of the first allocation round period.

Application requirements:

- An applicant should have received a program offer through HEAC system

- He/she have to apply to a program which is already arranged among his/her program preferences list (provided that it is one of the programmes located below the offered seat).
- Vacant seats should be available in that program.

3) Retrieve Seat Service

HEAC may, after the results of the second allocation, examine the online requests of retrieving a seat which was withdrawn from the applicant because he/she did not accept the offer, or failed to complete the registration procedures in the institution due deadline. HEAC will contact these students who lost their seats (only) through SMS after first allocation. The request will be studied if all of the following conditions are satisfied:

- Availability of vacant seats in that program, and the approval of the HEI to retrieve the seat for the student.
- There are no students in the "waiting list" of that program, or there is "a waiting list", but the institution decided to accept students who retrieve their seats.
- The student should not be enrolled at any public or private institution, or withdrawn from that seat.
- In case the HEI agreed to retrieve a seat for the student, and he/she did not complete registration procedures at the specified timeline, he/she will not be able in – any circumstances- to claim it again.

HEAC SMS SERVICE

- Send SMS message with one of these services from your mobile phone to this number (90190)

#	THE MESSAGE	CODE	MESSAGE DESCRIPTION	MESSAGE DESCRIPTION
1	H	H	Help	This service will give list of SMS services which are available in the
2	I	I	Information	This service will give the information about Higher Education Admission

13	HEAC No Prg Co Prg order IP xxxxxxx xxxxx #2	IP	Insert Programmes	This Service to insert programmes to the list, so the student will text code (IP) with HEAC number followed by program code and then (#) and the order of program and send to 90190
14	HEAC No Delete Prg Co DP xxxxxxx xxxxxxx	DP	Delete Programmes	This service to delete program from registered list so the student will text code (DP) with HEAC number and the code of program

#	THE MESSAGE	COD	MESSAGE DESCRIPTION	
15	HEAC No Old prg New prg CP xxxxxx xxxx xxxxx	CP	Change Programmes	Service fifteen is to change the programmes in the registered programmes list, the student will type a message having code (CP) with HEAC number and the old program code, after it the new program code
16	Civil No R xxxxxxxxxxxxxx	R	Registration number	This service is to provide the student with Higher Education Admission Center number (HEAC number), the code (R) with ID number to 90190. The system will send HEAC number to GSM number which is available in the Admission Center database
17	HEAC No P xxxxxxxxxxxxxx	P	Programmes	This service will give the programmes list which student had chosen, the student should send code (P) with HEAC number
18	HEAC No VS xxxxxxxxxxxxxx	VS	Social security status	The student can through this service to know about his Social Security situation. He/she should send the code (VS) with HEAC number
19	HEAC No G xxxxxxxxxxxxxx	G	Grades	The student will inquire about his grades list which is obtained from Ministry Of Education. He/she should send code (G) with HEAC number
20	HEAC No O xxxxxxxxxxxxxx	O	Offered program	The student can know the result of offer through SMS by sending code (O) with HEAC number
21	HEAC No A xxxxxxxxxxxxxx	A	Accept offer	In this service the student will send message which included code (A) with HEAC number to confirm the acceptance of offer
22	Prg Co C xxxxxxxxxxxxxx	C	Criteria	To inquire about the criteria of any program is possible through this service, that the student will send code (C) with the code of program
23	HEAC No EP xxxxxxxxxxxxxx	EP	Find Eligible Program	To inquire about eligible programmes

***Important Note:**

When you write SMS messages you should leave one space between each code or details as they are in the above table.

The student will receive a message back for each message he/she sends if it's correct or not after few minutes, If he doesn't receive any message then this means that the system didn't get his message and he should try again. ****It costs 75 Baisa per one message.**

**Public Higher
Education
Institutions, Internal
and External
Scholarships and
Grants**

**GENERAL TERMS AND CONDITIONS APPLYING TO ALL EXTERNAL
SCHOLARSHIPS IN VIEW OF THE ACADEMIC YEAR 2019/20**

**ALL EXTERNAL UNDERGRADUATE SCHOLARSHIP APPLICANTS SHOULD BEAR IN
MIND THAT:**

- an external scholarship enables a competitively selected and academically qualified recipient to pursue one of the qualifying *undergraduate* degree studies abroad at one of the *recommended* higher education institutions;

There may be a difference among the broader areas of study used in this application handbook (which are aligned with the framework developed by the Oman Academic Accreditation Authority or OAAA), the topics or subject names comprising the scholarships and the exact names of the programmes and degree titles. The exact name of the program and even content may vary from one overseas institution to another – please see the intro to the section for more information and concrete examples about this matter;

- The Ministry of Higher Education continuously strives to further improve the scholarship application procedures and reserves the right to periodically review the eligibility criteria of its scholarship programmes and to adjust these requirements should this be deemed necessary to ensure academic progress and/or facilitate flexibility and promote equality of opportunity for all applicants.
- The external scholarship requirements are (research and consensus)-based on the requirements set by a selected number of overseas higher education institutions that have all been **recommended** for the external undergraduate scholarship program (please note that when a higher education institution has been *recognized* by the Oman Ministry of Higher Education, it does **NOT** necessarily mean it has also been recommended for any of the scholarship schemes).
- The external scholarship requirements are *minimum* requirements for competitively applying for a scholarship, this means that specific undergraduate degree programmes/higher education institutions *may have further entry requirements* and therefore the Ministry of Higher Education **cannot** guarantee securing admission for scholarship *recipients* to a particular program **of preference** and/or the preferred University. Hence, the Ministry cannot guarantee you will study your most preferred program and/or at the University of your (first) choice;
- The Ministry of Higher Education, **through its overseas representatives**, reserves the right to select a suitable institution for each scholarship recipient based on, *inter alia*, the capabilities of the student, the strength/reputation of the institution in a particular subject area, the location of the institution and the university-specific requirements, while – in view of some of the scholarship programmes - only a limited number of places are offered on the programmes.

- While every effort has been made to ensure that the content of the external scholarship section of the student handbook is accurate and up-to-date, changes might be periodically made as this handbook is published at an early stage in view of the AY 2019/20. These changes will be incorporated in the online edition and will be announced in the media and uploaded to the Higher Education Admission Centre website.
- All sponsored students under the Ministry of Higher Education Scholarship program are governed by the general scholarship law and are expected to observe the rules and regulations of the Ministry of Higher Education (please refer to www.mohe.gov.om for more details);
- Their scholarship is subject to satisfactory academic performance and their personal conduct while studying abroad. The Ministry reserves the right to monitor and review the academic progress of scholarship students at any given time;
- All teaching at overseas higher education institution is carried out in English (with the exception of Germany and France) and institutions will expect to demonstrate that you have sufficient fluency in English to cope with your course from the start.
- All external scholarship applicants are advised to take the International English language test system (IELTS) for UK Visa & Immigration (UKVI) Academic Test in April or May 2019 to avoid a future deferral (delay) of admission.
- IELTS for UKVI is an English language assessment test that is accepted by all recommended higher education institutions in ALL study destinations and this test is mandatory for students who want to pursue a foundation or Bachelor's degree program in the UK. Depending on the outcome of this assessment, you may be advised to undertake an English language-training course. The outcome of the IELTS exam is used for admission procedures ONLY and your test results will NOT increase or decrease your chances of being awarded a scholarship.
- Scholarship recipients, who do not yet meet the minimum English proficiency requirements of the foundation or undergraduate degree program, will be provided with an opportunity to take an English pre-session course and will have to complete this course within one calendar year (12 months). Only students who achieved an IELTS score (overall) of 5.5 or higher can pursue their language course and/or studies abroad in the AY 2019/20. Students who achieved an IELTS score (overall) of 5.0 or less have to pursue an English language course in the Sultanate or abroad. The scholarship recipient who fails to meet the required English language requirements within one year, the Ministry of Higher Education reserves the right to suspend (=put on hold) the scholarship. While every effort has been made to ensure that the content of

the external scholarship section of the student handbook is accurate and up-to-date, changes might be periodically made as this handbook is published at an early stage in view of the AY 2019/20. These changes will be incorporated in the online edition and will be announced in the media and uploaded to the Higher Education Admission Centre website.

- In case scholarship recipients fail to successfully complete a so-called foundation program/pre-sessional program within one (academic) year the Ministry of Higher Education reserves the right to take a necessary action
- Once scholarship recipients have accepted a scholarship offer during the so-called first allocation round and already received their allowances and/or already travelled, they will **no** longer be allowed to competitively apply for another scholarship during the following allocation rounds.
- The scholarship will cover the annual tuition fees; a monthly allowance to cover the basic living expenses; some additional allowances as per the scholarship law; and one annual return ticket (Sultanate of Oman – study destination) per academic year.
- The health insurance in Australia does not cover pre-existing or chronic diseases and the Ministry reserves the right to make necessary changes in view of the scholarship.
- Only students who graduated from schools in the Sultanate of Oman can competitively apply for scholarships to study in the Netherlands or Poland.
- The courses listed under SSSD scholarships allocated to CANADA, NEW ZEALAND, AUSTRALIA, USA and the NETHERLANDS (except for Economics in the Netherlands) all start in the second semester /term in Spring 2020 (January or February 2020) - this applies to students who do not have an offer letter in place by the time they are competitively awarded a scholarship in August 2019
- The Ministry cannot be held responsible in view of any applications to higher education institutions that took place (students independently applying to higher education institutions) prior to August 2019 (the period during which the scholarships are competitively awarded and the registration period).
- A student who has been accepted by a higher education institution that charges tuition fees that exceed the annual scholarship fund per student, the student shall pay the Ministry of Higher Education the difference between the tuition fees and scholarship fund in advance (for the whole normal duration of their studies) provided the program (course or major) and country match the scholarship awarded by the HEAC electronic system.

- The undergraduate scholarship covers an undergraduate degree program – not a graduate and the Ministry reserves the right to take a necessary action in case the student does not comply with this rule .
- Once scholarship recipients have accepted a scholarship in a particular area of study in one of the concerned study destinations, **under NO normal circumstances** will they be allowed to change to a course or major within another broader area of specialization or to move to another study destination. In addition, some scholarships do not allow students change their course or major under any circumstances – even if the other major belongs to the same broader area of study – please refer to the overview comprising the scholarships listed by codes.

**TERMS AND CONDITONS APPLYING TO EXTERNAL UNDERGRADUATE
SCHOLARSHIPS IN MEDICINE, DENTISTRY AND VETERINARY MEDICINE,
ACADEMIC YEAR 2019/20.**

Scholarship Recipients who have been competitively selected for Medicine, Dentistry or Veterinary Medicine & Science (VET) usually have to meet further (=additional) requirements set by the Medical School (University) in order to progress onto the Medicine program (this may include an interview; successful completion of a pre-Medical program and pre-sessional English language course and, sometimes, an aptitude or admissions test). The Ministry of Higher Education cannot guarantee an acceptance into the Medical School, guaranteed progression to the Undergraduate Medicine program is only an option so long as the student meets all the requirements set by the University.

**TERMS AND CONDITONS APPLYING TO
UNIVERSITY OF OMAN EXTERNAL UNDERGRADUATE SCHOLARSHIPS – AY
2019/20**

- The University of Oman external scholarship program aims to build academic, technical and administrative capabilities to meet the workforce requirements for the future University of Oman;
- The University of Oman scholarships enable academically qualified scholars to pursue their higher undergraduate studies in specific programmes at well-reputed and recommended Universities abroad (*for more information about the Universities approved for the University of Oman scholarship scheme, please refer to the HEAC website*);

- It should be noted that the program does **not** guarantee employment of the respective graduates but they will be eligible to apply for job vacancy at the future University of Oman, provided that they meet the eligibility requirements for the position(s);
- Applicants shortlisted for a University of Oman scholarship through the Higher Education Admissions Center (HEAC) electronic system will have to take a skills assessment test in the first week of August 2018 **as part of their scholarship application**. Applicants may also be shortlisted for an additional interview;
- Applicants should be aware that competition for the scholarship scheme may be high; however, this should not deter students from competitively applying for a University of Oman scholarship. Applicants who do **not** pass the skills assessment test and/or interview will still be able to *compete* for other types of scholarships they applied for;
- Those who will be competitively awarded a scholarship that comprises more than one major or subject, will have to list the specific programmes that fall under their scholarship in order of preference during a meeting organized by the external scholarship department and that will take place early August prior to the registration deadline;
- A list of Universities and specific undergraduate degree programmes approved for the University of Oman Scholarship Scheme will be available on the Higher Education Admissions Center (HEAC) website. The list of approved Universities entail the most selective universities internationally. The list of Universities and programmes may be modified at any time and as deemed fit in line with development of more selective and competitive programmes in the specializations required by the University. Applicants are urged to refer back to the HEAC website on a regular basis in view of important updates;
- University of Oman scholars are required to secure an admission in one of the listed programmes at one of the approved universities ***within one (academic) year of the scholarship award***;
- Students competitively selected for a scholarship (scholarship recipients) are allowed to submit a letter of acceptance from one the approved Universities. Such acceptance letters from Universities will be subject to approval by the University of Oman Project management and the External Scholarship Department as the offer has to match the scholarship;

- Scholarship recipients who did not yet apply to one of the recommended Universities, will be provided with guidance by the Ministry of Higher Education based on their individual situation;
- All candidates should be medically fit to travel and study abroad and must be able to provide a letter of consent, signed by (at least one of the) parents or a legal guardian, allowing them to independently pursue their undergraduate studies abroad.

**TERMS AND CONDITONS APPLYING TO SCHOLARSHIPS BY AREA OF STUDY AND
DESTINATION (SSSD) –
AY 2019/20**

- An external scholarship ‘code’ within this category may consist of a number of related subjects. In this case, the student has to select a preferred subject before the registration deadline in August 2019. The Ministry of Higher Education **cannot** guarantee securing admission to the program of highest personal preference though as there may be a limited number of places available (this depends on the specific program and may differ per study destination) and/or the University may have set further requirements (e.g. specific subjects or successful completion of a foundation program) while the Ministry cannot guarantee that students will be able to complete all the further requirements for a particular program;
- Scholarship recipients are expected to pursue their undergraduate degree studies at one of the recommended Higher Education Institutions (HEIs) in one of the following study destinations: Australia, Germany, France, Ireland, Malta, New Zealand, Poland, the Netherlands, the United Kingdom (the UK), the United States of America (the USA), Canada, Cyprus, Jordan, Bahrain.
- **The courses listed under SSSD scholarships allocated to CANADA, NEW ZEALAND, AUSTRALIA, USA and the NETHERLANDS (except for Economics in the Netherlands) all start in the second semester /term in Spring 2020 (January or February 2020) - this applies to students who do not have an offer letter in place by the time they are competitively awarded a scholarship in August 2019.**

GCC GRANTS

UNITED ARAB EMIRATES

- **Higher Education Institution:** University of United Arab Emirates
- Study will start on the second semester (2019/2020)
- University requires IELTS Score (5) OR TOEFEL (500) for admission.
- University provides accommodation, food, internal transportation, book, and tuition fees, while the rest of expenses will be the guardian's responsibility.(Partial Grant)
- **Student will be given a monthly allowance of (1302) Emirati Dirham from the Ministry of Higher Education Oman.**

GCC GRANTS

KUWAIT

- **Higher Education Institution:** Kuwait University, the Public Authority for Applied Education and Training.
- Bachelor degree is awarded for grant recipients.
- University provides accommodation, living expenses, pocket money, travel round trip ticket (Full Grant)
- Student can select the college only, admitted students will be distributed to disciplines by university. (Student is not allowed to change the college enrolled in).
- Student should meet any additional conditions required by the college.
- Colleges of Engineering, Management Sciences require aptitude (Skills) test.
- In case a student failed to achieve the minimum required scores in the aptitude (Skills) test, he/she will be transferred to another college based on vacancies.
- Student should bring his certificates of grades 10,11, and 12 and they should be issued from one country. (Student should have studied these 3 grades in the same country).
- Certificates issued in Oman will be compared and calculate according to Kuwait grading system and school subjects, this process may decrease some grades.
- Students with high school certificate from Kingdom of Saudi Arabia cannot compete on these grants.
- Candidates will set for admission tests of the university, and will be then distributed to disciplines.
- In case of increasing vacancies in a college/ discipline, students may be transferred to that college/ discipline at the same university according to vacancies and procedures.
- Based on registration deadline in Kuwait University, the start of study will be announced (first of second semester).
- To explore more about disciplines at Kuwait University colleges, visit the university website: (<http://www.kuniv.edu/ku>).
- **Grant recipient enrolled to Kuwait University will be given a monthly allowance of (30) Kuwaiti Dinar from the Ministry of Higher Education Oman.**
- **Grant recipient enrolled to Public Authority for Applied Education and Training will be given a monthly allowance of (30) Kuwaiti Dinar from the Ministry of Higher Education Oman.**

GCC GRANTS

KINGDOM OF BAHRAIN

- **Higher Education Institution: Arabian Gulf University**
- Medium of Study: English Language
- The University will provide tuition fees, accommodation, medical care, internal transportation, while student guardian will be responsible of the costs of books, living expenses, and travelling tickets. (Partial grant).
- Student must pass the interview and aptitude (skills) test/ interview held in the university building and shall pay (50 BD) for the interview and aptitude (Skills).
- **Grant recipient enrolled to Bahrain Universities will be given a monthly allowance of (134) Bahraini Dinar from the Ministry of Higher Education Oman.**

Sultan Qaboos University

Passing Requirements	Passing academic years for every batch are identified by credit hours and some other regulations related to university or college requirements, the main major and the sub-major, elective subjects, etc.																					
Number of Years	<p>Study duration at SQU Students are expected to complete their academic study within specified periods as follows:</p> <p>1- Academic degrees studied in Arabic:</p> <table border="1" style="width: 100%; border-collapse: collapse;"> <thead> <tr> <th style="width: 33%;">Maximum duration</th> <th style="width: 33%;">Usual duration</th> <th style="width: 33%;">Total credit hours</th> </tr> </thead> <tbody> <tr> <td style="text-align: center;">5 years</td> <td style="text-align: center;">4 years</td> <td style="text-align: center;">120-130</td> </tr> <tr> <td style="text-align: center;">6 years</td> <td style="text-align: center;">5 years</td> <td style="text-align: center;">130 and above</td> </tr> </tbody> </table> <p>2- Degrees studied in English:</p> <table border="1" style="width: 100%; border-collapse: collapse;"> <thead> <tr> <th style="width: 33%;">Maximum duration</th> <th style="width: 33%;">Usual duration</th> <th style="width: 33%;">Total credit hours</th> </tr> </thead> <tbody> <tr> <td style="text-align: center;">5.5 years</td> <td style="text-align: center;">4.5 years</td> <td style="text-align: center;">120-130</td> </tr> <tr> <td style="text-align: center;">6.5 years</td> <td style="text-align: center;">5.5 years</td> <td style="text-align: center;">130 and above</td> </tr> <tr> <td style="text-align: center;">8 years</td> <td style="text-align: center;">6 years</td> <td style="text-align: center;">Clinical Program (College of Medicine)</td> </tr> </tbody> </table>	Maximum duration	Usual duration	Total credit hours	5 years	4 years	120-130	6 years	5 years	130 and above	Maximum duration	Usual duration	Total credit hours	5.5 years	4.5 years	120-130	6.5 years	5.5 years	130 and above	8 years	6 years	Clinical Program (College of Medicine)

6 years	5 years	130 and above																				
Maximum duration	Usual duration	Total credit hours																				
5.5 years	4.5 years	120-130																				
6.5 years	5.5 years	130 and above																				
8 years	6 years	Clinical Program (College of Medicine)																				
Accommodation and Transportation Facilities	<p>Accommodation service: available through 3 complexes for 3 types of students:</p> <ul style="list-style-type: none"> - Special Cases Complex: this complex is specified for students with disabilities or students suffering from health issues requiring a special care and environment. - First-Year Students Complex: this complex is specified for first-year students who receive allowances (for transportation and living expenses). - Transportation Services: buses are available to transfer bachelor degree students only from university to home and vice versa, provided that their homes are no less than 100 km far from the university campus. 																					
Alumni Follow-up	The Center of Career Guidance is the responsible and authorized authority by the SQU Administration to provide services for alumni such as sending data to work sectors for training and employment services. For more information, please visit the following link: http://www.squ.edu.om/ccg-ar																					
Training During Study	Through cooperation between students and the assistant dean to get training at their colleges during 1-2 semesters.																					

Colleges of Applied Sciences

Passing Requirements	Requirements are identified for bachelor degree seats according to credit hour system as required by the college, programs, and majors. Student should fulfill successfully the graduation requirements with no less than CGPA of (2.00).			
Number of Years	Academic program duration:			
	Degree	Total credit hours	Usual duration	Maximum duration
	Bachelor	120-140	4 years	6 years
Accommodation and Transportation Facilities	In-campus accommodation is available at the Colleges of Applied Sciences (Ibri, Rustaq, Sur) for female students whose homes are more than 50 km far from the college they are enrolled in according to vacancies. Female students who accept seat offers in other colleges where no accommodation available, are responsible for their decision.			
Training During Study	Practical training is an obligatory course for all students and all majors, and a graduation requirement. Student Trainee should have completed the third academic year and fulfilled 60 credit hours successfully while registering this course.			
Allowances	<p>Male students living (50) km and more from the college, will be granted a monthly allowance of (90) RO, while those living in areas less than (50) km far from the college should be granted (45) RO.</p> <p>Female students living (50) km and more from the college, will be provided in-campus accommodation according to availability, and are granted a monthly allowance of (45) RO, in case accommodation is not available, they should be granted (90) RO for living and transportation expenses.</p> <p>Female students living in areas less than (50) km far from the college should be granted (45) RO.</p>			
Medium of Study	<p>English language: Applied Sciences programs and English Teacher Preparation Bachelor Program.</p> <p>Arabic language: Bachelor of education programs “science and mathematics” in mathematics, chemistry, physics and biology.</p>			
Other Information	<p>Travel Tickets:</p> <p>Round trip air travel tickets are granted to students only once during the academic year and it can be compensated and replaced by an amount of money according to the lowest prices at the time the student requested the ticket. The following students are eligible:</p> <p>Male and female students studying at Salalah College of Applied Sciences, but not residing at Dhofar Governorate.</p> <p>An amount of (25) RO is granted once each semester for male and female students From Musandam and Musirah, provided that their homes are no less than (200) km far from the college.</p>			

Vocational Colleges

Number of Years	Study includes (4) semester foundation program, and a specialised program for 2 academic years.
Alumni Follow-up	Graduates are followed up and supported in order to find job opportunities according to their majors in coordination with employers.
Medium of Study	English Language
Allowances	All students are granted a monthly allowance

INTERNAL SCHOLARSHIPS

▪ **The Internal Scholarships are divided into THREE categories:**

I. Bachelor Programmes (BS) for all students:

It is an internal scholarship for Bachelor Degree covering the cost of the tuition fees ONLY. The transportation and accommodation will be covered by the parent (If necessary). It is for ALL students. Social Security students are eligible to apply and compete for this type of scholarship -while retaining their monthly allowance-.

II. Diploma Programmes for Social Security Students(SF):

It is an internal scholarship for Diploma Degree covering the cost of the tuition fees ONLY. It is allocated for Social Security Students:

- A monthly allowance will be provided to the students.
- Students can select the institution where they like to join, based on the program they are accepted in.

III. Diploma Programmes for Low Income Students(FP):

It is an internal scholarship for Diploma Degree covering the cost of the tuition fees ONLY. It is allocated for students whose parents' total monthly income doesn't exceed (550 OMR).

- Parent will be responsible for transport and accommodation (If necessary).
- Students can select the institution where they like to join, based on the program they are accepted in.

The study duration for the Foundation Program (Language) is one year ONLY. If the student doesn't achieve the required level at that year, his/her scholarship will be frozen for no more than one year. During that period, the student has to develop his /her

Rules & Regulations to obtain internal scholarships:

The following are a number of conditions that require students' careful attention before applying for any scholarships mentioned above.

- English language to meet the required level in the institution, in order to join the academic program or to get a direct entry in the academic program from any educational institution at the same field. If the student does not do so at that period, his/her scholarship will be withdrawn.
 - Accommodation will be provided by the Private Educational Institutions, taking into a consideration that the cost of the accommodation will be covered by the students. (Muscat University and Modern College of Business and Science are not included).
 - All students who will receive the internal scholarships from HEAC are advised to provide the needed documents to complete their registration procedures in the institutions where they are accepted during the allocated period.
 - Social Security Students who receive the scholarships are advised to insert their bank accounts in the personal data link in HEAC electronic system.
 - Low Income Students who apply to the diploma programmes ,in case they do not present the required documents show that their parents' income does no exceeded an amount of (550OMR) monthly from the Wali or parents' workplace at the allocated period (Period of registration procedures) , they will be rejected automatically from the program where they are accepted in.
1. The applicant should not be an employee at any Private or Public Sectors.
 2. All students who got Internal Scholarships through Higher Education Admission Center (HEAC) should submit the required documents to complete their registration process at the Private Higher Education Institutions during the assigned time.
 3. Social Security students who would got a full Internal Scholarship must provide their bank account number in (Personal Details) Link on the HEAC Website.
 4. In case the Higher Education Admission Center (HEAC) detected that a Social Security student does not belong to Social Security category, his/her seat will automatically be replaced with a Low-Income assigned seats if approved.
 5. If a Low-Income student does not provide what shows that the total income of the family does not exceed "600" OMR per month, admitted by the administrative head of the Wilayat (the Wally) or the parent's work place during registration date , the scholarship will be canceled.

6. When Student finish the Registration process, he/she should refer to the Academic Institution in order to update his/her electronic file, as all services provided by Internal Scholarships Department are online at the Ministry of Higher Education Website:
7. <http://www.mohe.gov.om/>

Note:

-We highly recommend your careful attention when selecting the specific code of each Internal Scholarships program. Any error in the selection process may result in losing your eligibility to complete for the scholarship, and hence, the seat will be withdrawn.

-Besides the programmes specified for Social Security students or Low-income students, students of these categories have the right to apply for any Internal Scholarships program once they fulfill the requirements.

-The student who are accepted in Social Security programmes (SF), Low-income programmes (SP) & Girls Programmes who score an average of 80% (SR), decides the institute he/she would like to join after being accepted into the program. Students are NOT Allowed to change the preferred College or University after the completion of registration.

-In case a student faces any technical issue, he/she should contact the Technical Support Team on the following hotlines:

General Foundation Programmes

Graduates of the General Education Diploma or equivalent enroll in higher education institutions (HEIs) and select programmes of study through HEAC. Statistics indicate that most of these students will take a GFP upon enrollment in these HEIs.

- **A generic program of study designed to prepare students and equip them with the necessary skills for entry into higher education**
- **Four core areas of learning: English, Maths, Computing Skills, and Study Skills**
 - **Some HEIs may also require that additional standards are met**
- **It does not earn the student any credit points or credit hours, but it is assessed and subject to the pass/fail policies of each HEI**

OAAA's Role in the Quality Assurance of GFPs:

- **Developing and reviewing GFP Standards**
 - **Auditing GFPs**

www.oaaa.gov.om

SECTION 1

HEAC SCHOLARSHIP APPLICATION HANDBOOK LIST OF SEATS, GRANTS AND INTERNAL AND EXTERNAL SCHOLARSHIPS BY CATEGORY PLUS ELIGIBILITY REQUIREMENTS: ACADEMIC YEAR 2019/2020

In this chapter of the scholarship application handbook you will find information about seats at Government institutions, internal scholarships and grants for students planning to study at a private higher education institution (HEI) in the Sultanate, external scholarships and grants for students who want to study abroad, *and* you will find more information about the application requirements. The Higher Education Admissions Center (HEAC) receives the data regarding seats and grants directly from the higher education institutions and grant awarding organisations, while the parts of this handbook pertaining to the external and internal undergraduate scholarships (programmes and requirements) were composed by the MoHE Directorate-General of Scholarships (please read the general terms and conditions for more information).

The courses (or majors) and academic disciplines are listed by the categories to which they belong according to the Oman Academic Accreditation Authority (OAAA). The course entries were accurate at the time of publication of this handbook and while every effort has been made to ensure that the content of this section of the student handbook is accurate and up-to-date, necessary changes might be periodically made due to circumstances outside the reasonable control of the Higher Education Admissions Center (HEAC) and the Ministry of Higher Education. These changes will be incorporated in the online edition of the handbook and will be announced in the media and uploaded to the HEAC website: heac.gov.om. Please regularly check the website before and while applying for seats, scholarships and/or grants.

BROADER AREAS OF STUDY/CATEGORIES*	
The scholarships, seats and grants comprising courses(or majors) and academic disciplines are listed by the categories to which they belong according to the Oman Academic Accreditation Authority (OAAA)	
80-57	Health
88-81	<p>FLEXIBLE EXTERNAL SCHOLARSHIPS</p> <ul style="list-style-type: none"> ➤ STEM (SCIENCE, TECHNOLOGY, ENGINEERING, (APPLIED) MATH SCIENCES) ➤ ESAM (EDUCATION, SOCIAL SCIENCES, ARTS, ARCHITECTURE, MANAGEMENT) <p>‘DIRECT ENTRY’ SCHOLARSHIPS (DES) FOR STUDENTS WITH AN UNCONDITIONAL OFFER LETTER FOR DIRECT ENTRY TO ONE OF THE APPROVED UNDERGRADUATE DEGREE PROGRAMMES</p>
96-89	NATURAL & PHYSICAL SCIENCES
101-97	AGRICULTURAL & ENVIRONMENTAL STUDIES
123-102	ENGINEERING & RELATED TECHNOLOGIES
129-124	ARCHITECTURE AND CONSTRUCTION
141-130	INFORMATION TECHNOLOGY
154-142	EDUCATION
173-155	MANAGEMENT & BUSINESS
184-174	SOCIETY & CULTURE
193-185	CREATIVE ARTS
195-194	RELIGION & PHILOSOPHY
201-196	PROGRAMMES FOR STUDENTS WITH DISABILITIES

HEALTH

Are you a people person? Do you like helping others and taking care of them? Are you someone who is deeply interested in how to prevent, diagnose and treat diseases that may affect others? Are you ready to go deep into sciences? If yes, **HEALTH** might be the right choice for you. Bear in mind that a **Doctor of Medicine** is **NOT** the *only* healthcare professional. You might become a **Nurse, Pharmacist**, or a **Veterinarian** – if you want to deal with animals. Would you like to stay a bit more behind the scenes while helping doctors to diagnose or treat diseases as a **Medical Lab Scientist**? Do you want to focus on a specific area of human body such as: mouth (**Dentist**), feet (**Podiatrist**), ears (**Audiologist**) and so on? Do not forget to explore the very important **Allied Health Programmes** which may vary from **Oral Health, Diagnostic Radiography, Occupational Therapy, Speech & Language Therapy, Respiratory Therapy (this major will turn you into an expert who can help people with breathing disorders) and Physiotherapy**. Not to mention the **HEALTH**-related programmes such as **Environmental and/or Occupational Health as the health sector is in need of health safety inspectors. Or perhaps you are interested in raising awareness among the public about how to prevent diseases and want to study Public health instead...**

**This content (including photos) has been created by experts handling the Your Decision, Your Future (YDYF) magazine which is published under the auspices of the YDYF multimedia campaign in mid-April every year and aims to help students make well-informed higher education decisions [include logo of campaign]*

**TERMS AND CONDITIONS APPLYING TO EXTERNAL UNDERGRADUATE
SCHOLARSHIPS IN MEDICINE, DENTISTRY AND VETERINARY MEDICINE
ACADEMIC YEAR 2019/20**

- Scholarship Recipients who have been competitively selected for Medicine, Dentistry or Veterinary Medicine (VET) usually have to meet further (=additional) requirements set by the University in order to progress onto the undergraduate degree program (this may include an interview; successful completion of a pre-Medical program and pre-sessional English language course and, sometimes, an aptitude or admissions test).
- Entry to the Medicine, Dentistry or VET programmes is NOT guaranteed and is conditional on successful completion of a foundation program and, in some countries, a successful interview and/or acceptable aptitude or admissions test scores. Please check the website of the University for further details!
- The Ministry of Higher Education cannot guarantee an acceptance into the undergraduate degree program, guaranteed progression to the program is only an option so long as the student meets all the requirements set by the University.
- In case the scholarship recipient *fails* to meet any of the (direct entry) requirements within due course, the Ministry of Higher Education shall **not** be obliged to assist the student in seeking admission to a Medicine, Dentistry or VET program at another University in any of the study destinations.

External Scholarships IN MEDICINE AND MPHARM

- All external undergraduate scholarship applicants are advised to take the IELTS for UKVI ACADEMIC TEST in April or May 2019 to avoid a future deferral (=delay) of admission;
- The names of the undergraduate degree Programmes are published in English only because these are the official names used by the recommended higher education institutions, including in destinations where English is not the official language;

Please read the intro and terms & conditions for more info.

CODE	COURSE(S) AND DESTINATION	SCHOLARSHIP REQUIREMENTS	TIE BREAKERS (preferential subjects)
SE008	MEDICINE at University College Dublin in IRELAND This program is taught in English	Minimum overall average of 90% Chemistry (90%) + 2 of Biology, Pure Mathematics, Physics (90%) + English(90%)	Chemistry, English
SE005	MEDICINE at the Royal College of Surgeons in IRELAND This program is taught in English	Minimum overall average of 95% Chemistry (90%) + 2 of Biology, Pure Mathematics, Physics (90%) + English (90%)

College of Health Sciences

The Medical Imaging program aims at graduating Omani professional radiographers. The duration of the program is four years after the foundation program. The program includes teaching and training the students to perform radiographic examinations to produce high-quality images of different body parts to investigate disease processes using conventional radiography and Computerized Tomography. Students are also introduced to other imaging modalities. Graduates of this program will be distinguished by advanced features such as critical thinking, problem-solving, effective communication, teamwork, and research skills. The clinical aspect of study conducted in hospitals is 56% of the time allotted for the program. Graduates are eligible to work in government or private health services institutions after successful completion of the program according to the availability of vacancies.

CODE	PROGRAM	REQUIREMENTS	ADDITIONAL INFORMATION	TIE BREAKER
IH002	Bachelor in Medical Imaging	1. Must obtain average of at least 65% in General Diploma of Education. 2. Get at least 65% in: * Physics * Biology	Places are offered to applicants from all Governorates of Oman according to positions available for the Governorate. Except Al-Wusta Musandam (male) and Massirah (Female)	1. Physics 2. Biology 3. English Language

Nursing

There are nine branches for Nursing under the College namely Muscat, Sohar, North Batinah, South Batinah, Al- Dakhiliya, Al-Dhahira, North Sharqiya, South Sharqiya and Dhofar. The aim of the Bachelor of Science in Nursing at the College is to prepare students towards a professional career in Nursing for a period of four years Bachelor Program after Foundation. Graduates qualify to work in the government or private health services institutions after successful completion of the program according to the availability of vacancies.

CODE	PROGRAM	REQUIREMENTS	TIE BREAKER	ADDITIONAL INFORMATION
NM001	Bachelor of Science in Nursing	1. Must obtain average of at least 65% in General Diploma of Education. 2. Get at least an average of 60% in: * Biology * Chemistry	1. Biology 2. Chemistry 3. English Language	Muscat branch Application to this branch is <u>only</u> for students who received their General Diploma of Education from schools of Governorate of Muscat, Wilayat of Barka, Bidbid and Masira.

Internal Scholarships- Bachelor Programmes (MEDICINE)

Notices:

1. This scholarship is an internal scholarship covers the cost of the tuition fees ONLY. The parent will be responsible to cover the cost of transportation and accommodation (If necessary). Regarding to the Social Security Students, a monthly allowance will be provided to them based on the decision made by competent authorities.
2. The study duration for the Foundation Program (Language) is one year ONLY. If the student doesn't achieve the required level at that year, his/her scholarship will be frozen for no more than one year. During that period, the student has to develop his /her language to reach the required level in the institution, in order to join the academic program or to get a direct entry in the academic program from any educational institution at the same academic field. If the student does not do so at that period, his/her scholarship will be withdrawn.
3. Accommodation will be provided by the Private Educational Institutions, taking into a consideration the cost of the accommodation is student's responsibility. (Muscat University and Modern College of Business and Science are not included).

CODE	PROGRAM	REQUIREMENTS	ADDITIONAL INFORMATION
BS001	Medical (MD)	Pass the General Education Diploma with (65%) Grade (80%) in: Chemistry , Biology Grade (70%) in: English	National University of science &Technology *students should pass successfully an Admission test and test interview.
BS006	Medical and Dental Surgery	Pass the General Education Diploma with (65%) Grade (80%) in: Chemistry , Biology Grade (65%) in: Pure or Applied Math Grade (70%) in :English	Oman Dental College
BS017	Nursing	Pass the General Education Diploma with (65%) Grade (60%) in: Biology, English	Nizwa University
BS227	Nursing	Pass the General Education Diploma with (65%) Grade (60%) in: Biology, Pure Math, English , Chemistry	AL Buraimi University *students should pass successfully an Admission test and the interview.
BS002	Pharmacy	Pass the General Education Diploma with (65%) Grade (60%) in: Biology, English, Chemistry,	National University of science &Technology
BS289	Pharmacy	Pass the General Education Diploma with (65%) Grade (60%) in: English, Chemistry	Nizwa University
BS018	Veterinary	Pass the General Education Diploma with (75%) Grade (75%) in: English, Chemistry Biolog, Physics	A'Shriqiyah University

Multiple Areas

EXTERNAL UNDERGRADUATE SCHOLARSHIPS IN THE STEM AREAS (SCIENCE, TECHNOLOGY, ENGINEERING, (APPLIED) MATHEMATICAL SCIENCES) OR ESAM AREAS (EDUCATION, SOCIAL SCIENCES, ARTS, MANAGEMENT)

with regard to the STEM & ESAM scholarships, the following applies:

* All STEM & ESAM scholarship recipients (=after they have been awarded the scholarship) will have to attend a debriefing to be held at the Ministry of Higher Education (MOHE) prior to the scholarship registration deadline in August 2019 (which is the deadline set by the external scholarship department, not HEAC);

*The scholarship recipient will have to select the study destination AND preferred Under graduate degree Programmes before the scholarship registration deadline in August 2019, provided the course/major falls within and/or is related to the broader subject areas as mentioned in the tables in this handbook (see the following pages);

*Two separate, non-exhaustive lists (=examples) of approved subject areas for the ESAM and STEM scholarships have been included in the handbook (see following pages) while STEM & ESAM scholarship recipients may study in either the UK, the USA, Germany, Malta, Ireland, the Netherlands, Poland, Malaysia, New Zealand, Australia, France or Canada;

*A list of recommended Universities will be published (as a guideline) in due course. STEM and ESAM scholarship recipients need to seek admission to a recommended higher education institution within a given period – although (and unlike for the direct entry scholarship) it is NOT necessary to submit an offer letter from a University in order to compete for the STEM and/or ESAM scholarship. Scholarship recipients may (optional) still submit an offer letter which will be subject to approval;

*Applicants can refer to the list of Universities that have been recommended for DES as a guideline). STEM and ESAM scholarship recipients need to seek admission to a recommended higher education institution within a given period – although (and unlike for the direct entry scholarship) it is NOT necessary to submit an offer letter from a University in order to compete for the STEM and/or ESAM scholarship. Scholarship recipients may (optional) still submit an offer letter which will be subject to approval;

*Some Programmes are NOT an option and/or available in *all* study destinations (see details below).

. Please note that the recommended Higher Education Institutions may set further requirements for certain programmes which may differ from the general scholarship requirements. The MOHE CANNOT guarantee that a selected candidate will meet the requirements of a certain programme as set by a specific Higher Education Institution **or that all undergraduate degree courses are available in all countries** .

Applicants need to check that have chosen the right school subjects for the course they have chosen;

STEM & ESAM EXTERNAL SCHOLARSHIPS

These scholarships enable recipients to pursue their undergraduate Bachelor's degree at recommended higher education institutions abroad. The scholarship recipient may select the preferred major/course and study destination (terms & conditions may apply)

STEM(AND DES) EXTERNAL SCHOLARSHIPS(SE380)

NON-EXHAUSTIVE LIST OF APPROVED SUBJECT AREAS WITHIN SCIENCES,
TECHNOLOGY, ENGINEERING (INCLUDING ARCHITECTURE) AND
(APPLIED) MATHEMATICAL SCIENCES

Not all majors are available (at undergraduate level) in all study destinations, please see comments in red. See also the terms and conditions.

AGRICULTURAL & ENVIRONMENTAL SCIENCES

A: Aquaculture & Fisheries; **W:** Water Technology

ARCHITECTURE

A: Architecture (only offer letters from recommended institutions in the United Kingdom, Europe or Asia will be accepted); **L:** Landscape Architecture; **U:** Urban Planning

HEALTH

A: Audiology; **B:** Biomedical Engineering, Biological Sciences; **D:** Dietetics (**NOT** Nutrition);

H: Health(care) Policy and/or Management, Health Education, Health Economics, **Health Promotion; Health Administration;**

M: Medical Physics, Medical Laboratory Science;

P: Public Health Science, Podiatry, Prosthetics & Orthotics;

R: Respiratory Therapy, Radiography, Radiology

ENGINEERING & RELATED TECHNOLOGIES

A: Acoustical Engineering, Aeronautical Engineering (should concern a **NON**-flight major - cannot include Pilot Training!), Architectural Engineering; **B:** Building Services/Maintenance Engineering, Biomedical Engineering, Building (Civil) Engineering; **C:** Chemical Engineering, Construction Engineering **E:** Electrical and/or Electronic(s) Engineering, Environmental Engineering, Ecology;

F: Fire Safety Engineering; **G:** Geological Engineering; **I:** Industrial Engineering,

L: Logistics Engineering; **M:** Materials Engineering, Mining Engineering, Metallurgical Engineering, Mechanical Engineering, Mechatronics/Mechatronic Engineering;

N: Network Engineering; **P:** Petroleum or Oil & Gas Engineering; **R:** Renewable Energy Engineering; **S:** Systems Engineering, Surveying Engineering, Sustainability Studies or Engineering;

T: Transport Engineering, Telecommunications Engineering

INFORMATION TECHNOLOGY

A: Animation; **C:** Computer Science, Computer Science &/with Artificial Intelligence, Computer Forensics, Computer Science &/or with Software or Smart Phone App Development, Cyber Security; **D:** Data/Information Science

NATURAL & PHYSICAL SCIENCES

A: Astronomy, Astrophysics; **B:** Biological Sciences, Business Statistics;

C: Conservation (and/or Environment), Chemistry; **E:** Earth Sciences, Environmental Sciences;

F: Forensic Science; **G:** Geology, Geophysics, Geochemistry, Genetics; **H:** Hydrogeology;

L: Life Sciences; **M:** Meteorology, Mathematics and/or with Statistics, Marine Science or Marine

Biology; **P:** (Applied) Physics; **S:** Sustainability Science, Science, Statistics; **Z:** Zoology

***In case a preferred area of study has not been listed here, please send an email with your questions to public.services@mohe.gov.om – mention ‘STEM’ external scholarships’ in the subject line or ask your careers advisor to contact us. Direct Entry Scholarship applicants can send their questions to des@mohe.gov.om with specific reasons why you want to study a course that has not been listed as eligible for this scholarship by April 30. Joint-degree courses are permitted provided it does NOT result in extension of duration of the undergraduate degree.**

ESAM (AND DES) EXTERNAL SCHOLARSHIPS

NON-EXHAUSTIVE LIST OF APPROVED SUBJECT AREAS WITHIN EDUCATION, SOCIAL SCIENCES, ARTS AND MANAGEMENT

Not all majors are available (at undergraduate level) in all study destinations, please see comments in red. See also the terms and conditions.

CREATIVE ARTS

D: Digital Media;

F: Fine Arts (e.g. Painting, Sculpture, Music);

J: (Digital) Journalism

T: Television/Broadcasting

EDUCATION

E: English Language (Teacher to Non-Native Speakers); **Early Childhood Education**

T: Teaching Science (Secondary School-level), **Primary School Education (teaching)**

MANAGEMENT & BUSINESS

A: Actuarial Science, Accounting, Auditing, Aviation Management (**cannot include Pilot Training – should concern a non-flight major**);

B: Banking, Business Administration

E: Enterprise/Entrepreneurship, Emergency Administration & Planning

F: Finance, Financial Risk Management, Financial Services

I: Investment, Insurance, Islamic Banking;

L: Logistics and/or Supply Chain Management

M: Management;

O: Operations Management, Organisational Leadership Studies

P: **Property Management, Port Management**

R: **Real Estate Management**

S: Safety and/or Security Management, Transport Management, Shipping & Port Management and/or Supply Chain and/or Logistics Management

SOCIETY & CULTURE

A: Archeology;

C: Criminology;

E: Economics;

G: Geographical Information Systems

L: Law (**applicants can only submit offer letters from recommended Law schools in the United Kingdom**), Languages/ (Applied) Linguistics;

P: Psychology (**does NOT include Clinical Psychology as this is only taught a graduate level & applicants can only submit offer letters from recommended universities in the United Kingdom, Australia, New Zealand**);

S: Sociology, **Special Needs Education**

T: Tourism Studies (focus on planning aspect);

Z: Zoology

RELIGION & PHILOSOPHY

***In case a preferred area of study has not been listed here, please send an email with your questions to public.services@mohe.gov.om – mention 'ESAM' external scholarships' in the subject line or ask your careers advisor to contact us. Direct Entry Scholarship applicants can send their questions to des@mohe.gov.om with specific reasons why you want to study a course that has not been listed as eligible for this scholarship by April 30. Joint-degree courses are permitted provided it does NOT result in extension of duration of the undergraduate degree**

DIRECT ENTRY – EXTERNAL UNDERGRADUATE SCHOLARSHIP

(DES) FOR STUDENTS WITH AN UNCONDITIONAL OFFER FROM A RECOMMENDED HIGHER EDUCATION INSTITUTION - with regard to the direct entry scholarship, the following applies:

- This scholarship is for scholarship applicants who have already made an application to one of the higher education institutions that have been recommended for this scholarship (please refer to the list on following pages) and who are expected to have an **unconditional offer** of a place of study in **an eligible (=approved) undergraduate degree program** (=direct entry) at one of the *recommended* higher education institutions before the closing date of the HEAC scholarship application round in **July 2019**;
- The offer should concern an eligible **undergraduate degree** course in either Medicine, Dentistry, MPharm, Veterinary Medicine OR in one of the approved subject areas listed under the STEM & ESAM scholarships - this scholarship does **NOT** cover any pre-sessional language courses, foundation programmes/pathways (including integrated foundation programmes). Students who need and/or prefer to pursue a pre-sessional course are advised to apply for another type of scholarship;
- Before the end of May 2019, the applicant needs to submit a valid, acceptable language test report at the time of registration as a scholarship applicant. Applicants are exempted from the English language test requirement in case they upload a conditional offer of a place of study from one of the recommended institutions (and in one of the approved majors) by the end of May 2019. Please upload CLEAR AND COMPLETE scanned copies of a valid English language test or of a conditional offer letter to the HEAC website. Students are responsible for taking a language test that meets the requirements of the university;
- Before the closing date of the HEAC 'change of preference' period in July 2019, applicants must submit a true copy of a formal/**unconditional** offer letter (=a letter of acceptance) for entry 2019/20 (first or second intake) that was stamped, signed and written on official University letterhead – copies of emails will **not** be accepted.
- Applicants should not NOT seek admission at a University for entry before August 2019 (this means that the course should NOT start earlier than late August 2019 as scholarships are competitively awarded not earlier than mid of August);
- Applicants will be provided with more details about the application procedures in due course and your documents will be reviewed by a scholarship committee;
- Students who submit an offer for an English language course and/or foundation program will be automatically **disqualified** as an applicant for this scholarship. Applicants who are not able to submit an unconditional offer for direct entry onto **an undergraduate degree program** can still compete for the other STEM, ESAM and/or other scholarships, provided they meet the minimum requirements set for those scholarships and these schemes still allow students to pursue a language and/or foundation course; If the number of **qualified** applicants exceeds the number of places allocated to this scholarship, the DES scholarship screening committee will assess applicants based on the overall school grade and, if necessary, the position of the higher education

DIRECT ENTRY – EXTERNAL UNDERGRADUATE SCHOLARSHIP

COURSE(S) AND DESTINATION	SCHOLARSHIP REQUIREMENTS	TIE BREAKER
<p>DE001 A DIRECT ENTRY TO A UNDERGRADUATE COURSE IN EITHER MEDICINE, DENTISTRY, VETERINARY MEDICINE, MPHARM,</p> <p>OR IN IN ONE OF THE APPROVED SUBJECT AREAS LISTED UNDER THE STEM & ESAM SCHOLARSHIPS (SEE LISTS OF APPROVED SUBJECT AREAS* ON PREVIOUS PAGES)</p> <p>*applicants can send questions about eligible courses to des@mohe.gov.om but only in april 2019 and this email address cannot be used to submit an application – only to confirm the eligibility of a course</p>	<p>DIRECT ENTRY SCHOLARSHIP APPLICANTS NEED TO MEET THE FOLLOWING CRITERIA TO COMPETE:</p> <p>An overall GED grade of 85% OR a minimum grade of 80% or higher in (any*) five out of eight GED-subjects (*except for Physical Education)</p> <p>DIRECT ENTRY SCHOLARSHIP APPLICANTS NEED TO UPLOAD TWO SEPARATE DOCUMENTS:</p> <p>BEFORE THE END OF MAY 2019: (=before closing date of the scholarship registration period): the applicant needs to submit a valid, acceptable language test report* OR a conditional offer of a place of study on an undergraduate degree course at one of the recommended higher education institutions.</p> <p>*International English Language Testing System (IELTS) OR Test of English as a Foreign Language (TOEFL). The minimum overall score should be at least a 6.0 (IELTS) with no band scores lower than 5.5 or 60–78 (TOEFL - iBT).</p> <p>BEFORE THE CLOSING DATE OF ‘THE CHANGE OF PREFERENCE’ PERIOD IN JULY 2019:</p> <p>Applicants must submit an (ONE) unconditional offer of a place of study on an eligible (approved) undergraduate degree course at one of the higher education institutions recommended for this particular scholarship (see next page) for the academic year 2019/20.</p> <p>ALL DOCUMENTS WILL HAVE TO BE TIMELY UPLOADED TO HEAC WEBSITE.</p>	<p>The overall school grade will be the primary tie-breaker in case the number of qualified applicants exceeds the number of seats allocated to this scholarship, for further info – please refer to the terms and conditions that pertain to this scholarship</p>

FULL INTERNAL GRANTS SPONSORED BY PETROLIUM DEVELOPMENT OMAN (PDO)

These grants are specified to enroll at the private HEIs in Oman.

- Students are admitted to foundation year, upon successful completion of this year, they can pursue to Diploma level.

- Pursuance to Bachelor degree level requires successful completion of Diploma degree level.

Concession areas:

- ✓ **Wilayat Bahla:** Al Naheedha – Al Seeh – Al Shabkah – Al Shwaihiya – Ghabat Al Omairi –Al Widyian –Maseeh - Mutabqat – Ras Qalilah – Saih AlArad – Um Fatrah – Wadi Al Suqtan – Qasabiyah – Al Araf – Auaifiya
- ✓ **Wilayat Haima:** Abu Madhabi – Anzooz - Al Sahma- Wadi Al Ghubrah
- ✓ **Wilayat Ibri:** Abu Dhufairah – Al Khuwair – Falaj Harran – Fateehah –Wadi Al Araf – Wadi Al Omairi – Wadi Al Tawyah – Wadi Sal – Hamraa Al Duruu
- ✓ **Wilayat Maqshan:** Khadrat Qatbeet – Masfer –Ramlat Maqshan – Maqshan
- ✓ **Wilayat Adam:** Abu Tuhah – Al Ghubar –Al Haqaf – Kawthar – Al Asheesh – Al Zahiya – Al Raki – Barakat – Buthaila – Burhan – Fakhar –Fishigha – Jafar –Habeeba – Qateena – Raas Al Jabal – Qarat Al Milh – Auaifiya – Wadi Nahida – Qarn Alam
- ✓ **Wilayat Al Jazer:** Al Ghubairah – Al Ghubrah Al Shamaliya – Al Ghubrah Al Janubiya
- ✓ **Wilayat Shleem:** Shleem – Joa" Al Salam – Kobot - Niyabat Dmeet – Wadi Arah - Mahwees – Fatkheet – Wadi Hakkah - Rehab – Zakhar – Ajareet – Joa" Washam.
- ✓ **Wilayat Thamreet:** Thamreet – Khathbat Sadhan – (Qatbeet Sadhoon) – Rabkoot – Barbazoom – Brasas – Thahboon

Full Internal Grants from PDO

CODE	PROGRAM	REQUIREMENTS	TIE BREAKER	ADDITIONAL INFORMATION
PD005	All majors to which the ministry of higher education is allocated except VETERINARY MEDICINE	Minimum average of (65%) in the General Education Diploma.	Highest scores in: Pure Mathematics or Applied English Language Physics or Chemistry	Study in private educational institutions and accredited in the Sultanate. Specialties: All specialties and programmes approved by the Ministry of Higher Education. Student needs to obtain an admission acceptance from Math one of the college / university in the Programmes mentioned. Students who pass the foundation program will be allowed to obtain diploma. Continuity of the grant for an undergraduate is Bachelor,s degree conditional on obtaining the degree of success in diploma.

NATURAL & PHYSICAL SCIENCES

Do you want to study **Chemistry, Physics, Biology, or Mathematics**? Are you interested in developing your analytical thinking and problem-solving skills? Are you interested to learn how to read the rocks of the Sultanate of Oman? Or how to secure water resources in Oman and the world which are threatened by different factors? Perhaps **Earth Sciences** and/or **Environmental Sciences** is the right choice then. **Earth Sciences**, also referred to as **Geology**, and also the related **Geosciences** (e.g. **Geophysics and Geochemistry**) usually involve the study of the origin of the earth and its physical, chemical, and biological processes that formed it and which have been operating over the past million years. Do you prefer to be able to predict weather? Perhaps you then might be interested in **Meteorology**.

Astronomy involves the study of the physical universe, from the Earth, the solar system to galaxies, stars and planets. **Astrophysics**, also focuses on how to apply physics, mathematics and computer sciences to astronomical observation.

Are you more interested in **Mathematics and Computer Science**? **Statistics** is essentially concerned with the collection, analysis and interpretation of data. By analyzing trends and patterns in these data you should be able to provide information about probable and possible future developments and can help create solutions for probable and possible challenges facing a society. Perhaps you are a huge fan of television-series like (Crime Scene Investigation) and decided you want to become a **Forensic Scientist or Forensic Science Technician**? If so, you must bear in mind that the work of a **Forensic Scientist** often involves very detailed, scientific work and involves the collection and interpretation of scientific data. Hence, what you see on television may not reflect the reality. A **Forensic Scientist** should be able to collect, analyze and provide unbiased scientific evidence for use in a criminal investigation or a trial or laboratory analysis.

Some other areas also fall under this major such as **Biotechnology** specializations (e.g.

Maritime, Agricultural, and Environmental).

*This content (including photos) has been created by expert handling the your Decision, Your Future (YDYF) magazine which is published under the auspices of the YDYF multimedia campaign in mid-April every year and aims to help students make well-informed higher education decisions (include logo of every year and aims to help students make will-informed higher education decisions (include logo of campaign

UNIVERSITY OF OMAN – EXTERNAL UNDERGRADUATE SCHOLARSHIPS

- *Not all of the listed undergraduate courses/majors are available in all study destinations. A list of approved courses/majors by country will be uploaded to the HEAC website and other publications in April 2019;
- All external scholarship applicants are advised to take the IELTS for UKVI ACADEMIC TEST in April or May 2019 to avoid a future deferral (delay) of admission;
- The names of the subject areas are published in English only because these are the official names used by the recommended higher education institutions, including in countries where the official language is not English;

Please read the intro and terms & conditions for more info

CODE	COURSE(S) AND DESTINATION	SCHOLARSHIP REQUIREMENTS	TIE BREAKER
OE070	<p>Biochemistry, Biology, Marine Biology or Biophysics IN THE UNITED KINGDOM, THE USA, CANADA, AUSTRALIA, NEW ZEALAND OR IN CERTAIN ASIAN AND EUROPEAN COUNTRIES</p> <p>an assessment test is part of the scholarship selection process*</p>	<p>Minimum overall average of (90%) two of Biology, Chemistry, Pure Mathematics or Physics (90%) + English (85%) PLUS applicant must have achieved at least(80%) in each other school subject</p>	<p>Two of Chemistry, Biology, Pure Mathematics, Physics</p>
OE030	<p>Sustainability Studies, Water Resources, Hydrology or Hydrogeology IN THE UNITED KINGDOM, THE USA, CANADA, AUSTRALIA, NEW ZEALAND OR IN CERTAIN ASIAN AND EUROPEAN COUNTRIES</p> <p>An assessment test is part of the scholarship selection process*</p>	<p>Minimum overall average of (90%) 1 of Physics or Chemistry (85%) + 1 of Biology, Geography or Environmental Science (85%) + English (85%) PLUS applicant must have achieved at least (80%) in each other school subject</p>	<p>1 of Physics or Chemistry, followed by 1 of Biology, Geography or Environmental Science</p>

* **ASSESSMENT TEST:** all *applicants* shortlisted for a University of Oman scholarship through the HEAC electronic system will have to take a skills assessment test in the first week of August 2019 as part of their scholarship application. **Scholarship *recipients* may select the preferred destination prior to the registration deadline in August 2019. Before applying, students need to check that you have, or are likely to achieve, the right grades in the relevant subjects for the subject you are interested in as some programmes may have further requirements. The Ministry cannot guarantee an available seat in the course of highest preference as places on specific courses may be limited and/or due to further requirements set by the HEIs. In case the student **cannot** progress onto one of the majors as per his/her scholarship, this may have implications in view of their scholarship (please read general terms and conditions)

EXTERNAL SCHOLARSHIPS BY SUBJECT AND STUDY DESTINATION

* In case a scholarship comprises more than one undergraduate course or major, please consider that some Bachelor degree Programmes may have further requirements and the Ministry of Higher Education (MOHE) cannot guarantee securing admission to the selected Programmes and/or University of highest preference. The MOHE reserves the right to select a suitable institution for each scholarship recipient;

*All external scholarship applicants are advised to take the IELTS for UKVI ACADEMIC TEST in April or May 2019 to avoid a future deferral (delay) of admission;

*The names of the subject areas and/or majors listed within the external scholarship codes are published (only) in English (even in the Arabic version of the handbook) to ensure students receive accurate information as the (recommended) overseas higher education institutions communicate about their Programmes in English. Please bear in mind though that some Programmes are offered by more than one higher education institution (even in one particular destination) and the exact name of the Programmes and/or undergraduate degree title might be different from one higher education institution to another;

*The course entries were accurate at the time of publication of this handbook and necessary changes might be periodically made due to circumstances outside the reasonable control of the MOHE; Please read the terms & conditions on page xxx for more info.

Internal Scholarships- Bachelor Programmes (NATURAL AND PHYSICAL SCIENCES)

Notices:

1. This scholarship is an internal scholarship covers the cost of the tuition fees ONLY. The parent will be responsible to cover the cost of transportation and accommodation (If necessary). Regarding to the Social Security Students, a monthly allowance will be provided to them based on the decision made by competent authorities.
2. The study duration for the Foundation Program (Language) is one year ONLY. If the student doesn't achieve the required level at that year, his/her scholarship will be frozen for no more than one year. During that period, the student has to develop his /her language to reach the required level in the institution, in order to join the academic program or to get a direct entry in the academic program from any educational institution at the same academic field. If the student does not do so at that period, his/her scholarship will be withdrawn.
3. Accommodation will be provided by the Private Educational Institutions, taking into a consideration the cost of the accommodation is student's responsibility. (Muscat University and Modern College of Business and Science are not included).

CODE	PROGRAM	REQUIREMENTS	ADDITIONAL INFORMATION
BS016	Biotechnology	Pass the General Education Diploma with (65%). Grade (60%) in : Pure Math, Biology, Chemistry Grade (55%) in :English	Nizwa University
BS020	Statistics	Pass the General Education Diploma with (65%). Grade (60%) in : Pure Math Grade (55%) in :English Language	Nizwa University
BS228	Optics Science	Pass the General Education Diploma with (65%). Grade (60%) in :Pure Math, Biology, Chemistry, Physics Grade (55%) in :English	AL Buraimi University <i>*students should pass successfully pass the Admission test and interview.</i>
BS208	Science in Applied Geoscience	Pass the General Education Diploma with (65%). Grade (65%) in :Pure Math, Chemistry, Physics Grade(65%) in :English	German University of Technology in Oman
BS218	- Marine Science and Fisheries Food Science and Nutrition	Pass the General Education Diploma with (65%). Grade (60%) in : Pure Math, Biology, (Chemistry or Physics) Grade (55%) in :English	A'Shraqiyah University
BS090	Statistics	Pass the General Education Diploma with (65%). Grade (60%) in : Pure or Applied Math Grade (55%) in :English	Modern College of Business and Science

AGRICULTURAL & ENVIRONMENTAL STUDIES

Agriculture, the ancient vocation, was and still playing an important role in enhancing countries' economy. By now, it has been a main topic of study and development at schools, institutes and universities as technology and engineering have been involved in it. This mixture has brought to us Agricultural Engineers. Other disciplines have occurred later on such as: Water Technologies, Crop and Soil Sciences. Do not forget that animals have played a significant role in the Agriculture history. That is why Animal Science falls under this area as a related discipline. And when it comes to you "Human", the main operator of all these systems, nobody can deny that Agriculture has the greatest share in Human food, so you find Food and Agriculture, and Human Nutrition as available specializations in this regard. This is not everything about Agriculture!

The marine life also provides Human with food, which makes it worthy to be studied, Fisheries Development and Aquaculture as examples under this area*.

EXTERNAL SCHOLARSHIPS BY SUBJECT AND STUDY DESTINATION

*In case a scholarship comprises more than one undergraduate course or major, please consider that some Bachelor degree Programmes may have further requirements and the Ministry of Higher Education (MOHE) Cannot guarantee securing admission to the selected Programmes and/or University of highest preference. The MOHE reserves the right to select a suitable institution for each scholarship recipient;

*All external scholarship applicants are advised to take the IELTS for UKVI ACADEMIC TEST in April or May 2019 to avoid a future deferral (delay) of admission;

* The names of the subject areas and/or majors listed

*The names of the subject areas and/or majors listed within the external scholarship codes are published (only) in English (even in the Arabic version of the handbook) to ensure students receive accurate information as the (recommended) overseas higher education institutions communicate about their Programmes in English. Please bear in mind though that some Programmes are offered by more than one higher education institution (even in one particular destination) and the exact name of the Programmes and/or undergraduate degree title might be different from one higher education institution to another;

*The course entries were accurate at the time of publication of this handbook and necessary changes might be periodically made due to circumstances outside the reasonable control of the MOHE;

CODE	COURSE(S) AND DESTINATION	SCHOLARSHIP REQUIREMENTS	TIE BREAKER
SE773	Aquaculture & Fisheries in IN THE UNITED KINGDOM	Minimum overall average of (85%) One of Chemistry or Physics (85%) + one of Biology, Geography or Environmental Science (85%) + English (80%) PLUS applicant must have achieved at least (75%) in each other school subject	1 of Chemistry or Physics, followed by 1 of Biology, Geography or Environmental Science
SE774	Water Technology (also available under the names Water (Resource) Management, Water Economics, Water (and Infrastructural) Management, Hydrology) in GERMANY This program is taught in German.	Minimum overall average of (80%) Pure Mathematics (85%) + 1 of Biology, Physics, Engineering, Chemistry or Environmental Science (85%) + 1 of English, Arabic or German (80%)	Pure Mathematics, 1 of Biology, Physics, Engineering, Chemistry or Environmental Science

ENGINEERING & RELATED TECHNOLOGIES

A good Engineer is the one who can apply Science, Mathematics, and other skills in order to find practical and useful solutions, to develop, improve and maintain infrastructure, products and services that the society needs. If you have these skills, perhaps you would like to join one of the Engineering programmes which fall under the subcategory Process & Resource Engineering for which one usually requires good skills in Math and Chemistry – such as, Petroleum, Chemical, Renewable Energy, Materials or Mining Engineering. Or perhaps you are more interested in the Building industry and Construction and want to explore Civil, Structural, Architectural (do not confuse between Architectural Engineering and Architecture, since they are entirely different fields), Construction Engineering or Geomatics (Surveying). Other Engineering programmes include Electrical, Electronics, Mechanical, Mechatronics, Computer, Industrial, Environmental, Geological, Logistics, **Safety Engineering**, to name but a few examples. It is very important for you to explore all Engineering programmes and understand the differences and outcomes before you start ranking your options in order of personal preference*.

***This content (including photos) has been created by experts handling the Your Decision, Your Future (YDYF) magazine which is published under the auspices of the YDYF multimedia campaign in mid-April every year and aims to help students make well-informed higher education decisions [include logo of campaign]**

UNIVERSITY OF OMAN – EXTERNAL UNDERGRADUATE SCHOLARSHIPS

*Not all of the listed undergraduate courses/majors are available in all study destinations. A list of approved courses/majors by country will be uploaded to the HEAC website and other publications in April 2019;

* All external scholarship applicants are advised to take the IELTS for UKVI ACADEMIC TEST in April or May 2019 to avoid a future deferral (delay) of admission;

*The names of the subject areas are published in English only because these are the official names used by the recommended higher education institutions, including in countries where the official language is not English;

*Please read the intro and terms & conditions on page xxx for more info.

CODE	COURSE(S) AND DESTINATION	SCHOLARSHIP REQUIREMENTS	TIE BREAKER
OE060	<p>Mining Engineering and Materials Science/Materials Engineering IN THE UNITED KINGDOM, THE USA, CANADA, AUSTRALIA, NEW ZEALAND OR IN CERTAIN ASIAN AND EUROPEAN COUNTRIES</p> <p>An assessment test is part of the application process*</p>	<p>Minimum overall average of 90%</p> <p>Pure Mathematics (85%) + Chemistry (85%) + one of Physics or Engineering (80%) + English (85%)</p>	<p>Pure Mathematics, followed by Chemistry</p>
OE061	<p>Environmental Engineering, Systems (Design) Engineering, Computer Engineering IN THE UNITED KINGDOM, THE USA, CANADA, AUSTRALIA, NEW ZEALAND OR IN CERTAIN ASIAN AND EUROPEAN COUNTRIES</p> <p>An assessment test is part of the application process*</p>	<p>Minimum overall average of 90%</p> <p>Pure Mathematics (85%) + One of Physics or Engineering (85%) + English (85%)</p>	<p>Pure Mathematics, followed by Physics or Engineering</p>

* ASSESSMENT TEST: all applicants shortlisted for a University of Oman scholarship through the HEAC electronic system will have to take a skills assessment test in the first week of August 2019 as part of their scholarship application.

**Scholarship recipients may select the preferred destination prior to the registration deadline in August 2019. Before applying, students need to check that you have, or are likely to achieve, the right grades in the relevant subjects for the subject you are interested in as some Programmes may have further requirements. The Ministry cannot guarantee an available seat in the course of highest preference as places on specific courses may be limited and/or due to further requirements set by the HEIs. In case the student cannot progress onto one of the majors as per his/her scholarship, this may have implications in view of their scholarship (please read general terms and conditions).

TC001	Engineering	--The overall percentage should be not less than 60% -should have studied the following subjects: Pure math Physics Chemistry or Mechanical Engineering English language	The Highest marks in the following subjects: -Pure Math -Physics	Note: Bachelor is awarded for this program if the student met all the requirements.
TC008	Mechanical engineering	<ul style="list-style-type: none"> - Passing in certificate diploma technical for the guard technical College of the bilingual with rating not less than 70%. - Passing in two subjects (Mathematics and Physics)with rating not less than 65%. - Passing in two subjects (Mechanical and engineering drawing) with rating not less than 70%. 	The Highest marks in the following subjects: -Pure Math -Physics	This program is allocated for Royal Guard of Oman Technical College students An IELTS certificate ,minimum score (5) , is compulsory

Military Technological College

1. MTC admission Requirements :

To enter MTC, students must:

2. Complete the 2019/2020 general Education diploma or its equivalent.
3. Pass the medical examinations, personal interviews and English entry test, the student may be exempted doing the English entry test if he has a valid certificate of IELTS exam with a minimum score of 5, (Valid for a period not less than 6 months from the beginning of the academic year 2019/2020), the Student may be also exempted from general foundation Programmes (GFP) and allowed to join Engineering Programmes, immediately , in the case of passing three entry tests (Basic Mathematics, Pure Mathematics, Physics and Computing) with a minimum score of 60% each..
4. The Military Training had been adopted to prepare the students for the academic program which starts by four continues weeks of training before the foundation program and then the military training will consist of lectures and sports twice a week(one hour for each lecture), plus the required, advanced r military training.
5. Students are allowed to leave the college campus in the middle of each week based on defined mechanism.
6. The student accepts after fulfill the program's requirements, including the competitive average and seats available in each program.
7. Complete the foundation program requirements (within 2 years at maximum), plus Average 5.0 in the IELTS certificate at minimum.
8. After completion of the foundation program, students will be distributed to their main specializations according to their choice, average and service requirements.
9. After completion of the advanced diploma, students will be committed to a service contract (10 years service contract in Ministry of Defence) - For the other services and units, the periods of service contracts vary, as detailed in the MTC website (www.mtc.edu.om)
10. Students are not allowed to withdraw from the college, unless this withdrawal is attributed to serious circumstances, such as illness or other personal issues supported by the MTC admin.
11. In Oman air program Succeeding in all parts of the (EASA) exams and standards with not less than (75%) consider as basic criterion for employment.
12. MTC going to grants all its graduates an Advanced Diploma. The student who meet the criteria set for admission to the last academic year can continue to study for a Bachelor's degree (BEng) in the future, after joining the services, and gaining practical experience in accordance with the laws and regulations of the employer, in addition to meet the academic requirements of the college
13. MTC going to grants all its graduates BEng and Advanced Diploma certified by the University of Portsmouth. The students who meet the criteria set for admission to the last academic year can continue to study for a Bachelor's degree (BEng) based on their fulfilment of the academic and military requirements of the college. (This applies to all concerned services without exception).

ARCHITECTURE & CONSTRUCTION

When Art, Science, Design, and Technology combine with each other, the “Architecture and Construction” will be the first outcome. Do you know that the so-called built environment we live in is designed by Architects? An Architect may work both indoors and outdoors, while you should actually bear in mind that an Architect usually spends a lot of time working behind a desk and is not only working outdoors! Other courses within this category could include Landscape Architecture which usually focuses on the design of gardens, parks, and/or other ‘open’ or outdoor spaces. Other courses have occurred also to keep pace with the latest developments in the countries all around the world such as: Property Management, Real Estate Management, and Facilities Management*.

***This content (including photos) has been created by experts handling the Your Decision, Your Future (YDYF) magazine which is published under the auspices of the YDYF multimedia campaign in mid-April every year and aims to help students make well-informed higher education decisions**

EXTERNAL SCHOLARSHIPS BY SUBJECT AND STUDY DESTINATION

*In case a scholarship comprises more than one undergraduate course or major, please consider that some Bachelor degree Programmes may have further requirements and the Ministry of Higher Education (MOHE) cannot guarantee securing admission to the selected Programmes and/or University of highest preference. The MOHE reserves the right to select a suitable institution for each scholarship recipient;

*All external scholarship applicants are advised to take the IELTS for UKVI ACADEMIC TEST in April or May 2019 to avoid a future deferral (delay) of admission;

*The names of the subject areas and/or majors listed within the external scholarship codes are published (only) in English (even in the Arabic version of the handbook) to ensure students receive accurate information as the (recommended) overseas higher education institutions communicate about their Programmes in English. Please bear in mind though that some Programmes are offered by more than one higher education institution (even in one particular destination) and the exact name of the Programmes and/or undergraduate degree title might be different from one higher education institution to another;

*The course entries were accurate at the time of publication of this handbook and necessary changes might be periodically made due to circumstances outside the reasonable control of the MOHE; Please read the terms & conditions on page xxx for more info

CODE	COURSE(S) AND DESTINATION	SCHOLARSHIP REQUIREMENTS	TIE BREAKER
SE546	Property/Real Estate Management, Facility/Facilities Management in the UNITED KINGDOM	Minimum overall average of 85% Pure Mathematics (85%) + 1 of Physics, Biology, Chemistry or Geography (85%) + English (80%)	Pure Mathematics, followed by one of Physics, Biology, Chemistry or Geography
SE547	Property (BA of Property) at the University of Auckland in New Zealand		
SE551	Business Administration - Real Estate in the United States of America		
SE540	Architecture, Landscape Architecture or Interior Architecture in THE UNITED KINGDOM	Minimum overall average of 85% 1 of Pure Mathematics or Physics (85%) + 1 of Arts, Graphic Design, Engineering drawing, IT, History, Arabic or Islamic Studies* (85%) + English (80%) PLUS applicant must have achieved not less than 75% in all other school subjects	Pure Math or Physics, followed by 1 of Arts, Graphic Design, Engineering drawing, IT, History, Arabic or Islamic Studies
SE542	Landscape Architecture or Urban Planning in THE USA		
SE544	Landscape Architecture in AUSTRALIA		
		*Higher Education Institutions (not the Ministry) may ask for Art(s) Portfolio as an additional requirement to demonstrate artistic ability.	

EXTERNAL SCHOLARSHIPS BY SUBJECT AND STUDY DESTINATION

- In case a scholarship comprises more than one undergraduate course or major, please consider that some Undergraduate degree programmes may have further requirements and the Ministry of Higher Education (MOHE) cannot guarantee securing admission to the selected program and/or University of highest preference. Internal Scholarships- Bachelor Programmes

(ARCHITECTURE AND BUILDING)

Notices:

1. This scholarship is an internal scholarship covers the cost of the tuition fees ONLY. The parent will be responsible to cover the cost of transportation and accommodation (If necessary). Regarding to the Social Security Students, a monthly allowance will be provided to them based on the decision made by competent authorities.
2. The study duration for the Foundation Program (Language) is one year ONLY. If the student doesn't achieve the required level at that year, his/her scholarship will be frozen for no more than one year. During that period, the student has to develop his /her language to reach the required level in the institution, in order to join the academic program or to get a direct entry in the academic program from any educational institution at the same academic field. If the student does not do so at that period, his/her scholarship will be withdrawn.
3. Accommodation will be provided by the Private Educational Institutions, taking into a consideration the cost of the accommodation is student's responsibility. (Muscat University and Modern College of Business and Science are not included).

SF001	SP001			* Students are allowed to select the educational institution where there are interested to study in based on the specialization they accepted in. *Students are NOT allowed to change the educational institution after the completion of registration

INFORMATION TECHNOLOGY

The founders of the biggest global incorporations such as Apple and the Facebook were not aware that Information Technology will lead them to be the most popular and wealthy in the world. As Information Technology specialists are able to apply computing on the different fields of life, they are considered one of the most effective and important components of any public or private body.

Perhaps you are interested in Information (and Communication) Technology and learn more about the application of IT in organizations; about software design, hardware and communications. Choose Computer Science or Computing degree programmes to learn more about the underlying principles and theory of computing, programming and other related subjects such as Computer Hardware and Software Systems. Another option is Software Engineering, to learn how to develop and maintain software systems. Or, you could specialize in Computer Information Systems and gain a deeper understanding of how to build large-scale information systems (such as databases, WWW sites and spreadsheets).

Or you might want to become an expert in activities designed to protect a computer network and therefore focus on Network Security? Meanwhile, Computer Forensics or Digital Forensic Science is related to legal evidence found in computers and digital storage media. Management (or Business) Information Systems usually concerns the study of people, technology, organizations and the

relationships among them. Professionals in this area could help firms realize maximum benefit from investment in personnel, equipment, and business processes. It is very much a people-oriented field with an emphasis on service through technology. Systems & Networking - as Network Systems Administrator, your responsibilities usually include everything from activating accounts and security controls to installing and configuring routers, servers and switchers. You will also monitor network performance and troubleshoot problems*.

* ASSESSMENT TEST: all applicants shortlisted for a University of Oman scholarship through the HEAC electronic system will have to take a skills assessment test in the first week of August 2018 as part of their scholarship application.

**Scholarship recipients may select the preferred destination prior to the registration deadline in August 2018. Before applying, students need to check that you have, or are likely to achieve, the right grades in the relevant subjects for the subject you are interested in as some Programmes may have further requirements. The Ministry cannot guarantee an available seat in the course of highest preference as places on specific courses may be limited and/or due to further requirements set by the HEIs. In case the student cannot progress onto one of the majors as per his/her scholarship, this may have implications in view of their scholarship (please read general terms and conditions).

EXTERNAL SCHOLARSHIPS BY SUBJECT AND STUDY DESTINATION

- In case a scholarship comprises more than one undergraduate course or major, please consider that some Undergraduate degree programmes may have further requirements and the Ministry of Higher Education (MOHE) cannot guarantee securing admission to the selected program and/or University of highest preference. EDUCATON

Teaching! As an ancient job as human, worth to be honored and respected. It is considered a basis for nations' development. And do not forget that it is not only a job, but also a supreme message to be delivered. Specializing in Education enables you to live the experience! An experience that includes ambitions and challenges at the same time, to raise generations, spread knowledge, build up future and establish cultures. If you chose to join this field, several options will be in front of you, if you wish to be a Teacher **in the Schools in Oman***.

Internal Scholarships- Bachelor Programmes

(EDUCATION)

Notices:

1. This scholarship is an internal scholarship covers the cost of the tuition fees ONLY. The parent will be responsible to cover the cost of transportation and accommodation (If necessary). Regarding to the Social Security Students, a monthly allowance will be provided to them based on the decision made by competent authorities.
2. The study duration for the Foundation Program (Language) is one year ONLY. If the student doesn't achieve the required level at that year, his/her scholarship will be frozen for no more than one year. During that period, the student has to develop his /her language to reach the required level in the institution, in order to join the academic program or to get a direct entry in the academic program from any educational institution at the same academic field. If the student does not do so at that period, his/her scholarship will be withdrawn.
3. Accommodation will be provided by the Private Educational Institutions, taking into a consideration the cost of the accommodation is student's responsibility. (Muscat University and Modern College of Business and Science are not included).

MANAGEMENT & COMMERCE

Management and Business is another wide category consisting of several subcategories. If you are interested to study this area, you can join Management and Business, or Finance, or Accounting, or Islamic Banking and Finance, or Human Resource Management. Courses under Business may, for example, include Business Studies, Business Administration or Commerce. International Business Degree programmes usually tend to focus on how organizations are operating in a globalizing economy and may enable you to learn another second language. Entrepreneurship/Business Enterprise may be interesting for those who are considering to start their own business or who want to take up a position within a certain business, while you have Project Management and Recreational Project Management if you choose to focus on managing projects. Consider to look into Logistics and/or Supply Chain Management. A 'supply chain' refers to multiple organizations while logistics involves the flow of goods within this supply chain; from the source through the industrial process to the customer and then on to disposal.

Are you interested in acquiring communication skills? Perhaps consider Public Relations, Marketing or Advertising. Meanwhile.

Do you know that Tourism in the Sultanate has become one of the most rapid growing sectors in Oman? Perhaps look into Hospitality management which could include e.g. Event(s) Management or Hotel or Tourism Management*.

***This content (including photos) has been created by experts handling the Your Decision, Your Future (YDYF) magazine which is published under the auspices of the YDYF multimedia campaign in mid-April every year and aims to help students make well-informed higher education decisions [include logo of campaign]**

UNIVERSITY OF OMAN – EXTERNAL SCHOLARSHIPS.

- ***Not all of the listed undergraduate courses/majors are available in all study destinations.** A list of approved courses/majors by country will be uploaded to the HEAC website and other publications in April 2019;
- All external scholarship applicants are advised to take the IELTS for UKVI ACADEMIC TEST in April or May 2019 to avoid a future deferral (delay) of admission;
- The names of the subject areas are published in English only because these are the official names used by the recommended higher education institutions, including in countries where the official language is not English;

Please read the intro and terms & conditions in this handbook for more info

CODE	COURSE(S) AND DESTINATION	SCHOLARSHIP REQUIREMENTS	TIE BREAKER
OE100	Business Administration, Management, Human Resource Management/Development, Entrepreneurship/Enterprise, Event Management or Public Relations IN THE UNITED KINGDOM, THE USA, CANADA, AUSTRALIA, NEW ZEALAND OR IN CERTAIN EUROPEAN OR ASIAN COUNTRIES an assessment test is part of the scholarship application process *	Minimum overall average of 90% 1 of Pure Mathematics or Accounting (85%) or 1 of Applied Mathematics, Business or Economics (90%) + English (85%) PLUS applicant should have achieved at least 80% in all other school subjects	1 of Pure Mathematics or Accounting or Applied Mathematics, Business or Economics
OE101	Actuarial Science or Financial Risk Management IN THE UNITED KINGDOM, THE USA, CANADA, AUSTRALIA, NEW ZEALAND OR IN CERTAIN EUROPEAN OR ASIAN COUNTRIES an assessment test is part of the scholarship application process*	Minimum overall average of 90% 1 of Pure Mathematics or Accounting (85%) + English (85)	Pure Mathematics or Accounting

* ASSESSMENT TEST: all applicants shortlisted for a University of Oman scholarship through the HEAC electronic system will have to take a skills assessment test in the first week of August 2019 as part of their scholarship application. **Scholarship recipients may select the preferred destination prior to the registration deadline in August 2019. Before applying, students need to check that you have, or are likely to achieve, the right grades in the relevant subjects for the subject you are interested in as some Programmes may have further requirements. The Ministry cannot guarantee an available seat in the course of highest preference as places on specific courses may be limited and/or due to further requirements set by the HEIs. In case the student cannot progress onto one of the majors as per his/her scholarship, this may have implications in view of their scholarship (please read general terms and conditions).

EXTERNAL SCHOLARSHIPS BY SUBJECT AND STUDY DESTINATION

*In case a scholarship comprises more than one undergraduate course or major, please consider that some Bachelor degree Programmes may have further requirements and the Ministry of Higher Education (MOHE) cannot guarantee securing admission to the selected Programmes and/or University of highest preference. The MOHE reserves the right to select a suitable institution for each scholarship recipient;

*All external scholarship applicants are advised to take the IELTS for UKVI ACADEMIC TEST in April or May 2019 to avoid a future deferral (delay) of admission;

*The names of the subject areas and/or majors listed within the external scholarship codes are published (only) in English (even in the Arabic version of the handbook) to ensure students receive accurate information as the (recommended) overseas higher education institutions communicate about their Programmes in English. Please bear in mind though that some Programmes are offered by more than one higher education institution (even in one particular destination) and the exact name of the Programmes and/or undergraduate degree title might be different from one higher education institution to another;

*The course entries were accurate at the time of publication of this handbook and necessary changes might be periodically made due to circumstances outside the reasonable control of the MOHE;

SF003	SP003			-* Students are allowed to select the educational institute where there are interested to study in based on the speculation they accepted in. *Students are NOT Allowed to change the preferred College or University after the completion of registration

SOCIETY & CULTURE

Nowadays, the job market demands personnel who have good skills in communication, team work, technical, analytical, critical thinking and problem-solving. If you wish to acquire all these skills, several options will be in front of you. **Economics** which is the study of how people choose to use resources and the production and consumption of products and goods and may prepare you for a variety of possible careers. Studying **Law** will help you gain an insight into how social order has evolved, how conflict can be resolved and how order is maintained, while you will learn how to write and speak very precisely and develop analytical, problem-solving and communication skills. A Law degree can be the first stage in qualifying for entry into the legal profession, however, not everyone who studies Law will move onto a legal career. **Criminology** as a standalone subject usually involves the study of crime including why people commit crimes plus the effects and social reactions to crime. **Psychology** is the study of human behavior and mental functioning; in general, Psychologists are interested in how people think, act, react, interact and feel. Psychologists should not be confused with Psychiatrists since they belong to very different areas. **Applicants should also realise that these scholarships cover an undergraduate degree and this does NOT include Clinical Psychology as this is studied at postgraduate level – in other words, upon completion of a BA in Psychology you CANNOT refer to yourself as a Psychologist.** Information Science is an important and interdisciplinary field primarily concerned with the analysis, collection, classification, manipulation, storage, retrieval, movement, dissemination, and protection of information. **Librarianship** graduates also can manage information at an advanced level. Are you concerned with the study of the interactions between human or social and physical or environmental processes? **IF SO**, we advise to look at **Geography** which combines the Sciences and the Humanities in order for you to understand real-world problems; for example, climate change or the impact of the global economic crisis. Do you wish to develop your language skills? To speak **two languages** fluently? **Translation & Interpreting** will help you develop a fluency in these two languages, and provide you with the opportunity to learn a new language, and know about other cultures.

***This content (including photos) has been created by experts handling the Your Decision, Your Future (YDYF) magazine which is published under the auspices of the YDYF multimedia campaign in mid-April every year and aims to help students make well-informed higher education decisions [include logo of campaign]**

UNIVERSITY OF OMAN – EXTERNAL UNDERGRADUATE SCHOLARSHIPS

*Not all of the listed undergraduate courses/majors are available in all study destinations. A list of approved courses/majors by country will be uploaded to the HEAC website and other publications in April 2019;

* All external scholarship applicants are advised to take the IELTS for UKVI ACADEMIC TEST in April or May 2018 to avoid a future deferral (delay) of admission;

*The names of the subject areas are published in English only because these are the official names used by the recommended higher education institutions, including in countries where the official language is not English;

*Please read the intro and terms & conditions on page xxx for more info.

CODE	COURSE(S) AND DESTINATION	SCHOLARSHIP REQUIREMENTS	TIE BREAKER
OE110	<p>Library Science/Librarianship, Information Science or Information Management IN THE UNITED KINGDOM, THE USA, CANADA, AUSTRALIA, NEW ZEALAND OR IN CERTAIN ASIAN AND EUROPEAN COUNTRIES</p> <p>An assessment test is part of the application process*</p>	<p>Minimum overall average of 90%*</p> <p>Pure Mathematics (80%) or Applied Mathematics (85%) + English (85)</p>	English

* ASSESSMENT TEST: all applicants shortlisted for a University of Oman scholarship through the HEAC electronic system will have to take a skills assessment test in the first week of August 2018 as part of their scholarship application. **Scholarship recipients may select the preferred destination prior to the registration deadline in August 2019. Before applying, students need to check that you have, or are likely to achieve, the right grades in the relevant subjects for the subject you are interested in as some Programmes may have further requirements. The Ministry cannot guarantee an available seat in the course of highest preference as places on specific courses may be limited and/or due to further requirements set by the HEIs. In case the student cannot progress onto one of the majors as per his/her scholarship, this may have implications in view of their scholarship (please read general terms and conditions).

EXTERNAL SCHOLARSHIPS BY SUBJECT AND STUDY DESTINATION

- In case a scholarship comprises more than one undergraduate course or major, please consider that some Undergraduate degree programmes may have further requirements and the Ministry of Higher Education (MOHE) cannot guarantee securing admission to the selected program and/or University of highest preference. The MOHE reserves the right to select a suitable institution for each scholarship recipient;
- All external scholarship applicants are advised to take the IELTS for UKVI ACADEMIC TEST in April or May 2019 to avoid a future deferral (delay) of admission;
- The names of the subject areas and/or majors listed within the external scholarship codes are published (only) in English (even in the Arabic version of the handbook) to ensure students receive accurate information as the (recommended) overseas higher education institutions communicate about their programmes in English. Please bear in mind though that some programmes are offered by more than one higher education institution (even in one particular destination) and the *exact* name of the program and/or undergraduate *degree title* might be different from one higher education institution to another;
- The course entries were accurate at the time of publication of this handbook and necessary changes might be periodically made due to circumstances outside the reasonable control of the MOHE; Please read the terms & conditions in this handbook for more info

CREATIVE ARTS

Creative Arts” is not all about Fine Arts and Visual Arts only! It is a very inclusive

major which contains a number of categories and subcategories, to make it more clear for you:

Are you interested to follow up latest events, news and updates and tell them to others? Are you concerned with issues raised by public opinion and feel you want to write about them? If yes, you are close to Media and Communication. Perhaps you select Journalism, and you want to be professional writer and get wide range of job choices in future. The broad (Mass) Communication and/or Media Studies as a program or major are usually based on an interdisciplinary curriculum and topics could possibly include subjects such as Advertising, Marketing, Mass Media, Management, Public Relations, Public Affairs, Consulting and could or even include an introduction to other areas such as Law, Psychology, Political Sciences or Economics. TV, Media and Film Production courses usually allow students to focus on video, television, feature film and short film production.

Have not you feel curious about what happens behind the scenes of TV and Radio programmes? Those who have the ability to create audio and video program content and distribute it to the mass audiences of radio, television and Internet media are, indeed, specialized in Broadcasting. Do not miss to look at Digital Media or Visual Effects, not of less importance, also belong to the subcategory of Media & Communication and usually involve computer animation and (visual) effects for video, film and multimedia. Those interested in Museums, and Heritage, you can look at Museum Studies which cover all aspects of museum and/or art gallery operations*

OE130	Graphic Design IN THE UK, THE USA, CANADA, AUSTRALIA, NEW ZEALAND OR IN CERTAIN ASIAN AND EUROPEAN COUNTRIES An assessment test is part of the application process*	Minimum overall average of 90% one of Pure Mathematics, Applied Mathematics or IT (85%) + English (85%) + One of Arabic or another language, Media, Psychology, Arts or Graphic Design (90%)	One of Pure Mathematics, Applied Mathematics or IT, followed by Arabic or another language, Media, Psychology, Arts or Graphic Design

* ASSESSMENT TEST: all applicants shortlisted for a University of Oman scholarship through the HEAC electronic system will have to take a skills assessment test in the first week of August 2018 as part of their scholarship application. **Scholarship recipients may select the preferred destination prior to the registration deadline in August 2018. Before applying, students need to check that you have, or are likely to achieve, the right grades in the relevant subjects for the subject you are interested in as some Programmes may have further requirements. The Ministry cannot guarantee an available seat in the course of highest preference as places on specific courses may be limited and/or due to further requirements set by the HEIs. In case the student cannot progress onto one of the majors as per his/her scholarship, this may have implications in view of their scholarship (please read general terms and conditions).

EXTERNAL SCHOLARSHIPS BY SUBJECT AND STUDY DESTINATION

- In case a scholarship comprises more than one undergraduate course or major, please consider that some Bachelor degree Programmes may have further requirements and the Ministry of Higher Education (MOHE) cannot guarantee securing admission to the selected Programmes and/or University of highest preference.
- All external scholarship applicants are advised to take the IELTS for UKVI ACADEMIC TEST in April or May 2018 to avoid a future deferral (delay) of admission;
- The names of the subject areas and/or majors listed within the external scholarship codes are published (only) in English (even in the Arabic version of the handbook) to ensure students receive accurate information as the (recommended) overseas higher education institutions communicate about their Programmes in English. Please bear in mind though that some Programmes are offered by more than one higher education institution (even in one particular destination) and the exact name of the Programmes and/or undergraduate degree title might be different from one higher education institution to another;
- The course entries were accurate at the time of publication of this handbook and necessary changes might be periodically made due to circumstances outside the reasonable control of the MOHE;

CODE	COURSE(S) AND DESTINATION	SCHOLARSHIP REQUIREMENTS	TIE BREAKERS (preferential subjects)
SE720	Digital Media, Graphic Design, Animation, Broadcast or Digital Journalism, TV and/or Film and/or Media Production or Computer Graphics, Imaging & Multimedia in UK	Success in all subjects Minimum overall average of (85%) English (85%) + two of Arabic or another language ,Media, Psychology, Arts, Graphic Design, Islamic Studies, Social Studies or IT (85%) PLUS applicant should have achieved at least (80%) in other school subjects	English

* Scholarship recipients are not permitted to change their major to another major that is not listed within this scholarship, even not to a major within the same category, as this scholarship has been included based on sector-specific needs.

Sultan Qaboos University

CODE	PROGRAM	REQUIREMENTS	ADDITIONAL INFORMATION
SQ780	College of Arts and Social Sciences (Music and Musical Sciences)	Minimum (65%) grade in following: Arabic, English, Music Skills (PASS MUSICAL SKILLS TEST)	Early Childhood Education Program Statement of philosophy. The philosophy of this program is based on the following beliefs: Teachers must seek knowledge continuously, including updating their knowledge to coincide with what is new in the field, and to model the importance of lifelong learning. Teachers of the future must be prepared for utilizing the skills of creative thinking, problem solving, and decision making and the development of these skills must be an integral part of the teacher training. Teachers must understand and value diversity of both individual and groups, including a sensitivity for addressing the needs of special children. Teachers must develop a high level of professionalism and a commitment to excellence in teaching. Teachers should care about all children and show a genuine dedication to working with children, their families, and the community in large. This program is for Female only - Language of instruction is English

RELIGION & PHILOSOPHY

Religion forms the basis of all human spiritual fabric. It is a basic in every Muslim's life as it organises individuals, societies, and nations.

Religion Studies and Philosophy concern themselves with the spiritual side of humanity, in addition to beliefs, perception of reality.

At an academic level, there is a need to go deep into the aspects of Jurisprudence, Islamic Preaching (Da'wah) Studies, and Sharia'a Studies in order to comprehend the changes occurring to society and help individuals maintain their spiritual side.

It can also help find solutions to the main issues facing Muslim's life amid revolution of technology, materialism, media, cultural, and ideological differences.

Section 2

Private Higher Education Institutions (Self-Funded Students)

For the Academic 2019/2020

The private higher education institutions in Oman provide academic programmes in different fields, not only for Omani students, but also for students from other nationalities. All students in Oman can apply to these institutions directly.

Here are some general information a student may need to know before applying to private HEIs:

Important notes:

For more information about private HEIs and their programmes, contact the institution directly.

To study at the above mentioned HEIs, student shall pay fees.

BA001	English Professional Writing	<ul style="list-style-type: none"> - Students seeking admission to Bayan College must have successfully completed the General Education Diploma(Literary or scientific), or its equivalent. - Pass the placements test administered by Bayan College in English language, math and IT. Or - passing the TOEFL Test with score of 500 or its equivalent in other recognized tests such as IELTS /5 <p>IC3 or ICDL will exempt students from computer course at the General Foundation program .</p>	<p>To learn how to write in a wide variety of public and professional contexts. The program teaches the practical aspects of communicating on the job, in business or in industry, to prepare for careers in publishing, editing, writing, and technical communication, including companies, newspapers, magazines and radio and TV stations. As a Professional Writing major, students will study rhetorical theories and learn how to make effective arguments to persuade a variety of audiences. Students have a wide range of course choices. In addition to Professional Writing courses, they also study general requirement courses along with courses from other programmes, including English Studies and Media studies. The graduates will have a variety of jobs waiting for them. Please see the Student Handbook for more details.</p>
BA002	English literature		<p>The English Studies and literature Department offers both a Diploma and a Bachelor of Arts in English Literature. The department seeks to provide students with a high quality instruction in the classroom and enhance their knowledge in both American and British literature. Our students acquire excellent thinking skills as well as advanced written and oral communication skills, proven research methods supplemented by internships for the rest of their academic careers and for their lives beyond college.</p>

Prog. Code	Program Name	Minimum Requirement	Other information
BA003	Broadcasting	<ul style="list-style-type: none"> - Students seeking admission to Bayan College must have successfully completed the General Education Diploma(Literary or scientific), or its equivalent. - Pass the placements test administered by Bayan College in English language, math and IT. Or - passing the TOEFL Test with score of 500 or its equivalent in other recognized tests such as IELTS /5 IC3 or ICDL will exempt students from computer course at the General Foundation program 	<p>This discipline qualifies students to work at TV and Radio stations, in addition to the departments of media, counseling and moral guidance in the ministries and private sector institutions. The student studies the skills of photography, directing and editing, along with the skills of writing and media scripts.</p>
BA004	Journalism	<ul style="list-style-type: none"> - Students seeking admission to Bayan College must have successfully completed the General Education Diploma. - Pass the placements 	<p>This specialization offers the skills required in journalism, in terms of learning and mastering the art of press editing and writing in various fields. The graduates are qualified to work in the media, including newspapers, magazines and radio and television, as well as the relevant sections in most ministries and private institutions.</p>

<p>BA005</p>	<p>Advertising</p>	<p>test administered by Bayan College in English language, math and IT. Or passing the TOEFL Test with score of 500 or its equivalent in other recognized tests such as IELTS /5</p>	<p>This course prepares students with basic advertising principles and the role of advertising in media and society. The course also exposes students to the 21st century advertising environment including agency- client relationships, ethics, consumer behavior, research, planning creative advertisements as well as writing effective copy or print and broadcast media.</p>
<p>BA006</p>	<p>Public Relations</p>	<p>- IC3 ICDL will exempt students from computer course at the General Foundation program .</p>	<p>Is an important discipline that is needed by most government and private sector institutions. This discipline provides the students with the communication skills required to deal with the public and the media, as well as the technical and administrative skills, necessary for public relations jobs. Bayan College is the only private college in the Sultanate that offers this discipline</p>

SU022	Music Education Bachelor Degree only	<ul style="list-style-type: none"> - Obtain minimum of 65% in Arabic Language, English Language & Music. - The age must not exceed 25 years on 01 September. - General Education Diploma Certificate must be not more than 3 years old. - To be fit for the teaching profession with a certified medical report. - Pass the musical skills test & Interview. 		Students must pass part of the University foundation year successfully. Students will be study Mathematics and Computer courses in the faculty
SU023	English Language Studies Diploma, Advanced Diploma and Bachelor Degree	General Education Diploma with (50%) as a minimum average.	In case a group of students get the same Grade, all will be accepted.	Students must pass the University foundation year successfully. The Preparation program includes (English, Math and Computer).

SU024	Law Bachelor Degree only	<p>General Education Diploma with (50 %) or equivalent as a minimum average and obtained (%65) in Arabic Language</p> <p>Students can be exempted if they did not obtain (minimum of 65% or equivalent) in Arabic Language in General Education Diploma, but they will have to study additional courses in Arabic Language & Literature in the first year of the program.</p>	<p>Students must pass part of the University foundation year successfully (foundation year without English Language). Also students must pass the personal interview before joining the program, bring letter of recommendation and clearance certificate from Royal Oman Police</p>
--------------	--	--	--

Note:

The student's Level in the General Foundation Program is determined based on the placement test.

The tuition fees per semester in the General Foundation Program are divided as follows:

English Language fees: 771 R.O.

Mathematics fees (SET): 97 R.O.

IC3 fees: 122.5 R.O.

Accommodation, Transportation and ration are available for students at the University

- Accommodation Fees (the fees are reviewed or modified annually):

Type of Housing	Accommodation Fees per academic year (two semesters)
Treble	478
Double	710
Single	1342

Transportation Fees (the fees are reviewed or modified annually):

Weekly Transportation: 182 RO per academic year (two semesters)

Daily Transportation: according to student's residence

For private students they have to pay admission and deposit fees to secure his seat at the University:

Admission Fees: 50 R.O. non-refundable.

Deposit Fees: 100 R.O. refundable after graduation

Prog. Code	Program Name	Minimum Requirement	Other information
GE001	BEng(Hons) Mechanical Engineering and Vehicle Technology	Successfully completed the General Education Diploma with (70%) or Equivalent (Science Section) Pass Pure Math and Physics with (65%). English Language (60%).	This Program equips students with knowledge and skills in theories, design, analysis and problem solving related to Mechanical Engineering and how these are applied to the design and manufacturing of Vehicles. The Academic award will be issued by the University of The West of England- UWE, Bristol, UK.
GE002	BEng(Hons) Electronics and TeleCommunications Engineering		This Program equips students with knowledge and skills in theories, design, analysis and problem solving related to Electronics and Telecommunications Engineering and how these are applied to the design and manufacturing of Electronics Telecommunications and products and system The Academic award will be issued by the University of The West of England- UWE, Bristol, UK..
GE003	BEng(Hons) Automation and Robotics Engineering		This Program is a specialised engineering branch that provides in-depth knowledge in the areas concerning electro-mechanics, robotics, sensors, automatic system and artificial intelligence. The program also deals with designing robots, maintaining them, developing new industrial applications and research in the automation systems. The Academic award will be issued by the University of The West of England UWE, Bristol, UK.

Prog. Code	Program Name	Minimum Requirement	Other information
GE004	BEng(Hons) Instrumentation and Control Engineering	Successfully completed the General Education Diploma with (70%) or Equivalent (Science Section) Pass Pure Math and Physics with (65%). English Language (60%).	<p>This program is one of the modern engineering disciplines that industries need and rely on because of the tremendous growth in automated processes. This program provides students with basic engineering skills and information in electronic engineering with a focus on measurement, sensing, control systems, electronic sensors, remote sensing, signal processing, intelligent sensors and intelligent control methods.</p> <p>Instrumentation and control engineers are employed in a range of modern industrial settings such as Oil & Gas industry, mining & Energy industries, healthcare sector and more.</p>
GE005	BSc (Hons) Computer Security and Forensics	Successfully completed the General Education Diploma with (70%) or Equivalent (Science or Art Section) Pass Pure or Applied Math with (65%). English Language (60%).	<p>Cybercrime is on the increase and set to keep growing as technology becomes more widespread. High-level security breaches have led authorities, public services and corporations to dedicate more resources to computer security. This has led an urgent need for skilled graduates in forensic computing.</p> <p>The Academic award will be issued by the University of The West of England UWE, Bristol, UK.</p>
GE006	BSc (Hons) Multimedia Technology	Successfully completed the General Education Diploma with (70%) or Equivalent (Science or Art Section) Pass Pure or Applied Math with (65%). English Language (60%).	<p>This program based on Design principles and Digital media delivery technologies which underpin how we make and interact with creative content in an increasingly ubiquitous digital world. This includes movies and music, print and broadcast, commerce and interactive entertainment .Digital media use is growing, ranging from screen-based systems and physical interaction to urban social networks and mobile commerce in the developing world.</p> <p>There's also a growing demand for content creators and professionals who understand the digital landscape.</p> <p>The Academic award will be issued by the University of The West of England UWE, Bristol, UK.</p>

Prog. Code	Program Name	Minimum Requirement	Other information
GE007	BSc (Hons) Environmental Management and Practice	Successfully completed the General Education Diploma with (70%) or Equivalent (Science or Art Section) Pass Pure or Applied Math with (65%). English Language (60%).	Environmental challenges are one of the most important challenges facing humankind today and in the future. The authorities in the Sultanate of Oman have given great importance to this issue. This program provides students with basic knowledge and skills in environmental management and practices, including human relations with the environment, sustainable health environment, environmental challenges, environmental analysis, renewable energy sources, water resources, air quality and waste disposal and recycling. This program relies heavily on application and practice.
GE008	BSc (Hons) Urban and Regional Planning		This program is one of the modern disciplines of architecture. It aims to provide students with the necessary information and skills to develop a sustainable, healthy, comfortable, efficient and attractive environment for the current and future generations. The program includes the study of modern city design, service development, smart cities, environmental challenges, analysis of environmental indicators, transition and human settlements and strategic planning of cities and their services. This program relies heavily on application, practice and fieldwork.

Prog. Code	Program Name	Minimum Requirement	Other Information
TH001	B.Sc.(Hons) in Tourism and Hospitality Management	Pass the General Education Diploma (Secondary School Certificate: 12 years)	<ul style="list-style-type: none"> Graduates of Diploma and the BSc (Hons) Tourism and Hospitality Management will be able to compete for entry level management positions in tourism, hospitality and related sectors.
TH002	Diploma in Tourism and Hospitality Management		
TH003	B.Sc.(Hons) in Event Management		<p>Graduates of BSc and Diploma in Event Management programmes will have the roles and professional careers in areas such as: conference planning and organization, leisure and recreational events coordination, event planning and organization, event marketing, festival management, public relations and communications, sports, trade shows, sponsorships, theme consultation, event safety and risk management. The program provides a systematic understanding of the knowledge and competencies necessary for Event Management and the skills necessary for personal development and reflective lifelong learning</p>
TH004	Diploma in Event Management		
TH005	B.Sc.(Hons) in Tourism Marketing		
TH006	Diploma in Tourism Marketing		<ul style="list-style-type: none"> The Diploma and BSc (Hons) in Tourism Marketing provides an approach that combines and integrates various specialized areas related to both tourism and marketing that enables the graduates to acquire a deep understanding of the vital and critical role of marketing in supporting the growth of tourist destinations and all relevant activities as well as the business growth and enhancing the competitiveness. Graduates of the programmes will be able to handle the tourism marketing planning for destinations and integrate all marketing programmes and promotional activities systematically and holistically whether for private or state-owned organizations at all local, national, regional and international levels.
TH007	BSc (Hons) in Business Enterprise / Service Management Pathway		<ul style="list-style-type: none"> The BSc and Diploma in Business Enterprise/ Service Management Pathway, aims to develop the mindset and skills required to act creatively and practically in the work place with an emphasis on organizations in the service sector. The program emphasizes the role of service design, customer orientation and problem solving in service delivery and organizational effectiveness.
