9	Data fields required from the HEIs	22
10	First: Infrastructure and definition fields of the HEI	23
11	Second: Students fields	46
12	Third: Staff fields	80
13	Fourth: Financial fields	100
14	Attachment: List of values (LOV)	106

Objectives:

1. To illustrate the methodology and mechanism of collecting and analyzing data from the HEIs in the Sultanate and some concerned bodies and uploading them to the database of HESS.
2. Identify nature and type of the data required in the HESS.
3. Identify the technical standards for preparing, collecting and sending data.

Higher Education Statistical System (HESS):

This is the electronic system that collects detailed data about the Higher Education such as: infrastructure data and definition, students, employees, and financial data of the HEIs. It also collects data of students with external scholarships and publishes them upon the approval of the institution. HEAC takes the lead in managing this system, verifying and documenting data and providing them for the HEIs, governmental bodies, and research centers.

It is worth indicating to the article (6) of the Royal Decree No. 29/2001, concerning the issuance of the Statistical Law, the article states that: “All government units, private entities and individuals shall be obliged to provide all the data requested by the Directorate General or the government units that collect and publish the statistical data concerning the issues falling under their respective jurisdiction. Full cooperation shall be extended to these units to reflect the whole truth, according to the internationally known statistical standards, and according to the schedule prepared by the Directorate General or the government authority. Ministry of Defense and other security authorities – excluding the Customs- are exempted from provision of data except what it may allow according to a special written permission.”

Components of Statistical System:

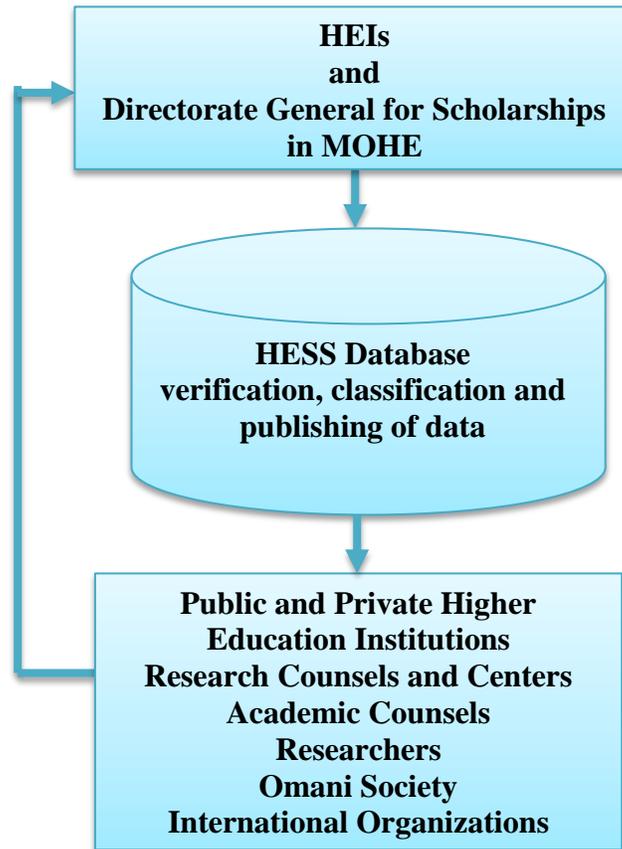

Statistical System consists of four components represented in:

No	Components of Statistical System	Source of Data
1	Infrastructure and Definition Data	All HEIs
2	Students Data	
3	Employees Data	
4	Financial Data	

Note: the data source of students with external scholarships is the Directorate General for Scholarships in the Ministry of Higher Education

Mechanism of exchanging data and information in the HESS:

Form (1) below, illustrates how data and information are exchanged in the HESS. The governmental and private HEIs and the Directorate General for Scholarships send data to the HESS database in the Higher Education Admission Center (HEAC), which in turn verifies, classifies, and publishes them as books or hard and soft publications. HEAC also provides different statistical data to different authorities. HEIs are considered partners in the HESS Project because they are the main sources of data.

Form (1) Mechanism of exchanging data and information in the HESS

Collecting data:

All HEIs in Sultanate and the Directorate General for Scholarships in MOHE collect and classify the data required in the HESS according to the unified statistical classifications*.

The tasks of these institutions and bodies are:

1. Organize, coordinate, and enter the data related to the HESS in cooperation with the Admission Center according to the mechanism that will be explained later on.
2. All these institutions shall be obliged to fulfill all the data fields** and the statistical classifications, and shall approve them due deadline.
3. Assign 2 people or more – **shall be either specialists in Statistics or IT, or those who experience in the admission field** – to represent the educational institution and be in charge of providing HEAC with the required data. They will be also responsible for coordinating and attending meetings, symposiums, and workshops in this concern. **In case of retirement or changing a representative, the institution should assign another one and notify HEAC about that.**
4. **If the field required by statistical system is not available in the institution's system,** the institution should fulfill all the mandatory fields that are not fulfilled in their systems and also apply the statistical classifications and their codes in their valid entry lists required from the database.

*the appropriate entry lists for every field, and they are unified for all HEIs.

**all data that should be provided by the HEIs and they include (definition and infrastructure data - students' data – employees' data – and financial data)

Enquiries and requesting for support:

In case of any enquiries about the document or the HESS in general, please contact/ email the following specialists:

Name of the specialist	Job title	Email	Phone number
Ahmed Saleh Al Shaqsi	Director of the Statistical Department	ahmed@heac.gov.om	24340733
Maitha Dawood Al Lawati	Assistant Director in Statistical Department	maitha@heac.gov.om	24340736
Department of statistical system			
Moza Said Al Mubahsi	Acting Head of Department	moza@heac.gov.om	24340767
Shaima Said Al Wahaibi	Statistics specialist	Shaima@heac.gov.om	24340737

Dates of sending data to HESS for the academic year 2015/2016:

Duration		Required task
From	To	
1/9/2016	30/11/2016	HEIs shall do the following: <ol style="list-style-type: none">1. Upload the infrastructure and definition data, and give initial and final approval.2. Upload students, staff, and financial data, and to be reviewed and verified by the HEAC specialists.3. Data shall be approved initially and finally by higher education institutions (HEIs).

Mechanism of sending and approving data at HESS:

The Higher Education Statistical System (HESS) in the Sultanate of Oman collects data from HEIs and other concerned entities. This data is checked according to the per-defined validation rules to assure its accuracy and validity. Finally, appropriate and required information will be published as a set of output reports.

According to official request of providing (two or more) representatives for HEIs and other resources, there are informational data for those representatives who are responsible for loading and sending data to HEAC according to certain assigned steps. The information about each representative responsible for data loading process shall include the following:

- Name of the person (four parts)
- Work phone number.
- Mobil phone number.
- Email address.
- E-mail of the representative supervisor/ direct/manager.

Below are details of the data flow process from its first step at the HEIs and other resources till it reaches its final approval from the institutions.

Step 1

Preparing data

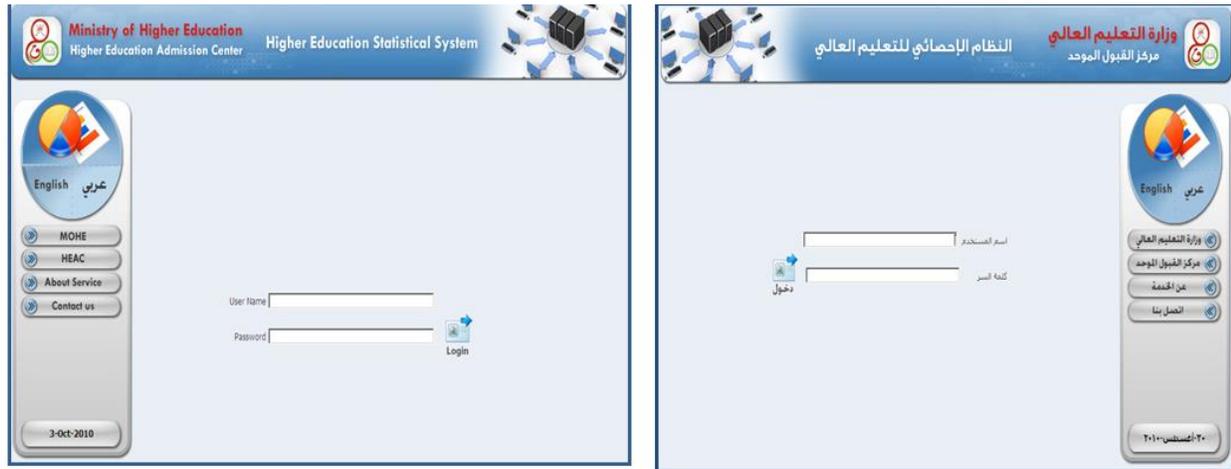

The data loading process starts at the HEIs and other data sources who is prepared data according to the admission center specifications. Data is then uploaded to HESS in a predefined format.

Step 2

Sending Data

Log in to the system

The authorized user will log into the system through Higher Education Admission Center (HEAC) website and click on Higher Education Statistical System (HESS). Choosing download link, the login page will automatically appears as figure (1).

الشكل (1) شاشة الدخول إلى تطبيق الويب
Figure (1) Web Application Log in

Note: The system has two versions: Arabic and English. The user can choose his\her preferred version. After the successful login, the upload page will appear as in (figure 2).

Files Status for The Academic Year							
File	First Test	Second Test	Third Test	Action			
				Upload File	Third Test Reports/Notes	Approval	History
Students	Not done	Not done	Not done				
HEI Employees	Not done	Not done	Not done				
HEI Financials	Not done	Not done	Not done				
HEI Definitions	Not done	Not done	Not done				

حالة الملفات للعام الأكاديمي										
الملف	التاريخ	الإجراء			القبض الأول	القبض الثاني	القبض الثالث	تحميل الملفات	تقرير/ملاحظات القبض الثالث	الاستعداد التاريخ
		القبض الأول	القبض الثاني	القبض الثالث						
الطلبة					لم يتم	لم يتم	لم يتم			
المعلمون في مؤسسات التعليم العالي					لم يتم	لم يتم	لم يتم			
البيانات المالية					لم يتم	لم يتم	لم يتم			
البيانات التعريفية					لم يتم	لم يتم	لم يتم			

الشكل (2) شاشة حالة الملفات

Step 3

Data files Upload

Upload a file as following:

Firstly, HEI's users should select the Infrastructure and definition data file by clicking on symbol  and that to determine the start date and the end date of the academic year and to assure students and staff data files' quality and accuracy.

In case the user doesn't download the Infrastructure and definition data file first and start to download other files, an error message will trigger informing the users about the necessity of downloading definition data file first, as in (figure 3).

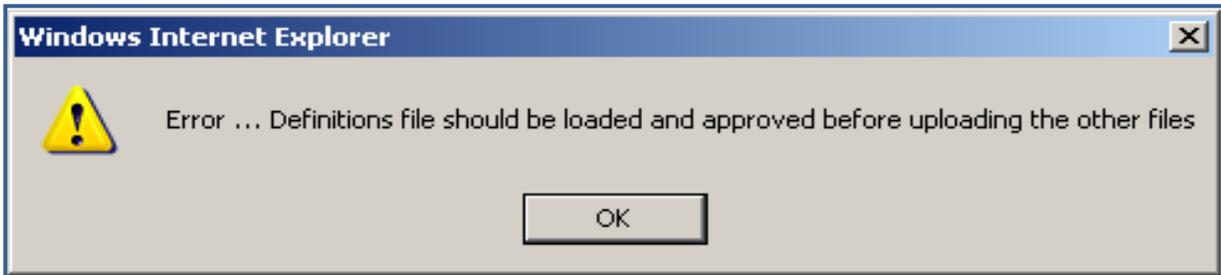

Figure (3) downloading definition data file

After selecting the type of statistical data (students, staffs, financial, Infrastructure and Definition Data) the name and type of the file appears, as illustrated in (figure 4). The user shall identify the location of the file he/she wants to upload. If he/she does not know the file location, he/she shall search about it through clicking on Browse and after that Upload.

Once the user presses 'Upload', the system will start the first and second tests and triggers a message indicating whether the loading was completed successfully or not.

Figure (4) Upload Page

Upload files Validation

For user guidance when uploading required data files, the upload page provides the following validations instructions:

- The file format should be applicable to the data structure uploaded to HEAC website.
- The type of the file uploaded shall be CSV.
- Fields must be separated by a comma (,) and not by a semicolon (;).
- Uploaded file name should indicate the statistical unit which it represents, only the following file names:

Statistical Unit	Correct File Name
Students	Students
Employees	Staff
Finance	Finance
Infrastructure and Definition Data	Definitions

Note: the system does not accept any files that is not compatible to the files names included in the table above (File Name).

The statistical unit to which the uploaded file belongs should match the selected category.

Selected file type should match the type of the uploaded file.

The uploaded file should not be empty or corrupted, in such cases, the system will trigger the message:

ORA-20001: File is Corrupted, please check your file.

Figure (5) File is corrupted error message

Step 4

File checking process

After loading the data file, the first data check will take place immediately to assure data quality and file correctness. The first test checks each field in the file conforms to its predefined data type, field length and format. Such predefined values are defined by HEAC and the HEIs. The user must contact his system administrator if one or more value is not available.

Examples on this test include:

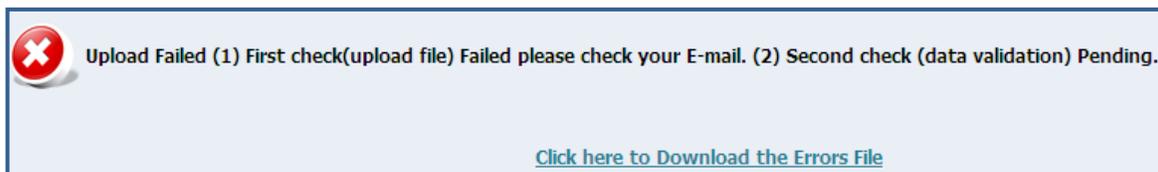

- Total HEI income should be an integer with no decimals
- Civil No. shouldn't exceed 13 characters
- Birth date should be a valid date in the format DD/MM/YYYY

Example

Upload a Students CSV file 'Students.csv' that contains the below values for the following fields:

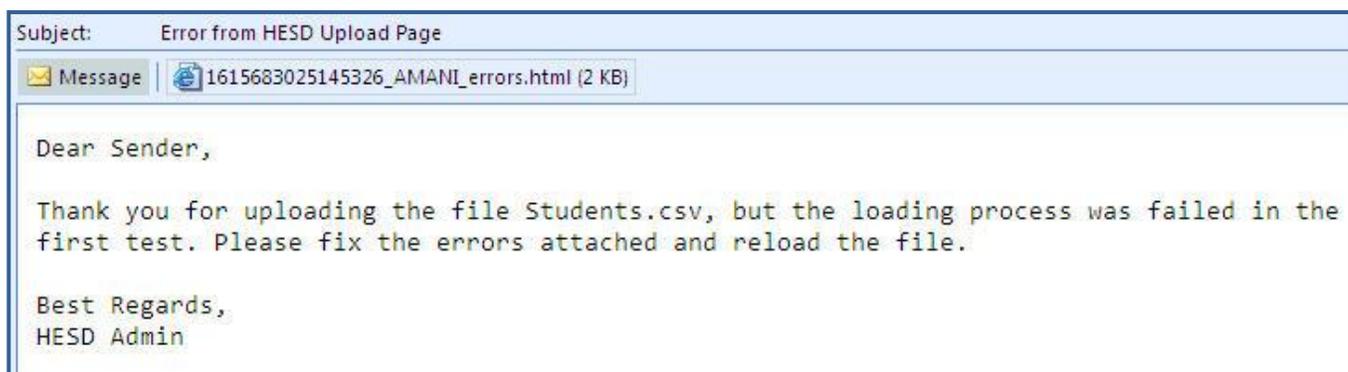

Field	Value
Student identifier	srp2345
Civil No	123456
First name	Ahmed
Date of birth	12/40/2008
Gender	1
GPA	2.3
The duration of the program	Y

If the upload file is inconsistent with the given format, the system will show the following message indicating that the first test failed and the second test is still pending and hasn't started due to the errors in the first check. The errors can be uploaded by clicking on the link that appears in the message as shown in (figure 6).

Figure(6) First Test Failure Message

Also, user can return to files status (figure 2) and click on the symbol  to see errors. An email as (figure 7) below will be sent to the user to inform him\her that the file is inconsistent and it should be corrected and resent in the correct format. This transaction will be recorded for quality checks and historical reports purposes.

Figure(7) First Test Failure Error Email

The user then opens the error attachment to see the errors, which will like the following:

Sultanate of Oman - Higher Education Statistical System
Data Validation Report - Data Consistency, Completeness and Domains Check per
Institute

Date: 03/10/2010

Data Source: Private Higher Education Institutions

Institute Name: XXXXX

File: Students

Civil No.	Field	Error
123456	Date of birth	Data type mismatch, value should be a valid date DD/MM/YYYY.
123456	The duration of the program	The value should be integer without decimal points

Figure(8) First Test Failure Error Attachment

To correct the errors, the user goes to the students.csv file and changes the fields' values to become as in the table below, and then reload the file:

Field	Value
Student identifier	srp2345
Civil No.	123456
First name	Ahmed
Date of birth	12/4/2008
Gender	1
GPA	2.3
The duration of the program	1

Consequently the system shows a message indicating that the file has passed the first test but the second test (data validation) failed.

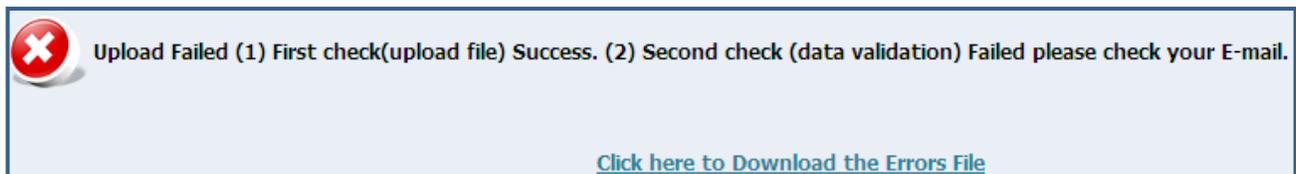

Figure (9) Second Test Failure Message

Step 5

Second checking process for data

After processing of preparing files of data and checking from it, the next test will check the validity of the data by applying the validation rules. The second test checks for completeness and consistency of data against predefined business rules.

Examples on this test include:

- If student status= graduated then Reason for leaving institution = successful completion of course.

If the second test fails, the system will produce on file record level detailed report showing why the test failed and ask the user to fix the errors and reload the file. The report will appear to users through a link as in figure 10 or users can return to files status and click on symbol to see  errors .Also, the errors reports will be sent by email to the data loading responsible user and a copy to the manager at the admission center.

If you check your email, you may find an email with an attachment like the one below:

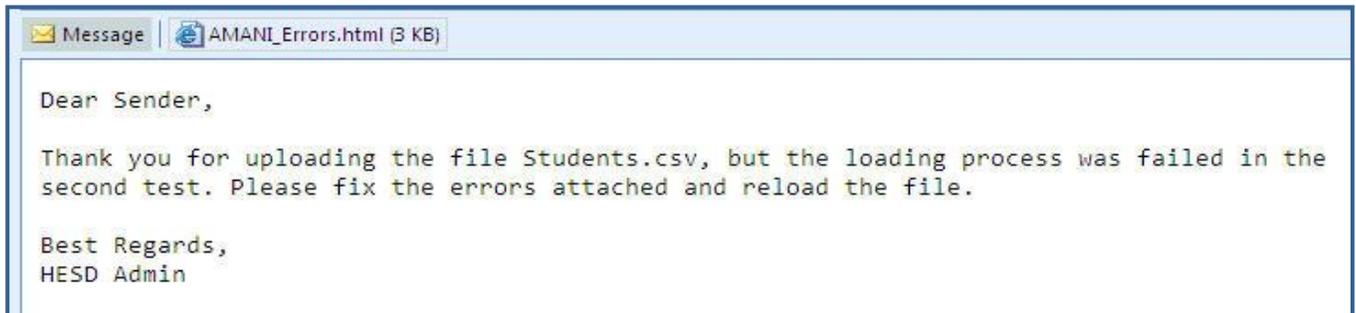

Figure (10) Second Test Failure Error Email

And the error attachment looks like the following:

ID	Student Identifier	Civil NO	Error
9618410	15619	5559699	If the reason for leaving (field 39) = Not Applicable (100), then Date left/completed studies (field 40) should be 31/12/9999
9618410	15619	5559699	If student status (field 35) is not equal to Newly admitted student (code 1) then the New entrant to HEI study case (field 36) is equal to not Applicable (code 100)
9618410	15619	5559699	Year left last institution/school (field 37) must be earlier than or equal to the year in the Admission Date (field 32)

Figure (11) Second Test Failure Error Attachment

The users can fix the errors by providing the correct data as in the table below:

Field	Value
Student identifier	15619
Civil No.	5559699
First name	Ahmed
student status	students
New entrant to HEI study case	Not Applicable
Year left last institution/school	2007
Admission Date	2008
reason for leaving	Not Applicable
Date left/completed studies	31/12/9999

Step 6

Third checking process

After the second checking process, the loaded data will be stored in temporary database area waiting for the third and final check to take place. This check will insure the logicity of the data through a set of statistical reports that covers certain statistical indicators on institute level. The system will show the following message indicating a successful upload of data.

Upload Success (1) First check(upload file) Success. (2) Second check (data validation) Success.

Figure (12) Success Upload Message

Also, on files status screen, the system will shows the symbol  indicating a checking and reviewing process of file by HEAC`s specialists is in progress and downloading of files is not allowed until this process is completed.

Third checking process for data is as following:

HEAC`s specialists will report illogical information if any, in order to be checked and verified by the institution. The system will produce to the user the number and location of comments produced by the specialists as in Figure (13).

Third Test Reports

Serial	Report Title	View Report/Notes	Number of Notes	Number of Closed Notes
1	Number of graduated students by gender, qualification obtained , classification of qualification		2	0
2	Number of students by gender, nationality, student case & disability		0	0
3	Number of students by gender, student case & age group		0	0
4	Number of students by gender, student case & student year in program		1	0
5	Number of students by gender, student case, marital status & type of student's accomodation		0	0
6	Number of students by gender, student case & commencement date		0	0
7	Number of students by gender, student case, aim qualification & duration of program		0	0
8	Number of students by gender, student case & academic year		0	0
9	Number of students by gender, type of scholarship & major source of funding		0	0
10	Number of students by gender, student case & leaving /completing program reason & date		0	0
11	Number of new students by gender & new HE entrant status		1	0
12	Number of students by gender, student case & nature & type of study		1	0
13	Number of students by gender, student case & year left and type of last institution or school attended		0	0
14	Number of students by gender, type of certificate & highest qualification on entry		0	0
15	Number of students by gender, student case & main and minor subject of qualification		0	0
16	Number of students by gender, aimed qualification & age group		0	0
17	Number of students by gender, qualification obtained & age group		0	0
18	Number of students by gender, source of funding & aimed qualification		0	0
19	Number of students by gender, source of funding & nationality (Omani/Non Omani)		0	0
20	Number of students by gender, aimed qualification & nature of study		0	0
21	Number of students by gender, qualification obtained & nature of study		0	0

Figure (13) Third checking reports

The user at the institution should make sure of the comments sent to him\her by referring to the excel file that has been downloaded .In case the data is correct, he/she should responds to the comments by clicking on the word (reply) and write his response and the system will show it as figure (14).

Notes

▲ 1. Number of studying students in third and fourth year is zero. *Addition Date: 04/10/2010 12:26:14*
Replies: 1 Last reply date: 05/10/2010 09:54:20

Replies

User: HEI's employee	Reply Date: 05/10/2010 09:54:20
I have been verified the data of students and really there are no studying students in third .and fourth year	

[Reply](#) 

Figure (14) HEI's responses

At the end of checking process and after completing all modifications and the three checks passed, the

symbol  will appear on files status screen.

Initial institutions approval

After the data quality and validations checks finish, an email request of an initial approval of data accuracy and correctness shall appear to the user at the institution. The initial approval form and the link of the third checking reports as figure(15) will appear automatically after clicking on the symbol  . When the user or the person responsible on doing the initial approval clicks on word (approve), the system will ask him/her to enter password as figure (16).

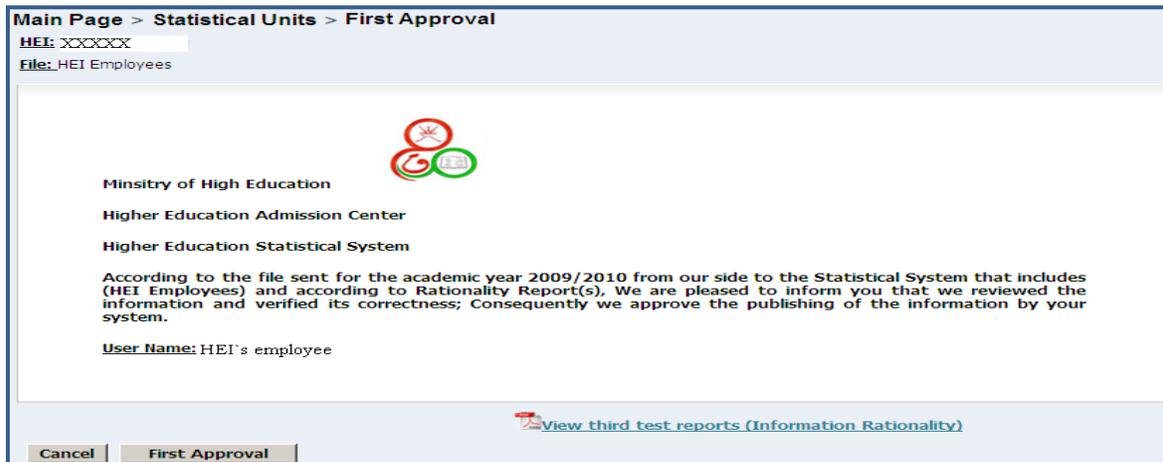

Figure (15) the initial approval form

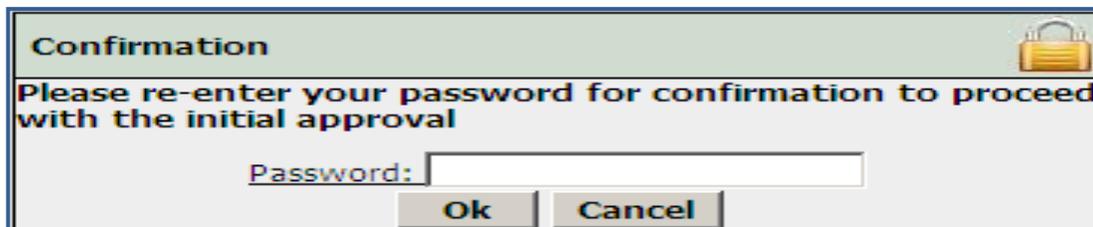

Figure (16) a password is required for initial approval

After entering the password, a message will appear showing the end of the initial approval process as in figure(17).

Figure (17) approving file initially

Final approval from the Institutions

Once the initial approval finishes, the symbol  will appear in files status screen and that figure indicating that the data shall be approved finally by the person who is authorized by the institution to do final

approval. The final approval form and the link for the third checking reports will appear automatically after clicking on the appropriate button as in figure(18) where, when the "final Approval" button is clicked. Then the user will get figure(19) a message in which his/her password is required for authentication.

Figure (18) the final approval form

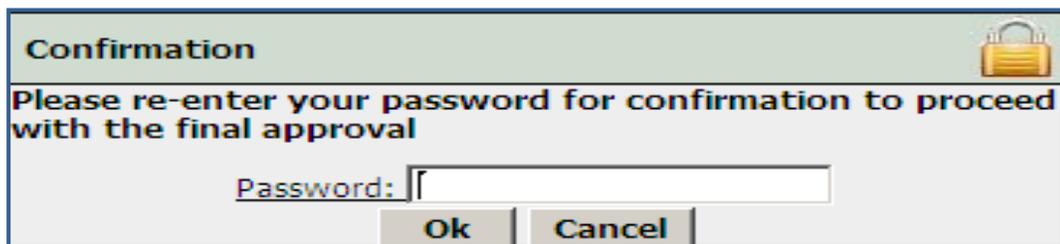

Figure (19) a password is required for final approval

After entering the password, a message will appear showing the end of the final approval process as in figure (20).

Figure (20) Approving file finally

Note: As mentioned before, the final approval of data cannot be done before the initial approval.

If the password is uncorrected the following error message will be triggered.

Figure (21) User is not authorized by the institution to do the final approval

After the final approval is received by the HEI to use and publish these data, the data will be transformed from the operational database to the statistical database as figure (22) (which shows the data flow process).

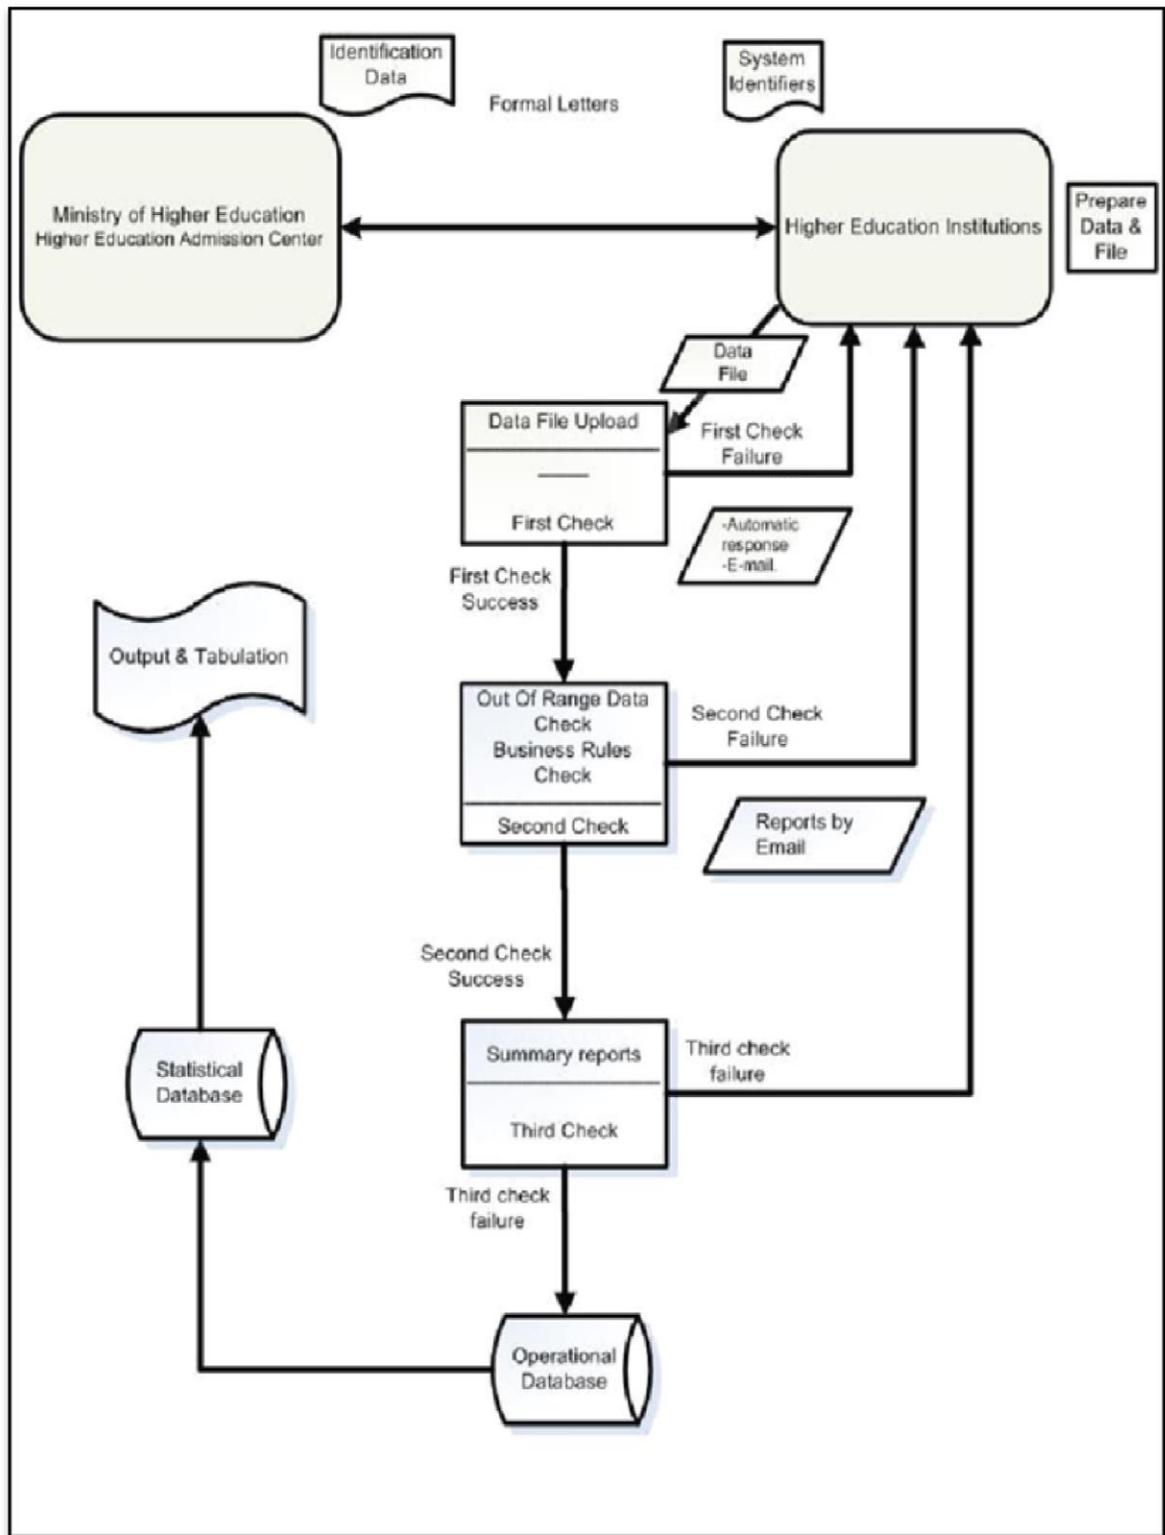

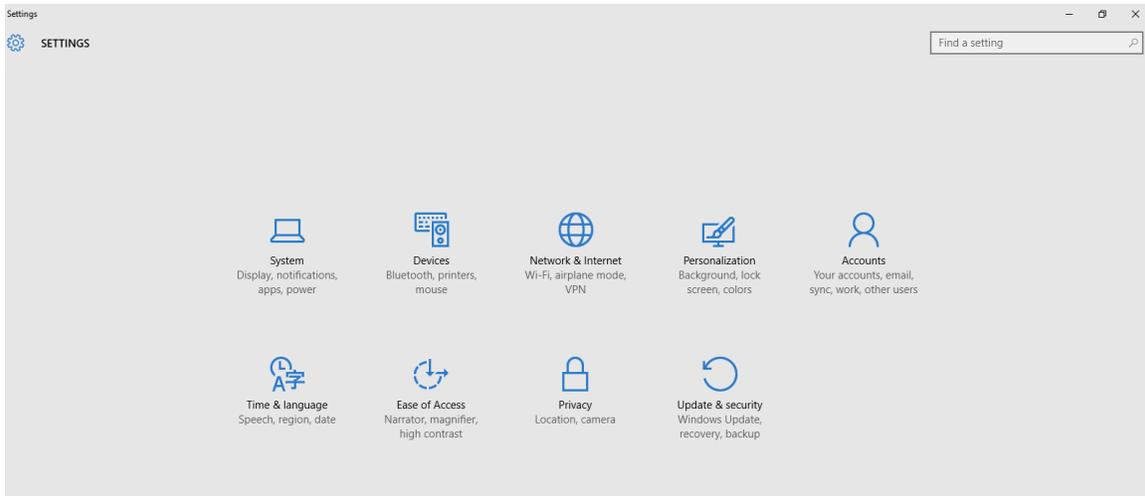

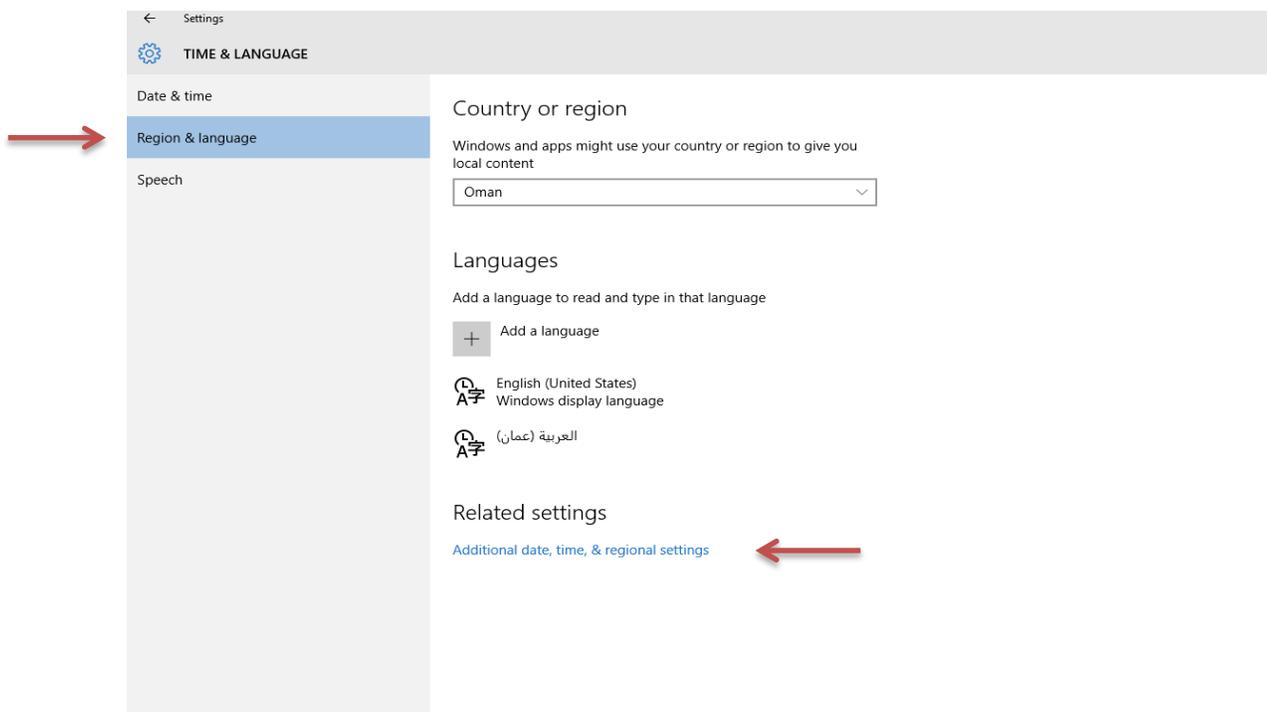

Figure (22) Data Flow

Steps you follow to prevent sending indecipherable files :

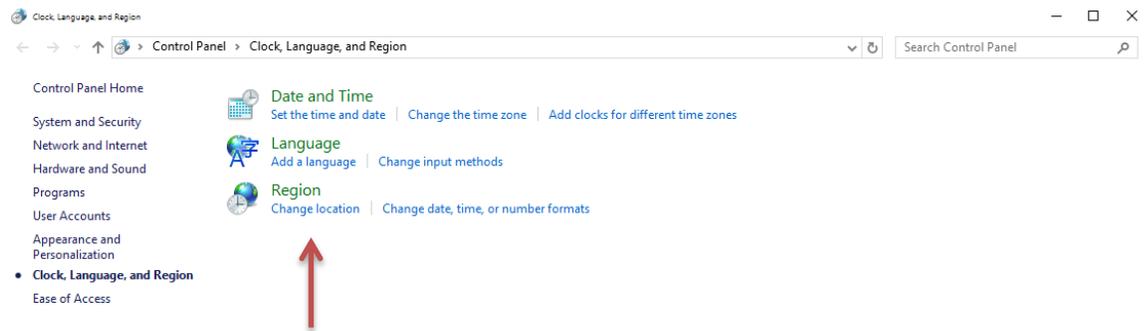

- 1- Click on **Start** button .
- 2- Go to **Settings** and click on (**Time & Language**)

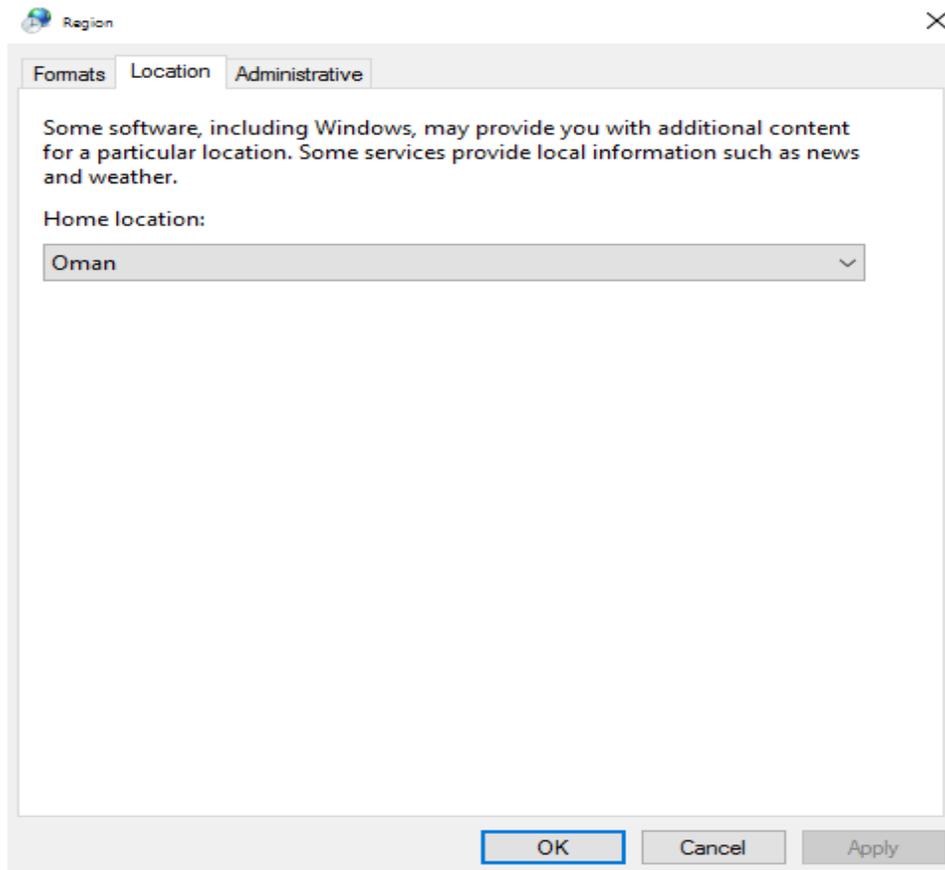

- 3- Click on (**Region & Language**) .
- 4- Go to (**Additional data , time & regional settings**) .

5-Click on **Region** and then go to **Change Location** .

6- Click on **Location** button and select **Oman** .

Data fields required from the HEIs

- **First:** Infrastructure and definition fields of the HEI
- **Second:** Students fields
- **Third:** Staff fields
- **Fourth:** Financial fields

First: Infrastructure and definition fields of the HEI

All infrastructure and definition's fields (126 fields):

No.	Field Name	Fulfillment status	Data type	Length	Description
1	Address	Mandatory	Character	250	Email and P.O.box of the educational HEI
2	Main telephone number	Mandatory	Number	13	Number by which the HEI will be contacted (telephone transducer)
3	Website	Mandatory	Character	100	Website address of the HEI
4	Established year	Mandatory	Number	4	The year when the HEI was established
5	Academic Affiliation	Mandatory	Character	Open	Name of the university, college, or institute affiliated or cooperated with. (when available)
6	Institution's head name	Mandatory	Character	40	Name of the Dean/ Director/ head of the university/ college/ institute
7	Name of first contact for data collection	Mandatory	Character	40	Employee in charge of collecting, preparing, and providing data for the HESS
8	Telephone of first contact for data collection	Mandatory	Number	13	Telephone of the first contact for data collection
9	Personal E-MAIL for first contact for data collection	Mandatory	Character	100	It must be related to the HEI if its available
10	Name of second contact for data collection	Mandatory	Character	40	Employee in charge of collecting, preparing and providing data for the HESS
11	Telephone of second contact for data collection	Mandatory	Number	13	Telephone of the second contact for data collection
12	Personal E-MAIL for second contact for data collection	Mandatory	Character	100	It must be related to the HEI if its available
13	Total number of colleges	Mandatory	Number	2	The number of colleges in the university, if the HEI is a college, then the number of colleges = 0
14	Total number of departments	Mandatory	Number	2	Number of academic departments in the university/ college, without includeing the department of English (foundation year)

15	Total number of majors (displayed)	Mandatory	Number	2	Number of majors in the HEI according to the classification of the Omani Authority of the Academic Accreditation, not including the number of minor fields
16	Total number of computer labs	Mandatory	Number	2	Number
17	Total number of other labs	Mandatory	Number	2	Other laboratories in the HEI such as engineering and science labs, doesn't include computer and english language labs.
18	Total number of branches (If any)	Mandatory	Number	2	Number of branches = 0 in case there are no branches for the HEI other than the headquarter
19	Number of buildings	Mandatory	Number	2	All buildings related to the HEI, could be owned or rent. It includes Total number of students' hostels
20	Total number of students' hostels	Mandatory	Number	2	Number of accommodations related to HEI (off-campus and in-campus), could be owned or rent by the HEI
21	Internet connection	Mandatory	Number	1	This field can be fulfilled through entering the right code from the list of internet connections
22	Total number of libraries	Mandatory	Number	2	A room or a number of rooms, containing number of books and other materials specified for students' use (reading/studying) does not include bookshops
23	Total number of IT centers	Mandatory	Number	2	Centers or departments that offer technical support for HEI
24	Total number of admission departments	Mandatory	Number	2	Centers or departments in charge of students' admission and registration
25	Total number of student affair departments	Mandatory	Number	2	Centers or departments in charge of students' affairs and registration in the HEI

26	Total number of lecture halls	Mandatory	Number	2	Number of lecture halls (Halls that contain the strips and advanced teaching means (voice and audio), doesn't include the other lecture halls\ classes
27	Total number of curriculum activities	Mandatory	Number	2	Number of activities related to students' academic programs (curriculum) such as educational trips
28	Total number of extra-curriculum activities	Mandatory	Number	2	Number of activities that are not related to students' academic programs such as entertainment trips cultural parties, cultural competitions...etc.
29	Total number of immovable teaching halls/classes	Mandatory	Number	3	Number of rooms facilitated with educational materials, well-prepared chairs, with good lighting. They should be smaller than other lecture halls and built with fixed materials (cannot be moved)
30	Total number of portable teaching halls/classes "Caravan"	Mandatory	Number	2	Number of rooms facilitated with educational materials, well-prepared chairs, with good lighting. They should be smaller than other lecture halls and built with fixed materials (can be moved)
31	Total number of sport fields	Mandatory	Number	2	Number
32	Total area of land (by m2)	Mandatory	Number	8	Area in which the HEI building is built by (m2). It includes all areas related as well, the parking areas either in or off campus (within the building area) and doesn't include areas outside campus
33	Total area of buildings (by m2)	Mandatory	Number	8	Total area used for building the HEI, if the building consists of floors, the area of the ground floors will be only counted (m2), it includes in-campus accomodations and doesn't

					include off-campus ones
34	Availability of masjid/prayer rooms	Mandatory	Number	1	Should be fulfilled by selecting the right code from the list Yes/No
35	Availability of coffee shop	Mandatory	Number	1	Should be fulfilled by selecting the right code from the list Yes/No
36	Start date of academic year	Mandatory	Date	10	Should be fulfilled in the form of DD/MM/YYYY
37	Last date of academic year	Mandatory	Date	10	Should be fulfilled in the form of DD/MM/YYYY
38	Total number of semesters per academic year	Mandatory	Number	1	Number of semesters according to HEI (Fall – Spring – Summer)
39	Total area of laboratories (by m2)	Mandatory	Number	8	Total area of all laboratories related to HEI and their floors when available (engineering – science – english Language) by (m2)
40	Total area of library (by m2)	Mandatory	Number	8	Total area of libraries related to HEI and their floors when available by (m2), it doesn't include bookshops
41	Total number of computers	Mandatory	Number	5	This includes all computers (used only) in the HEI
42	Total number of Research Centers	Mandatory	Number	2	The number of departments or centers specialized in Scientific Research in the HEI
43	Total number of international activities hosted by the institution and funded by other bodies	Mandatory	Number	2	Activities organized by the HEI such as: international conferences and workshops (inside and outside Oman) and sponsored by other bodies
44	Building type	Mandatory	Number	1	Should be fulfilled by selecting the right code from the list of Building Type
45	Total number of floors	Mandatory	Number	2	Number of floors in the main building of the HEI
46	Total number of male student hostels within the campus	Mandatory	Number	2	Number of male in-campus accommodations that are related to the HEI

47	Total number of female student hostels within the campus	Mandatory	Number	2	Number of female in-campus accomodations that are related to the HEI
48	Total number of male student hostels outside the campus	Mandatory	Number	2	Number of male off-campus accomodations that are related to the HEI (owned or rent)
49	Total number of female student hostels outside the campus	Mandatory	Number	2	Number of female off-campus accomodations that are related to the HEI (owned or rent)
50	Total number of rooms in the hostels for male within the campus	Mandatory	Number	4	Number of male in-campus accommodation rooms that are related to the HEI (inside the main buidings of the HEI)
51	Total number of rooms in the hostels for female within the campus	Mandatory	Number	4	Number of female in-campus accomodation rooms that are related to the HEI(inside the main buidings of the HEI)
52	Total number of rooms in the hostels (for male) outside the campus	Mandatory	Number	4	Number of male off-campus accomodation rooms that are related to the HEI (owned or rent)
53	Total number of rooms in the hostels for female outside the campus	Mandatory	Number	4	Number of female off-campus accomodation rooms that are related to the HEI (owned or rent)
54	Total number of male students within the campus	Mandatory	Number	5	Number of male students in in-campus accommodation rooms that are related to the HEI (inside the main buidings of the HEI)
55	Total number of female students within the campus	Mandatory	Number	5	Number of female students in in-campus accomodation rooms that are related to the HEI(inside the main buidings of the HEI)
56	Total number of male students outside the campus	Mandatory	Number	5	Number of male students in off-campus accomodations that are related to the HEI (owned or rent)

57	Total number of female students outside the campus	Mandatory	Number	5	Number of female students in off-campus accommodations that are related to the HEI (owned or rent)
58	Total number of masjid/prayer areas for male	Mandatory	Number	2	Number
59	Total number of masjid/prayer areas for female	Mandatory	Number	2	Number
60	Total number of offices for administration	Mandatory	Number	3	Offices for all administration staffs, it should include the number of chairs and tables for each one and not the number of rooms
61	Total number of offices for academics	Mandatory	Number	3	Offices for all academic staffs, it should include the number of chairs and tables for each one and not the number of rooms
62	Total number of offices for technicians	Mandatory	Number	3	Offices for all technical staffs, it should include the number of chairs and tables for each one and not the number of rooms
63	Total number of water coolers	Mandatory	Number	2	Number of water coolers in the HEI and not include water coolers in student hostels
64	Total number of available printers for students	Mandatory	Number	2	Number of printers specified for students in the HEI
65	Total number of available copiers for students	Mandatory	Number	2	Number of copy machines specified for students in the HEI
66	Total number of rest halls/rooms for students	Mandatory	Number	2	Number
67	Total number of male toilets	Mandatory	Number	3	Number
68	Total number of female toilets	Mandatory	Number	3	Number
69	Total number of clinics	Mandatory	Number	2	Number
70	Total number of parking lots	Mandatory	Number	5	Number of parking lots (shaded/ not shaded) (lined/ not lined) (staffs/ students)

71	Total green area by square meters	Mandatory	Number	8	The total green area in the HEI campus, it doesn't include green areas in the off-campus students' accommodations by (m2)
72	Total unused area	Mandatory	Number	8	Total unused area in the HEI building area
73	Total number of security gates	Mandatory	Number	1	Number
74	Availability of a career guidance center	Mandatory	Number	1	Should be fulfilled by selecting the right code from the list Yes/No
75	Availability of alumni center	Mandatory	Number	1	Should be fulfilled by selecting the right code from the list Yes/No
76	Total number of English labs	Mandatory	Number	2	Number of English language laboratories in the HEI
77	Total number of sport halls	Mandatory	Number	1	Number of closed sport halls in the HEI (both genders)
78	Total number of shops	Mandatory	Number	2	Number
79	HEI location	Mandatory	Number	4	Location of the HEI in Oman, and should be fulfilled by entering the Wilayat code from the list of Wilayats
80	Total number of electronic library items borrowed	Mandatory	Number	5	Number of borrowed items related to HEI such as: display devices, electronic items, etc. it doesn't include borrowed books
81	Total number of text books (soft copies)	Mandatory	Number	7	Total number of available text books (soft copies) in HEI
82	Total number of text books (hard copies)	Mandatory	Number	7	Total number of available text books (hard copies) in HEI
83	Total number of reference books (soft copies)	Mandatory	Number	7	Total number of other reference books (soft copies) available in HEI
84	Total number of reference books (hard copies)	Mandatory	Number	7	Total number of other reference books (hard copies) available in HEI
85	Total number of (soft copies) journals/periodicals in HEI	Mandatory	Number	5	Total number of (soft copies) journals/periodicals published and sponsored by HEI during the academic year

86	Total number of (hard copies) journals/periodicals in HEI	Mandatory	Number	2	Total number of (hard copies) journals/periodicals published and sponsored by HEI during the academic year
87	Total number of international activities (conferences/workshops)	Mandatory	Number	2	Total number of international scientific activities organized and funded by the institution during the academic year inside and outside the Oman (conferences, meetings, workshops, ...etc.)
88	Total number of community activities funded by the institution	Mandatory	Number	2	Total number of activities funded by the institution for the community (for free) during the academic year (awareness symposiums.. etc.)
89	Total number of students involved in useful volunteer works	Mandatory	Number	3	Total number of students involved in voluntary work in or outside the HEI during the academic year
90	Total number of funded research projects/ papers from institution fund	Mandatory	Number	2	Total number research projects/papers funded by the HEI during the academic year
91	Total number of research projects sponsored by The Research council or other bodies	Mandatory	Number	3	Total number of research projects sponsored by the Research Council or other bodies during the academic year
92	Total number of researchers involved in projects	Mandatory	Number	3	Total number of researchers involved in projects sponsored by the HEI or the Research Council or other bodies during the academic year
93	Total number of ISI highly cited researchers	Mandatory	Number	2	Total number of researchers whose publications are cited in the database of International Science Institute (ISI) during the academic year

94	Total number of academic staff members who have spent at least one month abroad (on sabbatical leave) during the academic year	Mandatory	Number	2	Total number of academic staff members who have spent at least one month abroad (on sabbatical leave) but not for study during the academic year
95	Total number of short training courses directed to the community	Mandatory	Number	2	Total number of short training courses directed to the community and sponsored by the institution during the academic year (english and computer courses)
96	Total number of student group activities (extra-curricular)	Mandatory	Number	2	Total number of student group activities (extra-curricular) during the academic year
97	Total number of students involved in student group activities (extra-curricular)	Mandatory	Number	5	Total number of students involved in student group activities (extra-curricular) during the academic year
98	Total number of life-long learning (continuing education) courses	Mandatory	Number	2	Total number of life-long learning courses (not related to academic programs) organized by the HEI during the academic year and can help the student in study the progresses in the program he/she studied before.
99	Total number of students participated in life-long learning (continuing education) courses	Mandatory	Number	5	Total number of students participants in life-long learning (continuing education) courses during the academic year
100	Total number of career guidance programs/ courses	Mandatory	Number	2	Total number of career guidance programs/ courses organized by the institution during the academic year (writing CV, how to find a job ..etc)
101	Total number of student participation in career guidance programs/ courses	Mandatory	Number	4	Total number of student participants in career guidance programs/ courses during the academic year
102	Total number of external assessments of academic programs per cohort	Mandatory	Number	2	Total number of external assessments of academic programs per cohort (every 3 years for Diploma and 5 years

					for Bachelor)
103	Number of classes/sections	Mandatory	Number	5	Total number of classes/sections or groups of programs/subjects in the institution including the foundation year
104	Total number of professional exams per program/year/cohort	Mandatory	Number	2	Total number of professional exams evaluated by external examiners per program/year/cohort (Pharmacology students have to take a vocational exam before they are given the graduation certificate)
105	Total number of undergraduate courses	Mandatory	Number	4	Total number of undergraduate courses in the academic year including the foundation year (Vocational Certificate\ Vocational Diploma - Diploma – Advanced Diploma - Professional certificate before bachelor - Bachelor))
106	Total number of post graduate courses	Mandatory	Number	3	Total number of post graduate courses in the academic year including the foundation year
107	Total number of undergraduate courses passed (100%)	Mandatory	Number	4	Total number of undergraduate courses passed (100%) during the academic year
108	Total number of post graduate courses passed (100%)	Mandatory	Number	3	Total number of post graduate courses passed (100%) during the academic year
109	Total number of published/accepted papers of post graduate students	Mandatory	Number	3	Total number of published papers in journals (either in hard copy or in both, i.e., hard and soft copies) during the academic year
110	Total number of published papers of academic staff	Mandatory	Number	3	Total number of published papers in journals (either in hard copy or in both, i.e., hard and soft copies) during the academic year
111	Is official E-mail available for staff	Mandatory	Number	1	Answer from a list of Yes/No

112	Is official E-mail available for students	Mandatory	Number	1	Answer from a list of Yes/No
113	Availability of official website	Mandatory	Number	1	Answer from a list of Yes/No
114	Availability of digital library	Mandatory	Number	1	Answer from a list of Yes/No
115	Availability of center of student counseling	Mandatory	Number	1	Answer from a list of Yes/No
116	Total number of computers for administrative purpose	Mandatory	Number	5	The number of computer devices used by administrators and devices that allocated for administrative purposes
117	Total number of available computers for students	Mandatory	Number	5	Number of computers that students can use after lecture time
118	Total number of computers for teaching purposes	Mandatory	Number	5	The number of computers that are used in lecture halls, computer labs and allocated for the purposes of teaching (Teaching only + teaching and used by student at the same time), in addition to the number of devices used by academics
119	Total number of computers connected to the internet	Mandatory	Number	5	Number
120	Sport halls area (by m2)	Mandatory	Number	8	Total area of sport halls (m2)
121	Restaurants, and entertainment facilities area (by m ²)	Mandatory	Number	8	Total area of canteens, entertainment places, and rest rooms (m2)
122	Capacity of lecture halls (by students)	Mandatory	Number	4	Capacity of lecture halls (Halls that contain the strips and advanced teaching means (voice and audio), doesn't include the other lecture halls\ classes
123	Total number of student appeals (regarding teaching & learning)	Mandatory	Number	4	Number
124	Total number of approved and settled student appeals (regarding teaching & learning)	Mandatory	Number	4	Number

125	Total number of student appeals (regarding institutional facilities)	Mandatory	Number	4	Number
126	Total number of approved and settled student appeals (regarding institutional facilities)	Mandatory	Number	4	Number

Details of infrastructure and definition's fields:

Note: List of values (Statistical Classification) of the infrastructure and definition's fields is the Valid Entry Lists for each field and it will be standard for all the HEIs.

No.	Field's name	Description
4	Established year of the institution	The year when the HEI was established
Validation rules		
<ul style="list-style-type: none"> Established year of the institution in the current year must be equal to the established year in the previous year (field 4). 		

No.	Field's name	Description
15	Total number of majors (displayed).	Number of majors offered by the HEI according to the classification of the Omani Authority of the Academic Accreditation, not including the number of minor fields.
Validation rules		
<ul style="list-style-type: none"> Total number of majors (displayed) (field 15) must be not more than 12 for each institution. 		

No.	Field's name	Description
20	Total number of student hostels.	Number of accommodations related to HEI (off-campus and in-campus), could be owned or rent by the HEI
Validation rules		
<ul style="list-style-type: none"> Total number of students' hostels (field 20) is the sum of total number of male student hostels within the campus (field 46), total number of female student hostels within the campus (field 47), total number of male student hostels outside the campus (field 48) and total number of female student hostels outside the campus (field 49). 		

No.	Field's name	Description
26	Total number of lecture halls	Number of lecture halls (Halls that contain the strips and advanced teaching means (voice and audio), doesn't include the other lecture halls\ classes

Validation rules

- If the total number of lecture halls (field 26) is not equal to zero then, Capacity of lecture halls (by students) (field 122) is not equal to zero.
- If the total number of lecture halls (field 26) is equal to zero then, Capacity of lecture halls (by students) (field 122) is equal to zero.

No.	Field's name	Description
32	Total area of land.	Area in which the HEI building is built by (m2). It includes all areas related as well, the parking areas either in or off campus (within the building area) and doesn't include areas outside campus

Validation rules

- The total area of land (field 32) must be larger than or equal to the sum of (Total area of buildings (field 33) + Total green area (field 71) + Total unused area (field 72)).

No.	Field's name	Description
37	Last date of academic year.	Should be fulfilled in the form of DD/MM/YYYY.

Validation rules

- Last date of academic year (field 37) must be greater than start date of academic year (field 36).

No.	Field's name	Description
46	Total number of male student hostels within the campus.	Number of male in-campus accommodations that are related to the HEI.

Validation rules

- If the total number of male student hostels within the campus (field 46) = 0, then the total number of rooms in the hostels for male within the campus (field 50) and total number of male students within the campus (field 54) =0 and vice versa.

No.	Field's name	Description
47	Total number of female student hostels within the campus.	Number of female in-campus accommodations that are related to the HEI.

Validation rules

- If the total number of female student hostels within the campus (field 47) = 0, then the total number of rooms in the hostels for female within the campus (field 51) and total number of female students within the campus (field 55) = 0 and vice versa.

No.	Field's name	Description
48	Total number of male student hostels outside the campus.	Number of male off-campus accommodations that are related to the HEI (owned or rent).

Validation rules

- If the total number of male student hostels outside the campus (field 48) = 0, total number of rooms in the hostels (for male) outside the campus (field 52) and total number of male students outside the campus (field 56) = 0 and vice versa

No.	Field's name	Description
49	Total number of female student hostels outside the campus.	Number of female off-campus accommodations that are related to the HEI (owned or rent).

Validation rules

- If the total number of female student hostels outside the campus (field 49) = 0, then the total number of rooms in the hostels for female outside the campus (field 53) and total number of female students outside the campus (field 57) = 0 and vice versa.

No.	Field's name	Description
50	Total number of rooms in the hostels for male within the campus.	Number of male in-campus accommodation rooms that are related to the HEI (inside the main buildings of the HEI).

Validation rules

- If the total number of male student hostels within the campus (field 46) = 0, then the total number of rooms in the hostels for male within the campus (field 50) and total number of male students within the campus (field 54) = 0 and vice versa.

No.	Field's name	Description
51	Total number of rooms in the hostels for female within the campus.	Number of female in-campus accommodation rooms that are related to the HEI (inside the main buildings of the HEI).

Validation rules

- If the total number of female student hostels within the campus (field 47) = 0, then the total number of rooms in the hostels for female within the campus (field 51) and total number of female students within the campus (field 55) = 0 and vice versa.

No.	Field's name	Description
52	Total number of rooms in the hostels (for male) outside the campus.	Number of male off-campus accommodation rooms that are related to the HEI (owned or rent).

Validation rules

- If the total number of male student hostels outside the campus (field 48) = 0, total number of rooms in the hostels (for male) outside the campus (field 52) and total number of male students outside the campus (field 56) = 0 and vice versa.

No.	Field's name	Description
53	Total number of rooms in the hostels for female outside the campus.	Number of female off-campus accommodation rooms that are related to the HEI (owned or rent).

Validation rules

- If the total number of female student hostels outside the campus (field 49) = 0, then the total number of rooms in the hostels for female outside the campus (field 53) and total number of female students outside the campus (field 57) = 0 and vice versa.

No.	Field's name	Description
54	Total number of male students within the campus.	Number of male students in in-campus accommodation rooms that are related to the HEI (inside the main buildings of the HEI).

Validation rules

- If the total number of male student hostels within the campus (field 46) = 0, then the total number of rooms in the hostels for male within the campus (field 50) and total number of male students within the campus (field 54) = 0 and vice versa.

No.	Field's name	Description
55	Total number of female students within the campus.	Number of female students in in-campus accomodation rooms that are related to the HEI(inside the main buidings of the HEI).

Validation rules

- If the total number of female student hostels within the campus (field 47) = 0, then the total number of rooms in the hostels for female within the campus (field 51) and total number of female students within the campus (field 55) =0 and vice versa.

No.	Field's name	Description
56	Total number of male students outside the campus.	Number of male students in off-campus accomodations that are related to the HEI (owned or rent).

Validation rules

- If the total number of male student hostels outside the campus (field 48) = 0, total number of rooms in the hostels (for male) outside the campus (field 52) and total number of male students outside the campus (field 56) =0 and vice versa.

No.	Field's name	Description
57	Total number of female students outside the campus.	Number of female students in off-campus accomodations that are related to the HEI (owned or rent).

Validation rules

- If the total number of female student hostels outside the campus (field 49) = 0, then the total number of rooms in the hostels for female outside the campus (field 53) and total number of female students outside the campus (field 57) = 0 and vice versa.

No.	Field's name	Description
58	Total number of masjid/prayer areas for male.	masjid/prayer areas
59	Total number of masjid/prayer areas for female.	masjid/prayer areas

Validation rules

- If the answer of question Availability of masjid/prayer rooms (field 34) is yes, then the total number of masjid/prayer areas for male (field 58) or total number of masjid/prayer areas for female (field 59) must be not equal to zero.
- If the answer of question Availability of masjid/prayer rooms (field 34) is NO, then the total number of masjid/prayer areas for male (field 58) and total number of masjid/prayer areas for female (field 59) must be equal to zero.

No.	Field's name	Description
77	Total number of sport halls	Number of closed sport halls in the HEI (both genders)

Validation rules

- If the total number of sport halls (field 77) is not equal to zero then, Sport fields area (by m2) (field 120) is not equal to zero.
- If the total number of sport halls (field 77) is equal to zero then, Sport fields area (by m2) (field 120) is equal to zero.

No.	Field's name	Description
84	Total number of reference books (hard copies).	Total number of other reference books (hard copies) available in HEI.

Validation rules

- If the total number of libraries (field 22) is not equal to zero then, the total number of reference books (hard copies) (field 84) is not equal to zero.

No.	Field's name	Description
92	Total number of researchers involved in projects.	Total number of researchers involved in projects sponsored by the HEI or the Research Council or other bodies during the academic year

Validation rules

- If the total number of funded research projects/ papers from institution funding (field 90), total number of research projects sponsored by The Research council or other bodies (field 91) is not equal to zero, then the total number of researchers involved in projects (field 92) must not be equal to zero.

No.	Field's name	Description
96	Total number of student group activities (extra-curricular)	Total number of student group activities (extra-curricular) during the academic year
97	Total number of students involved in student group activities (extra-curricular).	Total number of students involved in student group activities (extra-curricular) during the academic year.

Validation rules

- If the total number of student group activities (extra-curricular) (field 96) is not equal to zero, then the total number of students involved in student group activities (extra-curricular) (field 97) must be not equal to zero and vice versa.

No.	Field's name	Description
99	Total number of students participated in life-long learning (continuing education) courses.	Total number of students participants in life-long learning (continuing education) courses during the academic year.

Validation rules

- If the total number of life-long learning (continuing education) courses (field 98) is not equal to zero, then the total number of students participated in life-long learning (continuing education) courses (field 99) must not be equal to zero.

No.	Field's name	Description
100	Total number of career guidance programs/ courses	Total number of career guidance programs/ courses organized by the institution during the academic year (writing CV, how to find a job ..etc)
101	Total number of student participation in career guidance programs/ courses.	Total number of student participants in career guidance programs/ courses during the academic year.

Validation rules

- If the total number of career guidance programs/ courses (field 100) is not equal to zero, then the total number of student participation in career guidance programs/ courses field 101) must not be equal to zero and vice versa.

No.	Field's name	Description
105	Total number of undergraduate courses	Total number of undergraduate courses in the academic year including the foundation year (Vocational Certificate\Vocational Diploma - Diploma – Advanced Diploma - Professional certificate before bachelor - Bachelor)

Validation rules

- Total number of undergraduate courses (field 105) must be greater than or equal to total number of undergraduate courses passed (100%) (field 107).

No.	Field's name	Description
106	Total number of post graduate courses	Total number of post graduate courses in the academic year including the foundation year

Validation rules

- Total number of post graduate courses (field 106) must be greater than or equal to total number of post graduate courses passed (100%) (field 108).

No.	Field's name	Description
109	Total number of published/accepted papers of post graduate students	Total number of published papers in journals (either in hard copy or in both, i.e., hard and soft copies) during the academic year

Validation rules

- If the total number of post graduate courses (field 106) = 0, then the total number of published/accepted papers of post graduate students (field 109) = 0.

No.	Field's name	Description
116	Total number of computers for administrative purpose.	The number of computer devices used by administrators and devices that allocated for administrative purposes

Validation rules

- Total number of computers for administrative purpose (field 116) must be less than the total number of computers (field 41).

No.	Field's name	Description
117	Total number of available computers for students.	Number of computers that students can use after lecture time

Validation rules

- Total number of available computers for students (field 117) must be less than the total number of computers (field 41).

No.	Field's name	Description
118	Total number of computers for teaching purposes.	The number of computers that are used in lecture halls, computer labs and allocated for the purposes of teaching (Teaching only + teaching and used by student at the same time), in addition to the number of devices used by academics

Validation rules

- Total number of computers for teaching purposes (field 118) must be less than the total number of computers (field 41).

No.	Field's name	Description
119	Total number of computers connected to the internet.	Number

Validation rules

- Total number of computers connected to internet (field 119) must be (less than /or equal to) the total number of computers (field 41).

No.	Field's name	Description
120	Sport fields area (by m2)	Total area of sport fields (halls) (m2)

Validation rules

- Sport fields area (by m2) (field 120) must be less than total area of land (by m2) (field 32).

No.	Field's name	Description
121	Restaurants and entertainment facilities area (by m ²).	Total area of canteens, entertainment places, and rest rooms (m2).

Validation rules

- Restaurants, and entertainment facilities area (by m2) (field 121) must be less than total area of land (by m2) (field 32).

No.	Field's name	Description
124	Total number of approved and settled student appeals (regarding teaching & learning).	Number

Validation rules

- Total number of approved and settled student appeals (regarding teaching & learning) (field 124) must be (less than/ or equal to) the total number of student appeals (regarding teaching & learning) (field 123).

No.	Field's name	Description
126	Total number of approved and settled student appeals (regarding institutional facilities).	Number

Validation rules

- Total number of approved and settled student appeals (regarding institutional facilities) (field 126) must be (less than/ or equal to) the total number of student appeals (regarding institutional facilities) (field 125).

Details of students' data fields:

Note: List of values (Statistical Classification) of the students' data fields is the Valid Entry Lists for each field and it will be standard for all the HEIs.

No.	Field's name	Description
1	Student _ID	The ID number of the students after registration in the HEI, this field should be fulfilled by either (numbers) or (codes and numbers) (As followed in the institution)

Validation rules

- Duplicate Student_ID (field 1) is not allowed within the Same HEI unless the qualification obtained is changed, if the highest qualification on entry in the second record is equal to the qualification obtained in the first record and the student case is also different

No.	Field's name	Description
2	Civil _NO	Each student has a unique Civil Number. For Omani student, civil number is the number of the identity card. For GCC students, the number of residence card or passport. For foreign students, the number of residence card should be entered.

Validation rules

- Duplicate Civil Numbers (field 2) is not allowed within the Same HEI unless the qualification obtained (field 24) is changed, and the student case (field 35) is also different
- Duplicate Civil Numbers (field 2) is not allowed, if the student case (field 35) is equal in these cases (1,2,3,4,7,8,9,10) and exact minor field (field 30) is equal

No.	Field's name	Description
3	First _name	These fields should be fulfilled by the full name of the student (first – second – third- fourth- family name)
4	Second _name	
5	Third _name	
6	Forth _name	
7	Family _name	

Validation rules

- Mandatory fields are First, Second & Tribe/Family name. Optional Fields are Third & Fourth name. In case, student doesn't have Tribe/Family name, second name shall be written in Tribe/ Family name's field.
- must fulfill Tribe/Family name (field 7), In case, student doesn't have Tribe/Family name, third name (field 5) or second name (field 4) shall be written in Tribe/ Family name's field..

No.	Field's name	Description
8	Birth _date	Student's date of birth
Validation rules		
<ul style="list-style-type: none"> • This field should be fulfilled in the format DD/MM/YYYY • The age of the student should not be under 16 by comparing the birth date (field 8) with admission date (field 32) • Birth data should not be earlier than 1/1/1940 		

No.	Field's name	Description
9	Birth _place	Student's place of birth
Validation rules		
<ul style="list-style-type: none"> • Must fulfillment place of birth from List of Wilayaat or from the list of countries with the exception of Oman 		

No.	Field's name	Description
10	Gender	Student's gender
Validation rules		
<ul style="list-style-type: none"> • Select an appropriate code from Gender LOV. 		

Gender LOV	
Related Field (10): Gender	
Code	English Description
1	Male
2	Female

No.	Field's name	Description
11	Mobile _no	Contact number of the student
Validation rules		
<ul style="list-style-type: none"> • Mobile Number (field 11) must begin with (9NNNNNNNN) or country code (00NNN)NNNNNNNN • Dublicate mobile no (field 11) is not allowed more than two times 		

No.	Field's name	Description
12	Phone _no	Other contact number (mobile or fixed phone)
Validation rules		
<ul style="list-style-type: none"> • Optional field 		

No.	Field's name	Description
13	Email _address	Student's email
Validation rules		
<ul style="list-style-type: none"> • Email address (field 13) must contain the (@) symbol and (.) • Duplicate e-mail address (field 13) is not allowed more than two times 		

No.	Field's name	Description
14	Country of origin	This field represents the student's home land. For example: student's nationality might be Omani, but he/she is originally from another country. In this case, this field should be fulfilled from the list of countries (excluding Sultanate of Oman)
Validation rules		
<ul style="list-style-type: none"> • The country of origin must fulfilled from List of countries only • If the civil number (field 2) of two consecutive years is equal and if the student's nationality (field 15) is not equal to Omani (code 11153), then the country of origin (field 14) must be equal 		

No.	Field's name	Description
15	Nationality	The student's nationality
Validation rules		
<ul style="list-style-type: none"> • Select a country code from Nation LOV (page 109). • If funding type (field 31) = seat for non- Omanis (code 15), then the student nationality (field 15) must not be equal to Oman (code 11153) 		

No.	Field's name	Description
16	Religion	The student's religion
Validation rules		
<ul style="list-style-type: none"> • Select an appropriate code from religion LOV. 		

Religion LOV	
Related Field (16): Religion	
Code	English Description
1	Muslim
99	Other

No.	Field's name	Description
17	Type of school certificate	The type of student's certificate at grade 12, in case there was levels less than grade 12, the code (100) of Not applicable should be entered.
Validation rules		
<ul style="list-style-type: none"> • Select an appropriate code from type of certificate LOV. • If Highest qualification on entry (field 22)= Not Applicable (code 100), then Type of school certificate (field 17)= not applicable (code 100) 		

Type of certificate LOV	
Related Field (17): Type of school certificate	
Code	English Description
1	General Education Certificate (Full time)
2	General Education Certificate (Adult Education)
3	General Education Certificate (Liberal study)

No.	Field's name	Description
30	Exact major field	This is the name of the exact major field studied by the student at the HEI

Validation rules

- Select an appropriate code from Exact minor LOV for all HEIs (page 151)
- Exact minor field (field 30) code must be belong to the College
- If minor field (field 29) is equal to not applicable (code 99999), then must be the exact minor field (field 30) must be equal to not applicable (code 999999)
- If the minor field (field 29) of the student is not equal to not applicable (code 99999), then the exact minor field (field 30) should be from the elements related to the minor field (field 29).
- If student status (field 35) = graduated (code 4), then the exact minor feild (field30) must not be equal to not applicable (code 999999)

No.	Field's name	Description
31	Type of funding	This field presents the student's type of funding while he\she is studying in the HEI

Validation rules

- Select an appropriate code from type of funding LOV.
- If source of funding (field 41) = self-finance (code 8) then type of funding (field 31) = internal self finance (code 14) or external self finance (code 13)
- If source of funding (field 41) is equal to Ministry of Higher Education (code 1) or Other Public Sources (all public organizations, companies & ministries except Ministry of Higher Education) (code 2) or Military and Security Sources (code 3) or private HEIs (code 4) or private companies (code 5) or Outside Oman sources (code 7) or self finance (code 8), then type of funding (field 31) is not equal to public seat (code 10) or Public seat for employees (code 28)
- If the nationality (field 15) of student is equal to Omani (code 11153) and the source of data is equal to Public Universities or Directorate Colleges of Applied Science, Institutes of Health Science or College of shariaa sciences or technical colleges or Military and Security HEIs or Private HEIs or Vocational Training Centers and Fishermen Training institutes or Military Technical College then, the Type of funding (field 31) must not be equal to (Full External scholarship (code 1), Partial External scholarship (code 2), Full External Grant (code 7), Partial External Grant (code 8), External Self Finance (code 13), Seat for Non Omani students (code 15), Financial Support –External (code 17), External Scholarship – Full Fees (code 20), External grant - Full Fees (code 25))
- If the data source = Private HEIs, then the type of funding (field 31) must not be equal to Public seat (code 10), Full external scholarship (code 1) , partial external scholarship (code 2), full external grant (code 7), Partial external grant (code 8), external grant-full fees (code 25), self fainance-external (code 13), seat for non- Omani students (code 15) , financial support-external (code 17), external scholarship-full fees (code 20), Public seat for employees (code 28)
- If the data source is not equal to Directorate General of Scholarships and source of funding (field 41) is equal to private HEIs (code 4) or Private Companies (code 5) then, type of funding (field 31) is equal to Full Internal Grant (code 9) or Partial Internal Grant (code 16) or employee Grant (code 22) or internal

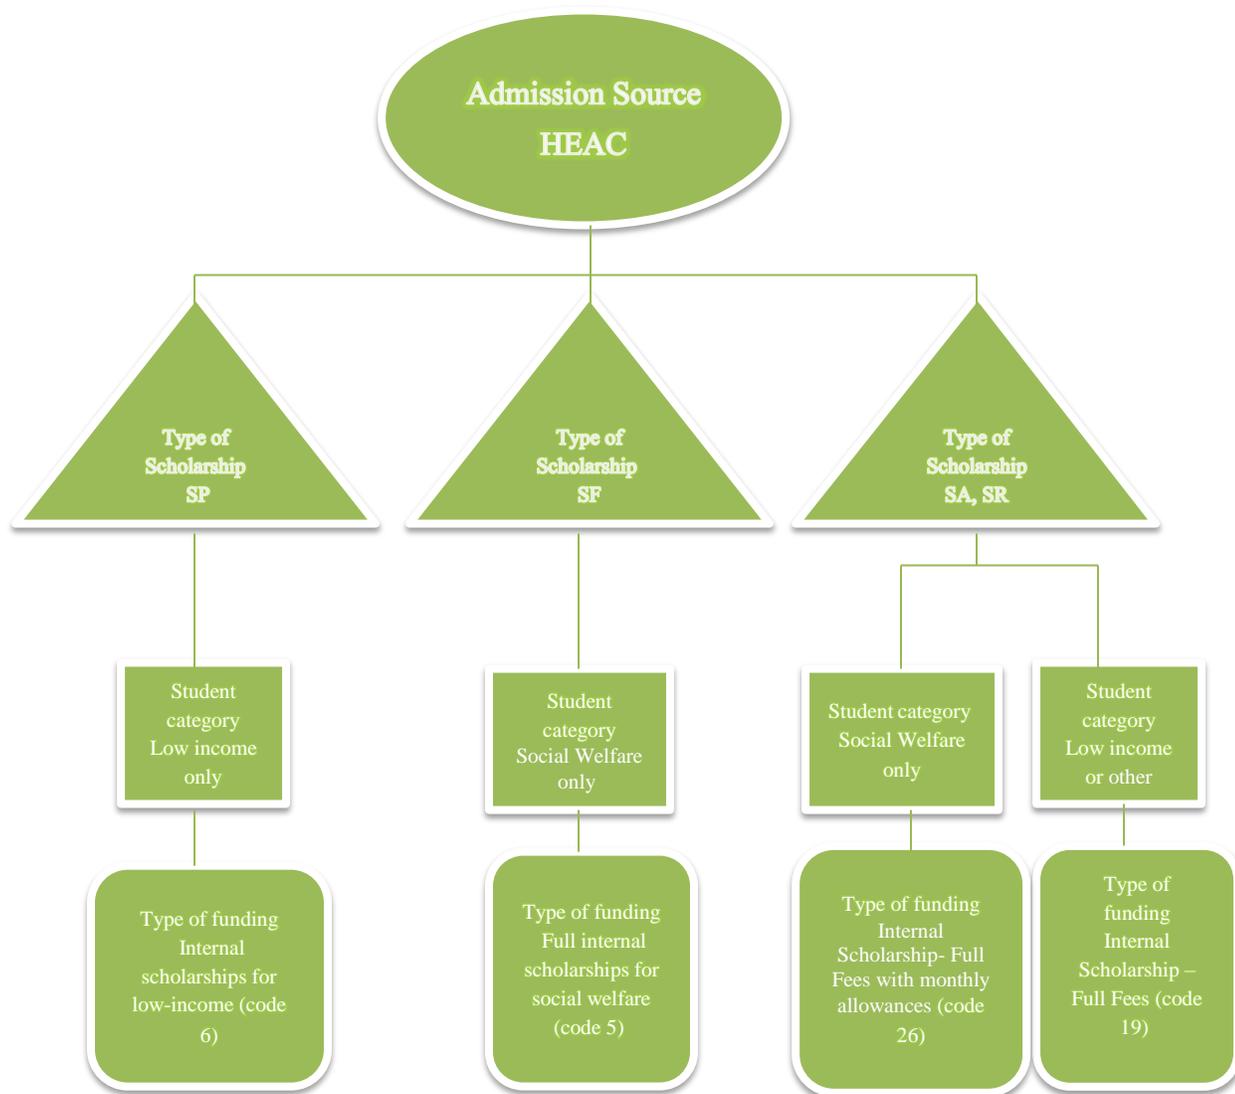

grant-full fees (code 24)

- If the data source is not equal to Directorate General of Scholarships and source of funding (field 41) is equal to Ministry of Higher education (code 1) or other Public Sources (all public organizations, companies & ministries except Ministry of Higher Education) (code 2) or Military and Security Sources (code 3) then, type of funding (field 31) is equal to Full Internal scholarship (code 3) or Partial Internal scholarship (code 4) or Full Internal scholarships for social welfare (code 5) or Internal scholarships for low-income (code 6) or Financial Support –Internal (code 18) or Internal Scholarship – Full Fees (code 19) or employee scholarship (code 21) or Internal Scholarship- Full Fees with monthly allowances (code 26) or Financial Support -Internal - with monthly allowances (code 27)
- If student nationality (field 15)= Omani (code 11153) and data source = Directorate General of Scholarships then type of funding (field 31) shall be: full external scholarship (code 1), partial external scholarship (code 2), full external grants (code 7), partial external grants (code 8), external self-finance (code 13) , Financial Support –External (code 17), External Grant – Full Fees (code 25) or External Scholarship – Full Fees (code 20), **employee scholarship (code 21)**
- If the admission source (field 52) = Higher Education Admission Center (code 1) or any other sources in the Ministry of Higher Education (code 2), then the type of funding (field 31) is Not equal to employee scholarship (code 21) or employee grant (code 22) or self fainance-internal (code 14) or self fainance-external (code 13)
- If the nationality of student (field 15)= Omani (**code 11153**) and Data Source = Public Universities, Directorate general Colleges of Applied Science, Institutes of Health Science, Nursing and Pharmacy, College of Sharia Sciences or technical colleges or Vocational Training Centers and Fishermen Training institutes or Military Technical College and qualification aimed (field 23) = Diploma (code 2), Advanced Diploma (code 3) or Bachelor (code 4) or Vocational Certificate / Vocational Diploma (code 11), and the admission source (field 52) = Higher Education Admission Center (code 1), then type of funding (field 31) = public seat (10)
- If the source of data =Military HEIs, then the source of funding (field 41) must be = public HEIs (code 6) and Funding type= Public seat for employees (Code 28)

Type of Funding LOV		
Related Field (31): Type of funding		
Code	English Description	Definitions
1	Full External scholarship	Scholarship granted by the government for qualified students to study outside the Sultanate to obtain a higher education qualification with full financial support
2	Partial External scholarship	Scholarship granted by the government for qualified students to study outside the Sultanate to obtain a higher education qualification with partial financial support
3	Full Internal scholarship	Scholarship granted by the government for qualified students to study inside the Sultanate to obtain a higher education qualification with full financial support
4	Partial Internal scholarship	Scholarship granted by the government for qualified students to study inside the Sultanate to obtain a higher education qualification with partial financial support

5	Full Internal scholarships for social welfare	Scholarship granted by the government for qualified social welfare students to study inside the Sultanate to obtain a higher education qualification with full financial support. For example: SF
6	Internal scholarships for low-income	Scholarship granted by the government for qualified low-income students to study inside the Sultanate to obtain a higher education qualification with full financial support. For example: SP
7	Full External Grant	Grant offered by private sector institutions and companies or some institutions of higher education for qualified students to study abroad to obtain a higher education qualification with full financial support
8	Partial External Grant	Grant offered by private sector institutions and companies or some institutions of higher education for qualified students to study abroad to obtain a higher education qualification with partial financial support
9	Full Internal Grant	Grant offered by private sector institutions and companies or some institutions of higher education for qualified students to study inside the Sultanate to obtain a higher education qualification with full financial support
10	Public seat	A seat which is offered for entitled Omani applicant to study at public higher education institutions inside the Sultanate.
13	External Self Finance	Are programs in higher education Institutions outside Oman where applicants must pay full costs.
14	Internal Self Finance	Are programs for Omani and non-Omani applicants in higher education Institutions inside Oman where applicants must pay full costs.
15	Seat for Non Omani students	A seat which is offered for entitled non Omani applicant to study at public or private higher education institutions inside the Sultanate and cover full or partial expenses.(International cooperation program)
16	Partial Internal Grant	Grant offered by private sector institutions and companies or some institutions of higher education for qualified students to study in private institutions in Oman and cover part of tuition fees
17	Financial Support - External	Are programs in higher education Institutions outside Oman where applicants must pay full costs and he\she is given monthly allowance support.
18	Financial Support - Internal	Are programs in higher education Institutions inside Oman where applicants must pay full costs and he\she is given monthly allowance support.
19	Internal Scholarship – Full Fees	Scholarship granted by the government for qualified students to study inside the Sultanate to obtain a higher education qualification (tuition fees only). For example: SA, SR
20	External Scholarship – Full Fees	Scholarship granted by the government for qualified students to study outside the Sultanate to obtain a higher education qualification (tuition

		fees only)
21	Employee Scholarship	Scholarship granted by the government for qualified employee students to study in/outside the Sultanate to obtain a higher education qualification
22	Employee Grant	Grant offered by private sector institutions and companies or some institutions of higher education for qualified employee students to study in/outside the Sultanate to obtain a higher education qualification
24	Internal grant - Full Fees	These grants are sponsored by private sector institutions and companies or some institutions of higher education for qualified students to study inside Oman and obtain a higher Education qualification (tuition fees only without monthly allowances)
25	External grant - Full Fees	These grants are sponsored by private sector institutions and companies or some institutions of higher education for qualified students to study outside Oman and obtain a higher Education qualification (tuition fees only without monthly allowances)
26	Internal Scholarship- Full Fees with monthly allowances	A full fees scholarship offered by the government for qualified students to study in the Sultanate and obtain a higher educational qualification. A monthly allowance is spent for them, mostly for Social Welfare Students.
27	Financial Support - Internal - with monthly allowances	Financial aid offered by the government to qualified self-payment students studying inside the Sultanate. A monthly allowance is spent for them, mostly for Social Welfare students
28	Public seat for employees	This seat is granted by public HEIs for students “employees” qualified to study inside the Sultanate to obtain a higher Education qualification

No.	Field's name	Description
32	Admission date	This presents the admission date when the student started studying at the HEI

Validation rules

- This field should be fulfilled in the format DD/MM/YYYY
- If student status (field 35) = newly admitted student (code 1) or Transferred to an institution (code 9) then Admission Date (field 32) shall be during the academic year of HEI as mentioned in the infrastructure and definition data of the HEI
- Admission Date (field 32) must be later than or equal to year left last institution/school (field 37)
- Admission Date (field 32) must be later than or equal to established year (field 4 in the infrastructure and definition data) of the HEI
- Cannot accept Admission date (field 32) after the field of Last date of academic year (field 37 in the infrastructure and definition data) of the HEI
- If the civil number of the student (field 2) and Highest Qualification on Entry (field 22) in two consecutive years are equal, then the admission date (field 32) must be equal too

- If student status (field 35) = Returning after withdrawal (code 8) or Returning after postponing (code 2) or student (code 3) or Re-Admission (code 10), then Admission Date (field 32) shall be not during the academic year of HEI as mentioned in the infrastructure and definition data of the HEI

No.	Field's name	Description
33	Student program year	This field presents the academic year of the student in the program. It can be majored by the number of subjects and credit hours that the student had completed, regardless of the date of admission in the HEI

Validation rules

- Select an appropriate code from student year in program LOV.
- Student program year (field 33) should not exceed the no. of program years (field 34)
- If student status (field 35) = Newly admitted student (code 1) and New entrant to HEI study case (field 36) = Newly admitted student who has not previously attended any HE course (code 1) then the student program year (field 33) shall be equal to foundation year (code 1) or first year (code 2)
- If there is data for a student in two consecutive years and the qualification aimed (field 23), major field (field 28), minor field (field 29) and exact minor field (field 30) are equal in both years then the student program year (field 33) in the later year must be equal to or greater than the previous year (by 1 or 2 years)
- If student status (field 35) = graduated (code 04), then the student program year (field 33) is not equal foundation year (code 01)
- If the data source is not equal to Directorate General of Scholarships and the qualification aimed (field 23) is equal to Postgraduate Diploma (code 5) or Master Degree (code 6) or PHD (code 7), then the student program year (field 33) is not equal foundation year (code 01)

Student program year LOV	
Related Field (33): Student program year	
Code	English Description
1	Foundation Year
2	First Year in Academic program
3	Second Year in Academic program
4	Third Year in Academic program
5	Fourth Year in Academic program
6	Fifth Year in Academic program
7	Sixth Year in Academic program
8	Seventh Year in Academic program
9	Eight Year and more in Academic program

No.	Field's name	Description
34	No of program years	<p>This presents the number of program years along with the Foundation year</p> <p>For example: if the Bachelor Degree years in a HEI = 4 years + foundation year, then the number of the program years = 5 years</p> <p>Note:</p> <ul style="list-style-type: none"> - foundation year is not the first year in the academic program, it is the year before. - number of program years is not the number of years student may finish the program in (the program takes 4 years, but the student finishes the program in 3, the number of programs years should be 4 years) - the number of program years is a fixed number for all students according to the HEI schedule

Validation rules

- Should be fulfilled as a number
- System does not accept value (0) for the No of program years (field 34)

No.	Field's name	Description
35	Student status	This field presents the student's current status in the HEI during the specified academic year

Validation rules

- Select an appropriate code from student status LOV.
- If the student status (field 35) = graduated (code 4) then the student age should be older than 18
- If there is a student data in the previous academic year and the student status (field 35) is newly admitted student (code 1) or returning after postponing (code 2) or postponing (code 7) or returning after withdrawal (code 8) or student (code 3) or transferred to an institution (code 9) or Re-Admission (code 10), then there must be data for the student in the next year
- If the student had a record in the previous academic year and the student status (field 35) was equal to Returning after postponing (code 2) or Returning after Withdrawal (code 8) or Re-Admission (code 10), then the student status (field 35) in the next year should not be equal to Returning after postponing (code 2) or Returning after Withdrawal (code 8) or Re-Admission (code 10)
- If there is data for student in two consecutive years and the student status (field 35) in the previous year is equal to Newly admitted student (code 1) then the student status (field 35) in the next year must be not equal to Newly admitted student (code 1)
- If there is data for student in previous academic year and the student status (field 35) is equal to left study (code 5) and Reason for leaving (field39) is equal to death (code5), then it should no data be available for the same student in the next academic year

- If there is no data for a student in the previous year then its status in the next year = newly admitted students (code 1) or transferred to an institution (code 9) or graduated (code 4) or re-admission (code 10) or left study (code 5) or transferred (code 6) or postponed (code 7) or transferred from outside Oman to inside Oman (code 11)

Student status LOV		
Related Field (35): Student status		
Code	English Description	Definitions
1	Newly admitted student	Those who join HEI in first semester or second semester or summer in the current academic year. This element is related with New entrant to HEI study case (field 35).
2	Returning after postponing	Those who continue their study after discontinuance or postponement in the last semester of current academic year.
3	Student	Those who take up more than one year studying in HEI exclude new student
4	Graduated	Those who successfully complete programs of study in any semester during the current academic year.
5	Left Study	Those who left study or withdraw in any semester during the current academic year.
6	Transferred	Those who transferred to another institution in any semester during the current academic year.
7	Postponed	Those who postpone their study in the last semester of current academic year.
8	Returning after Withdrawal	Those who began his studies after a period of interruption or withdrawal during the current academic year.
9	Transferred to an institution	Those who joined the institution as a result of moving to other educational institution in any semester during the current academic year.
10	Re-Admission	This student has been admitted again to the HEI after being excluded for certain reasons
11	Transferred from outside Oman to inside Oman	This is a student who have been studying at a HEI outside Oman, and has been transferred to study in another HEI inside Oman (for External Scholarships)

No.	Field's name	Description
36	New entrant to HEI study case	This field presents the study case of the new entrant to the HEI, if he/she has previously joined another HEI or not, inside or outside the Sultanate

Validation rules

- Select an appropriate code from New entrant to HEI study case LOV.
- If student status (field 35) = Newly admitted student (code 1) , then New entrant to HEI study case (field 36) is not equal to Not Applicable (code 100)
- If student status (field 35) is not equal to Newly admitted student (code 1) then the New entrant to HEI study case (field 36) is equal to not Applicable (code 100)
- If student status (field 35) = newly admitted student (code 1) and highest qualification on entry (field 22) is not equal to Higher Education Diploma or its equivalent (code 1) or not applicable (code 100) then, the New entrant to HEI study case (field 36) = newly admitted student who has previously attended course (code 2)
- If the student status (field 35) = newly admitted student (code 1) and highest qualification on entry (field 22) is equal to Higher Education Diploma or its equivalent (code 1) or not applicable (code 100), then the New entrant to HEI study case (field 36) = Newly admitted student who has not previously attended any HE course (code 1)

New entrant to HEI study case LOV

Related Field (36): New entrant to HEI study case

Code	English Description	Definition
1	Newly admitted student who has not previously attended any HE course	Newly admitted student who has certificate of secondary School & equivalent and he/she has not previously taken any HE course.
2	Newly admitted student who has previously attended an HE course	Newly admitted student who has previously taken any HE course.
100	Not Applicable	Returning student, studying student, graduated, left study, transferred and postpone , readmitted or transferred from outside Oman to inside Oman .

No.	Field's name	Description
37	Year left last institution/school	This field presents the year when the student left school/ HEI <ul style="list-style-type: none"> •If the highest qualification on entry (field 22) is equal to General Education Diploma or its equivalent (code 1) or not applicable (code 100), then year of leaving last school should be entered. •If the highest qualification on entry (field 22) is higher than General Education Diploma or its equivalent, then year of leaving last HEI should be entered.

Validation rules

- Must be fulfilled in the form of YYYY
- Year left last institution/school (field 37) must be earlier than or equal to the year in the Admission Date (field 32)
- If the civil number of a student (field 2) and Highest Qualification on Entry (field 22) in two consecutive years are equal, then the Year left last institution/school (field 37) must be equal too
- Year left last institution or school (field 37) must be less than or equal to Current Academic Year
- If the Type of previous institution /school attended (field 38) = public school or institution inside Oman (code1) or private school inside Oman (code2) or a school outside Oman (code 5), then Year left last institution/school (field 37) less than 2016

No.	Field's name	Description
38	Type of previous institution /school attended	This is the last HEI/ or school left by the student

Validation rules

- Select an appropriate code from type of previous institution\ school attended LOV.
- If the highest qualification on entry (field 22) = General Education Diploma or its equivalent (code 1) or not applicable (code 100), then the type of previous institution /school attended (field 38) = public school in Oman (code 1), private school in Oman (code 2) or school outside Oman (code5)
- If the civil number of a student (field 2) and highest qualification on entry (field 22) in two consecutive years are equal, then the type of previous institution /school attended (field 38) must be equal too
- If the highest qualification on entry (field 22) is not equal to the General Education Diploma or its equivalent (code 1) or not applicable (code 100), then the type of the last educational institution or school attended (field 38) should be public HEI inside Oman (code3) or private HEI inside Oman (code4) or HEI outside Oman (code 6)
- If the highest qualification on entry (field 22)= General Education or its equivalent (code 1) and the type of certificate(field 17)= equivalent certificate to GED from outside the Sultanate (code 19), then type of previous institution /school attended (field 38) = school outside Oman (code 5)

Type of previous institution\ school attended LOV	
Related Field (38): type of previous institution\ school attended	
Code	English Description
1	Public School in Oman
2	Private School in Oman
3	Public HEI in Oman
4	Private HEI in Oman
5	School outside Oman
6	HEI outside Oman

No.	Field's name	Description
39	Reason for leaving	This field presents the reason why student left or completed studies in the HEI

Validation rules

- Select an appropriate code from Reason for leaving LOV.
- If student status (field 35) = left study (code 5) or Transferred (code 6) or transferred from outside Oman to inside Oman (code 11) then reason for leaving (field 39) shall NOT = successful completion of course (code 1) or Not applicable (code 100) or transferred to another institution (03)
- If student status (35) = graduated (code 4) then reason for leaving (field 39)= successful completion of course (code 1)
- If the student status (field 35) is newly admitted students (code 1) or Postponed (code 7) or returning after Withdrawal (code 8) or Returning after postponing (code 2) or transferred to an institution (code 9) or student (code 3) or Re-Admission (code 10) then the reason for leaving (field 39) must be equal to not applicable (code 100)
- If reason for leaving (field 39) = scholarship termination (code 13), then the data source = Directorate General for Scholarships

Reason for leaving LOV	
Related Field (39): Reason for leaving	
Code	English Description
1	Successful completion of course.
2	Academic failure\not permitted to progress.
4	Health reasons.
5	Death.
6	Financial reasons.
7	Other personal reasons
8	Exceeded the allocated time limit of study.
9	Exclusion (for immoral reasons, or reasons other than academic failure\not permitted to progress)
10	employed.
11	Interruption of the study
12	Lack of desire to continue the study
13	Scholarship termination
14	Complete program(to obtain a higher qualification in the academic program which is not available in the HEI the student transferred from or study unavailable subjects in the HEI the student transferred from.
100	Not Applicable (if the student's status = Newly admitted student or Returning student or Student or Postponed)

No.	Field's name	Description
40	Date left/completed studies	This field presents the date when the student left/ completed studies in the HEI

Validation rules

- This field should be fulfilled in the format DD/MM/YYYY
- If the reason for leaving (field 39) = Not Applicable (100), then Date left/completed studies (field 40) should be 31/12/9999
- If Reason for leaving (field 39) is not equal to Not Applicable (code 100), then Date left/completed studies (field 40) should be during the current academic year
- If student status (field 35) = graduated (code 4) or left studying (code 5) or transferred (code 6), then the date left/ complete studies (field 40) must be between the start and the end of the academic year as stated in the infrastructure and definition data (field 36 and 37).

No.	Field's name	Description
41	Source of funding	The source of funding for the student study in the HEI

Validation rules

- Select an appropriate code from Major source of funding LOV
- If type of funding (field 31) = (full external grant (code7), partial external grant (code8), full internal grant (code 9) or partial internal grant (code 16) or employee grant (code22), internal grant- full fees

(code 24) or external grant - full fees (code 25), then source of funding (field 41) is not equal to ministry of higher education (code 1), other public sources (code 2) , military and security sources (code 3) and self finance (code 8)

- If type of funding (field 31) = external self-finance (code13) or internal self-finance (code14) then source of funding (field 41) shall= self-finance (code8)
- If type of funding (field 31) = seat for Non-Omani students (code 15) then, source of funding (field 41) shall be equal to Public HEIs (code6).
- If type of funding (field 31) is equal to public seat (code 10) or public seat for employee (code 28), then the source of funding (code 41) is equal to public HEIs (code 6)
- If the source of data =Military HEIs, then the source of funding (field41) must be = public HEIs (code 6)
- If Data Source = Public Universities, Directorate general Colleges of Applied Science, Institutes of Health Science, Nursing and Pharmacy, College of Sharia Sciences or technical colleges or Vocational Training Centers and Fishermen Training institutes or Military Technical College and qualification aimed (field 23) = Diploma (code 2), Advanced Diploma (code 3) or Bachelor (code 4) or Vocational Certificate / Vocational Diploma (code 11), and the admission source (field 52) = Higher Education Admission Center (code 1), then Source of funding (field 41) must be equal to Public HEIs (code 6)
- If the admission source (field 52) = Higher Education Admission Center (code 1) or any other sources in the Ministry of Higher Education (code 2) then source of funding (field 41) shall be not equal to other public sources (code 2) or Military and Security Sources (code 3) or Self-Finance (code 8)

Sources of Funding LOV	
Related Field (41): Sources of funding
