IRELAND

THE COUNTRY – A FEW INTERESTING FACTS

- Ireland is an island located on the West of Europe. It has produced ten Nobel Prize winners, including one for Physics, four for English Literature and five for Peace.
- Ireland is predominantly Roman Catholic, but Irish people are known to be down-to-earth and friendly. It is a multicultural society where all religions are embraced and respected.

Study Medicine at University College Dublin

University College Dublin (UCD) is delighted to welcome students from The Sultanate of Oman to study Medicine.

UCD School of Medicine

- » UCD School of Medicine is a recognised leader in the delivery of undergraduate and specialist graduate healthcare education.
- » UCD School of Medicine is proud of its reputation; shaped and built over the last 150 years, as an international leader in the provision of excellence in education and research.

Our Hospitals

- » You will train at one or both of Ireland's largest and busiest acute hospitals: St Vincent's and Mater Misericordiae University Hospitals.
- » You will rotate through Ireland's leading paediatric, maternity and specialist hospitals.
- » You will learn the basics of Primary Care through a primary network of more than 140 Family Practices.

Our Foundation Programme

- » Students can apply from the General Education Diploma to our Foundation Programme (with guaranteed progression to a 6-year Medicine Programme), or from A-Level or IB to a 5-year programme.

Our Medicine Programme

- » Our Medicine programme is innovative, student centred and subject to continual best practice review.
- » An integrated curriculum that introduces patient contact and clinical skills at an early stage.
- » Our programmes combine lectures, seminars, case studies, patient education sessions, simulations and clinical-based 'real-world' learning.
- » State of the art dissection room and all students partake in dissection.
- » Our innovative UCD Horizons programme allows you to tailor your own degree and choose one elective per trimester from any part of the university.

Our University Campus at Belfield

- » 380 acres, the largest urban campus in Europe
- » A suburb south of the city
- » Only a 15-minute bicycle ride from the city centre.
- » Very modern campus, with excellent modern buildings for study and research
- » Beautiful modern student accommodation
- » Student sport facilities, with multiple sports pitches, running track, tennis courts, an indoor olympic swimming pool – almost every indoor or outdoor sport you would wish for.
- » A very safe environment, being in the middle of a wealthy area of Dublin (one of the safest cities in the world).

I am very happy to have chosen UCD for my medical education. UCD is a great place to study because the campus is large, it has great facilities, and the medicine lecturers and staff are so helpful.

The Foundation Year was a great experience also as I was also based on UCD campus and had a guaranteed progression to the medicine programme.

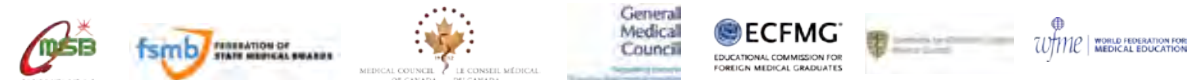

I would highly recommend UCD for your medical education.

Miad Moosa Al Hinai
Class of 2022

CONTACT US

Our Medicine programme is accredited by regulatory bodies including:

NEW ZEALAND

THE COUNTRY – A FEW INTERESTING FACTS

- New Zealand was ranked in the top 3 countries in the world in 2018 for delivering a future-focused education by the Economist Intelligence Unit.
- New Zealand is one of the world's most multicultural nations, home to more than 200 ethnicities and 160 languages. Every year more than 120,000 international students come to New Zealand. We've heard that they even have shops stitching and selling abayas, so no need to worry about things like finding clothing or halal food.
- Outside of class, students can enjoy a range of activities and settings, from majestic mountains and pristine lakes, to modern and vibrant cities with great restaurants, live music, art galleries and more.
- English is predominantly spoken here, but Maori is also one of the official languages. Say Kia Ora [Hello in Maori] in New Zealand.
- Interestingly, New Zealand is the first country to have declared sign language [for deaf people] as an official language in 2006.

Study at the University of Auckland will help you make your mark on the world.

The University of Auckland gives students the chance to experience New Zealand's unique and diverse culture, while studying at a top 100 university* in the world's third most liveable city.**

The University of Auckland is New Zealand's leading university*, ranked in the top 100 in the world. Many of our staff have contributed to research that has advanced modern medicine and our graduates can be found in some of the best hospitals, medical centres, laboratories and biotech companies around the world.

As a student here, you will benefit from academic, professional and research staff who are at the forefront of their fields.

Our Grafton Campus is located across from Auckland Hospital, New Zealand's largest public hospital. The Campus is also opposite the beautiful Auckland Domain in the heart of a city that is ranked third out of 230 world cities for quality of living**.

The Bachelor of Medicine and Bachelor of Surgery (MBChB) is a highly challenging, extremely rewarding programme that will give you the medical knowledge, clinical and

research skills, attitudes, awareness and enthusiasm for pursuing a vocation in any field of medicine.

The MBChB programme

- Puts a strong emphasis on medical sciences, clinical, professional and communications skills
- Run by a faculty with an international reputation for research and innovation
- Unrivalled access to clinical environments due to the Faculty's close relationship with a range of New Zealand's district health boards
- A commitment to rural/regional and community based health through the Faculty's network of clinical campuses and sites in the Upper North Island of New Zealand.

HEALTH SCIENCES**

www.international.auckland.ac.nz

"I have always been interested in science from a young age and as I got older, my interest in human anatomy grew. Becoming a doctor will satisfy this interest and will help me make a difference in the lives of many."

"I chose to study at the University of Auckland because of its high world- ranking and after speaking to some friends who were already at the University of Auckland, I decided that it would be the best option for me."

"Interacting with my tutors has always been very easy. They have been very helpful with any questions that I have had."

"Auckland has a good combination of city life with good options to get into nature close by. Kiwis are really friendly, respectful and welcoming. It is easy to start conversations either with a total stranger in the street, or with the person sitting next to you in the lecture theatre, which is why it has been easy to find new friends in a new environment."

Mohamed Al Balushi is from Oman, and is studying a Bachelor of Medicine and Bachelor of Surgery (MBChB).

THE UNIC EXPERIENCE

At UNIC, you will become a member of the largest international student community in Cyprus. Our students come from over 100 countries across the globe, sharing their culture, traditions, history, music and food, in a vibrant, multicultural environment.

The student experience at UNIC is filled with many social events and activities. We hold a variety of exciting events throughout the year that both students and the general public can attend and which cater to the diversity of tastes that come with a global student body.

Another way to meet people, make friends and have fun during your time at UNIC is through the countless events organised by our events team throughout the year. You can keep track of all happenings on and off campus through our online university events calendar which includes music concerts, exhibitions, cinematic screenings, lectures, exciting talks by guest speakers, and many more events.

AN INNOVATIVE MEDICAL SCHOOL

Over the past two decades, the University of Nicosia has led the development of life and health sciences programmes in the wider region. In addition to the School's achievements in medical education and research, students benefit from world-class faculty members, experienced and supportive staff, international partnerships, and state-of-the-art facilities and learning resources. Students from more than 80 countries around the world are enrolled in the Medical School, coming from as far away as the United States, Canada, Australia, and New Zealand.

The student-centred curriculum allows for the early development of clinical skills and reasoning, and promotes collaborative learning, critical thinking and reflection, skills that are essential for the student's future career in medicine. The School is committed to the provision of innovative, student-centred and high-quality education, which is based on the best available evidence in current medical education pedagogy.

The School aims to produce competent graduates, committed to lifelong learning, who can pursue further training in their field of choice and will be competent and successful practitioners, teachers, administrators, and researchers.

DOCTOR OF MEDICINE (MD) PROGRAMME

The Medical School offers a 6-Year MD degree programme designed for high school leavers. The six-year MD degree is officially listed in the World Directory of Medical School and is an EU-accredited medical degree, which provides licensing and practice pathways worldwide after graduation.

With a 99.8% graduate employment rate, graduating doctors by UNIC Medical School have lent their medical expertise in over 200 medical centres internationally. This is in part due to UNIC's devoted Student Success Team. Graduates are well-prepared for life after Medical School with early patient contact through integrated clinical practice courses from Year 2. Personal tutors and career advisors offer unique and highly specialised career preparation.

STUDENT FEEDBACK

Since day one, the University of Nicosia (UNIC) Medical School has been very supportive every step of the way and has made my overall experience very welcoming and friendly. Being the first medical student in my family, there was so much I had to learn. The staff and professors have been so helpful and understanding in helping me navigate through Medical School. They did an amazing job in helping me make UNIC Medical School my home-away-from-home.

UNIC is one of the best choices if you're looking for an exciting international environment. I have made friends from all around the world and continue to better myself as an individual through the many extracurricular opportunities that the Medical School has to offer. The MD program has a well-rounded approach to medicine where we learn through lectures, labs, presentations, and group projects. They provide a hands-on approach with clinical and communication skills which lets us dive into the practical element of medicine very early into our studies. The MD degree allows me to think independently, and I continue to gain a lot of knowledge and skills that will help me with my future career as a doctor. The Medical School has also helped and encouraged me to prepare myself for the USMLE right from the beginning and has put my mind to ease knowing I will have an incredible support system when it comes to writing future licensing exams.

Neha Najeeb
MD, Class of 2026,
Canada & UAE

I was accepted in the Doctor of Medicine programme at the University of Nicosia in August 2016. Having been awarded a scholarship from the Omani government, I found myself following my dream of becoming a doctor.

The University of Nicosia Medical School has inspired me from the first day. Beside the modern style of the lecture rooms, there are sophisticated laboratories for anatomy, clinical skills and simulation. The Medical School's library has an integrated system which provides access to various international medical resources. It also contains reading and studying areas. The lifestyle in Cyprus is very relaxed. Apart from the ideal Mediterranean climate, people here are really warm and welcoming. In addition, having classmates from diverse nationalities and cultures adds to and intensifies my experience.

Yasir Ali Al-Shehhi

Your Best Pathway to University

About MFA

Muscat Foundation Academy, licensed by the Ministry of Higher Education, Research & Innovation, has partnered with NCUK to provide internationally recognised pathway programs to students in Oman who wish to study abroad.

NCUK is a unique organisation of leading universities across the UK, the USA, New Zealand, Canada, Australia and beyond . MFA delivers the NCUK International Foundation Year (IFY) program for High school graduates that allows students to complete their foundation year in Muscat and get guaranteed direct entry to a partner university abroad upon successful completion of the program.

Your Journey with us

What is the NCUK International Foundation Year (IFY)?

A qualification designed by NCUK university partners provides students with a foundation year pathway to study and gain your Bachelor's degree in the UK or other countries globally, such as the US, Canada, Australia and New Zealand. The IFY is primarily aimed at international students who have finished high school (such as Thanawiya or IGCSE) and have English language of IELTS 5.0 or equivalent who want to study abroad at university. It is also an excellent pathway to those who wish to improve their British curriculum A-level results.

The IFY qualification meet the highest academic standards set by our university partners. As well as academic knowledge, the NCUK International Foundation Year will give you specialist English language, study and cultural skills that are an essential part of your degree course. This unique combination will help you to get in to the get in to the University of your choice and get on with your future career.

What can I study?

Depending on which Bachelor degree students want to study, they can choose one IFY stream. Students will study four subjects related to their stream. English For Academic purposes will be a core subject for all students.

- Business stream
- Engineering stream
- Humanities stream
- Science stream

1 core module and choose 3 other modules to study

EAP
(English for
Academic Purposes)

+

Business
studies

Economics

Maths

Sociology

Chemistry

Physics

Biology

Where will I study after completing the IFY?

Our Partner universities

How long does it take to complete?

The IFY is usually completed following the Standard Programme (9 months), however there may also be Accelerated Programmes (6 months) and Extended Programmes (12 months) options available. Please contact us to find out more.

	Length	IELTS	Guaranteed Access	Choice of University
A Level	2 Years	Yes	N/A	Unlimited
International Baccalaureate (IB)	2 Years	Yes	N/A	Unlimited
International Foundation Year (IFY)	1 Year	No	16 Universities	Unlimited

What are the entry requirements?

- ✓ 17 Years old and above
- ✓ Completed 12 years of Education or IGCSE
- ✓ Achieve IELTS 4.5 and above

Shahadat Al- Thanawaya Al-Aama

Successful completion with an average grade of 60% or more (with a grade of 60% or more in Maths, and English if studied).

IGCSE

Pre-2017 - Successful completion of 5 modules with grades of CCCC (to normally include Maths and English). Post -2017 - Successful completion of 5 modules with grades of 4 or above (to normally include Maths and English

International Baccalaureate

Successful completion with a total of 34 points or more with a grade of 5 or more in both Maths and English. Students must have completed eAssessment. Students entering the IFY via this route may have limited progression outcomes.

A Level

One E or above Grade from a UK A-Level board.

Suhail Al Bortmany
MFA student
Business stream,
International Foundation Year
Muscat, Oman

"At Muscat Foundation Academy, I am able to complete my foundation year in Muscat and get a guaranteed pathway to progress at a leading university abroad that is within the NCUK partner universities. The IFY programme has been very beneficial as it has helped me to develop important university-related skills, such as communication skills, academic writing, critical thinking and more. At MFA I receive full university application support, visa guidance, accommodation and important information about studying abroad."

I would recommend MFA as an excellent choice for students who have recently completed Grade 12 or IGSCCE's and wish to study abroad. You can study at a leading university and choose from over 3000 courses. It is a cost-effective program comparing to studying your foundation year abroad and It is also a good opportunity for students who haven't decided yet where and which course they want to study. I encourage students to attend this course before going to study abroad because it offers you a chance to prepare to be independent and build your academic skills in Oman before studying abroad."

Why Choosing MFA is a clever move

Worldwide recognition
NCUK is a consortium of world-wide recognised universities

Guaranteed access
Successfully complete the IFY and gain guaranteed access to an NCUK University

Stay career ready
Achieve professional success through an international network

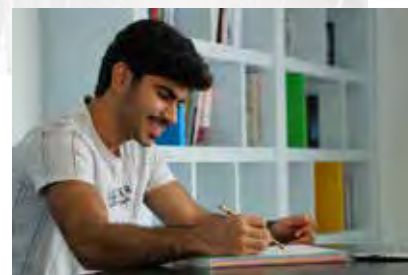

Fast-track
Fast-track your way to university and get a place in just 9 months

Study Abroad
Complete your degree from study destinations around the world

Support Services & Benefits

- ✓ Get full University application support
- ✓ Guaranteed access to university*
- ✓ Thousands of degree courses to choose from
- ✓ Progress to some of the best universities in the world, including eight Russell Group universities & seven QS World Top 100 Universities.
- ✓ High quality qualification designed by universities exclusively for international students.
- ✓ Fast track to university (9-month qualification) – accelerated IFY also available (6-7 months) Improve your English language to university standard

Welcome to OXFORD INTERNATIONAL STUDY CENTRE

*Inspiring Education in the heart of the
University City of Oxford*

- Oxford International Study Centre (OISC) is situated in the very heart of the University city, between the City Hall and Christ Church, Oxford's most famous college. The Study Centre occupies a beautiful and prestigious building which is over four hundred years old, and retains its beamed ceilings and many other original features.
- It is surrounded by the Colleges of the University, and the City has a history of over 1000 years. There are many art galleries and museums, and Oxford is a very musical city, from classical to jazz music. It is in many ways also a young city...there are two universities and a large student population, who enjoy its many cafes, sports and clubs.
- We aim, above all, to support all students in achieving their personal educational goals, through learning in a safe, welcoming, and encouraging environment. Each student has a different personality and learning style, and we pride ourselves on our flexibility, including in the programmes tutorials, seminars and guest lectures.
- Our connections with the University are strong. The Principal and the International Director both studied here, and our students may become members of the Oxford Union and Debating Society, using its libraries and facilities. Many of our summer courses are held in the University, often with guest lecturers from the University.

OUR PROGRAMMES

A-Level (Advanced Level General Certificate of Education)

We offer full-time exam preparation courses for A-Level with a choice of over 30 subjects, including all Sciences, Maths, Business subjects, Arts and Humanities, Social Sciences, Psychology, and Languages.

Students usually take three or four subjects, often related to their future degree course, eg Physics, Maths and Further Maths for Engineering. We are always happy to advise students before they make their final choice.

The academic year is divided into three terms of 12 weeks, with exams taken in June or July. We are able to offer fast-track A-Level study in some cases, with exams taken after one year's tuition rather than the standard two.

University Foundation Course

Some students prefer to take this programme as an alternative to A-Levels. The OISC Foundation programme is recognised by over 20 UK Universities, including Oxford Brookes, which enables students who complete the programme successfully to enter one of these Universities for their degree.

The OISC Foundation programme consists of three elements:

- Chosen academic specialism eg for Business, or for Engineering
- IELTS (Academic English examination for UK Universities)
- Study Skills: researching information, time management, essay writing and presentation skills. These are all essential skills for studying at University.

IELTS

All students taking either A-Levels or Foundation programmes will also take the IELTS exam. This is an Academic English Language exam, needed for entry to UK universities. It consists of Reading, Writing, Listening and Speaking...the four essential skills of all languages.

These courses are intensively focused on the objectives of the exam, rather than more general language learning. We have a %100 pass rate for students taking IELTS preparation courses with us. We usually advise that, with hard work, students can expect to improve their score by between 0.5 and 1.0 IELTS points during each six-month period of study.

"From an academic point of view, my English lessons helped to improve my IELTS score, which will be my passport to university, and my A-Level study helped me get a place at the university of my choice. My future definitely looks much brighter now." Cynthia, Angola

Students applying to Oxford or Cambridge During the summer and in the Autumn we assist a number of students in applying to Oxford or Cambridge University. These institutions are unique in holding interviews and specialised entrance tests in November and December. Tuition is at an advanced level, and is individual or in very small groups of two or three students. All tutors involved have a great deal of experience in assisting students in applying to these institutions. In many subjects there are also written tests for example in Law or PPE (Politics, Philosophy and Economics) or Engineering.

Our Summer Programmes

Summer is the most vibrant period of the year at OISC. All our programmes run throughout the year, but during the main summer period (late June to early September) we welcome large numbers of students taking specialised summer courses.

These include:

- Pre-sessional programmes for those about to start A-Levels, Foundation, or University undergraduate courses
- English Language, including IELTS preparation
- Oxford and Cambridge admissions preparation

The focus of these courses is on a combined academic and cultural experience, and so most students take a less intensive programme of lessons, to include our cultural activities and excursions programme. This is a great opportunity for students to meet each other, and to make friends from all over the world.

STUDENT WELFARE AND ACCOMMODATION

The welfare and wellbeing of our students, both emotional and physical, is our primary concern. We aim to support all students in learning in a positive, happy environment in which they feel safe and secure at all times. OISC staff have extensive training in safeguarding and are understanding and empathetic listeners. All students are encouraged to speak with a member of staff, at any time, if they have any concerns, or if they would simply like some advice. We understand that travelling abroad can be a daunting experience and we do everything we can to make sure students are comfortable and able to study without nerves or stress.

The atmosphere at OISC is a welcoming, warm, and friendly one, where all students feel at home. We operate a robust recruitment procedure, in line with Oxford City Council Safer Recruitment training. All tutors are background checked, referenced, and regularly safeguarding trained. Family members and educational counsellors are encouraged to contact us at any time to discuss our welfare arrangements, or simply for a chat about how their student is getting on. We are always very happy to help!

“Relationships between staff and students are excellent... Students express high levels of satisfaction at the level of effective attention given to their needs and concerns. They feel valued and very well looked after. They appreciate the caring ethos of the college and feel comfortable in approaching all members of staff.” - Independent Schools’ Inspectorate report, 2016

PASTORAL CARE AND UNIVERSITY SUPPORT

All full-time students at OISC are allocated a personal tutor, with whom they usually meet fortnightly. Additional meetings can of course be arranged in times of need. Personal tutors are responsible for students’ welfare throughout their time at OISC, though of course all administrative staff can be consulted by students regarding personal or academic matters at any time. All contact with both personal tutors and other staff is entirely confidential. Personal tutors and academic staff will also assist students with university preparation and the application process where relevant. Progress reports are issued monthly and discussed with each student at these meetings.

ACCOMMODATION

We offer a range of accommodation options to meet each student’s preferences and budget. Whilst students who are over 18 are very welcome to organise their own accommodation in Oxford, we encourage all students to take up one of the options we offer, to avoid stress, and to ensure a safe living environment. Our Accommodation and Welfare Officer checks all accommodation regularly, and is in constant contact with residence staff, and host families. We liaise closely with parents and counsellors to make sure that we offer the most suitable style of accommodation for each student. All accommodation options include breakfast and an evening meal, with students usually buying their own lunch in the town centre during their break. Accommodation is in single rooms, though students coming to Oxford with friends or family can request to share a twin room if they wish, subject to availability. WiFi is available, free of charge, at all accommodation. We are very happy to offer advice on local hotels, guest houses, or short-let apartments for friends and family who visit students whilst in Oxford. The two main choices of accommodation are the Residence, with private bathrooms, and host families. “The Residence was perfect. The food was delicious, I was close to the School, and I was able to live with my friends. Everything was clean and the bed was comfortable. I will definitely stay there again next term”. Maho, Japan.

OISC FEES

Tuition:		
A Level	36 weeks	6600£ per term = 19800£ per year (up to three subjects)
Foundation course	32 weeks	£ 13,000 per year

Oxford International Study Centre,
7-6 St Aldates , Oxford OX1 1BS

OISC is a well-established college in the centre of Oxford. We have a Grade One inspection report (‘exceeds expectations’) from the Independent Schools’ Inspectorate, as well as Sponsor Status from UK Visas and Immigration (licence no. CEUN 82AB6).

As well as these important UK recognitions, OISC is extremely well connected in education worldwide. As Accredited Members of the Council of British International Schools (COBIS), and members of the European Council for International Schools, Swiss Group of International Schools, European Association for International Education, and the American organisation NAFSA, we work with colleagues internationally to ensure our courses are well-suited to students from all over the world.

“The college exceeds expectations for the quality of education. At the time of the inspection, all Standards for Educational Oversight were met and quality is excellent.” Independent Schools Inspectorate report.
